LOCAL BREVITIES.

On Friday evening next the Democrats of the Eleventh ward will hold a meeting in the old ward school house.

MR. S. P. TEASDEL, of the Eagle House, returned last evening from an extensive business trip to the East, where he has been making extensive purchases.

MARRIAGE licenses were granted today to John Kay, aged 40, and Amelia Davis, aged 24, both of Salt Lake; to Joseph R. Batchelor, aged 20, and Annie Stokes, aged 21, both of Salt Lake; to Mike Estelon, aged 21, of Virginia, and Wenilla S. Wiskman, aged 17, of Eureka.

ONE of the members of Evan Stephens' juvenile singing class lost her watch—a small silver one with gold rim chain attached—while on her way to the Tabernacle on Sunday last. The finder will confer a special favor upon the young lady by returning it to the News office for her.

GOVERNOR THOMAS received a proclamation today from Secretary J. M. Rusk of the United States department of agriculture in which that official announced the abolition of the quarantine laws in the United States in relation to the disease among cattle known as contagious pleuro-pneumonia.

TODAY MRS. HANNAH SONDERS, of the Tenth Ward, returned from a trip to England, on which she left Salt Lake on the 11th of last May. She visited London, Brighton, Derby and other portions of the country, which she visited in 1857. Her friends and relatives, she was fairly successful in gathering genealogical data, which was the chief incentive to her undertaking the journey.

Medical Examiners.

Governor Thomas today appointed the new Territorial board of medical examiners in accordance with an act passed by the last Territorial Legislature. The board consists of Doctors Allen Fowler, J. M. Dart, F. S. Bascom and Joseph S. Richards of Salt Lake, and Samuel L. Brick and William Graves of Ogden.

Pines for Freedom.

Governor Thomas received today an application for pardon from Edward D. Kelly, who is now serving a three years' term in the Utah penitentiary for grand larceny.

Accompanying the convict's petition is a letter from Warden Parsons setting forth the good conduct of the prisoner during the time he has been in his charge.

From Indian Territory.

Elder P. H. Peters, of Three Mile Creek, Box Elder County, returned today from Indian Territory, where he has been laboring as a missionary. He has been absent about ten months. His return thus early was necessary in consequence of failing health, he having been affected for some time with malarial fever. He is still quite ill and greatly reduced. We hope he will soon recuperate in the purer and more bracing air of his native home. His sickness was so serious that he was confined to bed sometime before starting for Utah. He reports the mission in good condition, and the Elders all well except one—Elder H. H. Allen—who is affected with chills and fever. There has been a great deal of sickness in Indian Territory during the past season, owing to the heavy rains, which left pools of water. These stagnant pools have filled the air with disease-breeding malaria.

Woman and Her Watch.

For the person who breaks a side seat or pocket for women's watches be large fortunes and the gratitude of thousands are waiting.

Women are beginning to grow tired of having their slender chains jerked in a crowd and falling throughout watchless. They don't enjoy even having watch fob for the numerous whistles that adorn the front of their bodies, but which has slipped in and is finally discovered, two inches above their waistbands and lost on one side. The pretty bows are continually being lost, as they slip down under bustles and bolts and drop onto the ground.

There are a few precautions which might be taken. In the first place one of these dainty watch pockets high on the left side of a bodice made bulging in the very worst possible place in which to carry a watch. There is absolutely nothing to induce a man from jerking it out by the chain. It is even less safe than the ordinary fashion of thrusting it inside the waist and trusting to a button or to a hook.

Men who are popularly supposed to have much more strength wherewith to defend themselves against sudden attacks of this sort do not give half the temptation. Their chains are firmly caught in their buttonholes, in a double little bar or swivel, which holds safe against jerking, and their watches are in a distant and secure pocket.—Cincinnati Commercial Gazette.

Bloomington, Ills., has had for eighteen years a woman superintendent of schools. Miss S. E. Raymond. During her regime the school facilities have been greatly enlarged.
