THE EVENING NEWS.

GEORGE Q. CANNON,
EDITOR AND PUBLISHER.

Thursday, - - - October, 21, 1869.

[SPECIAL TO THE DESERET NEWS.]

By Telegraph.

GENERAL.

New York—The *Herald's* Washington dispatch says that President Grant, yesterday, denied having held any correspondence with Rothschild, and he did not remember having ever held any conversation with that gentleman on any subject; but, notwithstanding the President's statement, it is a fact that Mr. Friquet was here and that he mingled with many prominent Government officers, and that he was accompanied by Count Fouche Decaville, a member of the French House of Deputies, and that he left on Saturday for France, which is mysterious; and while it may be true that no correspondence has taken place between the President and Friquet, there is the best of reasons for believing there was some proposition of the kind alluded to by the Government, though the exact nature of it cannot now be obtained.

Cincinnati.—At the close of Change to-day, Gen. Hiram Walbridge being present, on his way home from the Louisville Convention, he, by special request, addressed the Chamber and gave an interesting account of the proceedings of the Convention, stating that it was national in character, embracing delegates from every State in the Union. The most prominent sentiments in the Convention were that the public debt should be paid as stipulated when it was contracted.

Nashville.—A vote was taken in the Legislature to-day for U. S. Senator, resulting in the Senate: Johnson 11, Etheridge 8, Payton 3. House: Johnson 32, Etheridge 21, Fletcher 12, the rest scattering. It is believed that Johnson cannot poll over 47 votes, and that he will be eventually defeated.

Wilmington.—The U. S. Marshal boarded the *Cuba* and demanded the surrender of the ship into his hands. The commander, Higgins, declined to accede to the demand of an officer of the United States Navy, under direct orders from the President. After some delay Lieut. Commander Pierson, of the gunboat *Frolic*, went aboard the *Cuba* and demanded the surrender of the vessel, showing an order direct from the President for the *Cuba* to be turned over to him. Commander Higgins then surrendered his sword and the vessel to Commander Pierson, himself being made prisoner of war to the U.S. The Cuban flag was hauled down and the entire crew sent ashore. The affair, in some of its aspects, is regarded as an outrage, especially the turning loose in the city, a hundred sailors and marines, beyond restraint or control of their officers. In anticipation of trouble a large special police force was placed on duty to-night.

Boston.—The pastors of the Evangelical Church at Boston and vicinity have held a meeting and appointed a committee to confer with Father Hyacinthe, and to make suitable arrangements to extend to him a public reception, if deemed advisable.

The Congressional Committee on Navigation visited the ship-yards of Boston and vicinity to-day.

Hon. Moses McDonald, ex-Member of Congress for the 1st Maine district and ex-Collector at Portland, died suddenly here to-day.

Washington.—A gentleman, who arrived last night direct from Wilmington, says that the United States collector of that port and the prosecuting attorney have no doubt that the *Hornet* will be condemned. The steamer *Frolic*, which was sent from New York, was under orders to prevent the cruising of the *Hornet* at all hazards, even to sinking her. The *Frolic* is still at Wilmington and will remain there to render any assistance necessary until the case is decided.

Louisville.—W. Coleman, conductor of the Lebanon Branch Railroad, was instantly killed by falling between the cars.

Washington.—The Supreme Court to-day delivered an opinion in the case of Wicker vs. the United States in an action for cotton and other property, captured at Alexandria, La., in the spring of '64. The claimant was a trader beyond the lines under a permit from the Treasury agent; the Court held that the permit from the Treasury agent, authorizing him to trade with the enemy beyond the lines, was without authority.

Columbus, O.—All the returns have been received at the Republican headquarters in this city; a few are not official. The result will vary but a few votes. Governor Hayes, 41,899; Pendleton 33,842; Hayes' majority, 8078. The Legislative stands—Senate, 1; House, 1 majority.

New York.—The strike of the machinists on the Erie Railroad at Jersey City continues; several, however, have gone to work, but the majority hold out. A dispatch from the Susquehanna workshops, states that the men have all gone to work.

The retiring officers of the gold board, this morning, made farewell speeches in which the press was seriously handled.

Oil City, Pa., 19.—Dr. La Bugh, a resident of Venango City, was this morning found dead at the approach to the main bridge, on the Oil City side; it is supposed that he fell off the walk, which is some six feet above, and, striking his head against a stone, was killed. He leaves a family.

Louisville.—Extensive preparations have been made for the reunion of the army of Tennessee, Louisville, November 17th and 18th. It is necessary for every one who intends to be there to present his application for tickets, accompanied by his name and rank, to the committee of arrangements.

Cleveland—The procession of the Grand Commandery of Masons in this city, to-day, was the most imposing ever witnessed in this State; there were 1,500 in the line of march, comprising also the Commandery of Erie, Pennsylvania, Detroit, and Michigan. The city is crowded with Masons from all parts of the State.

Philadelphia, 21.—Mayor Fox has commenced dismissing police officers; nineteen were dismissed to-day.

The trial of Morron and Dougherty, charged with the attempted assassination of Brooks, commenced to-day before Judge Ludlow.

New York.—The Lincoln monument, erected under the direction of the war fund, was unveiled this afternoon, in Prospect Park.

Five of the Spanish gunboats left Mystic, Conn., for New York, yesterday, under the convoy of a revenue cutter; five more will be brought next week.

Father Hyacinthe remains very quiet; he passes much time in quiet, meditation and study.

Philadelphia.—In the Brooks trial several witnesses have identified Morron and Dougherty as having been about Keenare's store just before the shooting and on the previous day. Two important witnesses for the prosecution, who were in the court this morning, have mysteriously disappeared and this afternoon cannot be found; it is feared they have been made away with.

Washington.—The Internal Revenue receipts this month have not been as large as for the corresponding time last month; it is thought by the Treasury officials that the total at the end of the month will show a decrease from both sources. The expenditures this month, however, have not been heavy. The public debt statement, of Nov. 1st, will show a considerable decrease in the total.

Nashville.—Four votess for Senator, taken to-day, show Johnson 48, Etheridge 31, scattering 24.

N. D. Morgan, President of the North American Life Insurance Company, has sued Messrs. Sutton, Browne & Co., publishers of the *Aldine Press*, for libel; he lays the damages at fifty thousand. The articles to which exceptions are taken appears in the October number of the *Aldine*, and criticises the peculiar plan of registered life policies adopted by Morgan & Co.

St. Louis.—The Capital Convention has adopted a preamble, reciting the facts existing at the time of the location of the seat of Government at Washington, and the change which has occurred since, and resolved that it was absurd to suppose that the handful of inhabitants of 1789 possessed or desired the Executive authority to fix the site of the National Capital forever on the banks of the Potomac, and that the people have endured the ill-located Capital for three-quarters of a century, patiently waiting the vast territory of the Union to be peopled and organized into States, and until the centre, population and wealth of the country should be determined, when a permanent location for the seat of Government could be selected. That time has come, and now all sectional issues are settled and all dangerous and domestic variances are disposed of. The resolutions declare the proper place for the seat of empire of the continent to be the Mississippi Valley, and recite its advantages at some length. The resolutions conclude as follows:

Resolved, that while advocating the removal of the seat of government to the Mississippi Valley, we do not mean to serve the interest of any particular locality, but urge Congress to appoint a committee for the purpose of selecting a convenient site for the National Capital in the great Valley of the Mississippi.

Resolved, that in urging the removal of the Capital from the present inconvenient out-of-the-way and exposed location on the extreme borders of the Union, we are in earnest, and shall not cease our efforts until that end is accomplished, firmly believing that the absolute necessity for its removal will become more apparent every day, and that the majority of the American people will not long permit their interests and conveniences to be disregarded.

Resolved, that removal, being only a question of time, we emphatically oppose and condemn all expenditures of money to enlarge the old Government buildings and the erection of new ones at the present seat of Government as a useless and wanton waste of the property of the people.

St. Louis.—At the evening session of the Convention the executive committee of one from each State represented in the Convention, announced that their duties will be to keep up agitation on the subject of the removal of the Capital, and put measures in operation to secure this result. They will prepare an address on the subject to the people of the United States.

The Convention adjourned, to meet at the Southern Hotel to-morrow morning.

Chicago.—An Iowa special says the board of Supervisors, of Henry County, eighteen in number, have been arrested and committed to jail on an order issued by Judge Springer, of the District Court, in that County, for contempt in not obeying a writ of *mandamus*, ordering them to levy taxes for the payment of certain railroad bonds. Judge Love has issued a writ of *Habeas Corpus* for their relief, to be served by U. S. Marshall Clark; the same Judge has also issued a writ of *Habeas Corpus* for the relief of the Washington County board, who are now under arrest. The State Court has also issued writs for the arrest of the Supervisors of Louisa and Iona counties, for not obeying a writ of *mandamus*, issued from his court in May last.

Additional returns swell the Republican majority to 83,636; the counties yet to hear from will increase it to 36,000.

The *Herald* states that there are rumors in Washington that senatorial opposition is decided upon to the confirmation of Robeson, as Secretary of the Navy. It is asserted that Pennsylvania desires that place in the Cabinet, but New Jersey does not sanction it.

Drake, of Missouri, who aspires to the Chairmanship of the Committee on Naval Affairs, is personally opposed to Porter, and, as a consequence, to Robeson.

Mayor Hall replies to Horace Greely's recent denunciation, by offering to prove him a monomaniac, before a commission of lunacy, and challenging him to a discussion on the stump in the rural portion of the State.

St. Louis.—The Capital Convention has been engaged all the morning in discussing a series of resolutions reported from the committee.

FOREIGN.

Montreal.—The greatest Catholic procession ever witnessed in Montreal occurred yesterday, the occasion being the translation of the relics of St. Lerio from Bonzecours Church to the Bishop's palace; over thirty thousand people joined the procession.

Madrid.—The government regards the Republican insurrection at an end, although precautions to guard against any new outbreaks are continued. A conspiracy, having for its object the surrender of the barracks at San Mateo to the insurgents, have been discovered and thwarted by the government; the captain of the garrison, who was said to be the leader of the conspiracy, was arrested.

Paris.—The strike of the merchants' clerks still continues.

The shareholders of the French Cable Company have forbidden the projected distribution of 5000 shares to the founders of the enterprise; they have asked to examine the expenses generally of the company.

Toronto.—The gunboat *Prince Alfred* is stationed at Goodrich, and has been placed in readiness for active service. Orders have been received directing the Toronto field-battery to proceed immediately to Goodrich to man the *Prince Alfred*. It is reported that the Fenians have charted and equipped a gunboat, intending to do mischief to the towns on the upper lakes, hence this movement of the Canadian authorities.

New York—Mail advices from Rio to Sept. 20, say that Lopez is known to have secured another strong position in the mountains, and the end of the war is as far off as ever. The allied provisional government at Ascunsion is a great expense, and it is estimated that Brazil will expend four times her annual revenue.

Some exitement was created at Buenos Ayres by President Sarmiento's veto of the intervention bill, a veto being comparatively unknown in politics in that country.

London.—Gladstone has written a letter to the President of the Limerick Amnesty Association on the subject of the Fenian amnesty, and on the course of the Government towards the imprisoned Fenians. He says the members of the government have carefully considered the many memorials for the release of political prisoners, which have been presented from time to time, and have unanimously decided that such a release would be contrary to their duty as guardians of the public security.

Madrid.—The sessions of the Cortes have been resumed. Resolutions, thanking the army for its efforts in quelling the recent Republican insurrection, were unanimously adopted yesterday.

THEATRE.—To-morrow evening there will be a performance at the Theatre, a fine sensational bill being provided for the occasion. The play will be "Under the Gaslight," a piece which has been received with more favor than any of the same class ever presented here. Its incidents are so varied by the grotesque and the pathetic that it is always received with favor.

"Peachblossom" with her comicalities is a great charcter; "Byke" and "Old Judas," too, are immense. Then there is the famous pugilistic encounter between "Peanuts" and "Bermudas," which, in the hands of such artists as Graham and Mattinson, is alone worth the admission fee; and last and best of all, the very exciting railroad scene, in which "Snorkey" is barely rescued from death by "Laura Courtland."

On this occasion Mr. Lindsay will personate "Snorkey;" Mr. Margetts "Byke," Mr. Graham "Bermudas," Mr. John Mattinson "Peanuts," Mr. Harris a colored citizen, who discourses so eloquently about spoons. Miss Lockhart appears as "Laura Courtland" and Mrs. De Bar as "Old Judas," a combination which cannot fail to make the piece a great success.

"SINGULAR CIRCUMSTANCE."—Under this heading the Gold Hill *News*, of last Tuesday, says:

"Samuel Hunt, of Gold Hill, accidentally got a piece of glass into the sole of his right foot, by stepping upon it, in 1854, while a resident of the Eastern States. The wound soon healed, however, and he never experienced any trouble from it, notwithstanding that he has been working as a miner in this State for years, until a few days since, when a sore, hard swelling appeared on the top of his foot. Last Saturday he went to Dr. Hall, who, on examination, opened the swelling and extracted a piece of glass half an inch long and an eighth of an inch thick. The foot is all right now; but how a piece of glass of that size could have been fifteen years working up between the bones of that miner's foot without causing soreness, or even lockjaw, it is difficult to conceive."

DIED.—In this city, Oct. 21st, 1869, Jane Miriam, the beloved wife of Edward Hanham, aged forty-nine years.

The funeral will take place to-morrow at 2 o'clock p. m. at the first house north of Bro. Findlay's, 17th Ward bench. Friends are kindly invited to attend.

Mill. Star, please copy.

DIED.—In this city, this morning, of heart disease and consumption, aged thirty-three years, Margaret, wife of E. Harrison, Esq., editor of the *Utah Magazine*. Mrs. Harrison was confined of a son, on Wednesday evening of Wednesday last, her child dying a few hours after its birth. We extend our heart-felt sympathy to our fellow-townsman in his severe loss and affliction.

The funeral obsequies took place this afternoon.

DIED.—In this city on the 21st inst., Elizabeth May, aged seven months—daughter of Charles M. and Elizabeth Treseder.

TARRANT'S SELTZER APERIENT.
Worse than a Bed of Thorns are the miseries of indigestion. To escape them, men have committed suicide. Yet they are banished summarily, and the vigor of the stomach permanently restored by the occasional use of TARRANT'S EFFERVESCENT SELTZER APERIENT. Its effect upon the digestive, secretive and excretive organs is most salutary. It removes and regulates them, and is not only salubrious but agreeable and refreshing.
SOLD BY ALL DRUGGISTS.
d192-6m
