CONSTRUCTION OF PANAMA CANAL.

Secy. Taft Says Point Reached Where it is Necessary to Adopt Definite Plan.

PANAMA RAILROAD BUSINESS.

Earnings and Running Expenses Have Both Materially Increased.

New York, April 2.—The annual meetings of the stockholders and directors of the Panama Railroad company were held today in this city. Secy. Taft was present at both meetings. At the stockholders' meeting the following directors were elected: T. P. Shonts, Charles E. Magoon, Mordecai T. Endicott, Peter Chains, J. D. Deobaldia, John F. Stevens, Roger L. Farnham, E. A. Drake, Clarence R. Edwards, William Nelson Cromwell, Oswald H. Ernst, B. M. Harrod and W. Leon Pepperman.

W. Leon Pepperman, the only new member elected to the board, succeeds William Barclay Parsons, who retired some time ago. Mr. Pepperman is the assistant chief of the office of the Isthmian canal affairs.

T. P. Shonts was re-elected president and John F. Stevens was elected vice-president and general manager. The report for the ten months of the year 1905, up to October 31, was submitted, showing that the total earnings of the road for the transportation of all kinds of traffic exceed by $302,304, or 19.77 per cent, those of ten months of the previous year.

The financial summary follows.

Total earnings for the ten months' period of 1905, $1,812,522, as compared with $1,510,340 during the previous year. The total railroad expenses for the ten months of 1905, were $1,213,610, as compared with $813,347 during the previous year; net earnings during 1905, $698,942, as compared with $797,001. The net earnings of the steamship line were $58,730, as compared with $103,517 during the previous year.

The grand total earnings of all branches of the company was $3,077,611, as compared with $2,541,099 for the same period of 1904. The grad total expenses was $2,319,938, as compared with $1,640,579 for the previous period. Total net earning, $757,672, as compared with $900,519 for the year previous.

Secy. Taft after meeting said:

"The report of the Panama railroad for the year past shows that it has made great progress. Its earnings have greatly increased, and, in fact, that road is quite unable to cope with the business which is being rushed over the line. The road is being double-tracked for a distance of about 35 miles. This will greatly facilitate the operations of the company.

"We have got to a point now when it is very necessary that some plan be adopted for the construction of the canal. When some definite plan of construction is adopted, then the work can go ahead with new vigor. We all hope that some plan will be passed upon very soon by the government."

TAFT TALKS OF CANAL.

New York, April 3.—Before leaving for Tuskegee, Ala., last night, Secy. Taft, who came over from Washington yesterday to attend the annual meeting of the Panama railroad company, talked at some length of canal prospects on the isthmus. "As far as I can learn," he said, "everything is progressing there in a highly satisfactory condition. I've no doubt Chief Engineer Stevens has his troubles. These are bound to come, but affairs are in much better shape now than ever before.

"The only disquieting news I have heard is that there has been a break in one of our new reservoirs at Colon. I don't know how serious it is for I have not received an answer to a message I sent Stevens for particulars. I am in hopes, though, that it can be repaired for the problem of providing an adequate water supply has presented a great many difficulties. The dry season there is absolutely dry. Not a drop of water falls, and it is absolutely essential that an adequate supply be stored against this season, if healthful conditions are to be maintained. How the people managed to survive at all on the isthmus without water storage is one of the wonders that has impressed me most about the isthmus.

"Mr. Stevens and most of his associates have taken up their residence in Culebra, where the conditions are better than at Panama."

VIOLENT SCENES WITNESSED AT LENS.

Lens, France, April 2.—Renewed strike disorders have occurred in the mining region. The strikers at Ganger today destroyed a house with dynamite. There were no casualties. At Fouquieres and Hames the strikers erected barricades, which were charged by cavalry. One striker was wounded.

Four thousand strikers marched in the procession today at Bruay, department of the Nord. Troops and miners who had refused to strike barricaded the roads and drove back the strikers.

There are now about 41,000 men on strike. The salvage work has not resulted in finding any other survivors of the disaster of March 10.

There were violent scenes today at the reopening of the Courrieres coal mine pit No. 4, which had been hermetically closed since March 15, and which is supposed to contain 480 corpses of victims of the explosion of fire damp.

A report had spread that there were several of the entombed miners still alive. Thousands of people gathered at the pit mouth and threatened the descending engineers with death should they fail to rescue the survivors.

Women broke through the line of soldiers and crowded to the mouth of the pit, declaring that they would search the mine themselves. The disorder forced the engineers to retire for the time being, but later gendarmes restored order and the rescue corps descended. They discovered none living. Women remained about the pit throughout the night.

Hair Falling, Turning Gray or Faded, Restored by Hay's

TERRIBLE ECZEMA ON LITTLE BOY

Mouth and Eyes Covered With Crusts—Face Itched Most Fearfully—Hands Pinned Down to Prevent Scratching

MIRACULOUS CURE BY CUTICURA REMEDIES

"When my little boy was six months old, he had eczema. The sores extended so quickly over the whole body that we at once called in the doctor. We then went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had regular holes in his cheeks, large enough to put a finger into. The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and whenever he opened the mouth they began to bleed and suppurate, as did also his eyes. Hands, arms, chest, and back, in short the whole body, was covered over and over. We had no rest by day or night. Whenever he was laid in his bed, we had to pin his hands down; otherwise he would scratch his face, and make an open sore. I think his face must have itched most fearfully.

ALFONSO HOHRATH.

"We finally thought nothing could help, and I had made up my mind to send my wife with the child to Europe, hoping that the sea air might cure him, otherwise he was to be put under good medical care there. But, Lord be blessed, matters came differently, and we soon saw a miracle. A friend of ours spoke about Cuticura. We made a trial with Cuticura Soap, Ointment, and Resolvent, and within ten days or two weeks we noticed a decided improvement. Just as quickly as the sickness had appeared it also began to disappear, and within ten weeks the child was absolutely well, and his skin was smooth and white as never before." F. Hohrath, President of the C. L. Hohrath Company, Manufacturers of Silk Ribbons, 4 to 20 Rink Alley, June 5, 1905. South Bethlehem, Pa.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston. Mailed Free, "How to Care for the Skin."

DEMOCRATS WIN A SIGNAL VICTORY IN BUTTE.

Butte, Mont., April 2.—The Democrats won a signal victory here today, electing six aldermen out of the eight precincts. There are bitter contests in several of the wards, and in the First and Second the anti-trusters succeeded in landing their candidates. The successful candidates were

First ward, Dennis Sullivan, (anti-trust); second ward, Alan O'Donnell, (anti-trust); Third ward, Alexander McMahon, (Democrat); Fourth ward, A. B. Cohen, (Democrat); Fifth ward, John Murphy, (Democrat); Sixth ward, Jerry Mullins, (Democrat); Seventh ward, John J. O'Connors, (Democrat); Eighth ward, James Doull, (Democrat).

NEW NEW YORK INS. LAW.

Albany, N. Y., April 2.—The first of the 10 bills proposed by the special investigating committee as the result of its investigation of life insurance conditions is now a law. Gov. Higgins this afternoon affixed his signature to the bill which postponed until Nov. 15 the annual elections of the New York Life, Mutual Life of New York, Mutual Reserve of New York and Security Mutual of Binghampton—the four purely mutual life insurance companies incorporated under the laws of this state. It does not affect the Equitable Life Assurance society, which is a stock company. In signing the bill the governor issued a memorandum sharply criticizing the directors whom he thus legislated from office.

One of the most important effects of the act is that it invalidates every proxy hitherto secured, whether by the companies themselves, by Thomas W. Lawson of Boston or any one else.

GUILTY OF TAKING REBATES.

Philadelphia, April 2.—Walter Wood and Stuart Wood, members of the firm of R. D. Wood & Co., iron manufacturers of this city, were found guilty in the United States court here today of accepting a rebate on a shipment to Winnipeg. The rebate, it was alleged, was given by the Mutual Transit company of Buffalo and the Great Northern railway, the amount being $1,230. The Great Northern railway and the Mutual Transit company are under indictment charged with giving the rebate.

The prosecution was brought under the Elkins anti-rebate rate.

During the trial the Wood firm stated that they shipped the iron to Winnipeg merely as agent for the Camden, N. J., and Florence Iron companies, and they received no benefit from the rebate alleged to have been given.

MRS. LE DOUX INDICTED.

Stockton, Cal., April 2.—The grand jury today indicted Mrs. Le Doux for murder, charging her with the death of A. N. McVicar in this city on the 24th of March. Twenty-one witnesses were examined before the jury and the matter was rushed through, the indictment being returned after office hours in the courthouse.

WANT TO RETIRE TYREE.

San Francisco, April 2.—A meeting of the California directors of the Continental Life Insurance and Investment company was scheduled for today, but only five members attended, the number being two short of a quorum.

The avowed purpose of the meeting was to retire President Tyree from office. It was reported today that an attempt will be made to call a special meeting of the stockholders, at which impeachment proceedings will be commenced against President Tyree.

NATAL AFFAIR AROUSES INDIGNATION IN ENGLAND.

London, April 3.—The Natal affair is probably the subject of stronger party recriminations than any question that has come to the surface in recent years. Newspaper attacks continue on both sides, Conservative organs flinging charges of "Little Englishism" against the government, and Liberal papers, on the other hand, attributing the whole trouble to machinations of the Chamberlain party desiring to discredit the government in the eyes of the country.

Liberal papers, although they admit that the government did the best possible in the circumstances, are not yet satisfied that absolute justice has been done, and point out that the governor of Natal himself wished a civil trial for the unfortunate natives.

The Tribune this morning does not hesitate to declare editorially that the British people, including, in the calmer mood induced after reflecting, the people of Natal, will look back on this wholesale execution as one of the ugly incidents of British history which national pride buries out of sight and does not teach in its history books for the young.

In the house of commons this afternoon one ministerialist amid cheers and some protests, described the executions as bloodthirsty murder, and James Ramsey MacDonald, secretary to the Labor representatives committee promptly moved an adjournment of the house to discuss the manner in which martial law was being applied in Natal and "to the imminent and great danger to which the native subjects of the crown are involved in its administration."

FOLK TALKS TO IOWANS ON GOOD GOVERNMENT.

Des Moines, Ia., April 2.—Gov. Folk of Missouri was the chief speaker at the Jefferson banquet tonight under the auspices of the Iowa Democratic club. Democrats of prominence from all parts of the state attended, and the gathering was one of the most notable ever held in the state under the auspices of this party.

The banquet was preceded by an informal meeting of the members of the Democratic state central committee but it was decided to take no action until after the Republican state convention.

Gov. Folk, responding to the subject, "Good Environment," spoke in part as follows:

"We are in the midst of one of the most democratic periods of American history, the period in which the people's rights are to be defined and observed as they never have been before. There are some who see danger to our institutions in the agitations resulting from the exposures in official and business life. I do not share this view. To my mind, the hope for the perpetuity of this government by the people was never brighter than now. The fact that this awakening has come at a time of unusual prosperity shows that it does not proceed from a spirit of discontent, but springs from the moral sense of the people. It is simply a determination to stamp out the things that dishonor in public life and the things that oppress in private life—a firm resolve that the government shall be representative of the good, not of the bad.

"The energies of this public conscience have been extended from the domain of the public wrongdoer to that of the private wrongdoer, and probing into the carryings-on of grafters of every kind. It is not insurance companies the people complain of, but abuses of trust on the part of some of those running the insurance companies; the people understand these things and know that while some insurance people and some bankers are crooked, just as some officials are crooked, it does not follow that all insurance men or all bankers and officials are without honor. The people are discriminating between the good and the bad. This movement against graft is not a crusade against wealth, but against the abuses whereby some obtain great wealth.

"It is a demand for common honesty in public life and private business. No man that is doing an honest business need fear from the arousings of the conscience of the people against wrongs. The distinguishing characteristic of this crusade for higher ideals is the conservatism of the people. They do not oppose riches honestly acquired, but they do object to special privileges out of which tainted riches grow. The agitation against ill-gotten gains does not mean a rabid socialism or the destruction of the vested rights of anyone. The cry is not for socialism or anarchy but that the corporation magnate respect the law that governs the conduct of the corporation as he asks others to respect the law that protects the property of the corporation. This government does not rest either upon the idle rich or the idle poor, but upon the energy and patriotism of the middle classes. This is the class that suffers under the reign of the special privilege.

"The elimination of special privileges is the great question before the people of this country—the railroad rebate special privilege, the tariff so arranged as to give special privilege founded on graft. There is room in this country for only two great political parties. Our form of government makes one the party of equal rights. No grander mission can be in store for the Democratic party than to continue the fight for the rule of the people against graft. Clothed in the armor of a righteous cause, the attack of Democracy upon the citadel of graft and monopoly, if aggressive enough, must triumph in the end, for the principles of true Democracy are 'enduring because they are just and invincible, because they are right.'"

PRESIDENT PALMA ON ISLE OF PINES TREATY.

Havana, April 2.—The new congress met this afternoon and for the first time in many months a quorum was present. President Palma's message says with reference to the Isle of Pines:

"The treaty of the Isle of Pines, declaring Cuba's sovereignty, is being discussed in the senate of the United States. A majority of the committee reported it favorably, and it would have been approved before this time had not a strong minority opposed it. Nevertheless, we should await the final sanction of that high body, which can only be the one logical result in the right and justice which constantly have been demonstrated to us by the honorable president of the United States, and the just criticism of a large part of the United States senate and above all, the virtue, moral character and noble and just attitude of the American people."

The financial statement in the message showed that the expenses of the government in the second six months of the last fiscal year had increased $10,650,000.

The income during the same period was $16,385,000.

"During 1905 the island's importations reached $94,808,665 against $77,028,214 in 1904, not including money imported, which amounted to $8,249,467, against $5,807,337 in 1904. The largest imports were from Great Britain, were $13,434,60; Spain, $10,356,469. Exports in 1905 amounted to $110,167,484, against $89,012,756 in 1904. Exports to the United States were $95,330,475; to Great Britain, $5,793,350, and to Germany, $3,905,471."

NAT'L ASSOCIATION OF RAILWAY COMMISSIONERS.

Washington, April 2.—The eighteenth annual convention of the National Association of Railway Commissioners was called to order today by President W. G. Smith of South Dakota. About 100 delegates are in attendance. President Smith delivered his annual address.

A large part of the address was devoted to discussing railway rate regulation. Mr. Smith declared that any law passed that does not contain absolute rules for deciding what is a reasonably remunerative rate and does not establish the constitutional right to appeal would fail in its object for good.

"On the other hand," he said, "tariff charges are bound to be adjusted, not only relatively but actually by the constant pressure of commercial and economical principles. Let us strengthen the laws so as to condemn and eradicate all rebates, secret devices, secret rate cutting and all unjust discrimination between shippers and places and provide further means of detection and punishment, not only of the railway rats but of all interested parties.

"Let the public sentiment support President Roosevelt, the man who calls for a 'square deal,' so that every offender against the real import of the interstate commerce law shall be exposed and punished and subject to public condemnation. No matter whom it hits, let him be pilloried as an enemy of the public welfare, as an agent for the lying dogs of this vast commercial republic. Let us insist upon fair dealings to all, to the shipper and the carrier alike."

PEOPLE OF MICHIGAN WANT NEW CONSTITUTION.

Detroit, April 2.—Except in the city of Grand Rapids, where George E. Ellis, Republican, was elected mayor by a plurality of 2,270 over Mayor E. F. Sweet, Independent, and Charles R. Slight, Democrat, the Independent and Democratic tickets seemed to have the advantage in the greater number of city elections today through the state of Michigan.

The returns indicate that the people voted decisively in favor of having the next legislature make provision for the election of delegates to a constitutional convention to provide a substitute for the present constitution, which dates back to the year 1850.

HEAVY IMMIGRATION.

Subject of Conference Between Metcalf and Immigration Commissioners.

Washington, April 2.—The recent heavy influx of European immigration at eastern ports of the United States was the subject of an important conference of the department of commerce and labor today between Secy. Metcalf and Commissioner General of Immigration Sargent and Commissioners of Immigration Billings of Boston, Watchorn of New York and Rogers of Philadelphia.

It was determined at today's conference to put in force more effectually, if possible, the regulations bearing on the subject of immigration to prevent the landing of undesirable persons.

ALGECIRAS CONFERENCE.

Turns Its Attention to Condition of Jews and Slavery.

Algeciras, April 2.—Today's sitting of the conference on Moroccan reforms, though primarily devoted to the framing of the protocol, assumed importance owing to the various delegates moving resolutions directing the attention of the sultan of Morocco to the necessity of internal reforms. Mr. White, the chief of the American delegation, with the support of the Duke of Almodovar, president of the conference, directed attention to the unfavorable condition of the Jews in Morocco.

Sir Arthur Nicolson, the British delegate, and M. Revoil, the first French delegate, advocated the abolition of slavery in Morocco. The construction of railways was advocated by the Duke of Almodovar. The conference requested the Italian minister to Morocco, Signor Malmusi, to proceed to Fez and communicate to the sultan the fact that the conclusions reached by the delegates have been unanimously approved. The revised text of the agreement probably will be signed on Saturday.

NO QUARREL WITH AUSTRIA.

Washington, April 2.—The state department had no disposition to make an issue with the Austrian government over the status of Mr. Storer. Mr. Francis, the new ambassador, will sail on the 22nd inst.

ROCKEFELLER BUYS A HOME IN PASADENA.

Los Angeles, April 2.—John D. Rockefeller expects to make his home in southern California. He has bought the Carnelita property in Pasadena, for which it is said he paid $250,000, and has arranged to expend $200,000 more before he enters upon its occupancy.

The property, which formerly belonged to Mrs. Jeanne Carr, was offered for sale 10 years ago for $25,000. Simson Reed bought it for $26,000 and sold it to L. V. Harkness of the Standard Oil company for $100,000. Mr. Harkness, it is said, today, let Mr. Rockefeller have it for $250,000.

KAISER FURNISHES DANCING PARTNERS FOR THE GIRLS.

Crefeld, Germany, April 2.—When Emperor Wilhelm visited Crefeld in 1903 a group of girls complained to him that they had no dancing partners and begged him to send a regiment of cavalry here. The emperor promised to do so, and today a regiment of Hussars arrived here from Duesseldorff, and with it came the emperor, who had decided to take part in the regiment's reception. The young women of the city enthusiastically acclaimed the soldiers and handed the staff officers heaps of floral offerings for his majesty. The latter, replying to the mayor's speech of welcome, said:

"I have kept my word. Today I have given the town its garrison and the young ladies their partners."

The emperor's remarks were greeted with cheers.

The city, which is the center of the silk and velvet industry, was gaily decorated for the occasion, a mile of the principal streets being hung with decorations of velvet and silk.

Since the emperor made his promise to the young women at Crefeld in 1903, the reichstag appropriated the sum of money necessary to erect a permanent barracks here, which have been constructed for the accommodation of a regiment of cavalry.

GOOD JUDGEMENT

is the essential characteristic of men and women, invaluable to good business men and necessary to happy wives. A woman shows good judgment when she buys White's Cream Vermifuge for her baby. The best worm medicine ever offered to mothers. Many indeed are the sensible mothers, who write expressing their gratitude for the good health of their children, which they owe to the use of White's Cream Vermifuge. Sold by Z. C. M. I.
