IN EMERGENCIES.

WHAT TO DO IN CERTAIN CASES AND HOW TO DO IT.

1. Child two years old has an attack of croup at night. Doctor at a distance. What is to be done? The child should be immediately undressed, and put in a warm bath. Then give an emetic composed of one part of antimony wine to two of ipecac. The dose is a teaspoonful. If the antimony is not at hand, give warm water, mustard and water, or any other simple emetic; dry the child and wrap it carefully in a warm blanket.

2. Hired girl sprains her ankle, violently.

First bathe in warm water, then put the white of an egg in a saucer, stir with a peace of alum the size of a walnut until it is a thick jelly; place a portion of it on a place of lint or tow large enough to cover the sprain, changing it as often as it seems warm or dry; the limb is to be kept in a horizontal position by placing it on a chair.

3. Bees swarm, and the man who hives them gets severely stung in the face.

The sting of a bee is hollow and barbed and as it contains poison the first thing to be done is to remove it. The parts stung should then be bathed in warm water, and a little ammonia be rubbed in them.

4. Some one's nose bleeds, and cannot be stopped.

Take a plug of lint, moisten, dip in equal parts of powdered alum and gum arabic, and insert in the nose. Bathe the forehead in cold water.

5. The child eats a piece of bread on which arsenic has been placed for killing rats.

Give plenty of warm water, new milk in large quantities, gruel, linseed tea, foment the bowels. Scrape iron rust off anything, mix with warm water, and give in large draughts frequently. Never give large draughts of fluid until those given before have been vomited, because the stomach will not contract properly if filled, and the object is to get rid of the poison as quickly as possible.

6. Young lady sits in draught, and comes home with a bad sore throat.

Wrap flannel around the throat, keep out of draughts and sudden changes of atmosphere, and every half hour take a pinch of chloride of potash, place it on the tongue and allow it to dissolve in the mouth.

7. Nurse suffers from a whitlow on her finger.

Place the whitlow in water as hot as can be borne, then poultice with linseed meal, taking care to mix a little grease with the poultice, to prevent it from growing hard. Bathe and poultice morning and evening.

8. Child falls backward against a tub of boiling water and is much scalded.

Carefully undress the child, lay it on a bed on its breast as the back is scalded. Be sure all draughts are excluded, then dust over the parts scalded bi-carbonate of soda, lay muslin over it, then make a tent, by placing two boxes with a board over them in the bed, to prevent the covering from pressing on the scald; cover up warmly.

9. Mower cuts driver's leg as he is thrown from his seat.

Put a tight bandage around the limb, above the cut, slip a cork under it, in the direction of a line drawn from the inner part of the knee to a little outside of the groin. Draw the edges of the cut together with sticking plaster.

10. Child has a bad earache.

Dip a plug of cotton wool in olive oil, warm it and place it in the ear. Wrap up the head and keep out draughts.

11. Youth goes to skate; falls through the ice; brought home insensible.

Strip the body and rub it dry, then rub with a warm blanket and place it in a warm room. Cleanse away froth and mucus from the nose and mouth. Apply warm bottles, bricks, etc., to the arm pits, between the thighs and the soles of the feet. Rub the surface of the body with the hand incased in a warm, dry, worsted sock. To restore breathing close the nostrils and breath steadily into the mouth; inflate the lungs until the breast be raised a little, then set the nostrils free and press gently on the breast until signs of life appear. Then give a warm drink and put to bed. Do not give up hope for at least three hours after the accident.

12. Child gets sand in his eye.

Place your forefinger on the cheek bone, having the child before you. Then draw up your finger and you will probably be able to remove it; but if you cannot get at the sand this way, repeat the operation while you have a knitting needle laid against the eyelids; this will turn the lid inside out, and then the sand may be removed with a silk handkerchief. Bathe in cold water and exclude the light for a day.—*Rural New Yorker.*

HOW TO BECOME GRACEFUL.

The Young Woman's *Journal* thinks a refined, graceful manner can be acquired by any woman. It says: "The best grace is perfect naturalness. Still, you must study yourself and form your manners by the rule of that art, which is but a carrying out of the law of nature. But if it is your nature to be forever assuming some unpicturesque, ungraceful attitude, pray help nature with a little art."

"If you are stout avoid the smallest chair in the room, and be sure you sit on the chair—not lean back with your hands folded in front of you just below the line of your waist, especially while the present fashion lasts.

"If you are thin do not carry yourself with your chin protruding and your spinal column curving like the bowl of a spoon.

"Do not wear flimsy materials made up without a ruffle or puff or flounce to fill up the hard outlines of your bad figure so cruelly defined by the tightly pulled back draperies.

"Study the art of dress. We once knew a very plain woman who dressed so tastefully that it was an absolute pleasure to look at her.

"If you have been moping until you are sick with the thought of your own hopless ugliness, be up and doing. Forget your disappointments, forget the past and the sneers of your own family over the mistakes that you have made."

An Orthodox Chinaman.

Concerning future rewards and punishments Colorado furnishes the following illustration, which occurred recently in a court in La Vega, where the testimony of a Chinese was objected to on the ground that he did not understand or regard the obligation of an oath. To test him he was interrogated thus:

"John, do you know anything about God?"

"No; me no belly well acquaint with Him."

"Have you no Joss in China?"

"Oh yes, gottee heapee Joss."

"Where do you go when you die?"

"Me go to San Francisco."

"No, you don't understand me. When Chinaman quit washee all time, and nollive any more, where does he go?"

"Oh yes, me sabe now. If he belly goodee man, he go uppy sky. If he belly badee man he go luppee down hellee, *allee same e Melican man.*"

The Court was satisfied with this orthodox statement, and admitted his testimony.—*Editor's Drawer in Harper's Magazine for July.*

How to Utilize Old Fruit Cans.

Perhaps one of the most appropriate uses of an old fruit can that can be devised is to make it contribute to the growth of new fruit to fill new cans. This is done in the following manner: The can is pierced with one or more pin holes, and then sunk in the earth near the roots of the strawberry or tomato or other plant. The pin holes are to be of such size that when the can is filled with water the fluid can only escape into the ground very slowly. Thus a quart can properly arranged, will extend its irrigation to the plant for a period of several days; the can is then refilled. Practical trials of this method of irrigation leave no doubt of its success. Plants thus watered flourish and yield the most bounteous returns throughout the longest drouths. In all warm localities, where water is scarce, the planting of old fruit cans, as here indicated will be found profitable as a regular gardening operation.—*Scientific American.*

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R. R.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST AND THE WEST!

Its main line runs from Chicago to Council Bluffs and Omaha, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brooklyn, Grinnell, and Des Moines, (the capital of Iowa) with branches from Bureau Junction to Peoria; Wilton Junction to Muscatine, Washington, Fairfield, Eldon, Belknap, Centreville, Princeton, Trenton, Gallatin, Cameron, Leavenworth and Atchison; Washington to Sigourney, Oskaloosa and Knoxville; Keokuk to Farmington, Bonaparte, Bentonsport, Independence, Eldon, Ottumwa, Eddyville, Oskaloosa, Pella, Monroe, and Des Moines; Des Moines, to Indianola and Winterset; Atlantic to Audubon and Avoca to Harlan. This is positively the only Railroad which owns, controls and operates a through line between Chicago and Kansas.

This Company owns and control their Sleeping Cars, which are superior to none, and give you a double berth, between Chicago and Council Bluffs, Leavenworth, or Atchison for Two Dollars and Fifty Cents; and a section for Five Dollars, while all other lines charge Four Dollars for a single berth, and Six Dollars for a section.

What will please you most will be the pleasure of enjoying your meals, while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining and Restaurant Cars that accompany all through Express Trains. You get an entire meal, as good as is served in any first-class hotel, for twenty five cents; or you can order what you like, and pay for what you get.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes, (and the enormous passenger business of this line warranting it,) we are pleased to announce that the Company has fitted PALACE SLEEPING CARS for Sleeping purposes, and its PALACE DINING CARS for Eating purposes. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Magnificent Iron Bridges span the Mississippi and Missouri rivers at all points crossed by this line, and transfers are avoided at Council Bluffs, Leavenworth and Atchison, connections being made in Union depots.

THE PRINCIPAL R. R. CONNECTIONS OF THIS GREAT THROUGH LINE ARE AS FOLLOWS:

At CHICAGO, with all diverging lines for the East and South.

At ENGLEWOOD, with the Lake Shore & Michigan Southern and Pittsburg, Ft. Wayne & Chicago R. Rds.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain, and at once commencing cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the system and thence into the blood. Thus a cure progresses in both directions, and in cases not exceeding months, human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while travelling with Father Kenny's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I doctored with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing or speak. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving the patient, as in this way I contracted each succeeding attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was dying for quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. Perhaps in this distressing condition, I commenced the use of Sanford's Radical Cure, using it very sparingly, reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head ached, eyes ached, who can scarcely breathe for intensity on account of the choking accumulations in the throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of imitations of the genuine, by unprincipled pretenders to medicinal merit, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. The price is 25 cents, although the cost is double that of any other plaster. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES

The Promoter and Restorer of Animal Life.

The Reformer and Vitalizer of the Blood.

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name, no other preparation is a substitute for this under any circumstances.
