NEWS OF THE WEST.

A Denver Waterworks Engineer Meets With a Serious Accident.

THE CONDITION OF STOCK RANGES.

A Ranch Destroyed by Fire—Manufacture of Spurious Dollars in Mexico, Etc.

Some unknown individual has been circulating counterfeit $5 pieces throughout southern Oregon during the past few weeks.

Oliver N. Jacobs was drowned while trying to ford Roaring Fork, Col., a few days ago. The deceased was a ranchman and lived near Aspen Junction.

Julesburg, Col., has voted $4,500 in bonds to build a new brick and stone school house. The new building will be erected on the site now occupied by the old school house, which will be torn down and worked into the new one as far as possible.

An expert fruit grower and shipper declares the almonds grown around Mesa, Arizona, are the finest in the world, says the Phoenix Gazette. All that is needed is a simple hoaching process before marketing. The flavor of the product is excellent, the shells very thin and the crop heavy.

On Sunday afternoon the residence of T. Pope, on his ranch south of Salmon City, Idaho, was destroyed by fire. It is supposed to have been caused by a lighted match or the end of a cigarette stub thrown carelessly down. The house was a large and commodious structure, and the loss is estimated at $3,000; no insurance.

According to the *Silver Bell*, counterfeit American silver dollars are now being made in Mexico, sent to England in payment for British exports to Mexico, and, it is said, thence shipped by English merchants to this country; where they are circulated at 100 cents. The thing is possible—more difficult things have been done.

Jack Thompson, a resident of Crane Creek, while unloading wood at Weiser, Idaho, burst a blood vessel and bled to death internally in a few minutes. He stopped work and sat down unnoticed at first, and when other workers noticed that something was wrong with him he was speechless. A doctor was summoned at once, but could not save him.

According to the Durango (Col.) *Herald*, a deplorable situation exists on the stock ranges in the southwestern part of the state. The scarcity of snow in the mountains last winter and the absence of rain since that time has rendered the greater portion of the ranges desolate, and in certain localities the losses of stock are almost without precedence in the history of the country.

A serious and possibly fatal accident befel Charles Woods, the engineer at the pumping station of the Citizens' Water company at University park, Denver, on Monday afternoon. He had occasion to go into the dug-out in which is stationed the gas engine and a quantity of gasoline. Through some cause, likely that there was too much gas for the generator, an explosion occurred and two barrels of gasoline caught fire. The gas engine was completely destroyed. The force of the explosion sent Woods flying against the wall. Fortunately he remained conscious, and with remarkable presence of mind closed his mouth and eyes, thereby preventing himself from inhaling the gas or from having his sight destroyed. He is badly burned all over his body and about the face, legs and arms, but although in a very serious condition the doctor has hopes of his recovery.

In Pennsylvania Conference.

PRATT, Allegany Co., Maryland, July 3, 1894.—Thinking a word from this part of the Lord's vineyard would be appreciated by the readers of your valuable paper, especially those who have labored in this field, I pen a few lines. I arrived here from West Virginia, June 15th, and I met Elders Wilford Reeder and Charles Morris, traveling Elders in the Pennsylvania conference. This field was first visited by Elders Christensen and Woolley about five or six years ago. They moved down some of the orders and sowed a great deal of seed, some of which fell on good ground. They were followed by Elders West and Brown, who added to the labors of the first named brethren. Afterward, Hyrum F. Thomas came here and led the first ones down into the waters of baptism. Then the field was left for six months. Elders Whitaker and Durfee came next, and went over the ground and gathered up a few more sinners that had opened. They held meetings wherever opportunity presented.

At our fall conference in 1893, Elders Wilkins and Reeder were assigned this field. They had the privilege of gathering a few more sheepfolds the fold. Since the spring conference Elders Reeder and Morris have gone all over the ground and have brought seven into the fold. I had the pleasure, on June 30th, of baptizing Wesley Collins, a well-to-do farmer and a leading citizen who has been a defender of Mormonism, so called, for several years; also the wife of Austin Hartsock, who is known for her good character and kind acts of charity. We now have a membership of twenty-six. On Sunday we held sacrament meeting at Brother George Hynes's. There were thirteen of the Saints and a number of visitors present. We had an enjoyable time. The Saints all bore faithful testimonies and expressed a desire that they might live near to God and have His spirit at all times.

Many are investigating, and from all appearances the good work will continue to increase.

SUPPORT HOME INDUSTRY.

THESE ARE THE PEOPLE WHO SELL HOME MADE GOODS

THEY BUILD UP UTAH and are entitled to the support of the people. By dealing with the merchants who give preference to the sale of Home Made goods, you help the Home Industry cause. You help to give employment to worthy people, you help to keep money at home, which circulates in our midst and you get back a part of that money again in your business or profession. Keep this in mind; every dollar expended for Utah made goods, means more employment for home labor; every dollar expended for goods manufactured elsewhere, means employment for somebody living elsewhere, and whose interests are generally not with us. "Charity begins at home." This is a time for both charity at home and patriotism.
