THE EVENING NEWS.

Wednesday, - - July 1, 1874.

THE BRITISH EMPIRE.—For the first time in its history the British Empire puts forth a collective statement of its area, 8,739,500 square miles; its population 434,762,593; its houses 64,142,651; its density 47 persons to the square mile. Unexpectedly the density in the British Isles is 280 to the square mile. This mighty empire falls below the Russian area, which is 9,000,000 square miles and below the Chinese in population, which is 446,500,000. But in its strength and resources it is undoubtedly transcendently ahead of all other empires. It is calculated by a Swiss *savant* that in the course of a few centuries or less, the inhabitants of this empire will all speak the English language and the tongue is really making progress in India. If the empire should permanently hold together, its population will far exceed that of China, as the available area of land is far greater. In India the British rule has raised the population from 138,000,000 to 260,000,000. In Canada, Africa and Australia the progress is very remarkable, and in Africa, England has at present no rival, and an immense field. Of all the European governments Russia alone has a future that can at present be regarded as in the same category with Victoria's empire. That of Germany can only be expanded by conquest, and that of Austria and France seems to have reached its limit. The statesmanship required to preserve and maintain such a mighty empire as the British, must be of the highest class.—*Ex.*

IMMENSE BARGAINS!!

Reliable Testimony!

CARL C. ASMUSSEN,

BEING very desirous to dispose of all his fine Jewelry, Watches, Clocks, Field and Opera Glasses, Spectacles, etc., etc., offers a rare chance to the public for investment.

The JEWELRY is selected with the utmost care, both for beauty and excellence. The WATCHES are unsurpassable both for strength and good going.

All goods are warranted.

Appended are testimonials from most reliable gentlemen, well known in the Territory:

"The Watch I bought of you in 1872 goes most excellently, never varies a minute; has never had any repairs to it since I got it, although it has been exposed to very hard usage.

A. C. BROWN,
Brakeman U. S. R. R."

"The Watch I bought of you last year has proved to be the best article I ever had, having lost it twice in the water, once at the depth of six feet, besides a great many other hardships, and stands all with perfect ease, being always right to time.

JOHN SAXES, Camp Douglas."

"The Watch I bought from you is all that can be desired. As a timekeeper it beats anything I ever had, and stands the jolting and rough usage without the least variation.

DANIEL G. BRIAN,
Paper Mill, Salt Lake Co."

And the like high recommends from Messrs. H. B. W. Cheales, Salt Lake City; C. J. Lambert, Paper Mill, Salt Lake Co.; G. C. Lambert, *Juvenile Instructor* Office; T. O.
