BEAUTY:

OR, THE

Secret of a Fair Face

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. R. Hagan placed beauty within the reach of every unbleased daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and, while it is as harmless as water, it is so life-like in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

Last Night's Dispatches.

EASTERN.

Ex-Secretary Chandler.

NEW YORK, 8.—The *Tribune's* Washington special has the following: Ex-Secretary Chandler is in town on private business, and will probably be summoned by the Potter committee. It is reported that a certain Louisiana politician was in New York during Chandler's connection with the national republican committee, and being in a room with Chandler and a number of other gentlemen, remarked that the democrats were trying to buy the Louisiana electors. In reply to this Chandler said jocosely: "I can't think they can beat us." This remark is to be developed by the Potter inquiry.

Weber's Testimony Bought.

The *Times'* Cincinnati says: Proof can be had that Weber's late testimony in Washington, in support of Anderson, was bought by a purse of $7,000, the deposit being made in the hands of a certain well-known broker in New Orleans. He went on to Washington ready to accept a higher bid from Sherman, but failed to get it.

England's Treaty with Turkey.

The *Tribune's* London special says: The *Telegraph* announces that England has concluded a definitive treaty with for the maintenance and integrity of the Sultan's Asiatic dominions. The Porte has accordingly granted to England the right to occupy the island of Cyprus immediately. This treaty will not be announced to the congress, as it was done independent of the congress and in an independent contract between England and Turkey alone. The *Telegraph* is pro-Turkish and good authority on these matters.

Mark Twain and his Pastor.

The *Times'* says: Mark Twain, who has been rusticating in Germany for the past three months, has just sent over to his pastor, Rev. Joseph Twitchell, of Hartford, inviting the latter to join him in a summer tramp in Switzerland and Germany. Twitchell will sail next week to enjoy a vacation of several months, Clemens bearing the expenses.

Condition of the Treasury.

WASHINGTON, 8.—The following statement, showing the actual condition of the Treasury on the 30th of last month was prepared to-day: Gold coin, $161,343,914; standard dollars, $6,887,948; gold bullion, $6,099,439; silver bullion, $5,891,201; total, $180,222,502. Fund for redemption of United States notes, say 35 per cent. of $346,618,016; outstanding in legal tenders $121,000,000. Coin in excess of redemption fund, $59,222,502, of which there will be required for the following payments; Unmatured calls of 5-20 bonds, $23,850,000; coin certificates outstanding on that date, $44,367,000 less $10,469,320; redeemed and in Treasury, $24,897,680. Principal of debt estimated to be due and unpaid on that date, $4,000,000; total, $56,747,680 excess $2,474,822. The gold coin on bank, stated above at $161,343,914, does not include redeemed gold certificates or any other coin item, but is actual gold coin. There was also in the Treasury at that date $7,186,529 fractional silver coin.

The Fitz John Porter Case.

WEST POINT, 8.—The hearing in Fitz John Porter's case was continued to-day. Gen. Warren, who was a Colonel under Porter, was the chief witness. His testimony opened with statements of the distances surrounding the battle field and a description of the woods which lay between Porter's command and the rebels when Porter received the order to advance. Witness testified that no prudent man would have attempted to march his force through them.

An Indian Fight.

An official dispatch states that the Umatilla Indians fought 400 hostile Snakes all day on July 2, killing 30 and losing two.

$75,000 Fire.

TAUNTON, Mass., 8.—A fire in the Tack company's buildings caused a loss of $75,000, insurance $60,000.

The Silver Dollar Coinage.

CHICAGO, 8.—The *Journal's* Washington special says: It is probable that instructions will be issued this week to run the mints to their full capacity, and that the maximum amount of standard silver dollars authorized to be coined by the silver bill, $4,000,000 per month, will be turned out at the mints for the next four months.

An Embezzler Sentenced.

NORTHAMPTON, Mass., 8.—Ira B. Wright, South Hadley's defaulting treasurer, was found guilty, to-day, of embezzling $29,000, and sentenced to five years in the state prison.

WESTERN.

The Indian Hostilities—Captain Sperry and his Command Nearly all Killed—An Indian Camp Destroyed.

SAN FRANCISCO, 8.—Governor Chadwick, who is now at Umatilla, telegraphs here under the date of the 7th, as follows: "Volunteers under Captain Sperry, fifty strong, were defeated at Willow Springs, thirty miles south of Pendleton, yesterday. Captain Sperry is killed and nearly all of his command are killed or wounded. We can hear of but seven left."

Two scouts have just arrived from General Howard's headquarters, with a dispatch from Colonel Mason, to General Wheaton. General Howard was twenty miles from Camas Prairie this morning. Howard told the scouts that the Indians would cross the Columbia between Lewiston and Dalles, and possibly go out by Grands Ronde. Bernard is with Howard. Major Throckmorton has command of the companies from Walla Walla, which are now reported to be near Camas Prairie, having left Pendleton for Pilot Rock, on Birch Creek. This point is about fifteen miles from Pendleton, and eighteen miles from Camas Prairie, where the Indians are in force, about 1,000. It looks as if we were near the crisis.

Portland, 7.—The following dispatch was received here from Umatilla addressed to Governor Chadwick: "We are in great danger here from the Indians. Our troops that went to the front from here, fifty strong, were attacked to-day at Willow Springs, and from those who have got in there must be over half if not two-thirds killed. Of those who are in, three men are wounded, and they report several others wounded before they got out. We have about 300 men here, and not over half of them are armed. One hundred soldiers left here at 7 p. m. to the relief of our men."

Portland, 8.—The following dispatch has just been received here from Governor Chadwick:

Umatilla, July 8, 10.30 a. m.—Major Kress, at 2 o'clock this morning, went down the river on the steamer *Spokane*, to Coyote station, 15 miles below this place. Two miles this side of the station he found the hostile Indians crossing with a large number of horses. He ran upon them, and some of the horses returned to the Oregon side; others crossed the river. The Major made an attack on the Indian camp and destroyed it and everything about it, including all the canoes. A number of saddle blankets and buffalo robes were found in the camp. Squads of hostiles have been in sight all the morning with stock. Scouts are out. Gen. Howard was at Pilot Rock yesterday, undoubtedly moving this way. One small band of Indians, with about 80 head of horses, passed down opposite and in sight of this place this morning, to join the hostiles that crossed below. A friendly Indian stated that the hostiles were divided into three parties. Two would go below the landing and one above, but he would not tell where they would cross. They are scattering to gather in renegade Indians for fighting a protracted campaign. Major Kress is below patrolling the river. I shall communicate with General Howard today.

A Portland dispatch says: At a meeting held here last night, to take measures to aid the settlers in eastern Oregon, four militia companies of Portland volunteered to start at once for the scene of the Indian disturbances, if their services were required by Gov. Chadwick. The governor telegraphed that plenty of men could be obtained in eastern Oregon, if desired, greater need was arms and means. If citizens desired to lend assistance they could do so more effectually by forwarding arms and money than to send men. To-day a volunteer company of 75 men organized here. This company, together with the other four military organizations, will hold themselves in readiness to march, should their services be needed. Great excitement prevails here over the alarming condition of affairs.

Under date of Walla Walla, 8th, the following dispatch is received: The steamer *Northwest* left here this afternoon. She will be used as a patrol boat between here and Umatilla. She is in command of Captain Wilkinson, who has 20 men hired and 12 soldiers, well armed. There is a Gatling gun aboard and he will receive two howitzers from Vancouver. Captain Wilkinson feels confident that he will catch the Indians in crossing the river between here and Umatilla to-night.

China and Japan News.

Arrived, the steamer *City of Peking*, four days' overdue, from Hong Kong *via* Yokohama. She came through with one engine, the other having broken down shortly after leaving Yokohama.

Hong Kong, June 15.—The United States consul at Foochow has received $500 from the highest officers of the province of Fukien for distribution through two American medical missionaries to the suffering sick. This donation is unprecedented. Miss Trask and Doctor Osgood are designated to apply the fund.

A movement is in progress to establish a government postal system under the sanction and encouragement of Li Hung Chang, viceroy of Chihli province.

Reports of an impending diplomatic breach between China and Germany are authoratatively contradicted.

The Chinese authorities are making renewed efforts toward the conquest of Southern Formosa, the fortified city laid out on the site of the encampment established by the Japanese expedition in 1874.

Taiwan Fuy, capital of the Chinese Formosa, was devastated by a tornado about the end of May. There was great destruction of property; several lives were lost.

The discovery is just made that Bishop Ridel and other French missionaries, are held confined in the capital of Corea, and in danger of death. A call is made for their rescue.

Unusual and unexpected acknowledgments are made from the highest Chinese authorities of the efforts by foreigners to alleviate the sufferers from famine.

Rain at last has fallen in the northern provinces and faint hopes are entertained that the prolonged drouth, with its miseries, may end; but up to this time there is no abatement of the distress.

Yokohama, June 19.—All three of the ironclads built in England for Japan have now arrived and are ready for service.

Three governors of Kanagawa province, in which Yokohama is included, are now under arrest on charges of fomenting political disorders.

The Japanese press laws are about to be modified. All imprisonments of journalists are to be abolished and fines substituted. The regulations are very moderate as a whole, though one or two arbitrary features remain.

Serious affrays in Yokohama, between sailors of Russian and British ships of war have occurred. Blood is frequently shed.

A new military college was opened at Tokio, June 10, on a plan similar to that of West Point.

FOREIGN.

GREAT BRITAIN.

The Cession of Cyprus to England.

LONDON, 8.—Asheton Cross, secretary of state for the home department, made the following statement in the House of Commons this evening in reply to the inquiry of Lord Hartington: In view of the cession of Batoum to Russia a conditional convention was concluded on the 4th of June last, with the Porte and England agreeing to defend Turkey against aggression and the Porte ceding Cyprus, which will be immediately occupied by England. Sir Garnet Wolsley will be appointed to administer the affairs of the island.

The Crete Solution.

Respecting the Crete solution proposed by the congress, it is considered unacceptable at Athens, where public opinion is exasperated. On Friday a manifestation in which 15,000 people anticipated, took place in front of the king's palace. Government is powerless to resist the current of popular feeling, and on Friday evening orders were issued for the transfer of the royal guard to the frontier at Lamia.

Indignant at the Congress.

A Berlin correspondent telegraphs that he learns from trustworthy sources that in St. Petersburg, and still more in Moscow, great indignation is felt at the result of the congress. Russian diplomatists, in the general plenipotentiaries at Berlin, in particular, are spoken of with contempt. They do nothing, the people say, but make concessions, and are ready to accept any humiliation to gain the approbation of Europe.

Willing to Make the Most of It.

Some of the Greeks in Berlin seem to have recovered a little from the profound dejection and strong animosity which the decision of the congress, regarding the Hellenic question, at first proclaimed, and the more cool-headed among them begin to perceive that the best policy is to make the most of what has been obtained.

Batoum a Russian Free Port.

A telegram from Vienna points out that Batoum is not to be made a free port like Hamburg or Altoona, but is to become a Russian free port, quite a different thing.

Destructive Fire.

A dispatch from Calcutta reports that 4,700 houses have been destroyed by fire in Mandalay.

Nobeling's Examination.

Dr. Nobeling is sufficiently recovered to be several times examined. It is still doubtful whether he will survive his injuries. He says that he plotted the crime alone, but communicated his intentions to some acquaintances, who did not oppose it. His present statement is believed.

Russian Socialists.

The National *Gazette* says: It has been informed that the Austrian police have discovered circumstances leading to the belief that Nobeling's attempt on the Emperor's life was connected with the intrigues of Russian socialists.

AUSTRIA.

The Army of Occupation.

VIENNA, 8.—According to present arrangements the army that will occupy Bosnia and Herzegovina will consist of 70,000 men and 240 guns.

BRITISH AMERICA.

The Orangemen Will Parade.

OTTAWA, 8.—Government having received a requisition for troops to preserve order in Montreal on the 12th inst., signed by four magistrates, Major Gen. Smythe has ordered 2,000 men to go into camp in Dominion Square on the 11th. The Major Gen. leaves on Wednesday to take command. It is expected that he will also be sworn in as peace commissioner.

MONTREAL, 8.—The Mayor left Ottawa this morning, for the purpose, it is said, of preventing the militia from being called out on the 12th, or if they are called out to have their direction placed in his hands. The mayor has stated that if the magistrates have the direction of the troops he will retire from any active participation in preserving the peace. The Orangemen will be in full regalia.

Catholic Open Air Demonstrations.

A great open air demonstration, attended by about 10,000 Irish and French Canadian Catholics, was held in Chabollez Square to-night, to uphold the stand taken by Mayor Beaudry in reference to the Orange procession. The meeting was only called late in the evening; when it became known, the power was taken out of the Mayor's hands. Strong addresses were delivered in support of the position taken by his worship, and resolutions, in conformity with the speeches, were passed with great enthusiasm. The mayor's course at the magistrates meeting was eulogized and thoroughly endorsed. The meeting pledged itself to support the mayor under all circumstances, and the excitement, when the speakers referred to the Orange proceedings, waxed into frenzy. Finally an arrangement to await the mayor's return from Ottawa, to-night, and the report of his mission to the government will be made at another open air meeting to-morrow evening. These demonstrations augur ill for the preservation of peace on the 12th.

GERMANY.

The Peace Congress.

BERLIN, 8.—Austria receives one side of the bay and Antivari and Montenegro Nicsics. The powers will insist on the rectification of the Greek frontier by Turkey. Consideration is continued on the Batoum question. Though a complete settlement has not yet been reached, it is expected that it will be in to-morrow's sitting, which precedes the meeting of the congress.

The British Channel squadron has appeared off Cyprus. This has revived the rumor concerning the purchase of the island by England. Minister Layard is reticent on the subject. The Porte, however, declares that no contract in regard to the island has been concluded.

Russia and Turkey have arrived at an understanding in regard to the return of Turkish prisoners of war, and several steamers have been dispatched to bring them to Constantinople.

Gortschakoff declared, at the opening of Saturday's sitting of the congress, that the Czar, as proof of his desire to satisfy the legitimate interests, had resolved to make Batoum a free port.

Lord Beaconsfield announced that England could not be but satisfied with the Czar's reassuring resolve.

Lord Salisbury warmly advocated the claims of Lazis to be protected from annexation. Private negotiations are now pending on this subject, Russia objecting to have warlike and independent people in the immediate neighborhood of her new possessions. There are also some slight difficulties in regard to the dismantlement of fortifications, the Russians claiming that some of them are natural features of the ground.

The friendly Bannack tribe has run away from the agency to prevent starving to death. This shows that the Indian is not to be relied upon.—*N. Y. Graphic.*
