#### New Water System for St. Louis.

Chicago, Jan. 15 .- A special commisslon is now preparing a report in Chi-cage affirming the feasibility of a plan to turn the water of the Upper Meramec river into the homes and reservoir of St. Louis. The plan to be submitted by the engineers contemplates the complete abandonment of the intake at the Chain of Rocks, from which St. Louis obtains its entire supply of wat-cr. The method planned would, it is them.

Benesett Williams, of Chicago, Charles Wissner, of Detroit, and Allen Hazen, of New York, the experts, are preparing a report which will go into detail as to the construction of proper intakes at upper Meramec river 90 miles from St. Louis, a work estimated to cost about two-thirds of the cost of the Chicago Sanitary canal. It will be an undertaking rivaled only by

the Croton water system in New York. This board of experts has been receiving reports from expert bacterilo-gists and making frequent trips south to inspect the site of the proposed wat-erworks system. They have found that the supply of water in the little river is pure. The experts are holding daily sessions in Chicago this week completing their report. Though the exact de-talls have not been finally decided upon the engineers assert that their recom-mendations call for a complete change in the water system at St. Louis.

#### "Leaves of Healing."

New York, Jan. 15 .- Copies of Leaves of Healing, Dowie's publication, have reached this city with a letter which throws additional light upon the resig-nation from the Salvation army of Gen, Booth's son-in-law and daughter, Mr. and Mrs. Booth-Clibbern. The letter is dated Nov. 30, 1901, and was written from Zionshim, Castle Llebburg, Lake Constance, Switzerland. In this letter

Mr. Booth-Clibborn writes:
"I have decided to offer myself to
you, dear Doctor, for Zion, and I do so firmly believing it to be the will of God. I had thoughts of starting a separate mission till I got light about the Elliah matter as that was the great obstacle. To me it could only be a gi-gantic error or a gigantic truth ful-filled with unspeakable solemnity, even though 'Elijah was a man with pas-sions like ourselves.' I take it that you come in the spirit and powers of Elijah and as the herald of the second coming, the Baptist of the millennial

Fifteen Hundred Quarts of the Stuff in Explosion.

LEFT BIG HOLE IN GROUND.

Ungazines Wiped Out and Entire Neighborhood Shaken Up for Several Biles Around.

Marion, Ind., Jan. 15.-Fifteen hundred quarts of nitro glycerine stored in two magazines owned by the St. Mary's Torpedo company and the Empire Glycerine company in a ravine two niles and one half southeast of this city exploded this morning about 1:30 o'clock, shaking the entire northeastern part of the state. Business blocks and dwelling houses shook and swayed as if rocked by an earthquake and the entire city was aroused.

A yawning hole in the bottom of the ravine was all that was left to tell the story. It is thought that the explosion was caused by a gas jet in one of the magazines setting fire to the

## Bartley Refunding.

Lincoln, Neb., Jan. 15 .- Joseph Bartley is bending his energies toward paying back to the state as much as he can of money he was convicted of embezzling. In his possession are a stack of notes and other evidences of indebtedness signed, it is said, by business men and politicians whom, it is alleged, he aided with loans of state funds in times of stress, who are now able to repay. It was with the idea that Bartley would make restitution to the state that Gov. Savage granted a parole last July. Bartley made such a promise, but when the governor re-Bartley made such called the parole Bartley just as promp called the parole Bartley just as promptly rescinded his promise. Now that he is free he will, his friends say, do all that he can.

## Much Fuss.

New York, Jan. 15 .- Walace Downey. of the firm of Townsend and Downey, builders of the kaiser's yacht, now being completed at Shooters' island, in the Kill von Kull, off Staten island, will start for Washington today to con-suit President Roosevelt regarding plans for the launching. He will also see Ambassador Von Holleben. It is expected that a conference participated in by the President, the German ambassador and Mr. Downey will take place at the White House, and all the prace at the launching of the boat and the reception of Prince Henry will be discussed in detail. Mr. Downey will suggest Feb. 26 as the launching day, because then there will be

high water at Shotters' Island. Any date, however, Mr. Downey said, would depend upon the convenience of Prince Henry. It will not be definitely fixed until his arrival. Mayor Low has sent a message to the secretary of state suggesting that the nation and city agree upon plans for the enter-tainment of the prince so that no con-flict may occur.

New York, Jan. 15.—Prince Henry, with the consent of Emperor William, will give a magnificent banquet at New York on the Hohenzollern, to which the President and the highest officials of the United States will be invited, cables the Berlin correspondent of the World. The kaiser has selected some splendid silver treasures of his palace to decorate the vessel on the occasion. The silver vessels and decorations are of the most costly workmanship, dating from the Renaissance

ISTHMIAN CANAL

NEW ROUTE FOR

This One Embraces a Tunnel Seven | Recorder Goff Gives His Views Miles in Length.

DISTANCE BUT THIRTY MILES | LAWS DON'T MAKE VIRTUE.

Great Tunnel Will be Through a Spur of Andes and Pierce Solid Body of Granite.

New York, Jan. 15 .- Plans for a new ship canal will be presented next Thursday before the Senate commission on canals by Gen. Edward W. Serrel for the American Isthmus Canal company, and the Isthmus company, both corporations of New Jersey. The route for the canal proposed is from the Gulf of San Blas to the Pacific Ocean behind the Pearl Islands, and Is called the Mandigo route. It will be proposed that the company build the work under the supervision and protection of the government, without any cost to the United States, which will be asked to guarantee the bonds of the company. The company will propose that the government have the use of the canal free of charge for all government vessels and if at any time the company does not do as agreed the government shall take possession of the canal. The company asserts that it has secured a right of way. The newy suggested route is less than thirty miles long and therefore is shorter than uny other so far proposed. No en-gineering difficulties are encountered its supporters say, until a spur of the Andes is reached. This mountain chain must be pierced by a tunnel seven miles long and the plans state that it will be 200 feet high, 180 feet wide and deep enough for the largest ship which would go through the canal. The rock through which the tunnel would be cut s said to be solid granite. In the tuntel a trolley appliance would tow the hips. Gen. Serrel, who is at the head of the project, was engineer of the Panama railroad and has acted as engineer for the government. The late R. P. Rothwell, who, at one time, was gineers and editor of the Mining Jour ral, thought the scheme entirely feasible and was heartly in sympathy with it at the time of his death.

#### REMARKABLE CURE OF CROUP. A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel saved my little boys life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to null the philesm out of his mouth in to pull the phiegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—Joel Demont, Inwood, Iowa, For sale by all Druggies. For sale by all Druggists.
