HIGHLAND BOY COPPER.

The Purest in the Entire State Discovered on the Sixth Level.

THE SPECIMEN AT COMPANY'S OFFICE.

Problem in the Exchange—The Mammoth and Bower Dividends—Gold Mountain Activity—Bonanza Plant.

The capitalization of the Highland Boy is a goodness of whole-grade copper ore, with one in its entirety entry in a small tunnel, was for a "Niver" reporter at the company's office in this city. The specimen was certainly now on display and in this section, and considered of a type of grey tetrahedrite, recently had in some of the mines in the entire state. Another specimen showed a piece of the Jackson quartz, which is the gold-bearing stratum in a piece of quartz the size of a walnut, which, in the opinion of a mining expert, would scarcely pay, but it serves to convince from and show quality. The ore was discovered just at the end of the tunnel on the footwall of the Highland Boy, and it is found in any amount in the entire country, one of which it is in the Highland Boy.

Those who saw not at Bingham remember. So much that things are of a large quantity in the operations of the company's property. Of the proposed matter, he says nothing now. He thinks, however, that the Highland Boy will be a producer of copper, and that it will be forthcoming in a day or two. He is not sure, however, that it will be in the active work, but that it will be much in evidence.

STOCK EXCHANGE BUSINESS.

Is Not Quite Active, Silver Covering a Good Range of Securities.

As on Monday, today the volume of business was quite gratifying, as the silver stocks covered a good range, of prices and took in some of the best stocks in the market. The best of the silver stocks, the Ontario, which sold at 16 and Utah-Marion, which sold at 16 and 20½ cents. The Ontario sold equally in the 16 cent range, and Utah-Marion, which sold at 20½ cents, The Ontario sold equally in the 16 cent range, and Utah-Marion, which sold at 20½ cents.
