WADDELL TELLS HOW HE DOES IT.

Rube Does Not Think Very Much Of the Newfangled Balls.

HE LIKES THE GOOD OLD WAY.

"Give it to 'em High and Fast and Mix 'em Up a Little—Control is Everything to a Pitcher."

When the mighty "Rube" Waddell swaggers into the box and swings his flaillike arms the unlucky batsman who faces him always feels a thrill of apprehension stealing over him. What is the big fellow going to dish up? That is the question that bothers him, and before his think tank is working in good order the ball rushes up to the plate, jumps first to the right and then to the left and finally falls in the catcher's hands, as the umpire bellows "strike!" The "Rube" is way up in the striking out game, and tells how he does it as follows, in an articles for the Atlanta Journal:

"I've played baseball, football, fished, been on the stage and up against a few other games, but this is the first time I ever wrote an article for a paper. That is one of the reasons I was glad to try it, for I always like to go up against a new game. I suppose in starting out the people will want to know what I think of the spit ball, jump ball, stop ball and some others. Well, I don't think much of them. When I heard about all these newfangled throws I said to myself:

"'Rube, you want to cut those out. You lay back on that high fast one you've always got away with, and if they can hit it, why, let 'em hit it out and take your medicine.'

"The 'spit ball' is the only one of the new ones that ain't a fake. The rest are all 'dope' balls. But the spit ball hurts your arm, or it does mine, and I only use it once in a while. You see you have to let it go with a snap to get in the sharp curve, and this hurts your wrist. Nobody can tell me a sharp curve ball can be thrown without straining the wrist some anyway.

"The old style is good enough for me. Fast ones, slow ones, low and high mixed up is good enough if you have the arm and the head. I mix 'em up all the time, using a fast one around the neck more than any other, and as I get more speed each season it comes in handy.

"Sometimes you run against a fellow who can hit anything you pitch. Lajoie and Keeler don't worry me much, but the one who always makes me look cheap is "Kid" Elberfield, who is with Clark Griffith's New York team. He can hit anything I throw over, and so now when he comes up I cut 'em straight over and take my chance at some fielder being in the way.

"I had hard luck last season in my games. I lost eleven out of nineteen by one run, but at that I'm not beefing, for our own team was crippled all the year. Davis, Seabold, Hoffman, Hartsell and Dave Cross were out of the game a good part of the time, and this weakened the team. This season I'm about the only one who is out of condition, and I would like to bet we will be right there. I can't see why we haven't a swell chance for the rag. Connie Mack is the wisest of them all, and we have a well balanced team to boot.

"The only trouble with my arm is that the muscles are too hard. For anyone to have good speed these muscles should be soft and spongy so there will be no hitch in throwing. My advice to young pitchers is to take good care of their arms this time of the year and not to take too much work. Here is another point I'd like to give pitchers starting out—practise getting them over. If you haven't control you are not there and never will be till you get it. This is one of the reasons I manage to fan so many men each season. Two years ago I got 301, and last season 313. More of them fan on a high fast ball than any other kind, for I have good control of this and can shoot it right around the collar. You take a lot of pitchers with his high, fast one and they get it too high, where it goes as a 'ball,' or too low, where it is easy meat for the batter. But when you can shoot it fast where you want it there are not many who can trim you.

"In pitching you have to use your arm as well as your head, and I've been against American league batters enough to know just what most of them can hit and where they are weak. A pitcher should always keep on the lookout for a batter's weakness, for some fellows can kill one ball and are easy meat for another. The ones hardest to pitch to are those that hug the plate close and chop at a ball, instead of swinging. These fellows that stand back and swing hard are no trouble for a pitcher who keeps his eyes open to what is going on.

"The hardest club in the league for me to beat last season was St. Louis, and next to them Cleveland. I always got mine when I went against that St. Louis crowd and almost every game against Cleveland was for extra innings. One was fourteen, another thirteen and a third twelve, while two were eleven inning games.

"I am going to settle down and pitch ball this year, for I believe we have a good chance for the pennant, and I want to be in shape. I'll give 'em the best I have anyway. I see no reason why I shouldn't be as good or better than I ever was."

Worry Goes To The Stomach

Tears Down the Little Telegraph Lines That Operate and Control the Digestive Processes.

How To Repair These Telegraph Lines.

I will gladly give any Stomach Sufferer a Full Dollar's Worth of my Remedy Free to Try.

I ask no deposit—no reference—no security. There is nothing to risk—nothing to pay, either now or later. Any stomach sufferer who does not know my remedy may have a full dollar's worth free, if he merely writes and asks.

I willingly make this liberal offer because Dr. Shoop's Restorative is not an ordinary stomach remedy. It does not, indeed, treat the stomach itself. It goes beyond—it treats the nerves that control and operate the stomach. The nerves that wear out and break down, and CAUSE stomach trouble. For stomach trouble is really only a symptom that there is serious nerve trouble inside. That is why ordinary remedies fail. That is why my remedy succeeds. That is why I can afford to make this offer.

Yet do not misunderstand me when I say "nerves." I do not mean the nerves you ordinarily think about. I mean the automatic stomach nerves over which your mind has no control. I have not the space here to explain to you how the nerves control the stomach, or how they may be vitalized and restored. When you write I will send you a book which will make these points clear. But this much is certain ailing nerves cause all forms of stomach trouble—indigestion, belching, heartburn, insomnia, nervousness, dyspepsia. No stomach medicine will cure these ailments. Only nerve treatment will do that. No other remedy than Dr. Shoop's Restorative even claims to reach these nerves.

What ails the stomach nerves? Worry, probably. Mental anguish destroys their tiny fibers and tears down the telegraph lines without which the stomach has no more self-control than a sponge. Overwork will do it. Irregular habits will do it. Overeating will do it. Dissipation will do it. But the effect is the same—stomach failure.

No matter how these nerves became impaired—I know a way to rebuild their strength—to restore their vigor. It is a remedy which took thirty years of my life to perfect—a remedy which is now known in more than fifty thousand communities—in more than a million homes—as Dr. Shoop's Restorative.

If you have stomach trouble and have never tried my remedy, merely write and ask. I will send you an order on your druggist which he will accept as gladly as he would accept a dollar. He will hand you from his shelves a standard sized bottle of my prescription, and he will send the bill to me. This offer is made only to strangers to my remedy. Those who have once used the Restorative do not need this evidence. There are no conditions—no requirements. It is open and frank and fair. It is the supreme test of my limitless belief. All that I ask you to do is to write—write today.

For a free order for a full dollar bottle you must address Dr. Shoop, Box L-713, Racine, Wis. State which book you want.

PROVO VS U. OF U.

Strong Teams Will Line Up on Field and Track April 29.

Track teams representing the B. Y. U. of Provo, and the U. of U. will line up for a meet on April 29. This is the announcement made by Manager Riser upon his return last evening from Provo, where he has been for a couple of days in the interest of the event.

The meet is to be held at Provo, and a special train will be run to the Garden City for the accommodation of a large body of students. The University Dramatic club will go down on the date named and give an entertainment.

The Provo team is a strong combination; stronger than ever this year, and the boys feel confident of lowering the colors of Coach Maddock's men when they clash.

The friends of Adams, the pole vaulter, predict he will win the event for Provo, and will come close to the world's record, if, indeed, he does not break it. Provo has some fast runners also, and some dizzy surprises may be sprung. Maddock's men will surely have to go some to beat their opponents.

Portland, Or., April 20.—The local team redeemed itself today in the eyes of the fans by the brilliant game of ball which they put up. Jones, for Portland, was the center of attraction, holding the visitors down until the ninth, and only then letting up sufficiently to let Los Angeles get one run. Hall of Los Angeles pitched almost as well, holding the home team down to occasional scattered hits until the eighth inning.

The fielding of both teams was excellent, the feature being a running catch by Bernard, Los Angeles' right fielder. Mitchell, Portland's first baseman, was spiked in the ankle in the sixth inning and will be out of the game for several days. His place was taken by Murphy. Captain Flood of Los Angeles paid his fine and took part in today's game. Attendance, 5,000.

TAYLOR KNOCKED OUT.

Monte Attell Does It in Seven Rounds In New York Hotel.

New York, April 21.—Monte Attell of San Francisco has knocked out Kid Taylor of Chicago after seven fast rounds fought in a ring pitched on the top floor of a quiet uptown hotel in this city. The prize was a purse of $180, contributed by 48 spectators, and the battle was one of the liveliest seen in New York since the Horton law was repealed.

Among the spectators were lawyers, brokers, a few theatrical managers and a liberal sprinkling of young athletes from several college clubs in town.

The orderly quality of the spectators can be gaged from the fact that regular patrons of the hotel knew nothing of the affair.

The fight was pretty much in favor of the California boy from the middle of the second round when Taylor was rushed to the ropes under a rain of swings to the body. Attell forced maters in the third and fourth. Toward the end of the latter Taylor rallied and brought the blood from his opponent with a right hook to the face.

The Chicagoan was soon on the defensive again and by the end of the sixth he was nearly all out. Taylor managed to stand up through the seventh without delivering scarcely a blow. Just before the call of time Attell drove in a fierce left hook on the stomach. Taylor doubled up and fell in his chair. At the call of time for the next round he could not get up, although still conscious, so the referee gave Attell the decision.

"PENNY" GOSSIP.

Reilly's men will play the Bell Telephones tomorrow afternoon. On Sunday they cross bats with the Highland Boy smelter team.

Mount Pleasant, Mich., April 20.—Gus Gardner of Saginaw and Charley Coffee of Brooklyn fought ten rounds to a draw here tonight.

Manager McCreedie of the Portland baseball club has released Pitcher St. Vrain, First Baseman Clark and Catcher Swindells.

On the University campus tomorrow afternoon there will be a field and track meet between teams representing the east and west side High Schools. This meet will be one of the most interesting of the year as there is considerable rivalry between the teams.

A morning paper announces, with headlines, that word was received from Los Angeles yesterday that Harvey Holmes, formerly of the U. of U., has been re-engaged to coach the University of California athletes. The announcement of the re-appointment of Holmes appeared in the columns of the "News" several weeks ago.

C. J. Crabtree, a prominent horseman of this city, has gone to California for the purpose of securing a couple of fast runners, and to bring back his fast horse Crab Apple. He will enter the horses in the coming race meets.

TUTTLE ON RAILWAY RATES.

Says No Five Men Could Fix Them for Country.

Washington, April 20.—Lucius Tuttle, president of the Boston & Maine railroad was heard by the senate committee on interstate commerce today. He declared that no five men could fix the rates for the railroads of the country.

Mr. Tuttle had not concluded when the committee adjourned until 11 a. m. Saturday.

A letter was received from the interstate commerce commission replying to one from Chairman Elkins asking whether the Esch-Townsend bill would prevent differential rates under the provisions of the Constitution, which declares that no preference shall be given one part of the United States over another. The committee says the assumption is absurd.

BOWEN TO BLAME.

American Vice Counsel Says He Is Cause of Trouble in Venezuela

Washington, April 20.—Rudolph Dodge, American vice consul at Caracas, who arrived here today, says he knows President Castro well and that the latter cherishes friendly feelings toward Americans. When asked for a statement regarding the Venezuelan situation he said he did not care to talk about it now except to say: "The newspapers have exaggerated the situation in Venezuela."

Mr. Dodge expressed the opinion that the French cable company has broken its contract. Mr. Dodge told the state department officials that Minister Bowen is the cause of the delicate situation at Caracas.

Beef Trust Investigation.

Chicago, April 20.—The special grand jury investigating the "beef trust" today issued a subpoena for C. J. Davis, head buyer in the sheep department of Armour & Co. Davis, it is said, had almost completed plans to leave Chicago, having gone so far as to sell his home in this city. Davis has been in the employ of Armour & Co. for a number of years and is said to be in possession of valuable facts concerning sheep and sheep casings.

The grand jury today took up the investigation of the Aetna Trading company. A large number of witnesses were on hand. One of those who testified today is said to have been F. A. Fowler, manager of the beef department for Swift & Co.

Dist. Atty. Morrison stated today that it is probable the investigation will be concluded by May 1. He said that although the question of the part played in the beef business by the railroad companies may be taken up, it would not be under the interstate commerce laws, because this feature of the case is handled by the interstate commerce commission, which is to meet in Chicago on May 10. He also said that no part of the Garfield report on the beef industry was to be used in the grand jury investigation.

Russian Journalists' Congress.

St. Petersburg, April 21, 2:15 a. m.—The congress of journalists, which has been in session here privately, has developed strongly liberal sentiments. So many radical speeches have been made and such long discussions have been held that the congress was unable to conclude last night, as had been planned. It is known that the congress will recommend wide-reaching measures towards the liberation of the press, as well as a political program along the lines of the program adopted by the recent congress of barristers and doctors.

Governor of Yukon.

Victoria, B. C., April 20.—Private advices from Ottawa state that W. W. B. McInnes, member of the British Columbia legislature for Alberni, has been appointed governor of the Yukon territory, with a residence at Dawson, at a salary of $12,000 per year. He replaces Gov. Congdon, who resigned to contest the Yukon seat in the federal parliament and was defeated. McInnes leaves for Ottawa in a few days.

Reward for Murderer.

Bellingham, Wash., April 20.—The Whatcom county commissioners today offered a reward of $250 for the arrest of the murderer of Frederick L. Dames, the aged butcher killed here on the night of April 11. An effort is being made to have a similar offer made by the city of Bellingham.

National Letter Carriers.

Cleveland, O., April 20.—The advisory board of the National Letter Carriers' association today took the first official step towards the establishment of the proposed home for invalid, aged and incapacitated letter carriers, when a committee was appointed to look into the matter and report to the national convention at Portland, Or., in September. Three sites have been offered for the home. They are at Colorado Springs and Denver and in Texas.
