THE FISH DISTRIBUTION.

Nearly Three Tons of the Finny Tribe Given Away to the Worthy Poor.

The well connected and very generous scheme of Fish Commissioner Musser's, in supplying the poor of this city and county with members of the finny tribe, was carried on from the Bishop's General Store House, yesterday and today.

As a necessary preliminary to the distribution, the fishermen of Utah county made a raid on the scaly citizens of Utah Lake, and by means of seines or nets, a capture of three tons of "brain food" was the result.

This supply was distributed yesterday and today to all the poor and needy in the county, regardless of their religious belief, the distribution being made through the medium of the churches and charitable institutions of the community. The catch consisted of mullets, chubs and suckers, and many a worthy couple were enabled to sit down to their table with a nice fry of large, excellent fish before them.

Another distribution is scheduled for the near future, and in a short time Ogden will be made the recipient of a good haul. Mr. Musser is very enthusiastic on the fish question and is doing all in his power to have the public waters of the Territory stocked with the finny tribe.

The following letter has been sent to the Salt Lake county court:

Gentlemen—Permit me to inform you that an outlay of say $100 would secure a sufficient number of black bass and sunfish to stock the public waters of this county, which in a very few years would be of incalculable value to its citizens. The black bass is a superior fish, a rapid grower, a great multiplier and very game. The sunfish multiplies very rapidly, is an excellent pan fish, and affords almost infinite sport for the young angler. I am thoroughly satisfied that if you appreciated at the value of such a plaything you would not hesitate to appropriate the sum named for this purpose. I could almost guarantee that within a few years tons of these fish would be annually caught by local anglers. About four years ago I put into Utah lake 400 black bass, and since the fish of last June over 1,000 pounds have been taken out with hook and line alone. Fishermen say they abound there in great quantities. This is sufficient proof of their multiplying qualities. It is now the right season of the year to get spawn, which can be had for the mere expense of catching and transporting from Utah lake. Should you conclude to favor my suggestion, I will give me great pleasure to secure the fish and see them properly planted in Jordan river, without cost, so far as my personal services are concerned. Awaiting your careful consideration of the measure, and your answer thereon, I am, respectfully yours,

A. MUSSER.

Suffering from Cancer.

Friends of Roman Goodwin, of the First ward, will regret to be apprised that the cancer with which he has been afflicted for some years past, is rapidly spreading and that he is now in a very critical condition.

EDUCATIONAL NOTES.

County Teachers at the University—Debate on the Money Question.

The Salt Lake County Teachers' association is having an excellent series of meetings every alternate Saturday during the school year. At the session at the University held today Prof. Augsburg continued his lecture upon drawing, and Miss Holton again spoke upon "Story Telling." The meetings are largely attended, and are characterized by much interest and enthusiasm.

A very interesting and profitable meeting of the Oquirrh Literary society was held yesterday afternoon, the program consisting of piano solos, recitations, essays, charades and a debate. The program was the best that has been rendered by the society this year.

Programs for Thanksgiving observances are being prepared by the various schools of the city, and will be of a very interesting character. Parents should attend these exercises.

The Unity club announces for Wednesday evening a debate upon "Money." Messrs. A. T. Schroeder and H. W. Lawrence will be the champions.

The Sheldon Jackson college, which is to be under the auspices of the Presbyterian church, now appears to be an assured fact, and doubtless work upon the buildings will be commenced in the spring.

The Oquirrh have again organized and are being drilled by Earl McKee. It is Mr. McKee's intention to challenge the different juvenile companies some time during the winter.

Instructor Stebbins of the High School will lecture before the Phillips Congregational church on Thursday evening, November 21. Mr. Stebbins's trip through Europe will form the subject under consideration.

World's Fair first, California Midwinter Fair next. Highest honors at both went to Price's Baking Powder.

Praise for a Missionary.

To the Editor:

Owing to the failing health of C. L. Miller, who has been presiding over the Iowa conference, he has been honorably released from his labors. President Miller has been a faithful worker in the great cause of truth. He leaves many warm and true friends in Council Bluffs and vicinity where he has been laboring. He has won the hearts of the Elders over whom he presided for the last eight months, and I am satisfied that they will unite with me in wishing Elder Miller a long and useful life. Elder Otto Johnson succeeds President Miller in the presidency.

ANOTHER RAMBLER DAY.

The Rambler boys made a great showing in the Ogden races. The first event of the day was the ten mile road race, in which McCunahey finished third, taking third prize and third time prize. The second came the track race, Joe Beck taking second in the novice, Fowler first, Weller second, and Thatcher third in the mile scratch, class B, all "Rambler" you will note. In the half mile class A, Weller took second, Carter third. Half mile, class B, Thatcher second, Fowler third. Five mile, class B, Fowler second. In this race a man in a yellow suit lost his boat and fell, Cornelisser and Weller being immediately behind him, the result was a spill for these parties and the race left to Evans. The five mile, class A, was another Rambler event, May taking first, Joe Beck second and McCunahey third. Five-eighths mile, class B, one play is glory enough for any one.

People may laugh and people may cry,
And make sport of it if they please,
But Rambler's win makes whoever they go,
Regardless of how others feel.

Moral—Buy a Rambler! Ride a Rambler and you'll be a winner.

This supply was distributed yesterday and today to all the poor and needy in the county, regardless of their religious belief, the distribution being made through the medium of the churches and charitable institutions of the community. The catch consisted of mullets, chubs and suckers, and many a worthy couple were enabled to sit down to their table with a nice fry of large, excellent fish before them.

Another distribution is scheduled for the near future, and in a short time Ogden will be made the recipient of a good haul. Mr. Musser is very enthusiastic on the fish question and is doing all in his power to have the public waters of the Territory stocked with the finny tribe.

The following letter has been sent to the Salt Lake county court:

Gentlemen—Permit me to inform you that an outlay of say $100 would secure a sufficient number of black bass and sunfish to stock the public waters of this county, which in a very few years would be of incalculable value to its citizens. The black bass is a superior fish, a rapid grower, a great multiplier and very game. The sunfish multiplies very rapidly, is an excellent pan fish, and affords almost infinite sport for the young angler. I am thoroughly satisfied that if you appreciated at the value of such a plaything you would not hesitate to appropriate the sum named for this purpose. I could almost guarantee that within a few years tons of these fish would be annually caught by local anglers. About four years ago I put into Utah lake 400 black bass, and since the fish of last June over 1,000 pounds have been taken out with hook and line alone. Fishermen say they abound there in great quantities. This is sufficient proof of their multiplying qualities. It is now the right season of the year to get spawn, which can be had for the mere expense of catching and transporting from Utah lake. Should you conclude to favor my suggestion, I will give me great pleasure to secure the fish and see them properly planted in Jordan river, without cost, so far as my personal services are concerned. Awaiting your careful consideration of the measure, and your answer thereon, I am, respectfully yours,

A. MUSSER.

EDUCATIONAL NOTES.

County Teachers at the University—Debate on the Money Question.

The Salt Lake County Teachers' association is having an excellent series of meetings every alternate Saturday during the school year. At the session at the University held today Prof. Augsburg continued his lecture upon drawing, and Miss Holton again spoke upon "Story Telling." The meetings are largely attended, and are characterized by much interest and enthusiasm.

A very interesting and profitable meeting of the Oquirrh Literary society was held yesterday afternoon, the program consisting of piano solos, recitations, essays, charades and a debate. The program was the best that has been rendered by the society this year.

Programs for Thanksgiving observances are being prepared by the various schools of the city, and will be of a very interesting character. Parents should attend these exercises.

The Unity club announces for Wednesday evening a debate upon "Money." Messrs. A. T. Schroeder and H. W. Lawrence will be the champions.

The Sheldon Jackson college, which is to be under the auspices of the Presbyterian church, now appears to be an assured fact, and doubtless work upon the buildings will be commenced in the spring.

The Oquirrh have again organized and are being drilled by Earl McKee. It is Mr. McKee's intention to challenge the different juvenile companies some time during the winter.

Instructor Stebbins of the High School will lecture before the Phillips Congregational church on Thursday evening, November 21. Mr. Stebbins's trip through Europe will form the subject under consideration.

World's Fair first, California Midwinter Fair next. Highest honors at both went to Price's Baking Powder.

Praise for a Missionary.

To the Editor:

Owing to the failing health of C. L. Miller, who has been presiding over the Iowa conference, he has been honorably released from his labors. President Miller has been a faithful worker in the great cause of truth. He leaves many warm and true friends in Council Bluffs and vicinity where he has been laboring. He has won the hearts of the Elders over whom he presided for the last eight months, and I am satisfied that they will unite with me in wishing Elder Miller a long and useful life. Elder Otto Johnson succeeds President Miller in the presidency.

The Discovery Saved His Life.

Mr. G. Calhouette, Druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at Z. C. M. I. Drug Department.
