MAYOR BRANSFORD IS A CANDIDATE

In Response to Request of Friends He Consents to Seek Renomination.

TO HEAD "AMERICAN" TICKET.

Revised List of Delegates to the Citizens' Convention—Some Current Political Gossip.

In response to continued pressure which has been brought to bear upon him by his friends since his earlier declaration that he was not seeking the nomination for mayor of Salt Lake City in the coming campaign, Mayor John S. Bransford has consented, under certain conditions, to permit his name to be used in connection with the nomination. It is a well known fact that the better element of the so-called "American" party has been anxious for Mayor Bransford to signify his willingness to make the race this fall, because of the fact that with all the chicanery and high-handed methods used by the benchmen of the "inner circle" in the role or ruin policy of conducting the affairs of this city during the past three years, Mayor Bransford has always stood out for a business administration, as far as was possible with one man, for the city government. That he has differed in matters of policy with some of his friends is a matter of history, and on this account the most strenuous opposition to him in the "American" camp has developed.

There were those among the friends of Mayor Bransford who wished him to run for mayor, who were not of political affiliation with the party in which Mr. Bransford has been training for the last three years, but who appreciate his ability as a business man and his clean record as a business mayor. These sought also to induce Mayor Bransford to consent to run again. And now that he has consented, in his letter which is produced below, these friends not named are claiming that he has cut himself off from a great deal of support which he might otherwise have secured.

"Mayor Bransford in his letter," said a well posted gentleman this morning, "has in my opinion shut off any indorsement which might have been made of his candidacy by anyone else than the 'American' party. The men favoring his renomination did not belong entirely to the 'American' party, and although the letter requesting him to consent to run again was signed exclusively by members of that party, there were others of all parties who wished to see him make the race, and it was so understood by him."

THE MAYOR'S REPLY.

Saturday evening Mayor Bransford sent the following reply to the letter: "E. A. Wall, W. Mont Ferry and others:

"Gentlemen—Your communication at hand. In view of the request made by you in view of talks and requests made by others, if the American party desires me to again lead them in a campaign, I will be a candidate for mayor, subject to the decision of the convention to be held on Sept. 28. I thank you and all those who have been my friends in the past, who are my friends now, and especially do I thank the people of Salt Lake who, by the large plurality given me at the election two years ago, elected me mayor of Salt Lake City. If the American convention shall name me as their candidate I will do as I have in the past campaigns, everything in my power to lead the party to victory.

"JOHN S. BRANSFORD.

Big Increase is Shown in Consumption of Utah Beer

H. T. Haines, state statistician, has compiled figures showing that the brewing business in Utah has increased 45.5 per cent from 1905 to 1908. The number of barrels of beer manufactured in the state in 1908 was 144,592 as against 99,477 in 1905. The value of the beer is estimated at $1,016,024 in 1908 as compared to $731,527 for 1905, which is an increase of $284,497.

The capital invested in the breweries in the state in 1908, was $1,564,476.23 as against $989,819.87 in 1905. During that period five new breweries have been established. The value of the holdings of the breweries is shown in the following table:

	1908	1905
Value of buildings and grounds owned	653,757.49	$402,432.80
Value of machinery, tools, etc	453,578.60	201,100.07
Value of all other property invested in the business	476,739.84	386,287.00
Total capital invested	$1,564,076.23	$989,819.87

Utah barley is used almost exclusively by the breweries. The total value of the native barley used in 1905, amounted to $64,204.26. But in 1908, the barley used was valued at $88,317.83, and of the total amount of barley used in 1908 only $2,800 worth was purchased outside of the state.

The value of the malt manufactured in the state in 1908 was $76,436.84, as compared to $77,096.02. The malt purchased outside the state in 1905, was valued at $71,875.40 as compared to $11,070.90 in 1908. The total value of malt consumed in the state in 1905 was $98,971.42 as against $187,509.74 in 1908.

The statistics show that 82.1 per cent of the output in 1908, was sold in the state. In 1905 there was 86.2 per cent sold within the state. The breweries employed 212 men in 1908 as against 168 in 1905.
