State Court Slip of Gladness.

There are many controversies and conflicts on the railroads of the United States which are not to be found on the railroads of Europe. We have made the greatest advances in the matter of railroad appliances. Among these are the system of signaling, car construction, telegraph system of train orders, the air brake, great improvements in track and heavy locomotives. These improvements originated in the United States, while the railroads of this country were equally ready to adopt any improvements originating in other countries. By 1860 the railroads of the United States and England were equipped with air brakes, but France and Germany were just starting out commissions to examine them. Taken all in all, the people of the United States get a better service for the way of speed, number of trains, comforts and convenience than any other country. From these facts we come to no other conclusion than that the railroads of the United States are unsurpassed by any standard in excellence.—Railroad Gazette.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. This is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skilled physicians, but if in need of a laxative, one should have the best, and with the well-informed, everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Beecham's pills are for biliousness, bilious headache, dyspepsia, heartburn, torpid liver, dizziness, sick headache, bad taste in the mouth, coated tongue, loss of appetite, sallow skin, etc., when caused by constipation; and constipation is the most frequent cause of all of them.
