TRANSPORTATION CODE.

It is evident that everything that can be done to make it pleasant for the various excursionists will be attended to. Citizens who go to the cities of Salt Lake always do when excursions are held in their honor—the will each other in offering cheer and hospitality. This morning the Rapid Transit Street Railway company decided to give free transportation in the vehicles over their lines during the stay of such here. The all arrangements are to meet with the management of the Salt Lake Street Railway company this evening, when the latter will in all probability, follow the good time code on such occasions by ordering their conductors to refrain from collecting fares from the fire-eaters.

District Court Orders.

Judge Street made the following orders in court today:

State vs Thos. G. Haley; application to send defendant to reform school denied and he was discharged.

Thos. W. Whitney et al vs Wilmore Pioneer company; leave granted to file amended complaint and ten days allowed for answer after filing.

Ah Tie vs M. Shaughnessy; motion to dismiss appeal set for next Saturday.

Fox vs Young; demurrer to complaint overruled without argument and ten days allowed for answer.

Gillet vs Taylor; leave granted to use deposition on appeal as part of transcript on appeal.

J. H. Smith vs F. W. Hayes; demurrer to complaint sustained.

Fenwick Walker vs Charles Sutton; orders for original and files substituted.

George S. Carty was given certificate of ten years' service in the United States army.

Geyser Mining company vs J. H. Bacon et al; petition of the Travelers' Life Insurance company for an order requiring the receiver to distribute any interest in the sum of $10,000 equities in the First National bank of New York and release the same from all claims granted.

Mary Lahiff vs H. MacCurtl; order of imprisonment.

Clark vs Clark, divorce; decree granted.

Liberty Park Concert.

Held's band will give the following concert program at Liberty park at 4:30 tomorrow:

March, Grand Wedding	Aubin
Overture, Lucia Bride	Liberi
Selection from Gems of Scotland, arr. by Jos. Ascher, for the celebrated Scottish singer and violinist	Wallace
Overture, Under Fire	Metzler
Lady Minstrel, Fantasie	Herbert
Sign in Spain	Jonas
Dance of the Gnomes	Hubler
INTERMISSION.	
March, Crown Light	Sousa

CHAS. L. BERRY, Secy.

MINOR MENTION.

Editor W. H. White of the Evening Free, Ogden, is in town.

General Manager Dickinson of the Union Pacific arrived in Salt Lake on business today.

Elder A. H. Patterson is going seriously ill at his home on Lincoln avenue in the First Ward of this city.

The Union Pacific this afternoon brought down a special train of I. O. O. F. Ogden excursionists who spent the day at Garfield.

Passenger Agent Bailey of the Union Pacific took a run out to Evanston, Wyo., the outlaw, where during the day he was to meet the morning fire chiefs and return with them.

On August 20 the Uniform Rank Knights of Pythias will celebrate at Garfield the anniversary of the formation of that branch of the order. Col. H. G. Wardleigh will address an assemblage of the three divisions, Ogden, Park City and Salt Lake, which will be present.

DAILY WEATHER VANE.

Observations Taken at Utah, Idaho, Montana, Oregon and Nevada Stations.

Weather reports showing observations at 8 a.m. today:

Salt Lake City—Barometer, 23.93; temperature, 64; minimum, 55; wind, calm; clear.

Baker City—Barometer, 29.94; temperature 56; minimum, 48; wind, south, light; cloudy.

Cheyenne—Barometer, 29.94; temperature, 56; minimum, 48; wind, northwest, light; clear.

Helena—Barometer, 30.02; temperature, 46; minimum, 46; wind, southwest, 6 miles per hour; clear.

Idaho Falls—Barometer, 30.06; temperature, 48; minimum, 48; wind, north, light; cloudy.

General and local forecast for 36 hours ending 8 p.m. Aug. 8th:

For Utah, fair tonight and Sunday; stationary temperature.

Salt Lake City and vicinity, fair, stationary temperature.

J. H. HAMIN,
Observer, Weather Bureau.

Today's low centigrade readings in the ice stable thermometer given below:

THE MINING MARKET.

Week of the Bulls and Bears on the Stock Exchanges.

SENCUR SELLS AT $2.75 PER SHARE

But Assets is and Around the Rim of Park City and Parts—the Checkmate Strike.

The Mercur stock which is generally sold at or around $7 per share, received a stock eye in the pit of the stock exchange today, when 100 shares fell under the hammer at $2.75.

The day's sale was very quiet with no improvement in the speculative of the extent of the trading. One hundred shares of Anchor changed hands at $1.55 and Swansea found a taker at $1.69. Centennial-Eureka was held at $17 today while Ontario stock reached the sum of $28. Brooklyn received dividends due of $2.50, but holders of the stock demanded $3.25.

The closing figures were as follows:

TRANSFERS OF STOCKS.

One hundred shares of Anchor at $1.55 per share; 100 Mercur at $2.75; 100 Swansea at $1.69. Total shares sold, 300.

MINING IN TINTIC.

The Eureka Hill Company's Report of Operations for the Week.

Prof. W. H. Meeker is again with us and expects to locate some time and give payment satisfaction to his mining interests here.

A strong flow of water has been encountered in the shaft of the Burlington mine and mining will be discontinued until a pump is put in.

The Shamrock group of claims and the Sequoia were surveyed for patent by U. S. Deputy Jas. Sec. Lapham and W. B. Pitts are applicants for patent.

Hon. Allen G. Campbell, who owns the great Vanderbilt mine in Yellow Pine district, Nevada, has made an order for a new carbon equipment for that mine that will cost about $60,000.

The Eureka Hill mine made a temporary draft of some 25 men from the day and night shifts on Wednesday, owing to a scarcity of water to operate the drill in its full capacity at present.

Dr. Fred Stauffer went into the city on Monday to attend a meeting of the directors of the Cleveland company. The contract for sinking an additional 100 feet on the property was finished and the work has already begun.

The Carisa mine, one of the oldest in the district, produced nearly 150 tons of ore last month. The lease is Mrs. Bickerton's and shares have been taken out and transferred to the Utah. The mine is now 100 feet above the level and has developed the ore body down for that distance. The three new

Good Blood

is essential to health. Every organ and tissue of the body depends upon the blood for its support. Every function of the system is reached by the blood, and so frequently does an efficient and easy organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh and other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla

100 Doses—$1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills take, easy to operate, 25c.

mines now breaking ground in the Utah will soon have a representation of Virginia territory around the property. Lumber and materials are being carried to the mines in new and improved transportation.

G. C. Kemp, the Dolly's manager, returned from a trip to Denver and Leadville, where he spent a week. Leadville paid this company a visit some time ago and the Dolly made the best showing of the quartet in the new camp. Messrs. Rowe and Lakemann were very favorably impressed with the showing of the Dolly. These from what they saw while here, are sure to embrace for through the mining regions of Utah and Montana on their return home. The Dolly made the most favorable impression on the most favorable ground for development, since coming to Utah these gentlemen took occasion to expand upon the subject and spoke in the highest terms of the Dolly's showing. We trust they will find enough discoveries sufficient to interest their friends.

One of the most important strikes so far made in the camp, the result of improved mining methods, has been made in the Ontario. The property is owned by Jack Knight of Provo, who has had a force of men at work driving a prospect tunnel for the Ontario the first of May, and on Wednesday was rewarded by breaking into a fissure of high grade silver ore, 200 feet from daylight, necessitating a very expensive lick formation of the Ontario of which is a good exhibit. Mr. Knight is highly elated over the good fortune and will at once begin the construction of a wagon road to the mine, and also erect suitable buildings. These will have joined their with a tramway connection are all ready. We look for more of the same kind of ferry from that locality before the snows again whiten the hills.

From the Park Parties.

Dr. Carson A. Rice visited Salt Lake last week for the purpose of buying machinery for the Dolly and Ontario Mining company, of which he is a director. At Salt Lake he was joined by John Nelson, the manager, and together a Sidnaw-power engine and a sinking pump. The machinery was shipped to the mine, which is situated in the Dolly mining district.

Messrs. Keene & Weber, owners of the Silver King jigging plant, began jigging their fifty-five mine dumps Saturday and Sunday, and Monday. It is said to be one of the most compact hand jigging plants in Utah. It certainly is one of the neatest in Park City, with a pay roll of $1,500 a month.

The Lucky Bill was filled up with a bright copper ledge late last week. The work for the lease on the Alice has not as yet been resumed. It is believed that the mine will be unwatered in the near future, if not sooner.

The owners of a valuable group of five adjoining claims situate in Dalton canyon, in the Blue Lodge mining district, were meeting last Friday evening for the purpose of organizing and incorporating. The parties interested in the C. Lincoln Silver Mining company intend to commence to develop it into a mine as a per valuation of $1 each. The officers elected are: Dave Evans, president; W. D. Sheppard, secretary; John J. Fisher, treasurer; Dr. Rice, Andrew Ellison and David McNeale, constitute the board of directors.

Unless a change in present plans takes place the tops of the Ontario mine will be presented with their monthly checks next Saturday.

The work of pulling the new machinery of the Daly-West in place is progressing quite satisfactorily. During certainly, it is believed the new machinery will be in shape to resume a full working force in the mine on or later than August 20. Pay day of the Daly-West the front one of the coming week.

The shipments from the Mammoth amount to six weeks are as follows: Silver King Consolidated, 32,840; Silver King, one-third, 32,000; Silver Creek Junction, 35,000. Total summer pounds, 1,294,720.

The Checkmate Strike.

Concerning the Checkmate strike in the Willow creek district, Idaho, the Boise Statesman has the following:

The latest report about the Checkmate is that a stack of ore has been opened up at the lowest point reached that is two feet wide and 12 inches pay ore in gold. This, of course, is only a report but it comes from a source that is most reliable, and it is probably correct. It is known that the company have been cross-cutting at the 100-foot level to catch the rich ore vein, and it is undoubted that it is in this drift that the discovery has been made. However, one thing is certain—the mine is producing and the ore taken out is rich, enough to be being sent regularly, sack upon sack, to the mill. The men who use the contract get behind with his work and are compelled to stop for an indefinite time. How rich the ore is is no one knows. No one even has an opportunity to see it, as it is packed in the mine and sent to Boise in sacks from the pinch. From the time it is mined until it is opened in the works or the purchasers it is under guard.

So, while no definite information can be given regarding the property, enough is known to warrant the claim made that the mine is a very good one and is giving satisfaction to its owners. The property is owned in part by men connected with the Union Pacific and to use a common phrase they make it point to go over there to take a look at the mine as whenever they are in this section. The fact that the mine is in such hands is supposed by some people to offer selection to the mine. Whenever it may serve their purpose to hold the pinch know just what they have there.

Rips and Spurs.

E. G. Mathews is the latest applicant for membership in the stock exchange.

The stock exchange floor is being painted and an artistic sign has been painted on the window.

The Tecoma Mining company received Monday from Salt Lake 100 sacks of Portland cement. The mines are located in Ophir county.

The telephone wires were down somewhere between this city and Bingham canyon, and communication with the Big Bonanza district was during on all.

At a meeting of the governing board of the mining exchange yesterday morning the advisability of getting up a club such as was discussed with the dissolution of the old one was given a view of the members. With regard to the proposition of the exchange having companies, Secretary Vigneron of Saving called on Chas. Sackett, Jay Robinson who is owner of the stock in question, and asked if it is his mother would not be remedied.

DO NOT WANT HIM.

Sandy People Object to the Burial of Hardener Charles Thiede

IN THEIR QUIET LITTLE CEMETERY

Thought a Fitting Place for the Body of the Killer's Victim Not Wanted.

A Lawyer Will Work.

Citizens of Sandy are decidedly in a quiver because Mr. Schmitt, brother-in-law of Charles Thiede, who was yesterday hanged for the murder of his wife, into the body and interred in the lot in the quiet little green spot in Sandy. Last night a delegation of people were seen on the street corners of the usually tranquil little another town, discussing what they considered an effort to trample on decency and dignity, in the burial of a wife murderer among their beloved dead. From attempting this the matter grew into the form of threats, several residents of the town had determined to insist upon the removal of Thiede body by the relatives of boy would take action themselves.

Fearing that the peace of the peaceable town might be ruffled out the night, or that some violence to the latter might result, Mr. and Mrs. Schmitt, the latter Thiede's sister, sat all night on the grave of the executed man and kept lonely vigil over the newly made mound. No violence was attempted last night, but danger is interpreted to all yet exist and Mr. Schmitt are taking precaution, which, of course, will be extended if matters become so complicated as to require it in the judgment of the officers.

It has been the intention of Mr. and Mrs. Schmitt to remove the body of Mrs. Thiede, who is buried at Murray, and inter it alongside of the convicted man who executed for her murder. As the lot in which Thiede lies is a family one and they are in ignorance as to how interfering the burial of executed persons in the family cemetery, it is contrary to the officers that it will be greater of course to interfere, but the relatives of Thiede at that place are not that those most intimate excuse from indignation on their part against the Sandy people. Wednesday evening it was thought the body would be brought to Sandy and the remains to be interred in the lot in question. Thursday morning the plans were changed and the body was taken to Murray and interred in the family lot.

The relatives of Thiede are greatly incensed at the action of the Sandy people and have decided to take a hand in the matter. They have decided to employ a lawyer and have the matter taken into the courts. The lawyer will be Mr. Hoyt, who is a relative of the family. Mr. Hoyt is a member of the Salt Lake bar and is a man of ability. He is a member of the firm of Hoyt & Hoyt, and is a member of the firm of Hoyt & Hoyt, and is a member of the firm of Hoyt & Hoyt, and
