PRESIDENT AND PARTY A dispatch by meeting at . p.m. to-day at 1 ranklin. The members of the party are all well.

SABBATH MEETINGS. - Yesterday morning Elders David Candland and Geo; Q. Cannon addressed the congregation; in the afternoon Elder Orson Pratt and President ceo. A. smith occupied the time.

buse, this morning, at half past - welack, Edith, daughter of Warren and Loretta J Hussey, aged - months and days. The funeral will take place-from Mr. Hussey's residence, 7th Ward, to-morrow at one

wild readily at the Menagerie in this city. See advertisement in to-day's paper

Parnsworth, just in from Sanpete, we learn that Sanpete county, heretofore one of the greatest grain-producing districts of the Territory, is almost entirely stripped of its crops this year by the grasshoppers. The fields, generally, look almost as bare as the road. Ephraim has in past years suffered less from their ravages than any of the people at the time of the first onset of the hoppers, the crops look well, and it is probable a fair yield will be realized. In those countles the insects seem to be flying west. We wish them all possible speed to the western desert or the Salt Lake.

SERING PLEASURE. - We noticed numbers of merry-looking pleasure seekers remove his ground wire until fifteen or making for the depot on Saturday to take | twenty minutes of two o'clock, the 'atal train for Lake Side. The day was sufficleatly warm to make the cool shade up there enjoyable, and the excursionists had a splendid time. The young folks of the 16th and 19th Wards purpose taking a trip up there the present week, and several ville said he was afraid it was too late. schools about the city have in anticipation as the officers of the law, with the culthe same thing. Our facilities for gaining prit, had left the jail some time before pleasure have been greatly enhanced accommodations extended by the U.C.R.R. of execution. I am happy to say he or by a ride to Ogden and spending the re- time to save the life of the condemned. mainder of the day in sporting at Lake

OTORT TO BE SEEN TO .- There is a well about six or seven feet in diameter at the mouth, some say it is sixty and some say over a hundred feet deep, but we think the latter nearer the mark, on the north bench, which has been left open for some considerable time, and is very dangerous; cattle or haman beings passing that way on a dark night might walk into it and constitute a 'mysterious disappearance,' It either ought to be filled up or covered over, but perhaps it is nobody's particular business.

BRICKS! BRICKS!-The Porterville (Morgan county) Co-operative Company are doing a big business in brickmaking, and will be prepared in a few days to supply the market with any number of bricks, as good as any made in the Territory, at a which may be done without charge. This price lower than before offered. They will have eighty thousand ready for the kiln directly; and we hear that it is their intention to deliver them in Salt Lake City, at about eighteen dollars per thousand. Their bricks are moulded at the rate of 16,000 per day with a brick machine made at Porterville by Brother Smethburst, of that place.

LEVAN. - By a communication from Elder Isaac W. Pierce, dated,"Levan, Juab county, June 15th," we learn that matters are moving along comfortably at that place, under the presidency of Elder Samuel Pitchforth. The grasshoppers have done great damage to the small grain crops, but the people are busy re-planting, and the peats were on the wing, northward. The damage to the gardens is but trifling. The settlers have enlarged their field this Spring, and have now 1,000 acres of good farming land enclosed. The co-operative store and Female Relief Society are in a flourishing condition; also the Sunday and day school. tieneral good health prevails, and the people are alive to the work of God.

CURTIS MODELS-PRICES REDUCED TO MEET THE TIMES !- The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory: but the sure way is to prove it for one's seif system removes all anxiety regarding the FIT or garments, as all its directions are absolutely positive. There will be no altering-no taking up or letting out, which not only injures the material but destroys the proportions and often ruins the garment. The system is very simple and can be learned in a few hours.
