# TELEGRAPHIC.

## PRISONERS IN CHINA.

### The Members of the Commission Sent to Investigate the Riots.

### MARINES MAY HAVE TO BE LANDED

Officials in Washington Place No Credit in the Story Coming by Way of London.

LONDON, Aug. 23.—A special dispatch from Shanghai says members of the commission which is to recover lands for Fai Chow to investigate the recent massacre of missionaries are virtually prisoners. Consuls under Consul of the United States under Consul of the United States Dalziel has gone to Chang Te to meet with Li Hsiang, the viceroy of the United States consul at Fai Chow, a leading member of the commission, also holding himself for his protection and the protection of the other commissioners.

A special dispatch received here from Shanghai says that many Chinese rioters were captured when the American marines landed at Fai Chow and were shot without trial. Two were shot by order of an infuriated man, who, early during the morning of August 22nd, Commissioner Newell of the United States cruiser Detroit had gone to Chang Te to meet with Mr. J. C. Hixson, the United States consul at Fai Chow, and, for the protection of his protection, and for the protection of the members of the commission, investigating the massacre, as the leader of the recently prisoners.

The dispatch adds that the Chinese officials are jubilant at the defeat of the efforts of the American and British consuls to obtain an open inquiry into the massacre. It is also said that the delay in getting the Chinese time to inquire into the matter for the prisoners.

DISCREDITED AT WASHINGTON.

WASHINGTON, Aug. 23.—It is said here that Ria Chang is much nearer Chang Te to meet Mr. J. C. Hixson (Hixson, as Chang Te is the scene of the late riots, and 1,400 miles from Fai Chow. Naval officials, though without information themselves, are inclined to discredit the information of the dispatch. Acting Secretary Adams said it was observed that dispatches of this character came by way of London, while another high naval officer said that there was no evidence that the United States government to pull chestnuts out of the fire. The navy department thought that if commander Newell had gone up any such mission, the government would be notified. It is also said that matters had entirely ever issued at the report of any consul, especially when there is a minister in the country, however, should there be cause of the kind indicated, the United States has a strong force in Asiatic waters. Seven ships are available, some of them good cruisers, our fine battleship the Baltimore (flagship), the Charleston, Detroit, Yorktown, Marion, Monocacy and Concord. The last named four are not very formidable, though good fighting ships. The new elegantly ships will leave on the Atlantic coast in a very short time, so she is now being coaled at San Francisco.

It is said at the state department that if the report is true that Viceroy Li has been appointed to investigate the Chang Te riots, then the foreigners have good cause for complaint. If the report be true, it is probable both the British and American governments will protest. Viceroy Li was governor of the province in which Chang Te is situated, and he was said to have been guilty of gross negligence, which by some persons was regarded as amounting to complicity in the Chinese riots of last June. There are a great many men in China named Li, and it is thought that possibly there are less a connection of names.

**In Opposition to the S. P.**

San Jose, Cal., Aug. 23.—Articles of incorporation of the San Jose & Alameda railroad were filed today, and a bond guarantee deposited in the First National bank of San Jose. The company will build a broad-gauge road from Alviso to San Jose. From San Francisco a regular line of bay steamers will ply to Alviso, conveying freight from Oakland, Valejo, Benicia and other bay points in opposition to the Southern Pacific.

**Cuban Constitution.**

PHILADELPHIA, Aug. 23.—News has been received in this city that a complete governmental scheme has been formed by the Cuban insurgents at Nalada by a conference of the delegates from all over the provinces on the islands. The conference was presided over by Gonzalez Planas, and other leaders present were Antonio Maceo, Garcia and Guimo. A constitution was adopted with liberal propositions, and was enthusiastically received by all the chiefs in the field, to which it was sent. The instrument provides for five states in Cuba, each to have a chief of its local affairs under a vice-president.

The general government of the island will be vested in a president and a cabinet, and the form is similar to that of this country. No seat will be the capital, because it is well situated for defense.

An infallible guide to good results in cooking—Dr. Price's Baking Powder.

**CHICAGO DRAINAGE CANAL.**

**Water Probably Leaves the Level of the Lakes Six Inches.**

WASHINGTON, Aug. 23.—The report of the board of army engineers appointed by the secretary of war to examine and report on the effect the Chicago drainage canal would have on the water of Lake Michigan, has been received at the war department. It is probable it will not be made public until the return of Secretary Lamont, who is expected Saturday evening. Very little can be learned as to the contents of the report, although it is understood it finds that the canal probably would reduce the average level of Lake Michigan about six inches and possibly Lake Huron the same. This lower level, no doubt, would be objectionable to the shipping interests, but the lake has varied from one cause or another, such as lack of rainfall or unusual evaporation, more than one foot in different years, and ships have been built with a view to accommodating themselves to this reduced level. It is understood that the position taken by the board is that the former variations are seen as not to make the reduction of six inches of very great importance. It is therefore probable that the building of the canal will not be stopped by the government, though certain restrictions may be determined upon so as not to create any great waste of water.

**THE DURRANT TRIAL.**

**Another Attempt Jurymen Thought to be Objectionable.**

SAN FRANCISCO, Aug. 23.—The proceedings in the case of Theodore Durrant, charged with the murder of Blanche Lamont, to-day ran into trouble over an unexpected point. The issue in the examination in the business partnership of Jerd Nathan Crocker, Mr. Jewett and Mr. Quarry, which has been used in operation since a lead to interest in the respective merits of rival and blue rock for concrete work in sacramento. The friends of concrete in not present in favor of blue rock, but the red rock contractors are making a strong fight for the acceptance of their stone.

Attorney Dickinson of counsel for Durrant is also attorney for the majority in the board of supervisors. He is credited with influence over his friends, and the opposition feels this will outweigh from Crocker's instructions as a juror. The basis of the objection to Crocker is that, after the attendance had come to light which, if known before, would have caused the prosecution to challenge him.

It is now considered certain that Durrant will be witness in his own behalf. It is said that the determination was reached after Mrs. Lonk came forward as a witness, stating that she had seen Durrant and Blanche Lamont enter the church together on the day Blanche disappeared. From questions asked veniremen by defendant's counsel, it is believed that at least six jurors will corroborate Durrant's alibi statement.

It has been known that the defense would make a vigorous attack on the police and seek to show that they had treated Durrant unfairly. It is now said that the policy of the defense also includes an attack on newspaper men, and that their accountability will be asserted.

No progress was made today in the court proceedings in the trial. Over forty veniremen were examined, but none were accepted. The case will be resumed on Monday.

**Southern Central Sold.**

ROCHESTER, N. Y., Aug. 23.—Pursuant to an order of Justice Charles E. Parker, Referee Sidney Smith, the Southern Central Railroad was sold under mortgage foreclosure here today to Benjamin P. C. Hill. The property was knocked down to the stockholders' committee for three millions of dollars, which was paid on the spot.

**U. P. RECEIVERSHIP CASE.**

**The Road Said to Have Been Robbed by Corrupt Financiers.**

SEATTLE, Wash., Aug. 23.—The feature of the morning's proceedings in the Northern Pacific receivership case was a two-hours' address made by ex-United States Senator Sanders, of Montana, counsel for the company. While only the question of jurisdiction has time or been raised in the case, Senator Sanders went into the history of Villard's scheme, by which, he said, the Northern Pacific was robbed of thousands of dollars which should have gone to the stockholders, but which went into the "coffers of Villard and other polished and corrupt financiers."

The afternoon argument was made by Senator John H. Mitchell, of Oregon, and ex-Senator John B. Allen, of Washington, both for the Farmers' Loan and Trust company; by D. J. Crowley, of Tacoma, and ex-Senator John C. Spooner, of Wisconsin, both for the receivers, and by Col. Silas W. Pettit, who will close for the railroad company tomorrow at noon.

**Gold Men Jubilant.**

LONDON, Aug. 23.—The Times's Berlin dispatch says:

"The supporters of the gold currency are jubilant at the statement made by Hon. A. J. Balfour, first lord of the treasury, in the House of Commons, to the effect that the English government will take no steps looking to an international bimetallic conference.

"The *National Zeitung*, the correspondent says, "expresses the hope that the long silence which the German bimetallists have kept in the face of the decided stand taken by the English government will now be broken, and that Mr. Balfour's statements will put an end to the deliberations of the federal government on the question. Only noisy agitators believe that action in opposition with the England's cooperation."

**HINTING AT BORN BONDS.**

**Greenback Currency Must Be Retired, Says Mr. Cleveland.**

NEW YORK, Aug. 23.—The *Morning Advertiser* quotes Mr. S. S. Cox, of Tammany, as stating that instead of President Cleveland, as making the following statement:

"Unless the Democratic party comes out squarely in its platform in favor of the retirement of greenback currency, I will vote against it and in favor of the party that does. The greenback is useless in time of need as a circulating medium, and serves only as a circulating pump to draw gold from the treasury. This pump will soon be in operation so soon as commercial conditions warrant, undoubtedly at the point so far obtained, at the rate of gold and syndicate work, and compelling a repetition of the sacrifice by the government and the drain of last year."

At World's and Millionaire Fairs, Dr. Price's Baking Powder received highest awards and gold medal.

**Cardinal Gibbons Back From Rome.**

NEW YORK, Aug. 23.—After an absence of Seven Weeks, Cardinal Gibbons returned from Europe today on the Campania. When the boarding officers reached the Campania, Cardinal Gibbons was seen on the upper deck, talking to Bishop Foley of Detroit and Archbishop Riordan of San Francisco and several other clerical men who were in the party. When seen by a reporter of the Associated Press, Cardinal Gibbons said: "My visit to Rome had no special significance, as it is not many for me to visit the holy father every eight or ten years, or perhaps oftener. I had several audiences with Pope Leo, the last one being on June 9th. The holy father, although a little more feeble, looked much better and stronger than when I saw him last, eight years ago. He is a most remarkable man for his age, which is 85 years. His faculties are unimpaired, and he is wonderfully bright."

**RUNNING SCANDALS.**

**Charges Against People Connected with the Insane Asylum.**

CHICAGO, Aug. 23.—The scandal arising from the death of Patrick Peck at the Dunning hospital has resulted in charges being preferred this afternoon against the following men: President Healy, Superintendent Morgan, Commissioner Ritter and Inspector Evans.

The filing of charges was begun at 3 o'clock this afternoon, during the special session of the investigating committee held in the county commissioner's room in the county building.

It became an evening when as soon as Commissioner Kaufmann got up and preferred charges against President Healy and Superintendent Morgan, alleging that they were related enough to the Dunning asylum which have been robbed, and for continuing contracts with men who are alleged by the president and the superintendent to have robbed said asylum.

Commissioner Ritter followed with another batch for Healy, alleging in his charges that the president is violating the civil service law by favoritism, incompetency and neglect of his official duties.

Attorney O'Donnell then appeared for Contractor Kern, and preferred charges against Inspector Evans at the Dunning asylum for his alleged soliciting of a bribe from the meat contractor. Healy then preferred charges against Commissioner Ritter, alleging that he tried to solicit a part in the contract.

**Hawaiian Cable Scheme.**

SAN FRANCISCO, Aug. 24.—Colonel J. S. Spalding, who recently received a franchise from the Hawaiian government to lay a cable from Honolulu to this city, will leave for Washington tonight to secure the cooperation of this government in the undertaking. Colonel Spalding will call upon the cabinet officers with a view to clearing the way for a presentation of his plans and demands to Congress in December next. In order to float the enterprise he calculates that nearly $4,000,000 will be required, and that a yearly revenue of $400,000 will be necessary to keep it going. The $4,000,000 is to provide all the stations, equipment, cables, rights of way, cable ship and working capital.

Toward the income the Hawaiian government has pledged $40,000 a year for twenty years and the "commercial and" referred to in Colonel Spalding's contract with that government is to be furnished by the United States government, made $60,000 for twenty years. This in all would be $800,000 annually, and the expectation is that the receipts after the first year or so will be $100,000 more, a total of $900,000 annually.

When the second subsidy has been pledged a stock company will be organized. This company will have a capital stock of $1,000,000. One quarter of the stock will be taken by residents of the Hawaiian islands, one quarter by the chamber of commerce of San Francisco, which has already footed, and the remainder in the East and Europe.

Colonel Spalding expects to be able to manufacture and lay the cable within eighteen months from the time of closing the contract for it.

**From the Sugar Syndicate.**

SAN FRANCISCO, Aug. 23.—The sum of $500,000 in gold was deposited in the United States sub-treasury of this city by the agent of Morgan & Co., the New York bankers. The money came from the sugar syndicate and was paid pursuant to an agreement made with Secretary Carlisle to keep a fixed gold reserve on hand in the United States treasury.

At all the fashionable resorts, Dr. Price's Baking Powder is preferred.

**White Cap Outrages.**

PARIS, Texas, Aug. 23.—A gentleman who has just arrived at a town of Delta county arrived in this city today, bringing news of more outrages committed by the white caps in the last few days. Night before last he counted sixty men armed with Winchesters and shotguns in the house where he was stopping. Every night has left town, but waiting to see results of crops.

Right Arm Paralyzed!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now fifteen years of age, had been terribly afflicted with nervousness and had such a bad case of St. Vitus dance. We tried St. Vitus dance, and tried the best physicians, which we brought for her, but to no avail. We then tried Dr. Miles' Nervine and has gained 18 pounds. She is now in good health, and her nervousness and St. Vitus dance are entirely gone, and she is in school regularly, and has received complete use of her arm, for which we are thankful." MRS. A. E. BUTLER, Batavia, N. Y.

Dr. Miles' Nervine Cures.

Dr. Miles' Nervine is sold on a positive guarantee—see the first bottle will benefit, 25 doses 25 cents. Dr. Miles' Anti-Pain Pills will relieve headache, neuralgia, sleeplessness, nervous pain in 20 minutes. Dr. Miles' Heart Cure, Dr. Richart, Ind.

Will leave over the Union Pacific at 7:15 a.m., Aug. 24th. Only one fare of round trip to all points within. Tickets good fifteen days.

City ticket office N. 201 Main street.

A cup of Parks' Tea at night moves the bowels in the morning. For sale by F. J. Hill & Co., and Nelden Judson Drug Co.

AN OPINION GIVEN.

Recently Mr. J. D. Thomas, of North Dakota, visited the Shenandoah Valley, Virginia, and after carefully examining the country located in Winchester, he writes to Mr. V. Blomeyer, Land and Immigration Agent, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been in nearly every state and territory of the United States, and am back to my opinion that this valley surpasses all other sections in the Union. The lands are low in price, and produce profitable crops. I thank you for directing me here, and solicit those seeking pleasant and profitable homes to locate in this country."

The direct line to Kansas City, St. Louis and Atlantic seaboard, is via the Missouri Pacific Railway, from Pueblo. Through sleeping and chair cars, and all conventions made in Union depots in the city time. If you are going East and care for a daylight ride through the grandest scenery of the Rocky Mountains, see that your ticket reads via Missouri Pacific Railway. Elegant chair cars positively free to holders of reduced rate tickets.
