THE EVENING NEWS.

Monday, - - - April, 17, 1871.

LOCAL AND OTHER MATTERS.

THEATRICAL.—There was a tolerably large and a very appreciative audience in attendance on Saturday evening, and the performances went off in a very satisfactory manner, being frequently applauded. Even the night previous, one of the chief attractions was the wonderful feats of Mlle Ravel, on the tight-rope.

To-night will be presented Charles Forster's new drama, entitled "Wild Cat or, the Marriage by Moonlight," in which Mlle Ravel will appear as Florence Elwood and Mr. George B. Waldron as William Elwood. They will be supported by a full cast of the company.

THE DESERET UNIVERSITY.—The spring term of the Deseret University commenced to-day, and all who desire to avail themselves of the benefits of first class tuition in the various branches of an English or classical education had better avail themselves of the opportunity now presented. The Misses Mary E. and Ida I. Cook have been engaged to teach there; their former school at the Social Hall will be blended with the Deseret University. The engagement of these two young ladies completes and makes the corps of teachers at the University one of great excellence. Pupils are admitted at any time.

ELDER MILES GRANT COMING.—We learn that Elder Miles Grant, the noted adventist preacher, is now en route for this city, and desires to deliver a course of lectures on the prophecies. He is a very able man, and one who has spent his life in studying and expounding the scriptures according to the views of the sect of which he is a leading member, if he should lecture here, our citizens will no doubt hear something original and interesting. He desires to procure the Tabernacle for lecturing purposes.

SERVICES AT THE TABERNACLE YESTERDAY.—The time was occupied by Elder W. Woodruff in the forenoon and in the afternoon by Elder John Taylor.

MUSICAL.—The advanced musical class, under the auspices of the Deseret Philharmonic Society, to commenced this evening, will meet in the Council House and not in the City Hall as stated in Saturday's paper

LECTURE.—A lecture will be delivered this evening, in Morgan's College, in connection with the Deseret Library and Reading Rooms, by G. G. Bywater. The lecture will commence at half past seven o'clock. Admission free.

TERRITORIAL ITEMS.—The following was received, on Saturday afternoon, by Deseret Telegraph, too late for publication in the News of that day.

"BEAVER, UTAH, April 15.

Yesterday's dates from Pioche report a shooting affray in the Pahranagat district, resulting in the death of a man named McMurray and the mortally wounding of another. The affray was caused by a dispute about the ownership of a mine called Raibach. Russell wished to extend the line of survey of the mine and was met with opposition from other parties, who shot him and his partner.

Mike Cassey shot Tom Gossen, in Pioche, through a quarrel in settling business connected with the sale of the Washington mine. Cassey is guarded in jail. Gossen was mortally wounded.

Dan Lipton shot at Simmons, at Bullionville, but missed him. Simmons attempted to return the fire but his pistol snapped, when the bystanders interfered to prevent bloodshed.

ST. GEORGE, UTAH, April 15.

It is announced that the Post Office department has established post offices at Winsor, Kanab and Johnson on the route east to the Sevier, and that weekly service will be placed on the route from Bullion City to St. George, via those offices, after July 1st.

The settlement of Johnson has been commenced in earnest.

We received the following this morning:

Beaver, April 17.

The Pioche stage arrived this morning, having 441 pounds of bullion and a number of passengers on board.

It is stated that Thomas Gossen who was shot by Michael Cassey a few days ago, died from the wound, after suffering great pain from internal bleeding. The brakes of the Meadow Valley stage slipped when going down Meadow Valley street, Pioche, throwing the coach on the horses, causing a runaway and upset the stage, considerably bruising Mrs. Colburn, a lady from Meadow Valley, and the driver.

UP HILL WORK.—Although we believe that Mr. Judge Strickland is admirably fitted by nature for the job he has undertaken, and to perform which he has been delegated by his brethren of the "ring," yet, for a variety of reasons, he may find the business a little up hill. In the first place, there are a great many "shysters" in Washington already; in fact, according to the journals of that city, it is overrun by them. They are said to be so numerous that they have become a regular pest; probably nearly as much so as the grasshoppers have been to Utah. If not as destructive in other respects as the latter, the "shyster," or human grasshopper makes up the difference in its tendency to destroy pure moral influences. The numerical force of the pestiferous class alluded to may cause it to be rather difficult for the "ring" missionary to gain the ear or influence of those who could help him along in advancing the "little game;" They are getting tired of such applications. Another obstacle to getting that $30,000 included in the appropriation bill, may present itself in the form of a disposition that is being manifested by a large proportion of the representatives of the nation to cut down the items already in the bill. In connection with this desire to curtail amounts may be one to oppose the introduction of additional appropriations. One of the most formidable obstacles, however, is the absolutely and unqualifedly unjust nature of the cause in which 'our hero" is laboring. The heads of the nation know that the official appointments to this Territory of the judicial trio did not empower them to trample under foot the rights and liberties of the people, and they will be likely to act upon this knowledge.

The above probable obstacles to the accomplishment of the purposes of the "ring" schemists are not alluded to in order to dampen their ardor or make them more miserable than they already are. If we could do anything to ameliorate their condition, we would do it, for they and their peculiar class "are of all men most miserable." They are in the worst of all positions; a position which we have heard defined as hell,—they "want to and can't." They would like to ride rough shod over the "Mormons," taking from them every privilege guaranteed to them by the glorious Constitution of our country. To say the least, such characters are a little over a century behind the times. The world is too far advanced in the principles of human freedom to admit of such high handed outrages on the rights of man as they wish to perpetrate.

We have been seeking for some ground on which to base the charity we would like to exercise towards such characters, but find it exceedingly difficult to see any. We have almost come to the conclusion, however, to try it on the principle of detective or unfortunate organism. If this really be the cause of their miserably unjust course, we do not know but they may be deserving of a degree of sympathy and, if it will do them any good, they are welcome to a modicum of pity from ourself. We extend it with the advice to curb the natural, or rather unnatural tendencies of their organisms, for there is implanted within everybody, however evilly inclined, a certain degree of the power to restrain. We think this advice timely for no really and naturally high minded gentleman would league himself with so miserable a clique as the one which is seeking to bring trouble upon this community.

With regard to the mission of Judge Strickland, whether it be accomplished or not is a matter of indifference to us, for the financial horn of the dilemma which looms up before the wire pullers and plotters now in Utah is only one among many with which they will have to grapple, and they will find the amount of up hill work in the job they have undertaken to be immensely greater than they ever imagined. Hence, for their own sakes, we call on them to repent before it be too late.

Special Notices.

LOST.

Order No. 671, on Z. C. M. Institution, for $500, has been lost. Whoever has found it, and will leave it with D. McKenzie, at Prest. B. Young's Office, will confer a favor on the loser, and be suitably rewarded. d123 tf

Cabbage and Tomato Plants for sale by S. McKay, East end of Second South Street, 11th Ward. d125 1w

Auction Sale.—There will be an Auction Sale, in front of the Salt Lake House, on Wednesday, at 10 a.m., of a fine collection of Looking-Glasses, Show Cases, Oil Paintings, Chromos, etc. The lovers of fine art had better attend and get bargains. d125 2

FACTS WORTH KNOWING.—During a recent trial or comparison of ordinary Baking Powders in New York, with DOOLEY'S YEAST POWDER, it was shown conclusively that better results were attained with from one-half to two-thirds the quantity of the latter, than with any other in market. The secret of the success lies in the care with which DOOLEY'S YEAST POWDER is prepared, and its entire freedom from substances that are injurious to the system.

We challenge comparison at any and all times. The verdict of the consumer is always in our favor. For sale by all Grocers. d121 3 eod w11 1

If you have a discharge from the nose, offensive or otherwise, stopping up of the nose, at times giving nasal twang to voice, partial loss of the sense of smell, taste or hearing, feel dull and stupid, have pain or pressure in the head, take cold easily, you may rest assured that you have Catarrh. Thousands annually, without manifesting half of the above symptoms, terminate in Consumption, or Insanity, and end in the grave. R. V. Pierce, M. D., of Buffalo, N. Y., is the proprietor of Dr. Sage's Catarrh Remedy—a perfect specific for Catarrh; which he sends to any address, post paid, for sixty cents. Sold by most druggists everywhere.

d121-3eod w11-1

A FEW MORE WORDS!

Having obtained the Agency of the CELEBRATED

SMITH'S AMERICAN ORGANS,

WE desire to inform the public that by the judgment of all competent musicians, these instruments are unsurpassed by any ever manufactured. We are aware of the arrogant tone assumed by certain agents, but we know that any disinterested person who examines the American Organ will smile at the efforts to depreciate them.

The Smith Company has made and sold 35,000 instruments. They make none under $125, leaving to others the business of putting forth the little fifty dollar organs; and they consume more black walnut lumber, for the indispensable casing of the best instruments, than any house in America. Their annual production of organs is not exceeded by any establishment whatever. And this business they have built up by the faithful labors of twenty years, without drumming for testimonials, and without making baseless claims to honors on either side of the water. It is the perfection of workmanship, the excellence of materials, the smooth and solid tone, the prompt touch, and the facility for expression that give to **The American Organ** its deserved rank. But there is

A VERY EASY WAY

To determine the truth of our claims as well as of others. Let those who are fond of music come and hear for themselves. We pledge our credit upon the statement that we can sell a better instrument for the price than can be had in Utah. We are willing that our instruments should be subjected to the most severe tests, and if they will not stand upon their own merits they must fail.

We refer by permission to Professors Orson Pratt, jun. and A. Farini.

PEOPLE'S VERDICT

Over Half a Million sold and in use!

4,000 made and sold per week

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable:

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as Black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is *not* liable to break or miss the stitch. Many other Machines use a long crooked needle, which *is* liable to break and to miss the stitch.

In the Singer Machine the Shuttle is **carried**, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and *requiring oil*, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who *utterly fail on other Machines.*

SINGER'S New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable *to all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!

A Full Assortment of those

Beautiful and Unrivaled MACHINES.

(The numbers on which show a manufacture of between **Five and Six Hundred Thousand.**) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without from us examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER

BUTTON-HOLE MACHINE!

Is the only Practical one in the World.
