ON THE SALT LAKE STOCK EXCHANGE.

A Good Volume of Business at Improved Figures.

BIG DEMAND FOR STAR CON.

Activity in Four Aces, Richmond Anaconda and Buckeye—Good Advances.

The day in the pit of the Salt Lake Stock and Mining Exchange brought out sales of 38,300 shares, which held a selling value of $17,777.35. Buyer and seller got together quite often and, with active trading, interspersed with speech-making by President Jackson, the day's proceedings were decidedly interesting and gave a good flavor to the morning call.

Dolly took the lead in the trading in a sale of 100 shares at 55 cents per share. Then the brokers dealt in Eagle at 15 cents and afterwards handled Four Aces, this stock being very active and selling at firm figures. Galena closed a lot at 58½ cents, and Mammoth was dealt in between $2.29 and $2.31, while Lower Mammoth was looked upon as a good buy at $1.10, and Northern Light made transfers at 38 and 37 cents. There were sales of Sacramento at 46 cents, Sunshine between 41 and 43 cents and Star Consolidated at from $1.47½ to $1.52, but Mercur failed to move, except in the bidding, the stock being somewhat stronger and standing to good demand at $6.25 a share.

Unlisted stocks furnished a good volume of business, all the favorites being engaged in the trading. Boston-De La Mar took the initiative between 1 and 2 cents, while Buckeye followed at 4½ cents, this stock scoring a good advance and remaining in strong demand right up to the close of the call. First class of Chloride Point were made at $1.20, after which Camp Floyd did business together with Eagle and Blue Bell. Prince, which was in good demand, Golden Treasure and Golden Eagle, the latter in an advancing basis, Hecla and Homestake stood about stationary, while Joe Bowers continued weak and sold down to 19½ cents, and Hawes Extension had a part in the trading at 14 and 15 cents. The brokers dealt in Martha Washington and May Day at stationary figures, while Monarch continued a favorite on the call sheet, this stock changing hands to the extent of 17,000 shares, and closing exactly sought for at 7½ cents. Richmond Anaconda developed quite life and sold freely between 6 and 7 cents, and Bonheur was taken at 15 cents, while Success, Tetro and Washoe's closed up the day's business.

The closing figures were as follows:

IN THE GOLDEN STATE.

The Work in San Francisco, etc.—Departure of Missionaries.

San Francisco, Cal., Jan. 27th, 1899.

Editor Deseret News:

A journey from Utah to San Francisco probably exhibits greater contrasts in January than at any other season of the year. I left Provo on Jan. 20, the mountains were in sunbonnet, darling shoes of snow, and late in the day of the beautiful for in the streets. After thirty-six hours' travel I found myself amidst green fields, trees in full leaf, flowers showing here and there in sheltered places, and everywhere the fainting perfume of grass and growing things.

The weather has been unbroken sunshine during the week of my sojourn, and even for California is so unprecedented, that some of the old residents are saying that it is omenous of earthquakes. Be that as it may, it is certainly very delightful till the earthquake comes.

The mission home was one of the first places to be visited. It is situated on Golden Gate avenue, facing Jefferson Park, where Sister Ephraim Nye, makes a home for the Elders, and looks after the little comforts of life with the cheerful kindness of a mother. There I met F. M. Pratt, presiding Elder of the San Francisco conference, Elder Henry Magnley, secretary, and Elders George Fox, Byron A. West and Joseph Stice, and Miss Celestia Jacks, who is also a missionary.

On Sunday evening I heard some excellent sermons from the young Elders. The meeting was held in a hall in a building that seemed to be used entirely for such purposes, and on every side were other denominations holding forth. The latter-day Saints' meeting was crowded, and a spirit of reverential attention was present. Elder Louis Farr was there as a visitor. Brother Stoddard and wife of Idaho, and Brother Budge and wife, all of whom have been missionaries in times past. The morning discussion was so good, though the people would never be able to adjourn, because of their enjoyment of talk over their joy and satisfaction.

On Monday evening the program for the Mutual Improvement association, held at the mission home, was a lecture by Judge Sumner, ex-Congressman from California, and a man of much moral power. On Tuesday evening I attended an open air meeting, where the Elders preached some excellent sermons on the first principles of the Gospel in a crowd of respectful listeners. After the meeting was adjourned, a number of us went to Brother Installion to the home of Brother Charles Woodward, presiding Elder of the branch, and spent a most enjoyable evening in true Utah style. Nearly all the young Elders who were to leave for Hawaii, Samoa, Australia, Tahiti, Tonga, Tasmania, New Zealand, Elders G. H. Hood of Kaysville, and Martin F. Sanders of Ogden, Mormon, left for Honolulu, and Elders H. Bingham and Andrew Field, of Lehi, were bound for Australia. The resident missionaries from Utah and friends were at the dock to see the boys start, and they were singing hymns and in the best of spirits.

Among the passengers were Barlow Ferguson and wife of Salt Lake, off to the Sandwich Islands on a visit of pleasure. The weather is perfect, the ship is clean and well appointed, and a fair voyage is predicted by those who are experienced.

It can be said of the California mission that it is prospering, growing in favor, and truth is reaching the honest in heart. The harvest is greater than the laborers, and the Spirit of God is poured out in rich abundance on the Elders in the field, and on the members who have accepted the word of God. They are living their religion, and the gifts and blessings are being manifest among them.

DALY-WEST MEETING TODAY.

Stockholders Get Together and Amend Articles of Incorporation.

WHAT MR. DALY HAS TO SAY

Lead Makes a Big Jump Today—The Mines of Nevada—Other Interesting Items.

A special meeting of the stockholders of the Daly-West Mining company was held at the company's office in the city this afternoon. At it, the stockholders, in person and by proxy, voted to amend the articles of incorporation by increasing the capital stock from $1,000,000 to $1,000,000 and the number of shares from 2,000 to 10,000. The date of the first amendment was made, empowering the board of directors to purchase the other undivided half of all the property described in the articles of incorporation, giving to present holders for the additional 7,000 shares created by the first amendment.

The above business was purely legal procedure bringing together the Daly and Hearst interests, and placing them to working one with the other, jobs to the satisfaction of the majority of the stockholders, which is one of the, in a large scale. It was transacted without any friction whatever, and was according to program mapped out by Mr. Daly and the representative of the Hearst estate, at a conference held in New York some days ago. Judge Harkness represented the latter, some of these directly concerned being present at the meeting, while local stockholders were there either in person or by proxy, the greater part of the company's stock being accounted for in the voting. On Monday, February 20th, the company will hold its annual meeting in this city, when officers and directors will be elected for the ensuing year, this also tending to further weld the Daly and the Hearst interests and being no obstacle in the way to the complete and thorough operation of the property.

In a talk with a "News" reporter, Mr. John J. Daly, president of the company, stated that, from what he can prepartions would be made for the resuming up of the mine, and he believed that by March 1st, at the latest, things would be going in full blast. "We will put between 200 and 300 men to work," said Mr. Daly, "and if conditions warrant it, perhaps more. This many the opening of the mine will affect at any rate, while indirectly it will benefit a great many more."

Asked if he anticipated a general resumption of work in the big mines of Park City, Mr. Daly replied affirmatively, the gentleman giving it as his opinion that adjacent properties would not be long in following the example and that the famous silver camp would soon be in full swing again as of yore, when thousands of people were benefited by the operation of these properties. Mr. Daly stated that there was good days in store for the district, and he believed the opening of the Daly-West would act as a stimulus to which he gracefully bowed his acknowledgements.

In a short initiatory speech Mr. Jackson thanked the members for the honor conferred, for it was an honor, and he to be a director in a company of the biggest business institution in the State—one that did a cash business exceeding that of any other institution in Utah. He congratulated the exchange on its good standing in the community, stated that they had kept out all "wildcat" propositions, and assured the members that such schemes would never get in, if he, said he, something of cause be carried on here as long as we have a Battle committee made up of such men as Messrs. Lynch and Fenlon. President Jackson said he did not so feel the honor conferred upon him. He had accepted only at the solicitation of Mr. Aiva, the former president, who, said he, was my candidate first, last and all the time.

Following this the executive officers of last year were tendered a hearty vote of thanks for their services, after which Major Jackson made several commencements, among them that he would not be a candidate, if he were offered to retain his membership and belong to another such institution; also to that effect he would be out, last memorandum would be disposed of at auction, so bid under $100 to be entertained. With the adjournment, the sun no ordered up the cream for the crowd, and all the members enjoyed a good smoke.

Alliance Company's Plans.

That the Alliance Mining company, operating at Park City proposes getting on a new basis for future work, is quite evident from the fact that on Saturday, March 4th, at 2 p. m., a special stockholders' meeting will be held in Salt Lake, at which time Secretary Hancock has the purpose of so amending the articles of incorporation, as to reduce the capital stock from $1,000,000 to $100,000 and the number of shares from 10,000 to 1,000, as at present. This will leave 8,000 additional shares in the treasury as fully paid stock, this to be used by the company for future work, if necessary. This also is a step in the direction of renewed activity at Park City, and will be followed by a resumption of work, this in those interested in the camp. With the Daly-West, Ontario, Meggie and other properties in operation, Park City will witness development that it has not seen for a good number of years.

THE MINES OF NEVADA.

Activity Abounds in Tonopah and Goldfield—Other Notes.

This morning's train from the west bore to this city Mr. J. F. Mitchell, whose mining interests lie in an aggregate range of mountains, about 34 miles from Austin, Nevada.

The property in which the gentleman is most concerned, is the New Pass, a free milling proposition from which ore is taken which can be handled at a saving of from $12 to $18 a ton. Mr. Mitchell says the camp has plenty of this class of mineral, so much so that as to warrant the erection of a 20-stamp mill, a plant which he proposes putting in in the spring, at which time he will increase his working force to between 30 and 40 men.

On the same range of mountains there are a number of excellent mines, says Mr. Mitchell, among them that famous producer, the Silver Peak, for the purchase of which a wealthy syndicate is now negotiating. There are also other good properties working from 5 to 10 men and yielding ore running well in gold silver, lead and copper.

On Little Monitor, Mr. Mitchell reports the London Exploration company has men at work on a large area of rich acreage, while Mr. J. A. Hanson, he says, is working prospects from which he is taking ore running from $20 to $90 gold and silver to the ton. There are numerous other mines being opened up in this same vicinity, all producing high-grade ore and making good big profits for their owners.

Questioned concerning how Nevada's new gold camp, Mr. Mitchell stated that in the portion also there was considerable activity. Here, said he, the Nevada company is operating on a large scale, their holes to date showing big cut high-grade mineral from the company's different mines. Other parties are also operating in this camp and all are showing more out of the mines to which they are giving their attention.

Mr. Mitchell says Nevada as a whole is more active in a mining way than it has been for years. In all sections of the state the mines and prospectors are busily engaged seeking for gold and working claims already filed upon. At present there is considerable work in progress on the Silver Peak, this, notwithstanding numerous suits against mining operations, but with the work are going on without interruption. Mr. Mitchell, the gentleman believes the activity of '99 will be greater by a great deal than it has been for a number of years.

LEAD'S BIG JUMP TODAY.

Metal Advances 15 Cents Over the Figures of Yesterday.

Lead made other may be treated, a phenomenal jump today and was found at $3.35 per hundred pounds, this being an advance of 15 cents over the closing figures of yesterday. The cause, again, was in the cause of a good commercial smelting demand and smaller supplies, some of which had been held back, it is stated, had been made as they had never before heard of such a wonderful advance in the market. Silver, lead is the product, continues, there will be very little silver in Utah that will not be able to unlock the doors and resume business on a big scale.

Copper also made a slight advance today, selling being quoted at 17 cents a pound, a better than the quotations of the day before.

MINES AND MINING MEN.
