Have You a Home?

If not it will pay you to investigate the advantages of Forest Dale before buying elsewhere. We have our own water system; water piped in most durable cast iron pipes, and the ownership of the water, including the extension of the pipes past your door costs purchasers in Forest Dale little if any more than living the same in most cities. The advantage this affords will be readily seen, for the water belongs to the residents (each purchaser of a lot being allowed his proportion of the capital stock at the Forest Dale Water Company) and it rests with them to fix the water rates charged. The expense of running the system is very small, and after the first expense of laying the mains is paid the rates need not be more than one-tenth those charged by Salt Lake City.

Have You Saved Anything?

Some people have been waiting for years for land to reach bottom prices. In the meantime they have paid rent, and if they have made any improvements or done any work on their residences, the improvements have been made, or the work done, for their landlord. Many other people have built homes, and while those first mentioned have been "waiting for something to turn up," have paid for their property and now own the home that shelters them.

Don't Get in Debt

unless you feel assured you can get out again. But if you have money saved, buy a home. If you have an income, buy a home. It pays to have an object in view, and there is no more worthy object than procuring a home for those dependent upon you.

My clerks, at room 332 Constitution Building, will give you prices and show you the property.

GEO. M. CANNON, Owner.

Cash paid for Water Scrip at Cannon's Real Estate Office, 332 Constitution Building.
