PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws, promptly attended to.—Inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer to Hon. Postmaster General D. M. Key, Rev. F. D. Power, Pres. The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress, and especially to our clients in every state in the Union and in Canada. Address

C. A. SNOW & CO.,

Opposite Patent Office, Washington, D. C.

SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BRAIN IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paste and finish the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

SOLD EVERYWHERE.

Notice to the Public

HEREAFTER I will not assume any debts, contracted by any other party except they have a special power of attorney from me.

WM. J. SMITH.

EASTERN.

Russian War Steamers.

NEW YORK, 23.—In the presence of the European warlike demonstrations, the fact is significant that the Russian war steamers, *Europe*, *Asia* and *Africa* at the Philadelphia ship yards, are making no preparations to sail.

A private London letter, from an eminent English writer whose name is familiar to both continents, severely criticises Beaconsfield's course and policy, and charges him with a deliberate purpose to provoke war in order to extend British dominion over Afghanistan. He confesses little expectation that parliament will check him.

Stewart's Remains.

Many persist in the faith that Stewart's remains have been recovered, and that this secret, as well as that of the place of retainment, is preserved in order to guard more surely against future robbery. The *World* cites, as indicative of the truth of this theory, the change that has recently come over the spirits of his widow from a state of anxiety, threatening serious illness, to a state of sound health and cheerful spirits.

The Sandwich Islands Reciprocity Treaty.

The *Tribune's* Washington special says: Sherman has caused to be prepared, for his forthcoming report, a very full statement of the workings of the reciprocity treaty with the Sandwich Islands. When the treaty was discussed in executive session in the Senate he made a speech against its ratification on the ground that the United States could not afford the loss which the proposed reciprocity would cause. He now finds, upon investigating the subject, that he was right in predicting that, in a pecuniary sense, the United States would lose heavily by the treaty. The Secretary has collected all the details of our commerce with the Sandwich Islands, and will present them in full. In summing up he finds for the first year under the treaty, that the duties remitted by the United States were, in round numbers, $165,000, greater than the invoice price of all free goods from the United States to the Sandwich Islands. The total amount remitted by the United States on staple articles alone was $125,000, while the total value of goods exported to the Sandwich Islands from the United States is only $963,000 for the year ending January 1st, 1878. The United States remitted duties to the amount of $680,000, while the total value of all goods exported from the United States to the Sandwich Islands during the same time was only $815,000, greater than for the year before the treaty was ratified. In other words the duties remitted by the United States for the time indicated amount to $15,000 more than the total invoice value of increased importations by the Sandwich Islands from the United States.

A Lawless Army Officer.

CHICAGO, 23.—The *Times'* Washington special says: If a report received at the department of justice, to-day, from official sources is to be credited, the army could endure a reduction in the person of one officer without much loss. It seems that Lieut. Col. Buell, 11th Infantry, commanding at Fort Custer, in Montana, has for a long time encouraged one Seigenuer, who kept a restaurant at the post, to sell wines, liquors and tobacco without paying the special tax established by the internal revenue laws promising that he would protect him. Collector Fuller warned Seigenuer three times that he must comply with the law, but the man at the instigation of Buell, refused. At length a warrant was sworn out against Seigenuer and placed in the hands of a deputy sheriff. When the deputy went to the post to make the arrest, he was ordered off by Buell. Nevertheless, the officer arrested Seigenuer and took him before a commissioner, who bound him over, and the grand jury found two indictments against him. Subsequently the officer went to the post again, with the same prisoner in custody. Buell put the deputy across the river at the point of the bayonet, without a blanket to protect him against the weather, or a weapon to protect him against hostile Indians, at the same time permitting the prisoner to remain at the headquarters and would not allow him to return. It is presumed the Attorney-General will insist upon exemplary punishment being visited on Buell for his outrageous conduct, by calling the attention of the war department to this lawless officer.

A Wrestling Match.

The wrestling match for $1,000 a side between John McMahon, formerly of Vermont, but a resident for three years of California, and James H. McLaughlin, of Detroit, took place to-night at McCormick's hall. McLaughlin won the first fall and McMahon the last two and match. Time, 22, 25 and 28 minutes. The charge is made that the result was not fairly reached as, although McLaughlin was the more powerful man and is champion, the pool selling was continually against him at great odds, even after he won the first fall. He weighed 228 pounds, which is thirteen pounds above his usual wrestling weight. He intimates his intention of trying it again.

The Bank Swindler.

ST. PAUL, Minn., 23.—There appears only slight foundation for the rumor of the discovery of Etheridge, who swindled the Merchants' National Bank here of over $40,000, in San Francisco. The only feature absolutely confirmed in the sensational account published this morning, is that Wm. R. Merriam, cashier of the bank, is absent on an unknown errand. The officials are reticent as before, but the best accredited statement is that he went to Nebraska in response to advices that a man supposed to be Etheridge was there, and discovered that it was another man. This is only one of a series of false clues that have found their way into the hands of the bank officials.

Public Whipping.

NEWCASTLE, Delaware, 23.—Nine convicts, six black and three white, were publicly whipped to-day, five being also pilloried.

Washington News.

WASHINGTON, 23.—As the congressional session approaches, indications accumulate that a desperate effort will be made to practically fuse all fiat money men with the cheap silver dollar men and inflationists in behalf of legislation advised to gold resumption. Their opponents, therefore, should be active in consolidating all the elements of influence in support of the verdict of the late election.

A petition is circulating in Central America, requesting the recall of American Minister Williamson, who is said to have become very unpopular there.

Chairman Atkins, of the House committee on appropriations, says he does not think there will be any necessity for an extra session of Congress.

A suit has been brought by the attorneys of Colonel William B. Moore, late supervising special agent of the treasury, to recover damages to the amount of $50,000 from General H. V. Boynton. Colonel Moore was removed from his office about a year ago, upon the presentation to President Hayes, as alleged, of certain letters, written by Colonel Moore to President Grant relative to Secretary Bristow.

Foot Race.

DENVER, Col., 23.—An exciting foot race here, to-day, between G. P. Williams, of Denver, and Davis, of California. The stakes were $1,000 a side. The race was won by Williams in 52 seconds; distance 100 yards. Thirty thousand dollars changed hands on the result.

Wool Market.

BOSTON, 23.—In wool there has been a very dull feeling during the past week, and the transactions have been the smallest for some months. Prices changed very little, but the tendency of the market is in favor of buyers, and trade does not look as encouraging as previously noticed, manufacturers purchasing as to their wants, and dealers free sellers at current rates, but there is no disposition to stock up beyond immediate wants. The belief that there is a large supply of domestic wool yet to come forward, with a pressure to sell in neighboring markets, tends to impart rather an unsettled tone to prices at the close. Sales embrace Ohio X, XX, XXX, and No. 1, at 34@38; western and other fleeces 28@34; combing and delaine fleeces, 35@42½; unwashed combing, 35; unwashed fleeces, 23½@26; Missouri, 25; Texas, 15@22; territory, 112@105; scoured, 42@65; sub-washed, 34@37; super. and X pulled 28@41. In California there was a noticeable falling off from the large transactions of last week, sales comprising only 227,000 lbs. at 18@25 for spring, and 12½@23½ for fall. The total sales of domestic for the week amounted to 880,500 lbs.

WESTERN.

The Umatilla Indians.

SAN FRANCISCO, 23.—A Portland dispatch says: Yesterday morning, 60 soldiers under Captain Boyle left Vancouver for Willow Creek. A report was received at headquarters that a number of Indians had left the Umatilla reservation and gone out to Willow Creek, refusing to return. An officer has orders to send those back to the reservation who will return quietly, and arrest those who make any resistance, and bring them down to Vancouver for examination.

S. S. Perchin, United States deputy surveyor, now at Umatilla, reports that the Indians in that region are being murdered by the whites. Every Indian found beyond the limits of the reservation is killed. A few days ago two Indians were found near La Grande, swinging from a tree. These reports cause much excitement.

FOREIGN.

GREAT BRITAIN.

The Afghanistan Difficulty.

LONDON, 23.—Although we are now actually at war with Afghanistan, it is not generally believed that the winter campaign will be prosecuted. It is thought the initiative already taken was intended primarily as a practical notice to the Ameer that England means war unless he backs down. The summoning of Parliament for December 5th is regarded as a concession to the public demand that the country shall not be plunged into war without parliamentary consultation, but now that the blow has been struck, it is improbable that the British forces will retire. The danger is imminent that an armed struggle is already opened which will develop into far greater proportions than that temporarily checked by the Berlin conference, except for outside complications. British valor and improved arms would make short work with the Ameer, but such complications seem sure to involve us in a struggle for which there is no reasonable occasion. The only apparent alternative is a British alliance with Russia in place of the present jealousy, but that sensible idea thus far, finds slow growth in the English mind.

BRITISH AMERICA.

Arrival of the Lorne Party.

HALIFAX, N. S., 23.—The *Sarmatian* arrived in the harbor at 9 30 this evening. She was off the harbor at 6 30 and detained by a fog. They had heavy weather throughout the voyage; on the 18th the seas breaking over her fore and aft. The whole fleet of naval vessels and other steamers that left this morning to receive the *Sarmatian* returned to port, the weather being so thick that it was deemed useless to remain outside.

Last Night's Dispatches.

EASTERN.

Etheridge, the Bank Swindler.

NEW YORK, 24.—The *Times'* St. Paul, Minnesota, special says: A sensational account was published here this morning, that Charles Etheridge, who swindled the Merchants' National Bank here, of over $50,000, had been discovered in San Francisco. The story represented that advices from that place to the bank, of his presence there, had been received and that the bank, instead of ordering his arrest, had simply directed that he should be watched, and sent to W. R. Merriam, cashier, to San Francisco to identify him. The only foundation for this curious story seems to be that Merriam left town on an unexplained errand, and sensation mongers invented the remainder. It is now explained that dozens of rumors of Etheridge's presence in various places have been coming to the officers of the bank daily. One of these gave the intimation of his presence at an obscure place on the North Platte River, in Nebraska, without placing much confidence in it. Merriam went there quietly to identify him, and found another man. Rumors of his errand were made the foundation for this sensation.

Arrest of a Forger.

Yesterday, a young man who said he was Thomas Taylor, of San Francisco, obtained a check for $10.50 from Robert Shaw, Treasurer of the Brooklyn Homeopathic Maternity, on a forged order, purporting to have been given by Mrs. Henry W. Sage. The check was on the Brooklyn Trust Company. The young man was arrested when he presented it, and locked up to answer.

A Bond of Small Denomination.

The *World's* Washington special says: Sherman, in his coming annual report, will renew his recommendation of last year, that a new bond of small denomination, bearing less than four per cent. interest, be authorized to enable persons of small means to accumulate sufficient sums to buy four per cent. bonds. The Secretary has determined to recommend a $10 bond, bearing 3 65 per cent. interest. He did not fix upon any interest in his last report.

Tilden the Next President.

Montgomery Blair writes a column letter to the *Sun*, to-day, showing that Tilden is the only available presidential candidate for the democracy. He attributes the recent rout of the party in the north to the attempt to overthrow Tilden.

FOREIGN.

GREAT BRITAIN.

The Winter Campaign.

LONDON, 24.—The *Times*, in its military article, says: Many reasons make it appear probable that the winter campaign will close with the occupation of Doko, Kurum and Cabin Valleys. The winter is drawing near, the cold, intense, and the fuel and forage in the mountainous districts scarce; so, for prudential reasons, the Indian government will not care to entangle their armies too far in the hills at this season, until their communications are more secure and their commissariat and transport arrangements on a more approved footing. Three columns, as at present constituted, are too weak for more extended operations in the direction of Jellalabad, Ghazni and Candahar. Were Gen. Manders' division massed at Jamrood, and Gen. Roberts' strong support at Kohat, and if Gen. Primrose were echeloned between Tukur and Quetta, we should be inclined to believe in the possibility of a further advance; as it is, from a military point of view, we doubt its practicability.
