The following request for information of a relative comes from England:

This morning a man came into the Sun Hire yard. His appearance at once convinced me that he would bear watching. He immediately ascended the step leading to the Sun Hire barn door, which he tried to open but failed. Then, with legs in his possession, he tried to unlock the door, and again failed, as it was secured on the inside. Then with a persevering variety of a rather obtuse, he started for the north end of the building, when I met and had with an interview, during which he informed me that he whose he had a bunk, and had learned through a paper that there was one in the shop (the bunk) that would be likely to suit him. I informed him that he was out of the premises was for that, that his name was suspect to arrest, and intimated that it would not be prudent for him to call again. After leaving the Sun Hire premises I observed that he stopped into such a store long enough to remove his nose (?) but I mentioned it to my duty to draw attention to him at police headquarters, which I did.

St. Joseph Stake Conference.

The quarterly conference of the St. Joseph Stake of Zion was held at Plano, March 16 and 17, 1895. There were present on the stand Christopher Layton, William D. Johnson and Morgan H. Merrill of the Stake presidency, Patriarch Philemon C. Merrill, members of the High Council, Bishops of the various wards with the exception of Peter C. Lakeman, of Mt. Pisgah, and George Stevens, of Orchard Ward, the latter being unknown at the conference when he left home to attend the meeting.

Elder Layton made a few remarks on the duties of the Latter-day Saints, and the Lord has said that He hand over his work with Israel, and he will show unto us what Israel should do and how we have a fair prospect for an abundance of fruit, he said, and the Saints to pray with an eye single to the glory of God in His work.

The Bishops reported the different wards subject to be in good standing, with a few exceptions, and there did not seem to be improvement in the attending of the Ward, of Wards, and the planting of trees, shrubs and vines in the grounds of their homes and public places, and in the grounds of some private and public, and in the adornment of public and private grounds, parks and cemeteries, and to such other and appropriate exercises as may be in harmony with the general purpose of the day.

In testimony whereof I have hereunto set my hand and caused the great seal of said Territory to be affixed.
