Last Night's Dispatches.

CONGRESSIONAL.

SENATE.

WASHINGTON, 9.—Ingalls introduced a bill to regulate the railway mail service. Referred.

The president *pro tem.* laid before the Senate a communication from the Grand Army of the Republic, inviting the Senate to attend the memorial services at Arlington cemetery on Decoration Day. Laid on the table.

The Senate then resumed consideration of the Indian appropriation bill.

Various unimportant amendments were agreed to, and the bill having been reconsidered in committee of the whole, was reported to the Senate and the amendments made in the committee were concurred in, and the bill read the third time and passed.

The joint resolution to print 200,000 copies of the report of the Commissioner of Agriculture was reported back from the committee, making the number 200,000, and placed on the calendar.

Beck introduced a bill for the relief of Norman Wiard, authorizing the Secretary of the Treasury to pay him $250,000 for work done and cash advanced from 1861 to 1865, under contracts with the war and navy departments.

Ferry, from the conference committee on the bill to regulate the advertising of mails lettings, submitted a report and explained the same. He said the rates fixed on by the conference committee were on a basis for commercial advertising and for the postoffice department alone. Report agreed to and the bill passed.

The Senate then took up the bankrupt repeal bill.

Thurman said if his amendment, making the repeal take effect September 1st, were defeated, then he would make the time August 1st. He thought the people needed preparation for the repeal.

White and Beck favored immediate repeal.

Kenan favored the bill as it came from the House.

Matthews urged that January 1st was the proper time for the act to take effect. Earlier time would make it retroactive.

Motions to adjourn and to adjourn till Monday were rejected.

Maxy opposed all the Senate amendments and favored passing the bill at once.

He yielded to Davis of (Ills.) on whose motion the Senate adjourned.

HOUSE.

WASHINGTON, 9.—The Senate bill authorizing the citizens of Colorado, Nevada and the territories to fell and remove timber on the public lands for mining and domestic purposes was passed with an amendment offered by Foot that such lands shall not be open to railroad corporations for the cutting of timber.

Peter Cooper, candidate for President at the last election, was given the privileges of the floor. He is on his way to South Carolina.

The House then went into committee of the whole on the tariff bill.

Kelly, from the ways and means committee, said Wood's most notable speech was a refusal to explain the bill. Nobody asked for a revision of the tariff. Amidst all the disasters of bankruptcy, idleness and pauperism, the laboring people appealed to Congress for relief, but not for a revision of tariff in favor of foreign producers. The committee had consulted nobody who understood tariff, or they would not have returned so ridiculously abortive a bill. Without a specific free list the committee manifested malice against all industries. To borrow a simile from a former Oregon Senator, the bill was like a mule "with no pride of ancestry," nothing like it ever having gone before, "and no hope of posterity." He declared that some men had been bullied into giving a reluctant assent to some features of the bill. The bill was a disturber and an anarchist.

Harris (Ga.) favored the bill, after which the committee rose and the House adjourned.

EASTERN.

Russian Naval Officers.

NEW YORK, 9.—Four of the officers of the Russian navy arrived here, this morning, from Russia direct, and have been closeted most of the day with Bodisco, the Russian consul.

The Communist Uprising.

If the statements of the dealers in arms are conclusive, no systematic preparations have been made in this city for a Communist uprising. They all declared that the business never was duller than now; that very few arms were bought by residents of this city, and that the chief orders came from Illinois, which is making great efforts to get together a good militia, and from California, where organizations are arming secretly to expel the Chinese from that State.

The Timber Question.

WASHINGTON, 9.—The Senate bill authorizing *bona fide* residents of Colorado, Nevada, and the Territories to take timber from mineral lands for domestic purposes, was passed by the House, to-day, with two amendments—one excluding all railroad corporations from its privileges, and the other authorizing the secretary of the interior to prescribe regulations to prevent undue destruction.

Portland, Salt Lake and South Pass Railroad.

Mitchell's bill to aid the construction of the Portland, Salt Lake and South Pass Railroad, which was, to-day, unanimously reported to the Senate from the committee on railroads, recites the fact that in the bill extending the time for the completion of the Northern Pacific Railroad, which bill has already passed the Senate, some 7,000,000 acres of land, heretofore granted in aid of the branch road across the cascade Mountains to Puget Sound, are restored to the public domain. It also recites that by the terms of that measure, the road from Umatilla to Portland, along the Columbia River and through the Cascade Mountains, is to be a common road for the use of both the Northern Pacific and the Portland, Salt Lake and South Pass companies. The bill then proceeds to grant to alternate sections of public lands per mile on each side of the projected road, commencing at Umatilla and extending along the line towards Salt Lake, to a maximum amount of 7,000,000 acres. These lands are all to be thrown open to actual settlers, in tracts not exceeding 160 acres, to any person, and at a price not exceeding $2.50 per acre. The homestead rights on even numbered sections are preserved to the full extent of 160 acres and all the existing rights of the settlers are carefully protected. The work must be commenced at Umatilla within six months, 125 miles of the road constructed and equipped within the next year and at least 50 miles each succeeding year, and the whole road must be completed within four years from the date of commencement. The bill finally reserves to Congress the right to provide by law against unjust discriminations and excessive charges.

Commercial Treaty.

CHICAGO, 9.—Leon Chouteau, the delegate of the French committee, organized in Paris, to secure a commercial treaty between this country and France, held a conference, to-day, with the executive committee of the directors of the Board of Trade, and laid before them his plans for a conference between the leading commercial men of his country and the United States. The board will soon consider and act on his proposition.

The Great Shootists.

Dr. Carver did some more successful and astonishing exhibition shooting at Dexter Park to day. Negotiations are in progress for three meetings between this gentleman and Captain Bogarghus, the places named being Chicago, Pittsburg and New York.

Will Appeal for Aid.

ST. LOUIS, 9.—The miners in the Illinois coal district, opposite this city, will publish an appeal, tomorrow, in the morning papers, asking provisions to keep their families from starving. They say they cannot make more than four or five dollars a week, a sum totally insufficient to support their families.

FOREIGN.

GREAT BRITAIN.

Gladstone's Speech.

LONDON, 9.—This morning's *Times* criticises the speech made by Gladstone, yesterday, to the deputation of the Welsh Liberal Associations at Hawarden, in which he denounced the government in violent terms, and says his language was so reckless as to entirely overshoot the mark. It reads like a speech prompted by desperation. The *Times* also says it believes the government, on the whole, is acting wisely in the present crisis, and the fact that Gladstone cannot arouse, by a wholesale denunciation of government, the London newspapers, fashionable people, and educated society, into some expression of opinion to the contrary, shows that the country does not dissent from the government's policy.

The Foreign Policy.

The Birmingham *Daily Post* says: Sir Stafford Northcote privately desired Mr. Chamberlain, radical member of Parliament for Birmingham, to postpone his request for a day for discussing the motion concerning government's foreign policy. Hence the *Post* infers that government hopes to be able shortly to communicate information which will render debate unnecessary.

Eastern News Notes.

Five thousand Russians guard the bridge over the Sereth and eastern Carpathian passes.

The Roumanian journals daily chronicle the Russian movements, but the numbers are small and the transfers closely resemble the settling into place of the army of occupation. The present attitude of the Roumanian government towards Russians is based on Premier Bratiano's circular to prefects.

Seven thousand Russian transport carts have left Bucharest for Bulgaria during the past few weeks. There are large park-wagons at Kischeneff.

The Bulgarians closed the Roumanians school and seized the church hitherto permitted by the Turks, at the Bulgarian town of Turtukai.

A large shipment of heavy shell has recently been made from the line of the Danube to the Black Sea ports.

The Turkish commander at Volo has assented the British consuls that irregular troops have been sent to Thessaly.

Two more ironclads of the Channel squadron have arrived at Port Said.

FRANCE.

The Chair of Physiology.

PARIS, 9.—The professors of the College of France have recommended Dr. Brown Seguard for the chair of physiology, made vacant by the death of M. Claudes Bernard. Dr. Brown Seguard being an English subject is ineligible unless he becomes naturalized.

Review of the Armies.

During the second fortnight in June the annual review of the armies of Paris and Versailles will be held. The number of troops under arms will be about 65,000. All foreign soldiers in Paris will witness the march past. They will be formed to a battalion of honor in front of the official tribune.

BRITISH AMERICA.

Fenian Preparations.

MONTREAL, 9.—The mayor has received a letter from Massachusetts, stating that the Fenians are making formidable preparations for a raid on Canada. On the suggestion of the mayor, a meeting of the Protestant and Catholic citizens will be held, to consider in a friendly spirit the best means to allay the existing party difficulties.

☞ *For further particulars apply to D. H. Hillhouse.*

Price, - $25.

TO

CONFERENCE VISITORS.

I BELIEVE that the Citizens of this Territory could afford to pay a committee $10 per day to examine into the merit of machines offered, thus preventing the palming off of inferior articles on the market, and the consequent loss of thousands of dollars, to be repeated semi-occasionally by making a few changes and names to sell machines. When this time comes the Remson Rubber and New American Sewing Machine will take a front rank for simplicity of parts, durability, ease of learning, utility, etc.

You are respectfully invited to call at the Idaho Store, see these work, buy one on a guarantee, and be learned to operate them free of charge at home.
