Walter Beare has deserted from the ranks of the Salt Lake team to the Rio Grandes. The latter team is now fully organized. All hands were requested for game last Wednesday, Pete Sullivan, an Eastern pitcher, together with Martin, an early third baseman, late of the Colorado leagues, was also been secured by Manager Hickey.

The game yesterday was emphatically Pittsburg's sensational finish with Louisville. According to all accounts the visitors had everything their own way in smashingly, and when the Pittsburgers came in to bat in the ninth inning with 8-1 against them the game seemed to be a foregone conclusion; however, the locals made a finish, the line of which sent the Louisville into hysterics for they simply pulled the fat out of the fire and won, hands down, to the tune of 7-6.

New York lost the game against Philadelphia in the final series, being probably to the wild pitching of their new ex-Columbia university man, Doscher, and Baltimore played a brilliant game that ended in a 10-4 finish in favor of J. L. Sullivan's fellow townsmen.

The first pitcher to meet with serious injury this season is Pitcher Lindsey, of Grand Rapids. He snapped a tendon in his pitching arm last week.

* * *

Now that the playing season is open let the magnates cease wrangling and center their own attention and that of the public on the players in the field.

* * *

Pitcher Warren Beckwith, who signed in '98 with the daughter of Robert T. Lincoln and then went to the west, is playing with the Sacramento (Cal.) team.

* * *

Connie Mack trains his Milwaukee men from first base and behind the bat, exhibiting his efficiency from position to the other he can tell better how his players are working.

* * *

The Pittsburg's pitchers staff this season will consist of Tannehill, Rhines, Tiffin, Garfield, Leever, Sparks and Tarr. The latter joined the team May 1.

* * *

The Cornell boys open parting with their coach, Hughey Jennings, preparatory to their spring trip, Saturday. Jennings will study law at Cornell in the fall.

* * *

Captain Hughey Duffey of the champions has sensibly decided that he is too near the end of his stage of his career to experiment at left-handed batting. Hughey will stick to his natural style.

* * *

Manager E. C. Norton of the new Pittsburg club of the New England League would like to hear from players at once. Mr. Norton can be addressed at Hotel Bodewell, Pittsburg, Mass.

The stockholders elected the following directors: Wm. H. Newman, Cornelius Vanderbilt, Fred W. Vanderbilt, Hamilton Mack Twombly, Chauncey M. Depew, Samuel S. Ultimus, Wm. K. Vanderbilt, Jr., H. Steel Trade Deeply Agitated.

New York, May 4.—In discussing iron and steel trade conditions the Iron Age will say today:

"The steel trade is deeply agitated over the new tinplate company promising which meet a virtual withdrawal of Andrew Carnegie from the industry and the organization of control in H. C. Frick, with whom will be associated the Standard Oil party and the leaders in the National Steel company and their allied interests. To what extent this movement will expand, so as to include the Federal Steel company, is a matter of close. It is understood that other large concerns have been approached. It is generally felt, however, that the undertaking is still in its initiatory stages and it may or may not go through.

"Another agitation which is taking a serious turn, is that of the Western Steel Mills, on which officers are now being assembled, the movement is backed by the Moore interest.

"In the metal trade copper continues so absorb attention through the movement to bring a large part of the productive capacity under one management, to equal that of the Standard Oil company, and to control the tinplate and the Missouri and Kansas zinc miners have again pushed for prices. Lead is also firmer. The Czar of Alsace settings are off as important producers. Tin has again risen in sympathy with London."

The $1 Criminal Charge.

Chicago, May 3.—Arguments were concluded today in the United States district court in the hearing of the demurrer of the railroad companies to the bill of the interstate commerce commission. Judge Kohlsaat took the matter under advisement, but it is not probable a decision will be given soon as the attorneys for both sides will first have to submit briefs of the arguments.

The court will be asked to decide on the legality of the $1 criminal charge at the Chicago stock yards.

CONFLICT OF AUTHORITY.

Prospect of Serious Trouble Resulting from It in Arkansas.

Little Rock, Ark., May 3.—Gov. Jones has been informed of a movement to bring into the coal mining district an armed force of men to take the places of the strikers. He has given instructions to the State authorities to summon every able-bodied man in Sebastian county to assist the sheriff in enforcing the injunction of Judge Howe. At least armed men are to be met at the Mate line and prevented under arrest, and also those who supply the arms. Mine operators will also be arrested by State authorities if they attempt to bring in armed laborers under the protection of deputy marshals.

The injunction issued by the State and Federal courts are in direct conflict, and the governor regards the situation as critical. He is determined that the writ of the State court shall be carried out, and if necessary will go in the mining district in personal and direct the carrying out of the court's order, which he believes to be the only way in which bloodshed can be avoided. The situation is critical, and a temporary conflict is said to be inevitable if non-union men are imported.

Empress Augusta Victoria, wife of the present emperor, when she was a young girl, and she was also as skilled as a dressmaker that even after she became empress she had her private made under her own personal supervision. Grand Duchess Louise of Baden took her second daughter, Princess Victoria, wife of the crown prince of Sweden, never to forget that "every woman should be able, if she be a soldier or a collier, should be a careful housekeeper and a perfect cook.
