Do You Take A RIDE?

No more pleasant ride can be found anywhere than that to the suburbs Southeast of Salt Lake City. If you drive, ride horse back, or use a bicycle, the nicely sprinkled roads afford continual pleasure. The popularity of the East Boulevard is attested by the hundreds of wheels and thousands of people that daily throng it.

Why not combine business with pleasure? If you buy a home in Forest Dale, you can enjoy the ride to and from your residence that hundreds are anxious to take for pleasure alone.

What is more invigorating during these warm days than a ride on an open electric car? Try it early any morning or after your work in the evening; and then if you wish a home, buy in Forest Dale. By doing so you can enjoy the canyon breeze, and still be near your work. Can have water belonging to yourself piped to your door and still not pay city taxes. Can have the benefit of good schools, and of pleasant associations, and yet have none of the smoke and discomfort of residence in a city.

Inducements to build. Small payments and long time at low interest will be allowed desirable parties.

Call at CANNON'S office, 213 Constitution Building, and get plat and prices.

"The Beginning of the New State" is the subject of a very unusual patriotic meeting to be held at 7:30 tomorrow evening at Pyramid building, Third North street near First West. The various addresses on "Elevation in the New State," "Public Morals in the New State," "The Rights of Labor in the New State," "The Drink Question in the New State" and "Religion in the New State," will be made by also speakers of various political views, followed by "Sweet-Hour" conference at the close of the meeting, who may have a word to say to help the work.

Mr. D. Wilmot Moore, general secretary of the Chicago Y. M. C. A., will address Sunday at 4 p.m. at the First Congregational church. The lecture will illustrate the practical workings of the association and will attract a large number of the members and friends. Mr. Moore is a man of considerable experience in this line, being at present at the head of the Chicago work, which embraces 6 branches, the main building and equipment costing $1,300,000. He is touring now from the opening exercises at the new building in San Francisco, which was erected at a cost of nearly $400,000.

Wives Seeking a Divorce.

Almon Wachtel has instituted proceedings in the Third district court for a divorce from her husband, William E. Wachtel. The parties inter married at Dayton, O., on December 8, 1891, and plaintiff alleges that within one month after the marriage the defendant, without cause deserted her and ever since has continued to live apart; that he has utterly failed to provide for either her or their infant child. She asks for the custody of the child, William E., aged between two and three years.

Maud Lawrence has also begun suit in the same court for divorce from her husband, Frank Lawrence. The parties intermarried at Argentine, Kas., April 20, 1887. The complaint sets forth that on April 30th defendant wilfully and without cause deserted plaintiff; that for more than two years he has been guilty of habitual drunkenness, and that for more than two years he has failed to provide her with the necessaries of life; that since their marriage he has treated her in a cruel and inhuman manner, repeatedly threatening to kill her, and using bad language toward her. Mrs. Lawrence asks for the custody of their two little girls, aged 7 or and a half and two years respectively.

TERRITORIAL FAIR.

Not Much Time Now Remains Before the Opening of the Exposition.

MACKINTOSH MINERAL CABINET.

Exhibits Will Be Artistically Arranged—The Live Stock Show—Home Manufactured Goods—Miscellaneous.

Not much time now remains before the opening of the great Territorial Exposition. From every quarter comes the flattering and promising assurance that the Fair will be a most successful one.

THE MINERAL EXHIBIT.

The elegant mineral cabinet belonging to Mr. Richard Mackintosh is nearly arranged for the October show. Mr. Cushing, who arranged the collection at the World's Fair, and later at the Midwinter Fair, has the cabinet in charge, and is making an artistic arrangement of the valuable samples. Every time the cabinet is moved the specimens have to be taken out and tested; and it is astonishing how near to the first arrangement Mr. Cushing gets each succeeding one. In California the work of classification was so like the original that Mr. Mackintosh was asked how it was possible to move the cabinet to the coast without a single disappointment.

The mineral department, which contains this exhibit is under the supervision of Director Herman Ramberger, and it is assuming magnificent proportions. All the furniture, cases and materials shown at the World's Fair will be seen at the home Exposition, and there will be added new exhibits by local companies. The New Salt company, Utah Portland Cement company, Utah Brick Manufacturers' association, Salt Lake Pressed Brick company, Anderson Pressed Brick company, George H. Jones, John Irvine (coal), and many others will combine to make the mineral department second to none in the Exposition.

ARTISTIC DISPLAYS.

Experience at the World's and Midwinter Fairs has taught the manufacturers of Utah that it is not alone the making of an exhibit that benefits them, but the artistic way in which it is placed. This is what largely attracts the people in linking at a Fair. The critical examination comes after the attraction. Realizing this fact many manufacturers this year will take more than ordinary care in the manner of the installation of their goods. Mr. Keeling, the architect, has made a number of plans for exhibitors' booths, which are now in process of construction. Ogden's soap factory—the Waterhouse distillery, the Salt Lake Milling and equipment company ($,000,000. He is touring now from the opening exercises at the new building in San Francisco, which was erected at a cost of nearly $400,000.

shown in the usual educational way. Herds will be shown by James P. Freeze and Willis & Sons, while President Winder, Sheriff Walker, Dr. Higgins, Matthew Cullen, James Matthews, Smithfield, of Logan, Jacob Morris William P. Brown, of Spanish Fork, and others are among the cattle owners who will bring in their animals for competitive purposes.

ELECTRICITY.

Chairman Ramberger and the executive committee have been wrestling with the proposition of electric lighting and it is now sure that the Fair grounds will be more brilliantly illuminated with arc and incandescent lights than ever before. Forty of more arc will be used as against twenty-six in 1893. In addition to this, private exhibitors will put in clusters of incandescent lamps, producing a brilliant effect in the booths and stalls. The big eagle made by the society for the World's Fair and used there as a part of the Eagle Gate, has been polished on the front of the building and this will be illuminated by a circle of incandescent lights. Up to date the railways each use a string of lights from the main entrance to their respective lines, so altogether the mysterious power will be plentifully used producing a sense of national brilliancy.

HOME MANUFACTURERS.

The home manufacturers' committee met Thursday evening and discussed the program to be carried out on Wednesday, the second day of the Fair, which will be home industry day at the Exposition grounds. All manufacturers will be asked to give their employes a half holiday and the manufacturers will have a procession at 2 o'clock. It will be headed by the Raymond Coach with Hoole's band on the top, followed by the Utah and couple of drays and buses, filled with manufacturers and their employes. A few well distributed horses will wake Salt Lake up and demonstrate the home producers are alive to their interests. At the Fair grounds there will be two short addresses, music, a stock parade, fireworks display and the Grant Soap company will make their grand distribution of $1,000 in prizes.

NOTES.

Obled & Knight will show their new patent wagon built for the city. Those who have seen it say it is a beauty.

Phil Seider, of the late firm of Seider & Clelland, will exhibit several vehicles. It was Seider & Clelland's phaeton that took the prize at the World's Fair.

D. L. Nixkam has been appointed assistant supervisor of the kennel show and is rusting for a rousing exhibit.

Run Down by a Bicyclist.

Mr. James T. Dunbar, city circulator of the News, had the misfortune this morning to be made a victim of the reckless bicycle riding that can be seen on east South Temple street every day. The gentleman was walking from his home to the office unconscious of impending evil when he was suddenly and violently struck in the back and knocked to the ground by a wheelman who swooped down upon him as though he were a rider in a hundred contest fully determined to clear every obstruction, stationary or movable, from his path. The collision also threw the bicyclist from his wheel. When Mr. Dunbar, with painful effort, managed to scramble to his feet, the fellow apologized but refused point blank to give his name. The only explanation was that he intended to dash by but by mistake gave the wheel a wrench in the wrong direction, with the result stated.

Civilization vs Barbarism.

The Hamilton Debating club has challenged the Webster Debating club to a public debate, to take place at the Seventeenth ward assembly rooms, on Wednesday evening, the 26th instant, the subject of debate being "Resolved, that the civilized race is more happy than the barbarian?"
