FROM THE CITY ENGINEER.

The city engineer reported as follows:

In accordance with instructions received from the City Council on March 16, of the present year, I have made and herewith submit an estimate of cost for constructing a reservoir and pipe line system for supplying water to those portions of the city known as the "North Bench" and "Capitol Hill." To distribute the water as high as Thirteenth Street it will be necessary to locate the gatehouse lot in the vicinity of the residence of the present Twentieth Ward system and will require about 14,000 feet of two and three-quarters inches of main pipe, which I think should not be less than twelve inches. The cost of such a system will be about as follows:

For reservoir, purchased, etc.	$ 1,125 00
For 14,000 feet mains	5,600 00
Total cost of work	$6,725 00

Read, received and filed.

TO PARK CITY CREEK CANYON.

The subjoined resolution by Mr. Pendleton was read and adopted:

Resolved: That the committee on public grounds with the mayor and city engineer associated, are hereby requested to locate the land belonging to the city corporation in city creek canyon, with the view to selling apart thereof deemed to be as much thereof as may, in their judgment, seem good for a public park, and that they be requested to report on their recommendations prepared to same at an early a date as possible.

AS TO THE MERCHANTS' LICENSE.

The committee on finance submitted the following report:

Your committee on finance, to whom was referred the above report of the city treasurer, recommend that the same be received and filed, and as much of it as will be of interest to the general public published.

Referring to the changes recommended in license matters, your committee, after careful consideration, do not consider that it would be just to abolish the merchants' license and allow the tax to rest on other lines of business that pay fifty or so much tax as the merchants; the city tax is a condition at present in dispute with that entire revenue we therefore recommend that the merchants' liquor license as it is until such time as the city is in a position to act along with the other lines of revenue.

In regard to the liquor license, we recommend that no license be issued for a shorter period than six or twelve months.

We further recommend the adoption of the graduated schedule of license rates, which agrees with the recommendation of the treasurer with but few exceptions. The recommendation that each department shall hereafter make a settlement with the treasurer once each month (it is optional with the department to make settlements oftener), and that the auditor and treasurer make a full and complete report to the Mayor and the Council once each month, we think should be adopted.

We also favor the adoption of the recommendation in regard to the deputy treasurer.

We also beg to make a supplementary report from the treasurer and recommend the adoption of

Respectfully,
W. H. LYON,
JAMES ARMSTRONG,
L. C. KARRICK,
Committee on Finance.

SALT LAKE CITY, March 5, 1891.

Committee on Finance, Mr. W. H. Lyon, Chairman:

Gentlemen: Supplementary to my annual report, one to your hands for action, I beg to submit the following:

All changes with reference to licenses will require a new ordinance.

All notice affected by and changes are entitled to full and sufficient notice. To comply with this idea, allow me to say that some of these changes at the earliest could scarcely date after the passage of the ordinance covering the subject.

Another suggest and recommend that licenses are to be issued on one to twelve months only. I see no reason why this part of our city business should be conducted longer in all modern idea of business principles.

Very respectfully,
J. E. WALLACE, Treasurer.

After fifteen minutes trifling discussion the matter went over until Friday night.

DRESS GOODS.
EVERY DRY GOODS HOUSE KEEPS DRESS GOODS, BUT scarcely a house in America can show the collection of superb things we are prepared to offer this Spring. They are strung along from New York to Salt Lake, and SOMETHING NEW IS ARRIVING DAILY. The purchases of six past seasons would not equal the selections of this season's line, and Ladies cannot form the faintest idea of how elegantly and tastefully they can dress, except by calling and examining our choice stock of French Novelties and the other artistic effects in our Dress Goods Department.
We shall show a line of French Challies, the patterns and colorings of which are pronounced works of art.
Our Combination Plaid Robes are the most tasteful, at a moderate price, ever produced; and about two hundred patterns of European Novelties, of which no two dress patterns are alike, are something to be proud of.
The Wool Plaids embrace colors never before attempted, and, together with the patterns, are simply immense, and in styles suitable to all ages.
Our Black Goods stock is very complete, in which we are showing many novelties that are offered at the very low prices we place on Henriettas, Serges, Cords, Diagonals and Twills.
WASH DRESS GOODS.
THE TERMS APPLICABLE TO OUR WASH DRESS GOODS are handsome, pretty, sweet. These three styles of beauty are all embraced in the choicest line ever offered in any one house. The cream of all importers and manufacturers are collected in this one grand display.
We lead with the great European Novelty, Korah Moire, in printed goods, a new weave made from Egyptian Cotton and Combed Yarns, combined with the Moire effect, producing a richness only to be found in the highest class silks. Every house advertises Scotch Ginghams and Zephyrs, and show more ugly than pretty patterns, but with us it is different; we have an immense assortment, and every pattern is a beauty, the colors rare and rich, producing effects never before witnessed in this class of goods, and are perfectly fast.
We are also showing stylish patterns in American Ginghams.
The old stand-by, Printed Sateens, is largely represented in all qualities, and the new Clinton Cloth, made by Simpson & Sons, deserve special mention for its richness of design.
The patterns in Prints this season are so very pretty we must speak of them.
WHITE GOODS and EMBROIDERIES.
WHITE BLACK GOODS IS THE ONE NEW THING UNDER the sun; you want to see them; they are in Embroidered Flouncings, India Linens, Nainsook Checks, Lace Effects, Cords and Stripes. Ladies of more advanced years can have all the comfort there is in wearing a white muslin dress and yet be dressed in black. You should buy them early, the novelty being so great, there are doubts of there being enough to supply the demand.
We have a more extensive line than ever in White Embroidered Flouncings in forty-five-inch goods for Ladies, and twenty-seven inches for children. You will, of course, see Flouncings in other stores, but if you want style combined with cheapness, you will buy them of us.
