THE WEEK ON THE EXCHANGE.

Business Transacted Amounts to the Sum of $132,961.23.

GRAND CENTRAL IS FIRM.

Ajax a Little Weaker—Northern Light Active—Yankee Con. Advancing—Tesora Lower.

Business on the Mining Exchange closed today with the sale of 33,900 shares for the sum of $13,744.25. The business transacted during the week amounted to $132,961.13, which represented the sale of 212,310 shares. Prices in general show more strength at the close of the week than they did at the opening on Monday. At that time Ajax was traded in as low as 87½, but it has since sold up to $1.30 on news that the fissure had been cut on the 1,000 level. The stock has since become much weaker owing to the smallness of the fissure and the fact that the values have not yet been found. Sales were made today between $1.09 and $1.08¼. Grand Central has also been one of the favorites of the week and has advanced from $6.23½ on Monday to $6.70 in expectancy of a March dividend. Considering that it did not come the stock stood very firm today, when 400 shares sold at $6.40 per share.

Lower Mammoth stands around $3.98 today as compared with $3.73 on Monday while Ben butler has moved up to 8¼. Tesora has attracted much attention because of its phenomenal rise from 57 on Monday to 90 in the middle of the week. It has since weakened to 81½. May Day, which sold as low as 44¾ on Monday, has since sold up to 48¼, the price at which a small lot changed hands today. Century of Park Valley was much stronger today, as high as $1.10 being bid for the stock. Daly West has sold at better than $35.00 during the week. It closes today with $34.80 bid. Yankee Con. was active today up to 13¼, after remaining around 12 for some time past. Quite a boom is noticed in Martha Washington, most of which is said to be due to manipulation. After selling up to 12 the stock weakened today to 10½. Northern Light opened at 6½ today and sold up to 7¾, while Sacramento sold as high as 38¾. Star Con. shows a strong decline this week. On Monday it sold at 78 but less than 70 was offered for the stock today. Dexter is weak around $1.14. Boss Tweed has been usually active at 11½ this week.

The closing quotations were posted as follows:

ORE AND BULLION REPORT.

McCORNICK & CO.

Silver and lead ores $24,600

BAMBERGER & McMILLAN.

Bullion $18,870

NEW BINGHAM CORPORATION.

Articles of incorporation of the Miner's Mercantile company were this afternoon filed with the county clerk. Its principal place of business is to be in Bingham, Salt Lake county, and is organized for the purpose of carrying on a general mercantile business at that place. A. B. Gibson, of Mercur, is president; John Dern, of this city, is vice president; Ralph Zwickey, of this city, is secretary and treasurer, who together with Mary E. Gibson and Francis E. Zwicky, constitute the board of directors. The concern is capitalized at $20,000, divided into 400 shares of $50 each, of which 150 shares have been issued and subscribed for as follows: A. B. Gibson, 65, John Dern 37, Ralph Zwicky 36, and Mary E. Gibson and Francis Zwicky one each, the balance to be issued under the direction of the board of directors.

SENSATIONAL AT BULLION BECK.

Prest. Farnsworth Reports High Values in Lead, Silver, Copper & Gold.

MAY DAY IS IMPROVING.

Increased Shipments Promised—Ben Butler Concentrates—Items from Bingham—Mercur Notes.

It will be gratifying to many shareholders in the Bullion-Beck at Eureka, to know that the mine is showing signs of a speedy recovery from the worked out condition in which many of the knowing ones say it has lapsed during the past year. President Farnsworth reports today that the new strikes on the 200, 300 and 900 levels are improving right along. This is especially true of the 200 and 300 levels. In the latter place, Mr. Farnsworth reports the discovery of a body of high grade ore of which a couple of carloads will be on the market next week. The full face of the drift is said to be in ore which shows60 ounces silver, 40 to 50 per cent lead, 23 per cent copper and $10 in gold per ton. An average assay of the face of the drift is said to show the above values, though of course the shipment now on the way will tell the story better than any sampling of the ore body could do. The week closes with eight cars of ore on the way to market from this property.

RETURNS FROM MAY DAY.

Manager Hunt Says There is More Ore Than Ever in Sight in the Mine.

Manager Hunt of the May Day came up from that Tintic proposition last evening with cheerful reports of the progress made in development work during the past five weeks. In that time the management has run a considerable distance in ore on the 100 level. Some stoping and sinking has also been done until the company is said to have more ore in sight than it ever had at any one time before. This ore has now been followed nearly 150 feet, Mr. Hunt says, and while at places it has pinched to about 8 inches, it has always appeared in the face of the drift. The 200 level is also said to be looking very encouraging. Some spar and manganese recently encountered is taken by Mr. Hunt to indicate the near approach of ore on the level. A few more men were started on ore yesterday and the company expects to get three cars of ore to town on Monday. The payroll, which becomes due on Monday amounts to $2,100 for the past month, so that at the rate shipments have been coming in lately the company has been making a little money right along.

ITEMS FROM BINGHAM.

Concentrator for Nast Group—Heavy Shipments on Wednesday.

In its weekly review of the camp the Bulletin says: H. M. Crowther, the engineer and metallurgist, is superintending work beginning at the Tiewaukee.

A. D. Heaston has been putting his power jigs in order, and anticipates that they will have plenty to do this season.

J. P. Lindley, leasing on Albino, at head of main canyon, will ship a carload of good ore as soon as road is open. Snow in the vicinity is quite deep.

As Superintendent McQueen of the Ben Butler is not likely to be restored to health, in the near future at least, J. A. Jacobson has been installed as his successor.

Yesterday afternoon a snowstorm began that is likely, before it clears, to renew disagreeable conditions of past three weeks. The roads were becoming quite passable.

Amout 25 tons of Red Wing Extension concentrates went out yesterday from Dewey mill. It was an unusually handsome product, 4 in 1, carrying 45 to 50 per cent lead.

The Detroit people who have the Tiewaukee group under bond and lease are also operating the New Mammoth and are understood to have control of one or more single claims in main canyon.

The New England C. & G. M. Co., operating Nast group, it is said have decided to begin the erection of a concentrator in Muddy Gulch below Last Chance mill, at as early a date this spring as practicable.

In Keystone gulch the Fortune, Congor, Pine Tree, Copper Glance, Illinois and New Mammoth groups of mines are likely to all be in active operation this season. The Fortune and Congor were the only ones on which considerable work was done during 1900.

A cross-cut being run under contract on Copper Glance M. & M. Co.'s group is now in 100 feet. At a total of about 450 feet it will tap vein, under the incline in which work was suspended on account of water. When drainage is established, the group, consisting of five claims located above the Congor, will be developed for production. The incline was sunk on a good streak of fine shipping ore.

Last Wednesday the total ore shipments from Bingham depot amounted to 994 tons. Twenty cars were required—18 being ironclads (50 tons each). This breaks the record of single-day shipments by nearly a hundred tons, though days are becoming frequent when they reach from 700 to 800 tons. The Wednesday outgo was largely from the Highland Boy and Bingham C. & G. mines.

POWER FOR MINES.

Scheme to Furnish Central Idaho with Electricity.

The Lewiston, Idaho, correspondent of the Spokane Review reports E. H. Libby of the Vineland company as saying that the Grand Ronde Power company, a branch of the Vineland corporation, which has filed a water right on the flow of the Grande Ronde river, will early this spring make a survey and expects to at once begin development of the power. It is expected that the power house will be located 25 miles above Lewiston, three miles from the mouth of the Grand Ronde river. By conveying the waters of the river in a large canal for several miles, it is expected to develop 5,000 horse power.

The development of this power will, in the opinion of Mr. Libby, prove a great thing for Lewiston. It will aid in the operating and continued working of the copper and gold mines in the Salmon river and other districts up Snake river, will permit of the erection and operation of box and furniture factories and will furnish electric power for light and places mining.

Ben Butler Shipment.

The Ben Butler Mining company marketed a car of concentrates today on controls showing 27 per cent lead, 6.7 ounces silver and $1 in gold per ton. In addition the product carried an iron excess of 20 per cent. After intersecting the vein by the main tunnel the company is now following the hanging wall of the vein in an easterly direction. Bunches of shipping ore are encountered, but no bodies of any size have been exposed. The company is upraising in two places and some patches of copper ore have been found.

Mining Notes from Mercur.

The Mercur Miner says the work of extracting the values from the tailings of the Mercur mill at Manning will be commenced in a short time by the Con. Mercur. Men were sent down there this week to begin preparations for the work. It is estimated that there are over 80,000 tons of tailings in the old dump which will pay to leach over again and which will afford a profit of $1 per ton. The cost of handling and leaching will be very small and a less amount of cyanide will be required than in the first leaching. The Con. Mercur has been after the Geyser-Marion dump for some time and we understand has lately acquired it. While the values are small the tailings will enable the base ores, which now constitute a large proportion of the output, to be more quickly leached by being mixed with it.

When the new furnace of the Sacramento was started up last week, it was discovered that the engine was too light to run the machinery. Another engine was ordered and it is expected to be installed so that the furnace can be started up again next week. Since the electric power was shut off by the Jordan Narrows Co., the mill has been run by the old steam plant, but it was not heavy enough to run the machinery of the furnace also.

MINING NOTES.

The Ophir Hill has 6 cars of concentrates on the market today.

Fifteen cars of ore were on the market today from the Centennial Eureka at Tintic.

The Red Wing Extension of Bingham reached the market today with a car of concentrates.

Four cars of ore were on the market today from leasers on United States property at Bingham.

The Taylor-Brunton sampler reported 16 cars of ore from Tintic, 6 from Stockton and 5 from Bingham today.

Two men have been started to work at the Washakee in the north end of Boxelder county under the direction of John Hyam.

The Dewey mill at Bingham has been shut down temporarily owing to impassable conditions of the roads which makes ore-hauling out of the question.

After an absence of a couple of weeks in New York visiting his daughter and conferring with S. W. Eccles, Mr. James A. Cunningham returned from the East today.

Superintendent W. H. Nutting of the Bingham Copper and Gold company's new smelter was in town today and reports about 300 tons of ore going through each day, with everything working like a charm.

A car of ore was on the market today from the Gundry lease on the Boss Tweed of Tintic, which is expected to assay 20 per cent copper. Mr. Gundry is sinking a new shaft on the property near the Carisa lines, from which some important developments are expected during the present season.

"77"

Its Tonicity.

A Cold is usually caused by checked circulation, recognized by a chill or shiver. The use of "77" starts the blood coursing through the veins until it reaches the extremities, when the feet warm up and the Cold or Grip is broken, while its tonicity sustains the system during and after the attack. Many persons write: "Your '77' has proved such a blessing, I want to try Dr. Humphreys' Specifics for other diseases." In response we send free a Pocket Manual, known as "The Dainty Lady," from the picture on the cover, for which a beautiful model was induced to pose.

Humphrey's Homeopathic Medicine Co., Cor. William and John Sts., New York.

GRIP

SHORTS BID FOR STOCKS.

This Causes a Sharp Rally in a Market that Was Quiet and Irregular.

Sugar Goes Down on Sale of 3,000 Shares—Grangers and Pacifics Were Weak.

New York, March 9.—There was excited trading in a few stocks at the opening, but the general market was quiet and irregular with narrow changes both ways. Amalgamated Copper made a violent recovery from last night's depression, selling at 99½ and 100½ at the opening compared with 97⅞ last night. Sugar was carried down an extreme 1⅜ on the sale of 3,000 shares. Price movements became more available and in special cases quite wide. Amalgamated Copper improved to 101 before realizing set in under par. Anaconda Mining also lost a point and there were declines of 1 to 2½ in Hoop preferred, Consolidated Gas and General Electric. Meanwhile the St. Louis & San Francisco issues were marked up aggressively, the common stock rising 2 points. Some of the lower priced railroads were conspicuously strong, including Chicago, Great Western, Denver Rio Grande and Wabash preferred. The market at 11 o'clock was very irregular, profit taking in Chesapeake & Ohio and the weakness of the grangers and Pacifics contrasting with the strength at other points. Prices drifted downward on realizing, some of the principal active stocks re-acting 1 to 2⅜. Amalgamated Copper fell to 99 and Sugar an extreme 2⅜ on the report of the death in Paris of an official of the company.

The publication of the weekly bank statement disclosed an important short interest and their bidding for stock caused a sharp rally. Wabash preferred, Pressed Steel Car and Hocking Valley rose 2½ over last night. Recoveries ran from 1 to 2 points in Sugar, Amalgamated Copper, Pennsylvania, Union Pacific, Consolidated Gas, General Electric and American Tobacco. Renewed realizing at the advance made the closing irregular.

CLOSING STOCKS.

New York, March 9.—Closing stocks: Atchison, 57; Atchison preferred, 91½; A. S. & W., 38⅜; A. S. & W. preferred, 96; American Tobacco, 120½; American Tin Plate, 61¾; American Tin Plate, 100½; American Steel Hoop, 36; American Steel Hoop preferred, 81¼; D. & R. G., 39¾; D. & H., 165; Federal Steel, 43¾; Federal Steel preferred, 88¾; General Electric, 215; Glucose, 49⅛; Illinois Central, 131; I. & N., 93⅞; Leather, 12½; Leather preferred, 75; Pennsylvania, 150; Pacific Mail, 45¾; Pullman, 207¾; People's Gas, 103¼; Reading, 32; Reading first preferred, 71¾; Reading second preferred, 41; Rock Island, 125; Rubber, 18¾; Smelting, 54¾; B. R. T., 87⅞; B. & O., 93¼; B. & O. preferred, 92; C. B. & Q., 148¾; C. C. C. & S. L., 76¾; C. F. & I., 45; C. G. W., 22; Continental Tobacco, 46; C. & O., 46⅝; C. & A., 38¾; C. & A. preferred, 75¼; M. HUMORS

Spring's Inheritance from Winter.

Waste matters which the kidneys, skin and other organs were too torpid (in the cold days) to take care of, and cannot take care of now without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles common in Spring are due to them.

Hood's Sarsaparilla removes all humors, overcomes all their effects, strengthens and tones the whole system.

Don't deny yourself its benefits this Spring.

"I have taken Hood's Sarsaparilla as a Spring tonic for several years and have derived great benefit from it. I recommend it to all who have that tired feeling, loss of appetite or impure blood." FANNIE FISHER, 2018 High St., Des Moines, Ia.

Accept No Substitute for Hood's Sarsaparilla.

A1 IN QUALITY

A REGULAR ORDER.

You will be sure to have the best if in ordering you insist on having Three Crown Baking Powder. If your grocer should happen to put in your order some other baking powder as a substitute, you should not hesitate about calling his attention to the error and have him make the correction. You are sure to be satisfied in using the Three Crown Brand and we know you will find it a pleasure as well as an economy. We want to help you to satisfaction in your baking, which is why we sell this excellent article at the low price we do.

H. DINWOODEY FURNITURE CO.

ANNOUNCEMENT.

TO OUR MANY FRIENDS AND CUSTOMERS we desire to announce, that on and after March 10th, 1901, we will have moved, fast up and ready to receive calls from customers, friends and public at large at our beautiful, handsomely fitted up new ware rooms 51 and 53 Main street. We have on exhibition the largest, the finest and best stock of pianos and organs ever exhibited in Utah. Our stock consists of the Knabe, Everett, Steck, Hardman, Ludwig, Smith and Barnes, Harrington, Willard, Harvard, Lakeside and other good makes of pianos. Earhauf Temple and Estey organs. Whoever saw in any one establishment as large a line of high grade pianos and organs to select from? Our prices on pianos run from $100 up, organs from $25 up. Cash or easy payments. Our stock of goods are right, our prices are right. And our terms are made to suit the buyer. Come and give us a call if only to see our new store with the immense stock of fine instruments on our floor that in itself will doubly pay you for your trouble in calling. REMEMBER THE PLACE.

E. N. JENKINS CO. TEMPLE OF MUSIC, 51 & 53 Main St.

BUSINESS NOTES.

Broker Cutler has this to say of the business conditions of the past week:

The Eastern money market remains with fair and easy rates, and no material change from last week. In Salt Lake business generally has been inclined to be quiet during the week. In certain lines there has been some activity. Collections are rather slow, but the deposits in the banks are large and seem to be getting a little larger. There has been a little activity in real estate, but a large amount of business is believed will be transacted this coming summer if the railroad to Los Angeles happens to be built. The mining stock market has again been fairly active during the week. So far, the mines have declared dividends to the amount of $157,500 for the month. The local commercial stock and bond market has been rather quiet during the week. About three hundred shares of Utah Sugar Co. stock changed hands. One hundred shares sold at $17.00 per share, and smaller blocks brought $17.10, $17.15 and $17,25 per share. The stock is very firm around $17.00. People seem to be holding on to their stock, as it pays more in interest at $17.00 than any other security on the market at the present time. The 3 per cent dividend due at the end of the month will be paid on the full capital of $1,000,000 and will amount to $30,000. The Logan sugar factory which is soon to be built will bring increased business and trade to the people of Cache county. Every snow in this state now means better crops and more business.

Following are the market quotations of the leading stocks:

Deseret National Bank	$248.00
Z. C. M. I.	140.00

UNSAVORY CASE.

Couple Arrested in Ogden for Immorality Are in Jail.

[SPECIAL TO THE "NEWS."]

Ogden, March 9.—At one o'clock this morning Deputy Sheriffs J. W. Bailey and Robt. Shaw arrested Ed Cedergreen and Mrs. Clara Dodge here on the charge of fornication. The parties were arraigned this morning and held in bonds of $200 and $100 respectively. They were unable to furnish bail and in default are now in jail.

Cedergreen is a widower 35 years of age, while the woman is 17 years old and was divorced from her husband last summer. She is said to have been married to her former husband when she was but 13 years of age. At the time of her arrest she was said to have been acting in the capacity of housekeeper for Cedergreen, who is now anxious to marry her.

ESTATE OF EDWARD BRAIN.

Attorneys Moyle and Hutchinson Have a Misunderstanding.

In the hearing of the estate of Edward Brain, deceased, which came on before Judge Hall yesterday afternoon, and while Attorney James H. Moyle was making his opening statement, W. H. Hutchinson, counsel for Mrs. Annie Peters Brain Meyer, the widow of deceased, stated that the inference Mr. Moyle drew from a former order of the court in appointing Orson Rumel as administrator, was not true. Attorney Moyle resented this imputation and asked Mr. Hutchinson to retract, which the latter in effect did. The occurrence arose more over a misunderstanding between the attorneys, and the matter was speedily adjusted, after which the trial of the case proceeded.

The controversy now on in the estate is over the objections of Mrs. Brain Meyer, who claims a one-third dower interest in the real property of the estate, which has been ordered sold by the court. Mrs. Brain Meyer was originally the administratrix of the estate, but became disqualified on marrying again, and other heirs also object to the allowing of her accounts as such.

Mr. Moyle represents the new administrator, Rumel, and Mr. Hutchinson the widow.

Sues for Damages.

W. H. Glass, this forenoon, filed a damage suit against the Highland Boy Gold Mining company, to recover $5,000 for alleged personal injuries received while plaintiff was in the employ of the mining company near Bingham, on November 30, 1900, in tearing down and removing a building. Mr. Glass avers that the defendant had in its employ careless workmen, by reason of whose acts, in removing timbers, he was knocked off the building in question on to the ground, a distance of about ten feet, injuring plaintiff in the amount stated, for which he asks judgment.

Criminal Cases.

In Judge Stewart's court this forenoon the following criminal cases were in order:

State of Utah vs Alexander Tripton charged with rape; waived time as pleaded not guilty.

State vs Tim Sullivan, robbery; defendant arraigned and given till March 11th to plead. Ray Van Cott appointed to defend the accused.

State vs James R. Ray, forgery; given till Monday to plead. D. B. Richards appointed to defend.

State vs Tim Sullivan, assault with a deadly weapon to do bodily harm; defendant arraigned and given till March 11th to plead. Attorney Ray Van Cott appointed to defend.

Before Judge Morse.

Judge Morse today transacted the following business in the civil division of the district court:

Nicholas Hair et al vs J. J. Williams, J. P.; petition for writ of certiorari stricken from the calendar.

John Montier vs Walter Squires; demurrer argued and overruled.

Allena Maris vs Mack E. Swan et al; demurrer stricken from the calendar.

Charles E. Hudson vs Buckeye Mining Co.; demurrer overruled, and defendant given ten days to answer.

D. A. Sullivan et al vs Salt Lake Ice Co.; demurrer argued and submitted.

James Thompson vs Consolidated Implement company; demurrer submitted.

E. H. Parsons vs S. H. Franks; demurrer argued and overruled.

Andrew J. Swenson vs J. J. Snell; motion to strike out third amended complaint denied.

Alexander McMaster vs Salt Lake City; demurrer sustained as to third division of answer.

Frank M. Owen vs Edward McCarrick; demurrer as to first and second causes of action overruled, and sustained as to the third.

TO SUNDAY SCHOOL CHORISTERS

The Sunday school superintendents of the Salt Lake Stake are requested to have their Sunday school choristers make from the "Deseret Sunday School Song book" a selection of twelve pieces which in their judgment they deem best suited to the requirements of their schools, and send the list to Prof. Ben Stephens, 408 Templeton Building, Salt Lake City. From those lists Prof. Stephens will make a selection of the twelve pieces for which the majority of the choir leaders have expressed a preference and will proceed to train the members of the Stake Sunday school singing class now under his care in learning them, so that they may the more effectively take their part in the choral exercises of their several schools.

T. S. GRIGGS,
Stake Supt.
