DESERET EVENING NEWS.

Tuesday, September 28, 1897.

WARNING TO SPORTSMEN.

State Fish and Game Warden Issues Instruction to His Deputies.

Will Prove Good Hearing to Locate of Hunting Hard on the Wise in Sufficient.

State Fish and Game Warden John Sharp issued the following letter of instructions to his deputies throughout the State yesterday:

"As the season for shooting wild water fowl, ducks, geese, brant, snipe and all kinds of game birds opens the first day of October and not before, and as there has been considerable, through misunderstanding, and some possibly by design, will or may try to commence shooting a day or two before it will be necessary for you to be on the alert for any violations of the fish and game law in this county. It will be necessary for you also to do all that you can to guard against game being killed and the use of guns other than shotguns.

"It has been reported that there are some parties preparing to shoot with No. 4 bore guns as soon as the duck season opens, which is clearly in violation of the fish and game law, and whoever you detect any person or persons shooting with these large and others full guns for the purpose of killing wild water fowl on a large scale, it is your duty to arrest them and seize any game which they may have in their possession, as provided for in the law.

"I would further draw your attention to the provision of the law permitting the taking only of six duck, antelope and mountain sheep, and to shot during the two months only of September and October. Any of the carcasses of these large game animals brought into the market of your county will bear your closest scrutiny to see that this important provision of the law is not violated.

"Another very important provision requiring your earnest attention, is that which provides against the shipping of fish and game out of the State. I would urge you to use your best efforts to prevent violation of this provision."

Inquiry for Jacob H. North.

The police department is in receipt of the following telegram to which no response has been given but without avail:

"Lincoln, Neb., Sept. 24.

"Find Jacob H. North, from Lincoln, Neb. Have him communicate with Arthur North, Lincoln, Neb. Important. ARTHUR NORTH."

DEMOCRATIC NOMINEES.

The Party Hands in Municipal Ticket with W. H. Dale for Mayor.

CONVENTION WORKED TILL MIDNIGHT.

Platform and Resolutions Adopted—Executive and Campaign Committees Named and General Work Done.

The Democratic city convention met at 8 p. m. yesterday in the Salt Lake Theater and of course did not come to an agreement until 12 of this morning. The general ticket is as follows:

For mayor, W. H. Dale.
For assessor, Thomas H. Dickinson.
For treasurer, W. C. Hill.
For recorder, H. P. Morris.
For attorney, Ben. E. Rich.
For police judge, J. M. Barlow.
For police assess, J. H. Tomney.

The following resolutions and resolutions were adopted:

"We, the Democrats of Salt Lake City, in convention assembled, confirm and endorse anew the principles of the Chicago platform as contained in the last national Democratic convention, and we congratulate our brethren of the Republican party on their conversion with the principles of American democracy, as we are ready to do the same when they shall return to the principles of American democracy as well as to state and national affairs.

"Devoted full faith in the capacity of the Democratic party to conduct, as we know it to have governed, through their whole history, the affairs of our country for public office, and we condemn the method of nominating candidates for public office by the primary system, which has proved a failure in every United States place, and refuse to vote for the sovereign people to exercise their rights.

"We hold that public office is a public trust and must be treated as such. Hence we advise the electors to vote only such as are competent and whose character is above reproach.

"We are sold that all our bonds are public trusts and that their disposition should be governed by the people.

"We hold that economy expenses should be reduced to a minimum, and that they must come within the revenue, that no debts shall be created, and that no debts shall be created, and that they must come within the revenue of large sums of money, which must be raised by the assessment of additional taxes on an already over-burdened people.

"We insist that only bona-fide residents of the city shall be employed on the public works.

"We insist that such a policy shall be adopted in the administration of the affairs of this city, as will lead to lighten taxation and to a steady reduction of the city debt.

"We are opposed to the endless giving away of franchises to wealthy corporations, and are in favor of elections for the city schools, to compensate for the privileges which, while enriching corporations, will exact from the people the highest possible tribute.

"We are unalterably opposed to any sale or transfer of the city waterworks system, and pledge ourselves to a reduction of the water rates to consumers.

"We take pleasure in commending the Democratic delegation in Salt Lake county which has brought order out of chaos, reduced expenses to a minimum and placed county warrants from discount to par, making the county's credit equal to that of any financial institution in the State.

"And we pledge the Democratic party, if entrusted by the people of this city with the control of its affairs, to give the city of Salt Lake an administration as honest, as economical and as homogeneous as has been the Democratic administration of the county of Salt Lake."

A city central campaign committee was named as follows:

First Ward—A. T. Schreiber.
Second Ward—L. R. Martin.
Third Ward—J. T. Idleich.
Fourth Ward—W. P. Jennings.
Fifth Ward—M. E. Shipp.

NEWS OF THE STATE.

A Batch of Interesting News Culled from Weekly Exchanges.

Springville Independent: Elliot Jordan of the Independent has received a communication from John W. Cooley, who is at Butte, Montana, stating that he has received letters from friends in Springville, in which it was stated that Salt Lake papers had published accounts of the arrest of Jack Coney on the charge of burglary, and that some of the acquaintances here thought he was the man. For the benefit of his many friends and acquaintances here Mr. Cooley writes the Independent to state that he was not the man, and that he had been in Butte ever since March 5, 1897.

Springville Independent: Early last Monday morning a messenger from Mapleton rode furiously into town and announced the information that Roy Watson, a young farmer living at Mapleton, had taken an overdose of laudanum, and that the services of a physician were needed without delay. Dr. John Dougall responded and on arriving at the farm found young Watson in a very precarious condition. The physician set to work, and as a result of his exertions Mr. Watson was soon out of danger. A telegram was sent that Mr. Watson, attempted suicide because of a little domestic infelicity.

Brigham Bugler: Last week Mrs. Elmer Lorenzo of Tremonton had a most painful experience. She had her hand fixed fast in some tin into which she had put a quart of lye, and in the act of scraping the lid on to a glass for the use of the jar spattered her and the lye burned her hand. The pressure brought to bear a sliver of the glass penetrated the lower part of the right index finger, making the wound still more painful. Dr. Schow dressed the wounds and it was out of sight and very sore. It is thought the injured hand will be stiff for a time.

Nephi Times: Mr. Cooley, who is the son-in-law of Mr. Mathews, who was killed in the Mammoth mine, has received a letter from his father-in-law, in which he states that Mr. Mathews
