GIANT POWDER!

Proof of its Superiority for Blasting Purposes!

GOLDEN CHARIOT MINING COMPANY,
Silver City, Idaho, Oct. 18, 1870.

Messrs. Bandmann, Neilson & Co.,
Agents Giant Powder Co.,
San Francisco, Cal.:

DEAR SIRS:—In reply to your late favor, I give you the following result of my working here. The cost of drilling, which cost under the old system of mining here, $40 per foot with the single hand system of working and Giant Powder I have reduced to a cost of $2 per foot, and when under the old system but one foot per day was driven, my men are easily making one and a half feet.

Under the old system winzing (5 feet square) cost $35 per foot, same is now costing me $8.75 per foot, with the same difference in time as shown in drilling.

Under the old system, our mine could never be made to yield exceeding 400 tons per month; with Giant Powder and single hand drilling, I am now furnishing monthly 1,000 tons at a reduced cost of at least 33⅓ per cent less per ton than under the old system.

In conclusion will state that the neighboring mines, Ida Elmore and Oro Fino, influenced by results in the Golden Chariot mine, have adopted single hand drilling and Giant Powder, to the utter exclusion of double hand work, large drills and common blasting powder. In corroboration of results in Golden Chariot mine, I refer you to the President and Board of Trustees, resident in your city.

Yours respectfully,
JOHN F. CASSELS,
Superintendent G. C. M. Co.

THE CELEBRATED

COOKING STOVES!

SUPERIOR

For Wood.

They are really what their name indicates, SUPERIOR to any other Stove in the market, and for

Economy, Durability, Convenience & Dispatch Are Unequalled!

KANSAS, ALASKA AND IMPROVED AMERICAN

For Coal,

Which for **Neatness of Design, Thoroughness of Combustion, Capacity of Oven, Economy in the Use of Fuel and Uniformity of Operation,** place them as the best Stoves in the market.

They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction which give these Stoves superiority over all others in the consumption of its smoke, thus saving a large percentage of fuel.

Bridge, Beach & Co.,

NEW YORK TRADE

NATIONAL SERIES

OF

STANDARD TEXT-BOOKS

PUBLISHED BY

A. S. BARNES & CO.,

AT THEIR OFFICES,

111 and 113 William St., - - NEW YORK.
111 State Street, - - CHICAGO.

PARKER & WATSON'S SERIES.

The lower numbers of the reading series are remarkable for the "word-building system," the high order of the illustrations and the interesting but strictly progressive character of the reading lessons. The higher volumes challenge comparison on account of their elocutionary treatises and the noble range of selections from standard literature.

The series consists of a Primer and five Readers. The fifth is universally pronounced a literary gem, and by many bought to enrich their libraries.

CLARK'S GRAMMAR

Will eventually supersede all others. No other system makes the study so pre-eminently interesting. It combines the diagram system, taught by Dr. Park at the University, and the interesting object lessons so illustrated by Miss Ida J. Cook at the Teachers' Association, Salt Lake City. It makes the study of Grammar a *pleasure* instead of a bore.

DAVIES' MATHEMATICS

Are justly called the National Standard. They are used in the great National Schools at Annapolis and West Point, in the Public Schools of the National Capital, have received the quasi endorsement of the National Congress, and are sold more largely and are more popular in every section of the national boundary than any other series.

IMPORTANT AND POPULAR WORKS.

Smith's Complete Etymology	$1.25
Wood's American Botanist and Florist	2.50
Jarvis's Physiology and Health	2.00
Pujol's Complete French Class Book	1.25
Boyd's Composition and Rhetoric	1.5
Chaplin's Political Economy	1.25

Teachers desiring to examine, for the purpose of introduction for class use, if approved, will be supplied with samples of text books on receipt of one half price.

"He that provideth not for his own household hath denied the faith and is worse than an infidel."

THE EQUITABLE

Life Assurance Society,

Of the UNITED STATES.

ASSETS, - - - $12,000,000,00.

The Leading Insurance Company of the World.

IN 1860 the EQUITABLE was the 9th Company in new business for the year; in 1861, it was the 8th; in 1862 and 1863, the 7th; in 1864 and 1865, the 6th; in 1866, the 4th; in 1867, the 3d; in 1868, the 2d, and

IN 1869 IT WAS THE FIRST!

The volume of new business for the past year exceeded that of the 2d Company (*Mutual Life, of New York*), by over Thirteen Million Dollars and was greater in amount than that of any other Company in the world.

Sum Assured, New Business, 1869:

$51,021,141.00.

The distinctive features of the EQUITABLE and its successful manner of doing business, which have rendered it the choice of all thinking business men, will be fully explained to any who contemplate insuring either by endowment, for the benefit of themselves, or in Life Policies for the assured independence of their families, by

CHARLES S. HAMMER, Agent,

SALT LAKE CITY.

THE FOLLOWING STATEMENT made by the FIRST purchasers of FLORENCE SEWING MACHINES on the Pacific Coast, including ALL who bought in 1863, whose present residence is known, is conclusive evidence of the great superiority and unrivaled excellence of the FLORENCE, and is the best testimonial ever given in favor of any Sewing Machine:

Statement made May, 1870:

"Our Machines sew as well now, and are as good for use in every respect, as they were when purchased nearly SEVEN *years ago, and they* HAVE NEVER COST US ANYTHING FOR REPAIRS. *We recommend the Florence as being* **without exception the very best, most reliable and least complicated** *Sewing Machine in use.*

PEOPLE'S VERDIC

Over Half a Million sold a in use!

4,000 made and sold per wee

SINGER'S

New Improved Silent

FAMILY SEWING MACHI

ARE

The Best in the World

Because all of them are in constant use, a very large proportion of other makes are used, owing to their being partially or impracticable.

THE SINGER

NEW FAMILY MACHI

Has been brought to perfection, regardless of time, labor or expense and is now indisputably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, light-running,* and capable of performing a range and variety of work never before attempted upon a single machine; using Silk, Twist, Linen or Cotton Thread, sewing with equal facility the very finest or coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Ca

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, for the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern, and finish. The chines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed through the Machine in the natural way, namely, *from the operator,* permitting the operator in a natural and healthy position. In other Machines the work passes from the left, or the reverse, *compelling the operator in a bent and unhealthy position, and thus weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is *not* liable to break or miss the stitch. Many other Machines use a crooked needle, which is liable to break or to miss the stitch.

In the Singer Machine the Shuttle is used, thus avoiding nearly all wear. It runs easily, and does not soil the thread or work. Other Machines drive their Shuttles in a way, thus causing great wear, and more or less soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good work, which is not the case with any other Machine. So-called cheap Machines are really worse than none, and so are many of their new peculiarities and supposed advantages.

The **SINGER** is the

Oldest Practical Sewing Machine

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity, the use and unlimited capital, it is now free of all unnecessary parts and possesses all the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Terms, as all its parts are Practical and will do what is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Cheap things, and thus are rendered Liable to Constant Derangement. The Singer Seldom Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

SINGER'S

New Manufacturing Mach

Claim the same advantages over others of this class as the new Family Machines. The tried and well-tried Sewing Machines are equally *to all kinds of heavy and light manufactures, Cloths, Leather, etc.,* and run in the most perfect and reliable manner without trouble to the operator.

Without any previous advertisement, the Demand for the Singer Machine is so great that we *have been unable to retain even one machine to exhibit.* All sold, but a larger number are now on the way from New York.

WILL ARRIVE IN A F DAYS.

They will consist of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with the addition of Freight only. To accommodate those who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these Machines.

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He tests each Machine in complete and perfect running order before it leaves the Institution, and will also impart to purchasers all needed instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Merits to recommend them. We do this, as the demand for them is so great, although the Singer Company make more than all other first-class sewing machines, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER

BUTTON-HOLE MACHINE

Is the only Practical one in the World.
