MINES AND MINING.

The Good of the Closing Campaign in Mining in the West.

GOOD MINES EAGERLY SOUGHT FOR

An Investment Un-polled By Any Other—Trading on Change—Some From Outside Camps.

"No matter which party wins," said a prominent mining man today, "the fact remains that the campaign just closing has done a wonderful amount of good to the mining industries of not only the State of Utah, but to those of all the mining states throughout the West.

"This has been brought about through the very fact that silver and gold, the precious money metals of our country, has been discussed as never before by the people of the nation. Moneyed men of the East have pouring hitherward for the purpose of looking into the industry of mining, and they have returned to their homes surprised at what they have seen and learned with regard to the mining resources of the West. All along during the present campaign Utah has been visited and revisited by capitalists and their representatives, and at present the condition is now such that every promising mining property in the State can command a good substantial figure.

"Talk about investments, why you can't find a better paying investment than that thrown into good mining properties. Notwithstanding the fact that during the past two or three years business of every kind has been dull and almost stagnant, the record made by our dividend-paying mines in that time, has been such as to invite investment from all parts of the country. The financiers of the East have noticed that while their money has been practically standing still, the mines of the West have been paying their stockholders from 20 to 50 per cent on the money invested, and at last they have come to the conclusion that mining stock is the only stock practically unaffected by stiff times. You can put it down that after this election is over, a condition will set in in the mining business and those who own good gold and silver mines, will be possessors of something of great value, and something which will be eagerly sought after by men who count their dollars by the millions."

TRADING ON 'CHANGE

Sensitive Calls at Extreme Figures in the Pit Today.

A cold room and the near approach of the great election seems to have had a direct effect on the market of the stock brokers in the pit today, as one stock received the entire recognition in the way of trading. Silverine was the target for the day's business and it sold at the lowest figures yet reached by the stock, 100 shares going at $1.15 per share and at $1.20. The temperature of the stocks in both lists remained about stationary, no moves either backwards or forwards being apparent during the call so close to be in line, which advanced a trifle in both the bidding and asking.

The closing figures were as follows:

LISTED STOCKS.

FROM THE PARK RECORD.

Splendid Showing of Ore in the Vulture—An American Fork Strike.

The Ontario mill was closed down Monday morning for the usual October repairs, which it always takes place when the mill was closed down another week. The usual matter has been to close down one side at a time, but this year the mill was to such a stage that it was decided to shut the whole plant down and make general repairs. It is expected that the mill will be ready to start up again in about ten days.

Superintendent Daly has not yet begun the construction of his proposed wirerope tramway from the Daly West mine to the new Park mill, but the writer was informed that Mr. Daly's friend Mr. Weir was for the purpose of investigating the advisability and making arrangements of the purchase.

Rowland Brothers and John Dunn encountered a very promising vein of lead-silver ore this week on their property in American Fork. Assays made from Blossom rock gave returns of 32 1-5 per cent lead, five ounces in silver and a trace in gold. James Rowland informs us that after a very short time, not over 50 feet, the ledge, if it continues down, can be cut to a depth of nearly 300 feet. The tunnel will be started at once and crowded as rapidly as possible until the ledge is proven up. The showing, he thinks, is very encouraging.

South Bingham: E. C. Williamson, O. D. Draper and C. H. Woods are working a group of claims on Lovington hill in South Bingham, the ledge which they have sunk some 8 feet, is now developing a 6 inch vein. The ground is known as the Big Lake Basin, or up hill and between the two ridges. It is along the line of contact between the heavy mass of lime and porphyry which traverse that section. It is now expected to develop some copper ore with which will almost be a noble compartment shed down to the ship ore. The property is equipped with a good winze, warehouse, bunking house and other conveniences, and supplies enough have been laid in to last some time.

When The Record went last week that it thought the Yuba was going to prove a treat to the mining men, there was no evidence in sight of the success and rich developments that the property is showing today and which have made its owners are paying up as rapidly as possible. Depth on the big vein has opened up a remarkable showing. Some of the boys were coming over to town during the early part of the week, and as the bottom of the mine was looking very fine, the samples were taken which gave the strongest of getting top notch, but the assay certificate showed 60 ounces in silver and 15 per cent copper for one sample and 1.50 ounces in silver and 20 per cent copper for the other. The ore, as the boys say, improves steadily which only lost a week performance, and while the rock does not all show up as the thousand mark, the showing is very fine. Engineers are still being made and startling developments may be expected when the big tunnel reaches the vein.

Bingham Bulletin News.

Mining matters have been nearly at a stand still this week.

A small shipment is being made from the Red Wing, the new property that promises to swell the list of Marysvale gold producers.

Colonel O. S. Hardy, manager of the Bingham copper company's interest returns from his eastern trip next Monday, and work will be resumed at once on the Boston and Montana properties. The Nast group is to be turned over to the new company, which is extensive preparations when the weather gets right.

Manager Logan of the Winnamucca is of opinion there is more ore to sight in Bingham at present than ever before in the history of the camp. The Dalton and Lark and Winnamucca have lately exposed immense bodies of high grade, nearly all the losers on the Telegraph are doing well, and the Old Jordan and South Galena are capable of extensive shipments without knocking down a pound. Added to these, many of the old prominent have been quietly developing up, and new ore bodies, and scores of small properties not shipping since the slump have more or less ore to market whenever there is need money in it. If prices are favorable, next season Bingham will discount its previous records.

News From State Line.

"Pay Streak" writes from State Line to the Iron County Record as follows:

State Line bankers is increasing steadily; miners are very busy opening up their claims and everyone is confident that a substantial boom will be in operation immediately after election whether Bryan is elected or not, as State Line mineral is pretty evenly divided between gold and silver.

A few new strikes have been made during the past week. Joseph Delmar, from near Deer Lodge, brought in some rock from a new find that assayed $177 in gold and 47 ounces in silver, and several prospectors have turned their attention in that direction. Tout is the territory where A. C. Compton, Dan Ross and others are interested.

Eling and Hedges have opened up a very promising contact in the Indian Peak range, which will be developed with a force of men in the near future.

Negotiations are in progress to bond the Aurora mine to Mr. Sylvester of Lake City. Mr. Sylvester, being at 10 a.m. and that bonds fixed at $100.

Three men were arrested by Officer Shannon and a citizen named Joe Wilkinson, late Saturday evening. In the officer's peregrinations during the daytime, he had come across the stolen goods hidden in a haystack just west of Second West between Ninth and Tenth South streets, and as he was certain the thieves would call in the evening and take their booty away he concealed to lie in wait for them. He took Mr. Wilkinson with him and when the two took up to the haystack for a couple of hours and the officer's watch told the hour of 9, two men came stalking into the hay yard and were looking up with features, started if just at the time the officer and his companion pounced upon them.

At first the men showed fight and Robinson whipped out a knife, but finally he was persuaded to lay it down, and both men were taken to the station. At the jail Willie said he lived at 618 south Third West street, and Richards said his place of abode was at the Colorado House on state street. The latter denied having stolen the harness, and said he had been told by a man who was a stranger to him that he knew where he could get a set of good double harness cheap, and that if he chose to go after it he might pay what he thought it was worth. Richards, however, admitted to Officer Shannon that he had been in on the theft, and said it was the first thing of the kind he had ever engaged in.

Within her a wife and family and appears to be a good man at a time, and Officer Shannon expresses the same opinion and believes that Richards is mistaken in the theft.

MINOR MENTION.

The jails will open at 7 o'clock a. m. on Tuesday and close at 7 p. m.

The Premier of Zenda company is now in over the Union Pacific last evening.

The home of Mr. James A. Cushing on Saturday, Oct. 31, was gladdened by the arrival of a little stranger. Mrs. Cushing is doing nicely giving birth to a boy, but the boy was 17 blue thereafter for the entire over eight hours after its birth.

The polling place in the Thirty-fourth precinct, Third municipal ward, has been changed from 600 west Second South to 629 south Second West, as shown by notice in market.

Dr. Wright, who was thrown from his buggy on Saturday and injured about the head and shoulder, has so far recovered to permit him to make his rounds today again.

Mrs. Andrew Jensen returned home from Europe yesterday where she left her husband on the 17th, seated the Wells, Hieronymus himself very much while elated and comes back in excellent health.

THE GREEN BAG.

Go to the polls early tomorrow!

The polls will be open at 7 o'clock in the morning—remember.

The sale of Crescent vs Cleveland has been dismissed of want of prosecution.

The county clerk's office will be open tomorrow for the inspection of ballots.

A notary's commission was today issued to George Finlayson of Millard county.

You will be allowed not more than one minutes in which to mark your ballot.

The case of Davis, Howe & Co. vs J. E. Dougherty has been continued till the April term.

This afternoon Judge Street opened court, but Judge Ritchie's division was without cases.

Andrew Dunlopson and Annie Johnson of Kingston, to-day drew a license to marry.

There was no business done in Judge Sandy court, but Judge Hilton and Judge Ritchie was also without open business.

A motion to strike costs in the case of William Brock vs the Rio Grande Railway company was today entered in the civil district court this afternoon.

Hibbard, Spencer, Bartlett & Company today commenced suit against the James, Spencer, Holman Company and D. W. James to recover $586.73 alleged to be due on a promissory note, and $6.42 interest, and costs.

There will be no more cases tried in the criminal division of the district court this term, which ends a week from today. By arrangement with Judge Ricks it has been agreed to take up the "docket" cases on the 23rd.

The board of public works of this city met at 2:30 this afternoon to listen to a report of Engineer Kelsey on the Second South street paving matter. Contractor Hixson has been ordered by Mr. Kelsey to tear up the pavement because it is said by that official to be of poor quality.

STATE NEWS.

Beautiful Clipper Ross years ago one of surpassing men was called upon suddenly to address a Sunday school, it was at the time of the death of the father of the present emperor of Germany. In his remarks he compared the death of the sense of his death and its possible effect on that nation. At the close of his remarks a friend complimented him on the knowledge of passing events, and said that he had many times noticed that he was exceptionally well posted on current events and he wondered how he kept so well posted, seeing that he was busy every day with his employment. The answer was, "I take a daily paper and read it." That was a very simple answer, but how many, speaking in it. Aspens of life we notice that the citizens of Beaulite now have the EVENING NEWS delivered at their office direct from the press, also the Sunday Herald. Then we have our own local paper the Clipper, which furnishes us with all the news that our own county. These three combined make us surpassingly well posted on all the passing events of every day know sign that will keep any family posted on all the passing events, and they will indeed be up with the times.

Wasatch Wave (Heber City) Mr. John Hamilton of Hayesville met with an accident Monday afternoon on Main street that might have resulted seriously. The horse she was driving became frightened and gave a sudden turn, throwing Mrs. Hamilton out of the buggy, the right side of her head and face striking the ground first and striking a small gash under the eye and one in the temple. She was taken into the drug store and made as comfortable as possible..... About 11 o'clock Monday morning fire broke out in the large barn owned by A. Hatch and located on his farm just north of town, and in less than two hours the whole structure and its contents were in ashes. When discovered the fire was coming out of the top at the south end of the building which is next to the house occupied by the tenant of the place, John H. Price, and it is the universal opinion that the hay had been ignited by a spark from the chimney in the house being carried by the strong wind that was blowing through a crack in the snow onto it. As there was no insurance on the building or the hay, the loss will be entire. The barn was erected a little over a year ago at a cost of between $700 and $800, and there was stored in it hay to the tune of hay. Besides there was a mowing machine, hay rake and a pair of harness belonging to Mr. Hatch that were burned, and a farm wagon and about twenty bushels of potatoes owned by Mr. Price, and a calf, a hay carrier, shovels and other small farming tools belonging equally to both gentlemen. Mr. Price with difficulty extricated his team and a load from the burning mass and was actively turned about the hands in doing so.

Captured a Spanish Vessel.

KEY WEST, Fla., Nov. 1.—Col. Guepetta, formerly of the French army and Col. Ortega, formerly of the Venezuelan army, with Lieutenant Tites and Castellanos, arrived here today from Nassau. They say they captured a Spanish vessel off the coast of Cuba and overpowered the crew and provisions to the insurgents, after which they embarked in the captured vessel and arrived at Nassau where they were detained three days in quarantine. They also report having seen present at the action of Cimarron and state that Maximo Gomez and other insurgent leaders have sufficient arms and ammunition to carry on the winter campaign. In conclusion they say the island from Malanzas up is entirely Cuba Libre. These men are members of a special commission from Puerto Principe.

Two Estimates.

NEW YORK, Nov. 2.—The chairman of the Democratic and Republican campaign committees in New York are in no doubt as to their relative strength in this city. A telegram from Chairman Hill to the Democratic committee claims a majority of 50,000 and Chairman Platt for the Republicans claims a majority of 50,000.

STOCKS AT AUCTION.

New York Stock Market.

NEW YORK, Nov. 1.—Some unemployed strong and other some more successful in back accounts. Greenbacks were in special demand, but rates for the use of money were lower. Prime mercantile paper, 4@5 per cent.

The Chicago merchants who have remained and in some instances for the period of the W. J. Bryan during the entire campaign, have received the strongest assurances of the business men of the country that the business of the country will be in a condition of the most satisfactory character immediately after the election.

The prominent businessmen who are interested in the business of the country have to report a very encouraging condition of affairs in their respective lines. The reports of business men are to the effect that the business of the country will be in a condition of such satisfactory character immediately after the election.

That Tired Feeling

Makes you cross "all broken up," without the ambition, energy or appetite. It is often the forerunner of serious illness, at the commencement of nervous troubles. It is a positive proof of impure, weak, impoverished blood, for if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is therefore apparent to every one, and good health will follow you in equally beyond question. Remember

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

Hood's Pills are the best family cathartic, easy to operate. 25 cents.

NOT A SICK DAY

For Over Thirty Years!

RESULT OF USING

AYER'S PILLS

"Ayer's Cathartic Pills have sold thirty years here. Age is a good test, since having had a sick day in all that time. Before I was twenty I suffered almost continually as a result of constipation—from dyspepsia, headaches, neuralgia, or fever and other sympto-diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the best satisfactory results, never having a single attack that did not readily yield to this remedy. My wife, who had been confined for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I find no time that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."—H. Warmouth Byron, Ill.

CARD FROM SHERIFF HARDY

To My Friends:

It having been reported to certain quarters that I am operating the election of Peter H. Condie, the Republican candidate for sheriff, I desire to say in reply that the report is absolutely false.

Mr. Condie having received the nomination from the Republican convention after a fair and open district, he shall receive my unqualified support. I regret him a competent man are the position of sheriff and I trust that my friends will, like myself, work for his election and the election of the entire R publican ticket.

HARVEY HARDY,

Sheriff Salt Lake County.

SALT LAKE CITY, October 31st, 1896.
