MINING, BUSINESS AND STOCKS

DEVELOPMENT OF BINGHAM GROUP

An Eastern Stockholder Visits Copper Camp and Arranges For Development.

WILL USE LAST CHANCE ADIT.

Property to be Scene of an Energetic Campaign of Development—In Good Location.

Walter B. Farmer, treasurer of the New England Bolt and Nut Co., of Boston, was in Bingham during the week for the purpose, says the Bulletin of Bingham, of conferring with R. L. Booth of Bingham Junction and arranging for the development of the holdings of the Bingham Group Mining company, consisting of the Old Greeley-Sacred group, which includes the Mountain Gem No. 2, Horace Greeley, Croesus and Sacred claims in the West Mountain mining district, Bingham.

The history of these claims in the last thirty odd years has been uniform in the fact that whenever worked they have produced high ore in paying qualities, although worked by the simplest hand process. Some three years ago Mr. R. L. Booth secured a bond and lease option, which resulted in the organization last July of the Bingham Group Mining company, capital stock $500,000, with Messrs. Booth, Farmer, Smith and several other Boston men of wealth, now interested, who propose putting in an up-to-date equipment, increasing the force of men and enlarging the output. Recently arrangements have been completed by which this company has secured the use of the British tunnel through which it will operate on the 200 foot level, taking ore from the Greeley vein.

The above named gentlemen were in Bingham Friday and Saturday and made a thorough inspection of the old Greeley-Sacred Group of claims with the result that it was decided to at once push development work. The new company, with a capital of over $500,000, propose putting in up-to-date equipments and making the property one of the dividend payers of the camp.

The company has secured the right to use the Last Chance or British tunnel, which is over 3,000 feet in length, cuts the vein at a distance of 600 feet and is the only part of the tunnel that will be used by the company. Because of the fact that the tunnel has caved in at many places during the two years it has remained unworked, it will be necessary to thoroughly clean it out and to restore the air circulation.

The present company contemplates putting a large force of workmen on the property and adding such machinery as is necessary to facilitate rapid development.

Those familiar with the territory unhesitatingly pronounce it one of the best propositions in the camp and with the present company behind it there is every reason to believe that it will soon be among the largest of the Bingham producers.

ON MINING EXCHANGE.

Columbus Con. Put Up as Collateral Dumped on to Market.

The big feature of the week's doings on the floor of the mining exchange was furnished by Columbus Consolidated. The stock was thrown onto the market in large quantities, which was due to the release of a big block held as collateral by a local bank. While the price was knocked down considerably, the stock was readily absorbed. There has been some selling of Daly-Judge around $6.50. Uncle Sam has declined somewhat, notwithstanding good reports still continue to come from the mine.

Today's closing quotations and sales were:

UTAH COPPER MEETING.

Increase of Capital Stock and Bond Issue Authorized.

As was expected, the stockholders' meeting of the Utah Copper company was pulled off in Jersey City, New Jersey yesterday afternoon and an increase of the capital stock of the company from $4,500,000 to $6,000,000, or 150,000 shares, was authorized, as well as the issue of $3,000,000 worth of improvement bonds. Following this action, the injunction suit filed in New Jersey by Col. E. A. Wall was dismissed. There is nothing now in the way of carrying forward with vigor the construction of the big mill to be built out near Garfield beach.

THE CHIQUITA MINE.

Vigorous Campaign of Development Being Carried on There.

Joseph Oberndorfer, secretary of the Chiquita Gold Mining company, with properties at Good Springs, Nev., has returned from that camp well pleased with the progress being made with development. It is expected that about 50 feet more of driving will take the new tunnel into the ore body.

At the Hoosier property, a few miles away, which is also owned by the Chiquita company, a big ledge of lead-silver ore has been opened that carries from 40 to 65 per cent lead and from 14 to 20 ounces in silver to the ton.

At another point in the camp, adjoining the Red Cloud mine, the company owns a promising group of claims.

NEW TRAIN TO SMELTER.

Salt Lake Route Will Put Service Into Effect Next Monday.

On Monday, Oct. 30, the Salt Lake Route, in compliance with the popular demand, will put in service a daily passenger train between Salt Lake City and Garfield Beach. This train will leave Salt Lake at 11:45 a. m., returning, will leave Garfield at 12:40 p. m. This, in addition to the morning and evening trains, will enable business men who have errands at the new smelter site, an opportunity to go out for a brief period or returning at 6:00 p. m. Either way eliminating the whole day at the new copper smelter being erected by the American Smelters Securities company.

Condemnation Suit Started.

Suit was filed in the district court today by the Boston Consolidated Mining company against Francis O. Lundberg and wife to condemn a parcel of land embraced in plaintiff's mining claims at Bingham and used by defendants for residence purposes only. It is alleged that the defendants only own the surface rights to the ground in question and that plaintiff desires to occupy and use the same for the construction of a mill for the treatment of its ores. Hence it is asked that the property be condemned and that plaintiff be allowed the temporary use of the ground pending the final determination of the suit.

New Company Formed.

The Lost Packer Extension Mining company of this city filed its articles of incorporation in the county clerk's office today. The capital stock of the company is $100,000, divided into shares of the par value of $1 each. W. W. Chisholm is president; J. C. Pierce, vice president; O. P. Chisholm, secretary and treasurer. The company owns a number of claims in the Loon Creek district, Custer county, Ida.

Tintic Ore Shipment.

Special Correspondence.

Eureka, Oct. 27.—For the week ending last night the mines of this district sent to the valley smelters 131 carloads of ore, as follows:

Ajax, 1; Bullion-Beck, 7; Carisa, 3; Centennial-Eureka, 63; Eureka Hill (lease), 8; Eagle and Blue Bell, 7; Grand Central, 10; Gemini, 5; Swansea, 6; South Swansea, 1; Uncle Sam (crude ore), 4; Uncle Sam (concentrates), 2; Victoria, 4; Yankee Con., 5.

COKE FAMINE IS STILL THREATENING

Smelter Managers Have Hope, However, That the Plants Will Not Have to Close.

RIO GRANDE HELPING OUT.

Officials See Where They Can Get Supply of from Fifty to Sixty Per Cent Of the Requirement.

The coke famine being experienced by the Utah smelting concerns on account of the Sunnyside fire, was only partially relieved today and while the Denver & Rio Grande railroad is giving the managers of the big plants every possible assistance in the matter of bringing in a supply from outside the state, it is no sure thing that a shut down is going to be avoided. But as yet, shippers have not been asked to curtail or to cease sending their ores towards the reduction plants.

The American Smelting & Refining company has obtained some coke from its Colorado plants, while the United States, Bingham and Yampa companies have also succeeded in getting enough started on the road from Colorado to tide them over a few days.

Rio Grande officials informed the smelter managers early in the day that they believed it possible to bring in for the next week from 200 to 350 tons per day, or from 50 to 60 per cent of the valley's requirements.

It is likely that a large tonnage can be brought in from the eastern states; but fuel from that far away would be extremely expensive.

Amends Incorporation Articles.

An amendment to the articles of incorporation of the Great Northern Copper Mining company of Ogden was filed in the secretary of state's office today by which the capital stock of the company is increased from $100,000 to $1,000,000, divided into shares of the par value of $1 each.

CONCENTRATES.

Thomas Weir inspected the Ajax mine in Tintic yesterday.

The new road to the Bingham Mary mine has been completed.

Supt. Robert Brown of the Centennial Eureka mine is in the city today.

Supt. Grant Snyder of the Balakalla mine in California departed for that California property today.

The ore and bullion settlements reported late yesterday by McCornick & Co., were as follows. Crude ore and concentrates, $61,500; base bullion, $32,700.

E. S. Woodward, formerly a clerk in the offices of the Taylor & Brunton Sampling company in this city, but now associated with the Amalgamated company at Butte, is down from the Northern camp for a few days.

Arguments were heard in the federal court yesterday in the case of United States Mining company vs Leonidas M. Lawson, et al., in which the defendants asked that the injunction against the plaintiff, which was desolved, be reinstated. The matter was taken under advisement.

BUSINESS NOTES.

Brokers generally unite in saying that the week has been a quiet one in local stocks, only a few in the list having manifested any activity. These were Amalgamated preferred and the Idaho Sugar, the latter having a big spurt of life before the transfer books closed for the dividend on the 25th. Several thousand shares changed hands at prices ranging from $13.65 to $13.70; the ex-dividend quotations are $13.55 bid, $13.60 asked. The books reopen on Nov. 2, and close Nov. 5, for the new allotment of $500,000. Only the best reports come from all the factories. The beets are arriving at a great rate and the sugar is steadily pouring out. The first big pay day to the farmers for their beets delivered in October will be on Nov. 15, when it is estimated that the Utah, Idaho and Amalgamated companies will disburse payment for nearly 300,000 tons of beets, approximating $1,350,000.

* * *

A copy of the articles of incorporation of the Bank of Moroni of Moroni, Sanpete county, was filed in the secretary of state's office today. Its capital stock is $50,000, divided into shares of the par value of $100 each. Andrew Anderson is president; Heber M. Wells, vice president; J. M. Christensen, Jr., cashier.

* * *

Ware&Treganza have completed plans for a $10,000 improvement of the business structure in the rear of the Commercial block, and at present occupied by Mullett. The building will be made two stories, and otherwise remodeled into a commodious structure.

STOCKS WERE RATHER WEAK

The Opening Price Showed Mixed Changes, Result of the Depression in London.

DEALINGS ON A LARGE SCALE.

Prices Rallied Before Bank Statement Appeared, Running Off Rapidly After it Came Out.

New York, Oct. 28.—Opening prices in the stock market today showed mixed changes, the effect of the depression in London being modified by demand in some quarters of the list. Dealings were on a large scale and well distributed.

Professional operators put out moderate selling orders and perceiving that there was no support of consequence promptly sold more freely. Large fractions were clipped off the prices of the more active railroad stocks and considerably larger inroads were made in a long list of industrials. A spurt to 133⅜ by Smelting was futile in decreasing the pressure and the stock eventually suffered a loss of more than its advance. Great Northern preferred, Pacific Coast and United States Realty fell 2. Wisconsin Central preferred Kansas & Texas preferred and Locomotive 1½ to 1¾ and Northern Pacific, Pacific Mail and many others 1 to 1½.

Prices rallied before the appearance of the bank statement and then ran off rapidly and broke badly at some points. Metropolitan Street Railway fell 3, Locomotive, Pressed Steel Car, C. C. C. & St. Louis, Peoria & Eastern, Iowa Central and Delaware & Hudson 2 to 2½. Amalgamated Copper 1¾ and an extended list of active stocks a point or more. Some hasty profit taking by bears made fractional recoveries, but the closing was unsettled and irregular.

Close: Money on call nominal, no loans. Time loans, steady; 60 days, 5 per cent; 90 days, 4¾ per cent; six months, 4½@4¾.

Prime mercantile paper 4¾@5 per cent.

PRODUCE.

CHICAGO.

Chicago, Oct. 28.—Increasing disorders in Russia had a strengthening effect today on wheat. The market, however, lacked the extreme bullishness which was manifested the past two days. Commission houses and several prominent bulls were active buyers. The May delivery opened ⅛@⅞ to ½@⅝ higher at 91⅛@91½. After selling off to 91 the price rose again to 91⅝. December opened ¼ to ⅝ higher at 89¼ to 89⅝, sold off to 89¼ and then rallied to 89½. During the last hour of trading greater activity developed and the market became decidedly strong, May advancing to 92⅜ and December to 90⅛. The main cause of the fresh upturn in values here was a London cablegram stating that the Odessa bourse had declared an emergency cancellation of all grain contracts. Profit taking resulted in some reaction but the market closed strong with May up ⅜@⅝ at 91⅞. December was 1¼ higher at 90¼.

Minneapolis, Duluth and Chicago reported receipts of 884 cars against 890 a year ago.

Active buying of the May option by a leading bull held the corn market steady notwithstanding liberal selling by commission houses. December opened a shade lower at 45½@45⅝, sold off to 45⅜@45½, and advanced to 45⅝@45¾. December advanced to 46 near the close, December closing ⅛ up at 45¾.

December oats opened a shade higher at 30½@30¾, sold at 30⅛@30¼, sold at 30⅛ and then firmed up to 30¾.

Provisions were firm. January products was in active demand; January pork was up 7½ at 12.42½; lard was up 2½ at 6.80; ribs were 2½ higher at 6.47½.

Close: Wheat—Dec., 90¼; May, 91⅞; July 87.

Corn—Oct., 51¾; Dec., 45¾; old, 46¼; Jan., 44; March, 45¼; May, 46¼.

BUSINESS REPORTS ARE ALL FAVORABLE

A Much Needed Decline in Temperature Materially Aided Distribution of Wearing Apparel.

FARM STAPLES ADVANCE.

Some High Water Marks Are Made—October Railway Earnings Higher Than Last Year.

New York, Oct. 27.—Dun's Weekly Review of Trade tomorrow will say:

"Almost without exception reports are favorable regarding the nation's commercial progress. A needed decline in temperature has stimulated distribution of wearing apparel and other seasonaibe merchandise.

"A sharp advance in prices of leading farm staples was accompanied by the greatest activity of the season in option markets, and the average of the 60 most active railway securities established a new high-water mark, although the outside public was not a prominent factor.

"Railway earnings in October were 6 per cent larger than last year and foreign commerce at this port showed an increase of $2,357,606 in exports and $2,219,423 in imports, as compared with the same week of 1904.

"Limited offerings maintain firmness in the hide market; some varieties are having still higher level, which now means a new high record since the civil war in nearly every instance.

"Failures this week number 210 in the United States, against 233 last year, and 25 in Canada, compared with 28 a year ago."

BANK CLEARINGS.

New York, Oct. 27.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended Oct. 26 with the percentage of increase and decrease as compared with the corresponding week last year:

		Inc.	Dec.

Heir to the Fame of the Comstocks.

BULLFROG EXTENSION MINING CO.
BULLFROG, NEVADA

"The Mine That Made Bullfrog Famous."
Value of 500 Shares, Sept. 1, $100
Value of 500 Shares, Oct. 1, $150
Value of 500 Shares, Today, $175

PRICE WILL BE ADVANCED TO
$200 Per 500 Shares November 25,

PROBABLE VALUE JANUARY 1, $500

THERE'S A CONVINCING REASON—WRITE OR WIRE FOR IT.

Yours for the asking are:

(1) Exhaustive corroborative reports of two world-famous mining engineers. They pronounce the Bullfrog Extension property the marvel gold mine of the entire Nevada mineral belt. They concede it more than a chance to outrival the greatest of the Comstocks.

(2) A prospectus that tells you all about gold mining history; all about mining stock speculation; all about the incorporation of the Bullfrog Extension Mining Company, and everything you would want to know about the manner in which the property is being developed.

(3) Press clippings from the nation's representative newspapers that have correspondents on the spot, who have reported the sensational discoveries of the Bullfrog Extension mines as pure news matter of interest to the whole civilized world.

NOTICE OF ASSESSMENT.

Notice is hereby given that at a meeting of the Board of Directors of the Gordon Mining and Milling company, a corporation, held at Salt Lake City, Utah, October 13, 1905 an assessment of one-tenth of one cent per share was levied upon the capital stock of said corporation, payable immediately to Alexander S. Fowler, secretary of said corporation, at his office, No. 218 south Main street, Salt Lake City, Utah. Any stock upon which said assessment may remain unpaid on Monday, the 20th day of November, A. D. 1905, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Wednesday the 20th day of December, 1905, at the hour of three o'clock p. m. of said day, at the aforesaid office, to pay the delinquent assessment thereon together with the costs of advertising and the expenses of sale.

ALEXANDER S. FOWLER,
Secretary of said Gordon Mining and Milling Company, 218 South Main Street, Salt Lake City, Utah.
