NEWS OF THE MINES.

The Brokers Have a Fairly Good Day On 'Change.

NOTES FROM MINING EXCHANGES.

The Gold Bug Group and an Account of Its Purchase by Evanstonians—Dope and Sports.

The bulls and bears did fairly well on 'change today, taking the consideration the fact that this was Monday—that proverbial blue day. Four more stocks shared in the trading, Dalton & Lark coming first, with East Golden Gate, Galena and Hampden following. Dalton was in demand but it appears that those who buy never after the stock are doomed to disappointment, as the higher the bid goes, the higher goes the asking quotations, $9 was the figure asked by holders of the stock today. Fifty shares of Mercur were wanted badly, but that number of shares could not be secured at the figure which the buyer was willing to pay for it, consequently no business was done. Boston remained about stationary while Utah scored quotations better than have heretofore greeted that stock. A minority of ten cents prevented business, $1.85 being asked with a bid of $1.75.

The unlisted dell brought out quite an array of stocks, but the early bird captured the worm, the two first dealers sharing the trading. One thousand shares of Emerald found a taker at ten cents and Dalton was favored with two lots of 1,000 each.

The closing figures were as follows:
