EVENING NEWS.

Thursday, July 5, 1883.

CITY COUNCIL.

Proceedings at the City Council Tuesday evening, July 3rd, 1883. Mayor Jennings presiding.

Alderman Dinwoodey petitioned in behalf of D. O. Calder for the privilege of piling material upon a portion of the street and sidewalk on First South, between East and West Temple Streets, during the erection of a building at that point. Granted under the usual restrictions.

A petition from Hyrum H. Kimball was presented, setting forth that he was the owner of the south half of the west half of lot 2 in block 93, plat A, city survey, being five rods west front on East Temple Street by ten rods east; that between said lot and North Temple Street was a strip of land two rods by ten belonging to the city, which had never been conveyed, but fenced in and occupied by petitioner in common with the lot owned by him for 15 years last past. The petitioner, being desirous to obtain a title to said strip, and representing that it would greatly injure and depreciate the value of his property if sold to any one else; and being advised that the city had hitherto granted parcels of land in similar predicaments at a nominal sum, asked that a conveyance be made to him for said strip of land on the same terms as other portions of land adjoining. Referred to the committee on public grounds.

A petition was presented from P. A. Van Tassell, setting forth that the balloon ascension announced to be made from the Eighth Ward Square made it necessary that the filling of the balloon with gas should be done at the corner of Second East and Second South Streets—that being the nearest point on the gas mains to said square, and asking that he be allowed the privilege of filling the balloon at that point, and for the police in preventing unnecessary crowding around the balloon during the operation of filling, and also that so far as possible, the citizens be restrained from burning fireworks in close proximity to the balloon, the whole proceedings to be subject to the direction of the police. Granted.

O. C. Tornblad petitioned for the privilege of selling fruits, summer drinks, etc., in Liberty Park, for the term of three months. Not granted.

Hurd and Grimminger made application to do business as retail liquor dealers at No. 15 Commercial Street, for a period of three months from the third day of July, 1883. Granted.

The committee on claims to whom was referred the petition of Hyrup, asking the privilege of laying a pipe from the main ditch on Centre street into his house for culinary purposes, recommended that it be granted during the pleasure of the Council, and under the direction of the watermaster; but that the prayer of said petitioner asking that a flume be laid at the expense of the city, to convey water through his lot be not granted. Adopted.

The committee on waterworks, to whom was referred the petition of Mrs. M. M. Barratt and twenty-four others, asking that James C. Watson have the privilege of drawing water from the hydrants on First South at convenient points, for the purpose of sprinkling said street with a sprinkling wagon, between Second and Seventh East streets, reported, recommending that James C. Watson be permitted to construct a flume at the most convenient place on either Second or Third East, between South Temple and First South streets, tapping the Jordan and Salt Lake City canal, and using water therefrom to sprinkle said street; and that such work be done under the direction of the watermaster, at the expense of said James C. Watson. Adopted.

The committee on claims, to whom was referred the petition of Heber P. Kimball, guardian at-law of Alfred J. Kimball and Teresa Kimball, minor heirs, claiming damages from the removal of gravel from certain lots owned by said heirs, in the sum of $1,500, reported that they found after carefully examining said claim, that the corporation purchased and paid for all the gravel taken from the said lots, and that the petitioner had no just claim for damages against Salt Lake City. The committee therefore recommended that the claim be not allowed. Adopted.

John R. Winder, Esq., city assessor submitted the following:

"I herewith report to your honorable body the assessment roll of Salt Lake City for the current year, 1883, showing an aggregate valuation of property of $8,891,505. Following are the provisions of an ordinance to provide for assessing and collecting city taxes:

Sec. 14. The City Council shall on the return of the assessment roll, appoint a time to hear complaints (if any), and determine the assessor and collector's compensation; also determine the rate per cent. of the city tax for the current year. The recorder shall, within 20 days after the receipt of the assessment roll, set the amount of tax in the proper column, opposite the name or description of property, and furnish the assessor and collector with said assessment roll from the recorder, the collector shall furnish to each taxpayer, or leave at his residence or usual place of business (if known), a notice of the amount of tax assessed against him, and where and when payable, and return said assessment roll to the City Council.

SEC. 15.—The City Council shall constitute a board of equalization, and shall have power to determine all complaints made in regard to the assessed value of any property, and may change and correct any valuation, either by adding thereto or deducting therefrom, and if the board of equalization shall find it necessary to add to the assessed valuation of any property on the assessment roll, they shall direct the recorder to give notice to the persons interested, by letter, postage prepaid, deposited in the postoffice, or otherwise, naming the day when they shall act in that case, and allowing a reasonable time for such party to appear.

I would suggest for your consideration that Monday, August 27, 1882, at 2 p.m. be the time fixed for the board of equalization to meet and hear complaints in regard to the assessed valuation of property." The report of the assessor and accompanying assessment roll for 1883 were received and referred to the committee on finance with instructions to report at the next meeting.

Alderman Dinwoodey, chairman of the committee on fire department, to whom was referred the petitions of H. J. Faust and others and Walker Brothers and others, asking for better facilities for preventing conflagrations in this city, asked for further time to consider said petitions. He stated that during the Fourth the chief engineer of the fire department would temporarily place a hose cart and apparatus at Mr. Faust's stables and another at Mark McKimmins' stables. The verbal report was received, the action of the committee in regard to the hose carts was approved and the committee were allowed further time to consider petitions referred to them.

The committee on sanitary and quarantine, to whom was referred the petition and bills of Dr. J. Clinton, asking for an increase of salary to $100 per month, in consequence of additional labors and of his expenses in keeping a horse and buggy, reported that they had investigated the matter and found that there were no contagious diseases known in the vicinity of the city and no labors performed by the petitioner as sanitary and quarantine physician, to cause an increase in his duties, and that the city fed the horse used by him. They, therefore, recommended that the prayer of the petitioner be not granted, and that the increase of $40 per month asked for be not allowed.

Councilor D. H. Wells, of said committee, offered a minority report, recommending that the salary of Dr. Clinton be fixed at $75 per month, instead of $60. The majority report was adopted and the salary fixed at $60 per month, and the bills for April and May were appropriated at that figure.

The committee on streets and alleys, to whom was referred the communication of Jesse W. Fox, Jr., with profiles of street and sidewalk grade of North Temple street from East Temple to First West streets, and West Temple to First North street, reported that they had examined the same and the locality, and recommended that the grades be approved. Adopted.

The following bills for the month ending June 30, 1883, were presented for action and allowed, and amounts thereof appropriated respectively: Chief Engineer of the fire department expense bills, $193 28; Robert Patrick, for building and furnishing material for picket fence around the northern extension of the City Cemetery—264 12 rods at $5 40—$1,426 25; Elias Morris, balance due for asphaltum work on sidewalks from December 1, 1881, to June 30, 1882, $462.65; Dr. Jeter Clinton for services as sanitary and quarantine physician, including medicines and medical attendance on city prisoners, $60; A. H. Winn, one-half cost of reporting case of Samuel Levy vs. Salt Lake City, $20.

The Mayor reported that he had recently been informed by postmaster Lynch that an agent of the postal department from Washington, in response to the petition of the Mayor and City Council, for the establishment of the free postal delivery system in this city had recently visited our city and decided to extend the system to a certain portion thereof, including the 7th, 8th, 9th, 12th, 13th, 14th, 17th, and a portion of the 10th, 15th, 16th, 18th, 19th and 20th Wards of the city, provided that the City Council first required the houses in said districts to be numbered, the number to be 100 to a block and the streets to remain named as at present. On motion, the Mayor's verbal statement of the matter was referred to the committee on improvements with instructions to draft and present an ordinance, if deemed advisable, to provide for numbering the houses of said district.

On motion the following sums were appropriated:

For the improvement of streets to be drawn upon the orders of the supervisor of streets, $1,000; to the waterworks account, to be drawn by the superintendent thereof, $500; to the contingent fund of the watermaster, to be drawn upon his order, $500; for extra service of the quarantine physician for June, $40.

On motion the Mayor was authorized to borrow on the credit of the city, sufficient money to liquidate current liabilities and such further amount as may be necessary to carry on authorized improvements in the various departments of the city.

The petition of J. P. Olsen and others relating to the fencing of sidewalks in the Second Ward, etc., was called up and discussed, but no action taken thereon.

The joint committee, consisting of the standing committees on waterworks and public grounds, to whom was referred the petition of Z. Snow and others, protesting against the establishment of marble works in City Creek Canyon or of any other enterprise tending to divert the waters of City Creek from the inhabitants of the city entitled to the use of the same, reported progress and asked further time. Granted.

Adjourned for one week.

TUTT'S PILLS

SYMPTOMS OF A
TORPID LIVER

Loss of Appetite, Bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the Shoulder blade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, with a feeling of having neglected some duty, Weariness, Dizziness, Flutering at the heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness, with fitful dreams, highly colored Urine, and
