LOCAL AND OTHER MATTERS.

THEATRICAL.—Last night, at the Theatre the performance throughout was most excellent, and all there, certainly had the worth of their money, the entertainment being much longer than usual. It is somewhat difficult to criticise a dramatization of "Armadale," and more so upon its first representation, and when one has not read the novel. However we may truthfully say that the author of the piece, as presented last night, gave evidence of considerable power as a dramatist. Like most pieces, of the highly sensational class of plays, "Armadale" is deficient in plot, and would be vastly improved by a more elaborate development of its incidents. The playing of Messrs Chaplin and Hardie, last night, as Allan Armadale the Dark and Allan Armadale the Fair was very good; the same may be said of most of the other characters; but their roles are unimportant, the entire interest of the piece being exclusively confined to the two Armadales and Lydia Gwilt, Miss Lockhart. By her personification of this character last night, this lady gained fresh laurels; she played the character splendidly. In many points, in fact throughout, there is a great similarity in this character to that of "Lady Audley." Both have had a similar experience in life, having known suffering and sorrow, and seeing, as they thought, no means of escaping from servitude and drudgery in a fair and honorable manner, they both work themselves into wealth and influence by lying, cunning, hypocrisy and wicked acts, and although, in each case, born with good dispositions, they become demons incarnate and stop at nothing, not even murder, to gratify their ambition. The characters of Lord and Lady Verrisopont, Major Milroy and some others seem to have little relevancy to the piece, as dramatized.

The burlesque of "Pocahontas" was excellently played. Mr. Chaplin, Margette, Mr. Harris, Miss Ward and Mrs. DeBar, and indeed all who took part in the piece did splendidly, and it was by far the best rendering of the piece that has ever been made on the boards of the Salt Lake Theatre. The comic songs, and dancing were immense and kept the audience almost convulsed with laughter, and taken as a whole, there has seldom if ever been a better entertainment than that presented last night.

The entire bill will be repeated to-night, and every lean, dyspeptic, bilious, unhappy mortal around the diggings ought to go to the theatre to-night; if they do they will feel better to-morrow.

Go and see Lotta the Cantatrice and Danseuse on Monday night.

"COMMERCIAL PARTY."—A large number of gentlemen, representing the commercial and monied interests of Chicago, reached our city last evening. The principal object of their visit to this city and the cities along the line of the Pacific Railroad, is to facilitate commercial relations between the enterprising and far-seeing city they represent, and the localities whose trade they esteem, the completion of the "great highway," has made tributary to that of Chicago. There can be no doubt but that Chicago, by its business enterprise and perseverance, has done much to secure the trade of this Territory, and the visit of these gentlemen, who are alive to the interests of business at every point at which the party rests, must necessarily increase the good understanding that at present exists between the commercial circles of the Rocky Mountains and Chicago. Among the gentlemen of the party are Hon. L. Trumbull, U. S. Senator for Illinois; General R. J. Ogelsby, ex-Governor of Illinois; Hon. N. B. Judd, M. C.; Hon. J. N. Arnold; Hon. W. S. Hinkley; Rev. Clinton Locke, D. D.; J. Medill, Editor of Chicago *Tribune*; J. M. Richards, President of the Chicago Board of Trade; Messrs. J. L. Hancock, O. S. Hough, J. V. Farwell, J. H. Bowen, F. D. Gray, W. T. Allen, A. Cowles, G. M. Kimbark, E. W. Blatchford, G. S. Bowen, C. G. Hammond, O. Lunt, T. Dent, C. G. Wicker, B. F. Haddock, S. Walt, E. V. Robbins, J. A. Ellison, C. Tobey, J. R. Nichols, E. F. Hollister, E. G. Keith, C. Gossage, J. Stockton, D. W. Whittle, Mr. Mead, O. L. Grant, (brother of President Grant,) E. G. Squires, etc. This distinguished party will probably remain in this city until Monday morning, when they will proceed westward by the special train that brought them to these valleys. May their short sojourn in our midst be pleasant and profitable, and their journey to the Pacific be a safe and speedy one.

Remember that Lotta the wonderful, plays on Monday night.

ENGAGEMENT OF "LOTTA."—It is with much pleasure that we are enabled to announce that the famous "Lotta," will appear on the boards of the Salt Lake Theatre, on Monday evening, Mr. Chaplin having given up to her a few nights of his engagement, so that the inhabitants of this city may have an opportunity of witnessing this renowned actress in a few of her most pleasing personations. On Monday evening she will appear in "Little Nell and the Marchioness," a dramatization by John Brougham of Dicken's master-piece,—the "Old Curiosity Shop." "Lotta" appears in the title roles and will be supported by the young eastern comedian T. G. Saville, as "Dick Swiveller," Mr. Chaplin as the odious "Quilp," and the full strength of the company. "Lotta" has the reputation, all through the Eastern States, not only of a most excellent actress, but of a sweet singer and graceful dancer.

Lotta, the inimitable, at the Theatre Monday night.

SURVEYOR GENERAL.—Our readers will notice by our dispatches from Washington, D. C., that Courtland C. Clements, Esq., has been appointed Surveyor General of Utah. Mr. Clements was till quite recently Register at the Land Office in this city.

Lotta, the great American Theatrical Star on Monday night.

GREAT FIRE AT BLACKFOOT CITY.—On the evening of the 27th ult., Blackfoot City, Montana Territory, was the scene of a serious conflagration, in which the principal business houses on both sides of Main street were destroyed. The fire was discovered in a stable in the south-east corner of the business portion of the city, at 10.30 p.m., and although every effort was made by the citizens to extinguish it, they were unable, on account of a strong wind at the time, to accomplish this desirable object until from twenty to twenty-five stores, saloons, dwellings and other buildings had been, some wholly and others partially, destroyed; the damage was estimated at from thirty to forty thousand dollars. The fire, it is confidentially believed, was the work of an incendiary. This is a great misfortune to a young city, and is another illustration of the necessity of being prepared, in the best possible manner, for such terrible casualties.

THE EXCURSION PARTY.—Speaking of this Excursion party now in our city the Chicago *Post* says:

"The party of twenty-five business men who leave this city for Colorado, Salt Lake, White Pine, Yosemite, Sacramento and San Francisco, on Monday next, will not be a show party. It was organized mainly by Colonel J. H. Bowen, at the solicitation of the officers of the Union and Central roads, with a view to future benefits to Chicago and the people of the Pacific Slope. It is a party of inquiry—a party hunting after facts and endeavoring to utilize them in the interests of commerce."

ACKNOWLEDGEMENT.—We are under obligations to the gentlemen of the Commercial party from Chicago, now in our city, for many items in our telegraphic columns to-day, received by them ahead of the ordinary Associated Press report.

MATHEMATICAL.—Professor Andrews is meeting with fine success in teaching our citizens his mercantile course. Having been instructed by him we have found his methods to be much shorter, more simple, rapid and practical, than any others that we have ever examined, and would, no doubt, be very valuable to business men in general. Prof. A. will remain in the city some time, and may be found at the Townsend House.

Special Notices.

AMONG the manufacturing and commercial interests represented by the Chicago gentlemen now in city, is that of the NATIONAL WATCH COMPANY, whose Factory—the finest for its purposes, probably, of any in the world—is located at Elgin, 42 miles west of Chicago. Some idea of the extent of the watch manufacturing business there carried on, may be inferred from the fact that, over 500 operatives are now employed, and that twenty-five hundred complete watch movements are produced monthly. Many of these watches find their way to our city, and are pronounced by our dealers to be the best and most popular Time-Keepers they are selling. We have been shown a very complete Dust Cap that is now being put in use by the Company, and that will render their watches still more popular with our mountain people. We wish all success to this Western Enterprise. d192

IT CAN NOT BE DENIED, Dooley's Baking Powder has not only attained the position of the best, but the cheapest baking powder now in use. Strictly pure in its combination, and so exactly proportioned that there is no trouble in making light, flaky biscuits, rolls, pastry, etc., every time. It is the cheapest to consumers, as one pound will go further in the culinary department than two pounds of any other in the market. Try it and be convinced. For sale by all grocers. d193 6

TARRANT'S SELTZER APERIENT.

FIGHTING WITH FIRE.

THIS drug is good policy on a blazing prairie, but it will not answer with the fevered human system. Irritating medicines exasperate and intensify all complaints of the stomach or the bowels. Never take a drastic evacuant for indigestion or constipation. Administer instead TARRANT'S EFFERVESCENT SELTZER APERIENT, which is at once a febrifuge, a cathartic, and an invigorant, and has a soothing and healing effect upon the disordered viscera.

THE BLUE LINE CARS

Are ALL OF UNIFORM BUILD, thus largely assuring the chances of delay from the use of cars of a mixed construction, and the consequent difficulty of repairs while remote from their own roads.

The facilities of the Line for making uniformly quick time are unequalled.
