LOCAL AND OTHER MATTERS.

WEATHER ITEM.—The highest point reached by the thermometer to-day was 60°

THEATRE.—The Japanese continue nightly to delight large audiences with their extraordinary performances. We have not heard of anybody who has witnessed their wonderful exhibitions of skill but has been highly gratified with the entertainment.

To-morrow (Friday) night the troupe will be the recipients of a benefit, when the house will in all probability be crowded, as they purpose rendering their entertainment, on that occasion, even more than usually attractive.

Before leaving the city, the Troupe will give a Matinee, for the accommodation of the ladies and children, of which due notice will be given. The performances of these Japanese are just the kind, not only to please grown people, but also to delight the little folks. Paber and Mater familias should therefore not miss such an opportunity of affording the children a little innocent amusement. They will be highly entertained if they go, they may be certain of that.

DON'T KILL THEM.—A gentleman showed us, this morning, a young catfish, which one of his boys had shot and caught in Jordan river. The lad was tempted to capture it on account of its queer shape, not having seen anything of the kind before. We are informed also that boys who go fishing in Jordan frequently catch them. The one we saw this morning was about four and a half inches long. We would like the boys to understand that when they catch any fish of this kind they should immediately put them back again into the water. They are not near large enough as yet to be used for the table; they have been placed in the river for the purpose of stocking it with them; and if the boys catch and destroy them when they are young this purpose will be foiled. When full grown they are generally very large. All good boys will take our advice and let them alone for the present. In order that boys may know them when they hook them, it may be well to say that they are a queer looking fish, having a very large head, tapering from there to the tail, where it terminates almost at a point.

Parents should caution their boys, who go fishing, with regard to this matter. Considerable pains and means have been expended in stocking the rivers hereabouts with this and other kinds of fish, and it is desirable they should be preserved till they arrive at maturity.

MORE TIN.—A new mine called the "Walker Boys" has been located just south of Burch Creek, about five miles from Ogden. A company has been formed, and measures are being adopted to vigorously prosecute the work of developing the mine. The specimens of ore exhibited are said to be as rich as any which have been brought into this city.—*Ogden Junction, Oct. 25th.*

HOW IT IS.—At early dawn, viewed from any of the eminences on the north side, our slumbering city presents a very picture of quietude and peace, and as the sun begins to peep over the eastern mountains, gladdening the scene with genial light, one of singular beauty. The variety of color presented by the green foliage, mixed with the yellow sear leaf, showing the near approach of winter, and the generally neat if not stately dwellings nestling in the fruitful orchards, tend to heighten the effect and charm the senses. Then come the curling smoke and the commencement of the hum and bustle of the day.

Such a scene cannot fail to be prolific of reflection in the minds of the thoughtful. Who produced those effects in the great wilderness of the Rocky Mountain Region? The effects are good, therefore the source must be good also. A bad tree cannot bring forth good fruit. Here is a community industrious, energetic and peaceful, whose works loudly proclaim their true character.

Why then should it be sought to sow discord among them, and destroy a system so fruitful of desirable and beneficent results? Is there reason in seeking such a consummation? Is there philanthropy or philosophy in it? Who is there but will answer no?

Yet there are those who seek the destruction of the source from which some of the best effects visible before the world to-day have flowed. In what condition was the people of this Territory found by those whose every effort is now being directed so as to militate against their peace and interests? They were in the enjoyment of peace, order and prosperity. What then shall be said of those perverters of common justice should they succeed in accomplishing their desires, in bringing anarchy, chaos and probably bloodshed here? Even their best friends would brand them as unworthy the name of men.

Such a drifting of matters as is now in process cannot continue very long. "It is a long road that has no turning." A crisis of some kind must soon come, in the very nature of things, and it is for the Latter-day Saints to maintain that calmness of demeanor and attitude, which has characterized them under the most trying and provoking circumstances, for they may rest assured that the ultimate development of events will result in their final triumph. By not being the aggressors we maintain the right on our side.

MARKET STALLS.—A long line of stalls which, when completed, will range along the entire length of the east side of the meat market lot, are now in course of erection. They will be occupied by the venders of fruit, vegetables, fish, &c., and are already all bespoken.

SHOULD BEWARE.—The *Alta California* says—

> A traveler through Utah says the efforts of the officials to bring to account the heads of the Mormon Church for polygamy and lascivious cohabitation, are meeting with favor from the Gentiles, and there is great approbation in Washington at the pertinacity with which the charges are brought against the leading offenders. He says, however, that the Washington folks should beware how they encourage prosecutions under the territorial laws, since the District of Columbia has been made a territory, or there may be some vigilant official who will find that there is a field for prosecution on some of the charges in Washington City.

The current prosecution of "Mormons" meets with favor from adulterous "Gentiles," but no other that we know. As to the "great approbation in Washington" over the present crusade, we don't know about that, but the Washington people are able to speak their mind upon the subject, and if they were as well informed upon it as we are, as honest men they would view the proceedings of the ring here with great disapprobation, as all honorable men will by and by. Of course if adultery that is not adultery is punished by a straining of law in Utah, adultery that is adultery ought by no means to go unpunished by honest intent of the law in Washington, D. C., but if such were to be the case it is doubtful if Congress would ever be able to muster a quorum to do business, and then what would become of the nation!

WHERE WILL YOU PUT THEM?—The San Francisco *Alta* concludes that all the "Mormons" who are liberally inclined on the marriage question are now in danger of fine and imprisonment under the current perversion of the Territorial law. But it promises to be a troublesome affair and the *Alta* wants to know how the problem is to be solved—

> Where jails are to be found for the incarceration of the whole of them, is a question which we do not pretend to be able to answer. Probably only the leaders will be punished, and the masses will be let off on a solemn promise to reduce their families to the ordinary standard.
>
> If they are all incarcerated, they will be an honorable company, the peer of which can not be found in the civilized world. If the masses be "let off," it will not be "on a solemn promise to reduce their families" to the one-horse Gentile arrangement, we are confident. The *Alta* does not say how many "mistresses" it is prepared to allow the "Mormons" who might cast off their wives. It is presumable that no questions would be asked upon that matter, not even judicially if the repudiating gentlemen were aliens and wanted to get naturalized. One thing is certain, if the pious officials who run, ruin we had almost said, high judicial matters in this Territory should make any disturbance over such a slight thing as a gentleman keeping a few "mistresses," the gentleman could leave Utah and go to San Francisco, or to Washington, D. C., and keep as many mistresses as he pleased, and still be a first class gentleman, fit for any society, as the judiciary in those cities are by no means so pious as are their judicial brethren in Utah. This Territory is getting to be an awfully pious place, so far as imported officials are concerned. Their piety sticks out of them all over, "like quills upon the fretful porcupine."

A GREAT MEDICAL DISCOVERY!

MILLIONS BEAR TESTIMONY TO THE WONDERFUL CURATIVE EFFECTS OF

J. WALKER'S VINEGAR BITTERS

Which are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.
