TELEGRAPHIC.

CAUSING A FLOOD.

A Dam at the Thatcher Reservoir, Colorado, Gives Way.

AN IRRIGATION FLUME IS DANGER

Doubt Entertained as to the Safety of Settlers—Millions of Gallons of Water Let Loose.

DENVER, June 28.—A special to the News from La Junta, Colo., says: At 2 p. m. today the dam gave way at the Thatcher reservoir, forty-six miles above here, flooding the surrounding country east and filling Timpas creek and the many canyons tributary. It is feared the Santa Fe bridge over Timpas creek, six miles west of La Junta on the Denver line, will be washed out tonight. The bridge is 187 feet long, 25 feet high and is regarded as a very strong one.

The reservoir contained 20,000,000 gallons and drained the foothills of the Sierra Mountains for fifty miles. The Huerfano river has been very high since Wednesday, owing to heavy rains in the Raton mountains, causing the dam to give way. No loss of life is yet reported, and owing to the light mess from Thatcher east, it is thought probable that the settlers had time to escape the flood.

Late tonight the Otero brigade came, one of the most extensive in the state, is in danger. Many wagon roads have been entirely washed away for a number of miles at a stretch in some places.

Trial of Fitzsimmons.

SYRACUSE, N. Y., June 28.—After three days' effort a jury has been secured for the trial of Bob Fitzsimmons on the charge of manslaughter in the first degree in the killing of his sparring partner, "Con" Riordan, in an exhibition in this city.

In the selection of the jury, the people objected to all the men who had opinions in the case, who favored athletics or who were of Irish extraction. The defense objected to German merchants.

Several newspaper men who witnessed the fight were called as witnesses. The general tenor of their testimony was that the gloves worn by the men were large, and the sparring tame. It was developed that Fitzsimmons, in an interview after the knockout, said "Riordan is as stiff as a dead duck."

No evidence really damaging to Fitzsimmons was brought out.

San Francisco Fire.

SAN FRANCISCO, June 28.—It was supposed that last night's fire would tend to re-establish the insurance compact. The aggregate loss of $300,000, divided among forty companies, has not brought the different agencies closer together, and today they are again cutting rates, particularly on dwelling risks.

The total loss from last night's fire is placed at $1,200,000. The companies losing most heavily are: Royal Exchange, $20,000; W. J. Lander's agency, $20,000; London & Lancashire, $14,000; Berthman's agency, $13,000; J. D. Maxwell's agency, $13,000; Trans-Atlantic Fire, $11,000; Prussian National, $10,000; Brown, Craig & Co.'s agency, $10,000.

Three hundred families are not only homeless, but have lost all their belongings. Great destitution prevails. A relief fund has been started by the Examiner.

While the fire was raging in the vicinity of Lachman's winery last night, there was considerable danger to the cooperage stored in the yard. There was no water handy, as a small hose was connected with a tank containing about 2,000 gallons of refuse wine and sediment intended for the distillery. About 200 gallons of this stuff was squirted over the barrel staves. The amount of wine used in this manner was worth about $5.

Depew Makes a Statement.

NEW YORK, June 28.—Chauncey M. Depew, who, it is rumored, is about to marry again, met some reporters this evening and made the following statement: "The story is made out of whole cloth. I do not know of any young lady worth $3,000,000 who would have me. Not less than four times recently have rumors had me engaged to marry, and the most estimable young ladies mentioned would no doubt have conferred a great honor on me had the rumors been true. They were not, however, and I do not think any such rumor at any time will be substantiated."

Prominent Jew Suicides.

SAN FRANCISCO, June 28.—Louis Blum, extreasurer of B'nai B'rith society, committed suicide today by turning on the gas. Blum was discharged to be shot $13,000 in his accounts some months ago. He was one of the most prominent Jews in the city and the news caused a great sensation.

Kidnapped a Lawyer.

BUFFALO, N. Y., June 28.—O. O. Cottle, the lawyer who was kidnapped from his office, taken to a vacant house and there chained to a post forty hours until his relatives raised $5,000 for his release, was to have appeared today before the grand jury to give evidence toward indicting John C. Emery and George Allen, accused of being his abductors. Mr. Cottle did not appear. The police attribute the escape of the suspects to the younger Cottle's failure to notify them of the kidnaping, and say not for the fact that Cottle was discovered attempting to escape from his dungeon by a policeman they would have never known of the crime. Emery and Allen are fugitives from justice, who are said to have paid Cottle $15,000 to secure a pardon from the governor.

At the Pan-American exposition of 1901, Price's Cream Baking Powder will be premium, as it was at the World's and Midwinter Fairs.

Yale Won.

NEW LONDON, Conn., June 28.—The oarsmen from Yale today defeated the men from Harvard for the thirteenth time since the annual contests were inaugurated between the colleges at Springfield, on June 30th, 1852. The race was rowed under favorable conditions and was a fair test of merit, in which Harvard was beaten by thirty-five seconds, or nearly two lengths.

The course was four miles on the Thames river, downstream, from a point below Gale's Ferry, and extending to the big railroad bridge at New London.

The official time of the entire race is as follows:

Crews.	Time.	Distance.
First mile	4 57	1 m
Second mile	5 [illegible]	2 m
Mile and a half	[illegible]	3 m
Two miles	[illegible]	4 m
Two miles and half mile	[illegible]	5 m
Three miles	[illegible]	6 m
Three miles and half mile	[illegible]	7 m
Four miles	[illegible]	8 m

At a meeting of the Yale crew today Hobart H. Treadway was chosen as captain for the coming year.

JAPAN NOT AFRAID.

May Send a Japanese Army to St. Petersburg Within Two Years.

NEW YORK, June 28.—"I really do not think war between Japan and Russia is imminent," said Mr. Hoshigoch, the Japanese consul general at New York, in an interview.

"However," continued the consul, "Japan will not be trifled. If Russia attempts to interfere with affairs in Corea, Japan will insist upon her rights. We are just beginning to recover from a rather exhausting war and are in no hurry to get into another quarrel, but I wish to say emphatically that Japan is not afraid of Russia. I will go so far as to assure you that there are Japanese—and they are not carried away by enthusiasm—who would not be astonished to see a Japanese army in St. Petersburg within the next ten years.

"Mr. Weber, Russian minister to Corea is a very clever man. He is over 50 years of age and has been minister at Seoul more than ten years. He was once Russian consul at Yokohama. Weber is a skilled and experienced diplomat, and I have no doubt that he has been greatly influential in bringing about the present situation.

"You see there is no limit to Russia's aggressive and grasping spirit. It should not do so with the fruits of our victory over China by intrigue and force, there is no doubt she would be glad to do so. But Japan is not easily vexed. We know something about war and we realize that from a strategic standpoint Russia would find it difficult to make much headway against us."

SIGN OF THE UTAH SENATORS.

The Chairman of the Republican National Committee Says So.

NEW YORK, June 28.—Chairman Thomas H. Carter of the Republican national committee, and Senator Frederick W. Dubois have arrived from Washington. Chairman Carter stoutly stood off all the arrival of Chairman Joseph H. Manley of the Republican national executive committee, but go back to Montana. Manley is expected from Liverpool next week. After Chairman Manley gets back there is likely to be a meeting of the executive committee and perhaps of the entire national committee.

Chairman Carter told his followers in this city that the refusal of the Cleveland convention to declare for a single ballot was a secret to the Republicans in the United States senates from Utah. This will give the Republicans a majority to the new senate and would enable them to organize it without making deals with the Democrats or Populists.

STRANGE SWINDLE.

A Strength and Trilby Story from Colorado Springs.

DENVER, June 28.—A special to the News from Colorado Springs says: Colorado Springs has its strength and its Trilby, the parts being impersonated by Herr Graham and his wife, and the pains are untangling a strange story.

They were called to the Graham residence to arrest two men who had attempted to abduct Mrs. Graham, stating that they wanted to use her at Cripple Creek in locating gold mines. It seems that Graham has been in the habit of hypnotizing her and has made some valuable discoveries by following directions given by her while in a trance state. The attempted kidnapers made their escape before the police arrived, leaving Mrs. Graham bruised and exhausted from her struggle with them.

This afternoon, while in a trance, Mrs. Graham located the men in a certain saloon at Colorado city, three miles from here, giving a description of them. The police followed her directions, but found no suspicious characters there. She claims they went to the wrong saloon.

The police tonight locked up Graham on a charge of unlawful embalmment. They claim the pair are attempting to locate a wealthy Cripple Creek mining man whom they have in their power, and that Graham has a record in Kansas City and Chicago.

Against Municipal Corruption.

OMAHA, June 28.—A proclamation, signed by 1,000 citizens, was published here today, calling upon taxpayers generally to join them in the organization of a vigorous non-sectarian and non-partisan citizens' movement for municipal reform.

The agitation is an outgrowth of the defalcation in the city treasurer's office, which revealed a sorry state of affairs. Many city officials were shown to have drawn their salaries far in advance, and it was shown, too, that city money was being used by contractors, speculators and others with political influence.

The proclamation bound today does not mention the A. P. A., which is a controlling factor in city politics, but there is a plain inference that the proposed organization will have for its object the wresting of the city government from the men who are now in control.

A partnership that never fails—that between the progressive housekeeper and Dr. Price's Baking Powder.

The Rainier Wine.

SAN FRANCISCO, June 28.—Jimmie Anderson, champion heavy weight of Australia, defeated Tom Mahoney, a local fighter of the same class, in a nine round contest at Colma. Anthony broke his right hand in the first round but had no difficulty in winning against these odds.

TRIAL OF THE OLYMPIA.

One of the Finest Vessels in the United States Navy.

SAN FRANCISCO, June 28.—The cruiser Olympia, on a trial trip has demonstrated beyond all question that she is one of the worthiest of her class in the fleet of white fighters comprising the new United States navy.

An official trial was called for by the government, such as is always the case with a new vessel just entering the navy. It was to be a thorough test, not that builder—architect exclusively by government officers, and was to comprise a thorough test of everything pertaining to the workings of a modern war cruiser from the firing of the immense low others down to calking dripping wings within a foot of space to drill cream. Every part the machinery while first essayed she accomplished with surprising grace, but gave worked to perfection and during her four hour run over a measured course averaged within a minute fraction of twenty knots an hour under natural draught. The object of the trial was to ascertain whether or not the cruiser was in perfect trim for actual war duty, and it simply preliminary to assigning her to her place among the regular line of fighters.

The Olympia's officers and crew were delighted with her showing she made and could not say too many fine things about her. Another thing which caused them considerable ease of mind was the fact that although every bolt and block connected with the vessel was put to the severest strain, not an accident occurred throughout the cruise.

Snow in Wisconsin.

CUMBERLAND, Wis., June 28.—At 2 o'clock this afternoon snow fell. The fall lasted an hour, melting as it struck the ground.

Nearly 13,000 Lost in One Hour.

BOSTON, June 28.—The *Standard* will tomorrow claim for G. W. Green, a compositor on the paper, the championship record for typesetting on the Mergenthaler machine, stating that this afternoon Green set 13,950 ems solid agate in one hour. There were only twenty-nine typographical errors in the lot.

Gold in Wyoming.

DOUGLAS, Wyo., June 28.—After two weeks of expert prospecting a party headed by an old Colorado prospector of twenty years experience, has discovered gold twelve miles from this place. When the news leaked out it caused an excitement which has heretofore been unknown in this locality. It is estimated that over 100 claims were staked out today.

A Second Peace Commission.

NEW YORK, June 28.—A dispatch to a Herald paper from Catalina says: A second peace commission has left Guayaquil for Chiquita which is 80 miles south of Quito, Ecuador. It is taken for granted by the revolutionary government that the Quito authorities at Chiquita will give way before the country's sovereign will. Cable advices from Rio Janeiro report that General Saraiva is pacified and desirous of holding a personal conference with General Alfaro. He manifested liberal views and is ready to wage war against the conservatives.

Caused by Earthquake.

BALLY EYE MARIE, June 28.—Some kind of a volcanic eruption has taken place on Belcher Mesha Island, sixty miles west of here, on the north shore of Lake Superior. Part of the bottom of the lake has been thrown up out of the water and the earth is transformed into a series of ridges. A probable theory is that an earthquake has caused the phenomena.

Jack Dempsey Sick.

NEW YORK, June 28.—Jack Dempsey is at present very sick. At one time during the week his life was despaired of. Since his encounter with Tommy Ryan at Coney Island last winter, Jack has been failing.

Situation in Newfoundland.

HALIFAX, N. S., June 28.—Bishop Howley, of St. Johns, N. F., is in the city on his way home from attending Bishop Cameron's jubilee. Asked by an Associated Press reporter as to the situation in Newfoundland, his worship said: "The island is gradually recovering from the financial crisis through which it has recently passed. Six months ago the whole population was in the depths of despair. Now with brighter prospects the hopes of the people have revived. Providence came to our rescue by sending us unusually good seal fishery, its value alone being $1,000,000 against an average of $600,000 for some years past. The present outlook for the cod fishery is the best for many years. The crops, too, look excellent, never better."

"CHOP" DOLLARS.

A Proposition to Coin Money for the Oriental Trade.

TACOMA, Wash., June 28.—Representative W. H. Doolittle left today for Washington, D. C., to spend the summer there transacting business of importance to the state. As a result of his recent oriental trip he will vote to secure the enactment next winter of a measure providing for the coinage of chop dollars for use in transacting business in the orient, in Japan and China especially.

Mr. Doolittle says: Great Britain has long been coining these dollars, placing the Japanese "chop" or character representing the silver in the piece on one side and the British stamp on the other. This currency has been of great service to British merchants transacting business in China and Japan and hence to the British nation at large. Our trade dollars might have served the same purpose, but lacking the Japanese "chop" or character indicating value, the Chinese and Japanese did not understand them, and would not use them.

Adulterated baking powders are used at the risk of health. Dr. Price's is perfectly pure and wholesome.

Mt. Rainier Uneasy.

SEATTLE, Wash., June 29.—Assistant Weather Observer E. C. Hobbs has recently been making some examinations of the summit of Mt. Rainier with a small telescope and has discovered a large dark crevasse through the center of Columbia crest which can be seen plainly with the naked eye. A large snow slide has recently occurred at the base of Liberty Cap on the north side and on the west side there appears to be several new crevasses of various sizes. Mr. Hobbs has also noticed the mountain steaming and smoking in the same manner as last winter.

The Value of a Friend.

CORNELIA, Ga.—"For over six years I was greatly troubled with constipation and biliousness, and was often unable to work. At the suggestion of a friend I tried Simmons Liver Regulator, and am now free of these troubles."—Harrison Tarlton. Your druggist sells it in powder or liquid; the powder to be taken dry, or made into a tea.

HEART DISEASE 30 YEARS!

Short Breath, Palpitation.

MR. G. W. H. KIMMY, postmaster of Kosciusko, Ind., and a brave ex-soldier, says: "I had been severely troubled with heart disease for over thirty years, the result of the hardships and exposures of my soldier life. I could not sleep on my left side, and had pain around my heart. I became so ill that I was much alarmed, and fortunately my attention was called to

Dr. Miles' Heart Cure

I decided to try it. The first bottle made a decided improvement in my condition, and five bottles have completely cured me."
