stand for three weeks and have that little span of official life granted so as to facilitate the dispatch of official and legislative business which has piled up during the succession of deadlocks of late.

The emergency bill to cover the payment of salaries for October and until November 15th, was presented today, and passed now, "To include December 1st." With regard to this new cabinet, the persons are all untried men in ministerial positions.

Minister Wilcox is not the Wilcox of revolutionary fame, but a white Hawaiian with American proclivities and wealthy sugar planter. He has charge of the interior office. Minister Mark P. Robinson of the finance department and Minister Cecil Brown were opponents at the late election and were defeated by the representatives of the National Reform party. Jones was formerly a member of the firm of Brewer & Co. He sold out his interest thereto and journeyed to the United States, visiting Portland, Or., and Boston, Mass., being absent two years. Attorney General Cecil Brown has only lately returned from a trip to the Old World. He was formerly in the legislature.

American Fisheries.

HALIFAX, Nov. 16.—The conference between the members of the Canadian and Newfoundland governments came to an end last night. From unofficial source it is learned that the conference, among other things, agreed upon a united line of action to be pursued in regard to continuing the modus vivendi license and supply bait to United States vessels.

BEN. BLANCHARD.

He Reaches Cheyenne and Is Arrested.

CHEYENNE, Wyo., Nov. 16.—Ben. Blanchard, the dashing promoter for whom the sheriff of Cheyenne is searching in the south, reached the city this morning. He claimed to be ignorant of the fact that an officer was on his trail. He was at once arrested on the charge of obtaining money under false pretenses and gave bail. The claims against him aggregate over $5,000. Blanchard says he will build the million and a half smelter and refine in the $200,000 bonus which citizens have in a bank here. Blanchard claims that the Chicago story of his shady operations in that city ten years ago is false. He says he did not flee to Old Mexico in goaded but traveled as usual; that he did not swindle the Methodist lecturers and paid Mr. Fullman for the private car.

CALIFORNIA MINERS

Adopt a Memorial to Congress—Resolutions and Speeches.

SAN FRANCISCO, Nov. 16.—The California Miners' Convention today adopted a memorial to Congress requesting a modification of the mining laws so as to enable drift miners to obtain title to their claims more expeditiously than under the present law. The convention also adopted resolutions which approve the Caminetti bill; recommend that efforts be made to obtain an appropriation of $50,000 for the construction of debris dams provided for in the bill and recommend that the state legislature make an appropriation to that end. The resolutions also favor the enactment by Congress of a law that all lands returned by the United States surveyor general as mineral shall be lands within the recognized mineral belt shall be presumed to be such before the land department until the contrary shall be clearly shown. The resolutions also favor the passage of a free coinage silver law.

Congressman Geary delivered a brief address. Jacob H. Neff was re-elected president of the miners' association, W. Halston, secretary. A banquet was held at the Palace Hotel this evening.

Sanpete Stake Conference.

The conference of the Sanpete Stake was held in Moroni on the 12th and 13th of November, 1892.

There were present President B. H. Roberts, at the presidency of the Seventies; President Peterson and counselors Henry Beal and John B. Maiben, of the Stake presidency; members of the High Council, the Bishops of the wards and also a good attendance of the Saints. The usual conference business was attended to, the general and Stake authorities being sustained by unanimous vote of the conference.

President Peterson called the attention of the Saints to the effort required of them in assisting in the completion of the Salt Lake Temple, that he and his counselors had visited most of the wards in the Stake and gave notice that they would visit the remainder on the 14th and 15th days of the present month, to assist them in making arrangements whereby they may be enabled to meet the requirement.

The following named Bishops made reports of their several wards: J. W. Irons of Moroni; John E. Reese, of Wales; C. A. Lund, of Mount Pleasant; C. C. N. Davis, of Ephraim South; W. T. Reid, of Manti North; L. S. Anderson, of Ephraim North ward. Statistical and Sunday school reports were read.

The speakers during the conference were President Peterson, Counselor Henry Beal and John B. Maiben, Elders Peter Christensen of Moroni, Ole Sorenson and E. A. Christensen of Fountain Green, returned missionaries (Elders Christensen from Norway and Elder Sorenson from the Northwestern States, each gave an interesting account of his labors and experience); Elder C. H. Wheatley, President B. H. Roberts and Elder J. F. Allred also addressed the conference. From the reports made in several quorums and society organizations as to working order, no disorder being noted anywhere in the Stake.

The presidency expressed themselves at the close of the conference as being pleased with the attendance of the saints, the information given and the good spirit enjoyed by both speakers and hearers. President Peterson remarked that the Saints had voted unanimously to sustain the Priesthood, he moved that the Priesthood sustain the Saints in hearkening them and watching over and comforting them to the best of their ability which motion was sustained by the large body of Priesthood present.

Conference adjourned for three months to meet in Ephraim on Saturday, the 12th of February, 1893.

GEORGE TAYLOR, Clerk.

TO PROTECT STREET SIGNS.

A Reward of $10 Offered for the Conviction of a Sign Destroyer.

BUILDING REPORTS WANTED.

Ordinances Levying Special Taxes for Sidewalk Construction.—Other Matters.

At the meeting of the City Council last night Horn offered a resolution providing that the street supervisor be authorized to offer a reward of $25 for information that would lead to the conviction of any one who maliciously mutilates or destroys street signs.

Horn stated in support of the resolution that the new signs had cost the city about $500, and that they were being destroyed in all parts of the city by hoodlums and vandals. He wanted an example made of some one. Whom he did not care so long as he was guilty. He thought a reward would materially assist in bringing the culprits to justice.

Moran said the offering of a reward would simply have the effect of encouraging the boys to break the signs down. If they could get $25 for squealing on a pal they would do it and in that way they would become pretty expensive to the city.

Rich said he had been a boy himself and he knew boys liked fun. He thought, however, that they should be dealt with when caught, but he was opposed to the resolution.

Kelly took the same view of the matter as Rich.

Simondi and Beatley both thought the boys of Salt Lake were very good and should be taught a lesson that they would not soon forget. The former declared that the signs were monuments of enterprise on the part of the Liberal administration and should be cared for and protected.

Fullmer said such remarks were entirely uncalled for from Mr. Simondi who was a new comer here. He was contracted in his views and warped in his judgment. Salt Lake City had street signs before Mr. Simondi set foot in Salt Lake and they were not placed in position by or at the expense of Liberals either. He thought the committee on improvements was perpetrated the monstrosity of erecting the new signs would be prosecuted instead of the boys who do they were a credit to Salt Lake to anyone.

On motion of Hardy the resolution was amended so as to make the reward $10 instead of $25.

TO PROTECT THE ASPHALT.

A resolution by Horn prohibiting the hitching of teams upon any asphalt streets of the city was passed and the attorney was instructed to draw an ordinance to that effect.

BUILDING REPORT.

Lawson offered the following which was adopted:

Resolved, That the building inspector of Salt Lake City at once proceed to and compile with his annual report for the year ending December 31, 1892, all those buildings erected or made during the present year in all those additions and subdivisions adjoining said city on the south and lying between both Jasper and Twelfth South streets. That for such services he be paid not to exceed $50 for the time necessarily employed therein.

FOR NEW SIDEWALKS.

Ordinances levying special taxes for the construction of sidewalks were passed as follows:

On both sides of First South street between Fifth and Twelfth East streets. Tax $1.29 per linear front foot.

On both sides of First South street between East and West Temple streets. Tax $3.60 per linear front foot.

On both sides of First South street between East Temple and State streets. Tax $6.36 per linear front foot.

On both sides of Second South street between East Temple and State streets. Tax $5.50 per linear front foot.

THE CITY SHOULD FOOT THE BILL.

Hardy called attention to the claim of Dr. John Park for the breaking down of his fence and dumping gravel on his lot when the contractors were grading State street. It was stated that the matter was in the hands of the engineer. A report on the matter was called for to be presented at the next meeting.

DITCH AFTER WASTLAND.

Heim moved that the committee on streets be reorganized so as to place one councilman from each precinct on the committee. Referred to the president.

THE PARK COMMISSION ORDINANCE

came up and was read the first time and after a long and tiresome discussion it was laid on the table until the next meeting.

TO REMOVE OBSTRUCTIONS.

Hardy introduced the following, which was adopted:

Resolved, That the street supervisor shall at once be authorized to have all obstructions and other observations on Main street from South Temple to First South street and First South street from West Temple to First East street be removed and that he be directed to give the owners of the buildings on the above streets and there but for the expense of same be presented to the proper for payment.

Adjourned till Friday night.

NOTES FROM LOGAN.

A Couple of Accidents—Mining Properties.—Building Boom, Etc.

(From our Correspondent.)

Quite a number of our people have entered the B. Y. College within the past week.

On Saturday last we were summoned to our telephone and no shouting Saints were required to find that we were in conversation with Bishop W. C. Parkinson at Preston. The flickering tones extending the telephone wire from Franklin to Preston had just been applied. The extension brings not only the latter named place and Whitney into Logan conversational circle.

Mr. C. A. Slater, while delivering potatoes a few days ago, was struck a sight spinter in attempting the bridge just south of Logan river bridge, when the horses became [illegible] and ran away, [illegible] Mr. Slater's buggy. When the team ran off the road the wagon box was [illegible] from the running gear and Mr. Slater came violently to the ground. He was picked up unconscious. Upon examination he was found to have broken two ribs and sustained severe internal injuries, in addition to a bad scalp wound.

The building boom is on in Logan and many fine business houses are being erected. The Smith-Peterson block is almost completed, and Rich is working wild on that part of Main street.

The second term of the public schools of Logan begins on Monday next.

Effie, the nine-year-old daughter of Andrew Larsen, while playing on the balcony of the school house in Hyrum, fell to the ground and was taken home unconscious. Dr. Snow was called and found that besides the shock she had fractured her left arm in two places, one just above the wrist and the other at the elbow.

Martin Hansen, foreman of the Black Jack coal mine, east of Franklin, thinks the prospects for a good mine there are very fine. They have just completed the sinking of a shaft through a 17 foot ledge of sand rock and a layer of clay. The next ledge of sand rock he thinks is about thirty feet through and he expects to strike coal on getting through this ledge.

There will be a mass meeting on Saturday evening at Thatcher's Opera House for the purpose of arranging for Cache county's part in the Utah exhibit at the World's Fair. Speeches will be made by Mesdames P. D. and F. S. Richards and Hon. Moses Thatcher.
