THE EVENING NEWS.

Wednesday, - - - April, 5, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, April 5, 1871.

Buying at $1.08; Selling at $1.10½.

LOCAL AND OTHER MATTERS.

THEATRE.—At the Theatre to-night Mr. H. J. Byron's five act drama, "The Lancashire Lass" will be presented, Mr. G. B. Waldron appearing as "A party by the name of Johnson." Other characters by Messrs. Power, Margetts, Graham, Thorne Miss Adams, Mesdames Bowring, Clawson, &c. Performance commences at 8 o'clock.

NO MEETING TO-MORROW NIGHT.—The members of the Deseret Philharmonic Society are informed that, in consequence of the Conference commencing to-morrow, their usual weekly meeting will not be held to-morrow night; it will be postponed until the night of Thursday, the 13th inst.

NOTICE.—Messrs. Sharp & Young are settling up their accounts and wish all having claims against them to call and obtain a settlement at the office of Mr. Joseph A. Young.

IN TOWN.—Hon. A. A. Sargent, M. C. from California, with his wife and daughter, is now in this city, where he will spend a few days. Mr. Sargent will be remembered by our citizens for his determined protest in the House of Representatives against the infamous Cullom bill, he, with many other Representatives, deeming it a cruel and impolitic measure and one unworthy of our age. He is a credit to his State and a gentleman of whom his constituents are proud.

ACCIDENT.—As the son of Mr. William Lovell, of the 1st Ward, was playing with other boys near his father's residence, to-day, he accidentally broke his left forearm. Dr. Higgins Davis was called in and set the fractured limb, and the boy is progressing favorably.

THE CONCERT LAST NIGHT.—Signor Farini's concert last night was well attended, and its success artistically was very flattering. The solo vocalists, as a whole, did remarkably well. Miss Rhoda Young received a deserved encore. The same may be said of the instrumentalists, their performances being highly satisfactory, the violin solo of Mr. Olsen receiving a double encore. In the third act of Il Trovatore, which closed the concert, Miss Goulder, as "Leonora," did most excellently, surprising her friends and reflecting the greatest credit upon her preceptor —Signor Farini. Altogether the concert was a success both pecuniarily and artistically, and seemed to give the most genuine satisfaction to all present.

A SHOOTING CASE.—His honor Chief Justice McKean having remanded George Graham back to the Alderman's Court for amendment of commitment, or re-examination on the charge against him of seduction, he was again brought before Alderman Clinton, at noon yesterday. The commitment having been duly amended, he was taken in charge by Deputy U. S. Marshal Firman. As the two were leaving the City Hall, an old gentleman, named Joseph P. Risley, stepfather of the girl seduced by Graham, stepped up and fired a shot from a revolver at him. Graham thinking "discretion the better part of valor," made good time for the middle of the street, when Risley again fired at him. Luckily for Graham the old gentleman was either too much excited to take a steady aim or is a poor shot, as he missed his mark each time. Immediately after the firing of the second shot, the police were out of the City Hall and had Risley in custody. He was brought up for examination twice last evening but, owing to Deputy Marshal Firman, who saw the shooting, not being present, he was each time remanded.

Since writing the above, Risley has been examined and bound over to appear at the District Court, under $2,000 bonds.

METEORIC.—"Last Thursday night a very large and brilliant meteor, with a long train, traveling in a northerly direction, was seen by Mr. W. Driver to burst in the neighborhood of Mr. W. Baker's residence on the bench, scattering innumerable sparks and illumining the neighborhood with a light of varied colors."—*Ogden Junction*, April 1st.

TERRITORIAL NEWS.—The following was received by Deseret Telegraph:

ST. GEORGE, 4.

The Panacea Co-operative Association have depreciated their stock of merchandise ten per cent, and have declared that, hereafter, their business shall be on a coin basis. Weather delightful.

PLEASANT GROVE, 5.

The fact is unquestionably demonstrated that rich mines are in abundance in American Fork canon; a great amount of ore is already on the dump. An ore smelter is being erected, and preparations for two more are in view. C. B. Hawley & Co. are rearing a saw mill, and two portable ones are coming. These, with those already in successful operation, will furnish lumber and shingles sufficient to supply the demand. Houtz and Farnsworth are located at the mouth of the canon with ample provisions for man and beast. The snow is fast disappearing. A company is organized to complete the road on short notice, and American Fork is destined to become a great place.

SANPETE.—We were pleased to receive a visit, yesterday, from President Orson Hyde, of Spring City, Sanpete, who arrived here the evening previous. He is in the enjoyment of excellent health, and gives in a good report of the Sanpeters, they being, as a general thing, in good standing spiritually and temporally. There will not be many from that district of country at Conference, the people being too busy farming. Storms continued so long that agricultural operations were delayed in the early part of the Spring, but when Bro. Hyde left, the weather was propitious and the soil in fine condition, and the farmers in every direction were taking advantage of the opportunity to complete their spring work. They were rather afraid to leave for ten days to come to Conference, fearing if they did so that they would be unable to get their grains sown in good season. Every team that could be used for ploughing was engaged in turning up the soil, and the feeling throughout the valley is to put in all the grain they possess, and trust, for food till harvest, to potatoes, of which they have plenty. Many families are out of bread now.

Grasshoppers are numerous at Moroni and Ephraim, at the first named place, probably as numerous as they have ever been known; they have also made their appearance at Gunnison, Fountain Green, Spring City, Mount Pleasant, Fairview and Warm Creek; but they are not very numerous at these latter places.

A beautiful meeting house has been finished at Fairview; it is painted and grained, and is a very fine structure. The people of Ephraim have resumed work on their large meeting house; rock sufficient to finish it is hauled, and when completed it will be one of the finest buildings in the Territory. The people of Manti are also engaged in erecting a Tabernacle of the same size as the one at Ephraim.

INCORRIGIBLE.—Terry, one of the two incorrigibles who were drummed out of the U. S. Service, at Provo, a few days since, is keeping up his old game. He was arrested yesterday for being drunk and kicking up a general row. When taken to the City Hall he gave the name of Knowlet.

DIED.

At St. George, Washington Co., Utah, of measels, fever and canker, after a severe illness of four weeks, Joseph Hyrum, son of John G. and Susannah Smith, aged 7 years 10 months and 5 days.

PEOPLE'S VERDICT

Over Half a Million sold and in use!

4,000 made and sold per week

SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable:

THE SINGER
NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and requiring oil soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the
Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Invention and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

SINGER'S
New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivaled MACHINES.

(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.

OTHER SEWING MACHINES REPAIRED on Reasonable Terms.

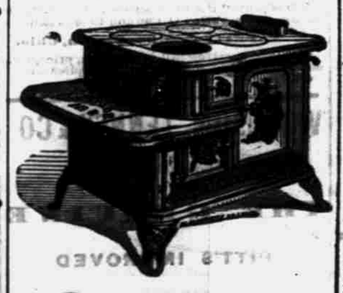
THE CELEBRATED
COOKING STOVES!



SUPERIOR
For Wood.
They are really what their name indicates, SUPERIOR to any other stove in the market, and for
Economy, Durability, Convenience & Dispatch
Are Unequalled!
KANSAS, ALASKA
AND
IMPROVED AMERICAN
For Coal,
Which for Neatness of Design, Thoroughness of Combustion, Capacity of Oven, Economy in the Use of Fuel and Uniformity of Operation, place them at the head Stoves in the market.
They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction which give these Stoves superiority over all others in the consumption of its smoke, thus saving a large percentage of fuel.
Bridge, Beach & Co.,
