THE MEMBERS of the High Council are requested to meet at the City Hall on Wednesday morning, June 4th, at ten o'clock.

SAN FRANCISCO.—A number of San Francisco advertisements will be found in our columns to-day. We can assure our readers that all the firms thus represented are strictly reliable, and we shall take pleasure in making special allusion to the merits of each of them in the NEWS, as opportunity may offer.

DECEIVED.—A young woman came in by the Central Pacific train this morning in pursuit of a wayward husband. She lived in Sacramento, and her parents are respectable and in good circumstances. In an hour of infatuation she yielded to the voice of the tempter and consented to an elopement, taking with her some valuable jewels, the gifts of a loving father and a tender mother, and gave them to her lover. The scoundrel suddenly left her, promising to meet the deceived girl at Corinne yesterday morning, but not finding him there, she sent him a dispatch to Ogden, whence she received an answer that he would be at the depot to receive her upon the arrival of the train to-day. He left yesterday morning, and his whereabouts is unknown. Happily she had some money, enabling her to leave this evening for the happy home which she deserts.—*Ogden Junction, June 2d.*

BEHIND THE SCENES AT WASHINGTON.—This is a new book purporting to be an exposé of the Credit Mobilier investigations, and a general description of how matters are conducted at the Capital, &c. As will be seen by advertisement, Henry E. Steel is agent for Utah.

FALSE IDEAS.—Many people have anything but correct ideas on educational matters. Some appear to labor under the impression that a sound education can be obtained by the attendance of the student for a few short months at an efficient seminary, which is very far from being correct. The principal of the University, we understand, has had this difficulty to contend with to a considerable extent. Parents will sometimes send their children to that institution for the purpose of training them to become teachers, and expect that they will become proficient for that position within say one year, even if they be almost ignorant of the rudiments of a common English education at the time of entering the University.

It is very desirable that the teachers of Utah should, as a general rule, be educated and trained here, but it is not reasonable to expect that the information necessary to make a person an efficient teacher can be imparted or received in a very limited space of time. Such incorrect ideas are not only unjust to those whose duty it is to give the necessary instructions, but also to the normal student himself or herself.

To obtain the qualifications necessary to make a competent teacher can be acquired only by a long and arduous and strict discipline is necessary. The idea that nearly everybody can act as a teacher is about on a par with that generally entertained about editing a newspaper.

NORTH ogden, Weber Co., May 30.

Editor Deseret News:

The DESERET NEWS comes to hand regularly and its subscribers say they cannot well do without it. The *Juvenile Instructor* is also appreciated by the young folks generally, as well as the many adults who love wholesome select stories and history.

Our crops are looking well, although some of the low land farmers would rather the rain would cease for the present. We are having a snow storm at time of writing. Our fruit crop is likely to be large—apples, plums and peaches, but apricots not so plentiful.

The health of the people generally is good. I do not hear of any sickness. Everything indicates happiness and prosperity, although cash is scarce, and will be in this country until more manufacturing is done, and the continual stream of importation of articles which ought to be made here, is stopped.

Our young men ought to be learning trades, but such are scarcer, even than cash. The reason of this I cannot account for, for in other countries young men think it a privilege to learn a good trade, which renders them measurably independent, having a means of support no one can take from them.

Very Respectfully,
S. STEVENS.

THE TOWELL EXPEDITION.—We have before us a letter from Mr. H. C. Kiesel, of Powell's exploring party, dated Gunnison, May 25th. We learn from it that Professor Thompson and party arrived at that point three days previous to the above date. The party has four tents and numbers, at present, seven men. The company intended starting up the Sevier in a few days, for the purpose of obtaining specimens of birds and plants, and taking sketches and photographs. This part of the exploration was to last about three weeks, when a southern line of march was to be taken up.

Mr. Kiesel speaks highly of the kind and considerate treatment of the party by Bishop Horne, of Gunnison. A new grist mill would commence running at that place in a few days.

When the party traveled from this city to Gunnison the roads between Lehi and their destination were simply horrible, causing them to "stick in the mud" twice.

PICNICING.—The day and Sunday school scholars of the Eighth Ward were at Lindsay's Gardens yesterday and enjoyed themselves in dancing, swinging, &c. The people of the Ward supplied the children with a free treat of candies, oranges, nuts, and other good things. That is the way to celebrate the little ones.

THAT RESOLUTION.—The *Territorial Enterprise* has the following—

"Without knowing anything about the matter, we will take the liberty of assuming that the adoption of this resolution was wrong. We have hardly a right to attribute to Brigham Young an unworthy motive in subscribing liberally to the decoration fund. The fact that he was asked to subscribe and did subscribe, should have exempted him from the extremely bitter censure implied in the resolution adopted."

The *Enterprise* is a paper that usually gives a "pick in" to the "Mormons" when there is a chance.

THE SOUTH.—Brother W. Willes, who recently returned from a four months trip through the settlements between this City and St. George, in the interest of his song book, informs us that he met with good success. He visited nearly all of the Sabbath schools, meeting everywhere a kindly reception. Many and vast improvements have been made in Dixie late years, and the people there generally would not exchange positions with "northmen." Lumber is extensively and successfully grown and fed to stock. Bees do well. Wheat was in the ear, at St. George, a month ago. Strawberries are all gone. Brother W. says he demolished the "serpent that was left" at J. R. Jarman's. The last named gentleman has some splendid roses in his garden. Through the energy of the Dixie brethren in St. George Tabernacle, full of red sandstone in nearly finished, and public works generally are carried on spiritedly.

The people of Southern Utah have spent large sums in making water ditches; in some instances as high as $13 per acre, each year. In one case a ditch, the making of which cost $50,000, was destroyed by flood.

Severe Accident.

LOGAN, Jan. 2nd.—A son of C. H. Rammell, of Providence, while coming to this place, this morning, fell from the wagon, breaking the bone of his arm, about two inches from the joint. He was taken to the office of Dr. Ormsby, where the necessary surgical assistance was rendered.

Measles are rampant among children in this place, and have caused three deaths.

The weather is fine and business lively.

RETURNED.—Elder Orson Pratt has just returned from a tour in the settlements in Tooele County. He enjoyed a splendid time. He was absent from home about ten days, during which time he preached nineteen times, to full meetings.

TOOELE CITY, May 31st, 1873.

Editor Deseret News:

Dear Brother—We have been favored with a visit from Elders Orson Pratt and J. B. Nobles. They held meetings in most of the settlements in this county. On Saturday two meetings and on Sunday three meetings were held in this place. The time was occupied by Elders Orson Pratt, J. B. Nobles and James Ure, and much valuable instruction was given to the people.

On Monday morning they, in company with Bishop Rowberry, James Ure and Thomas Lee, started for Rush Valley. They visited St. John's, Centre City and Vernon Settlement, where they held meetings.

On Thursday evening they returned to this place, when Elder Orson Pratt delivered a long and interesting lecture on ancient history, from the Bible and Book of Mormon.

Friday morning they proceeded to Pine Kanyon settlement and held one meeting, after which they repaired to Grantsville, for the purpose of holding meetings on Saturday and Sunday.

Great credit is due to Elder Pratt for his perseverance and untiring zeal in traveling around, preaching and edifying the Saints. I am safe in saying that a great many have been benefitted by the sermons and lectures delivered during the visit of himself and Elder Nobles, and I feel, in behalf of the brethren in this place, as well as in the other settlements, to extend hearty thanks to those brethren for their visit, and hope we will soon be favored with another.

MILITARY OBSERVATORY.—Lieutenant Geo. M. Wheeler, U. S. A., is in this city for the purpose of making preparations to establish a military observatory in Ogden. The Lieutenant arrived last night from Washington with instructions to that effect, and is now stopping at the Union Depot Hotel.—*Ogden Junction, June 2nd.*

"Education, Intellectual, Moral, and Physical," by Herbert Spencer. Appleton & Co., Broadway, New York.

This work, by one of England's most profound thinkers, consists of four parts—1, What Knowledge is of Most Worth? 2, Intellectual Education; 3, Moral Education; 4, Physical Education. These articles originally appeared in the Westminster, the North British, and the British Quarterly reviews, and they have been revised and published in connected form for American readers. The work presents a comprehensive exposition of the general principles of education, with a view to healthy and symmetrical culture.

This treatise on education can hardly be perused by persons of ordinary intelligence without their receiving many times the worth of the book in useful information.

OUR FATHER'S HOUSE—THE UNWRITTEN WORD.
BY DANIEL SANDS, D. D., Author of "Light Science in the Bible."
THIS Earth is one of the Mansions of OUR FATHER'S HOUSE and all the forms and forces of the physical universe are synthetic words of GOD, WRITTEN TWICE. The author, in this new volume, goes from room to room in the great house that God has built, showing us the riches and splendors stowed in every department, making the whole journey of life a happy walk of children with their Father—going out into open fields, listening to the singing birds, the whispering winds and murmuring forests; looking with ceaseless delight on green landscapes and grazing flocks, on beautiful flowers and springing grass, gazing with awe at the wonders of the mighty deep, walking beneath the shade of ancient mountains and climbing sacred heights. Wondering at the great Earth wheel turning beneath our feet, watching the stars with clouds closed in silvery darkness rolled, lightnings answered in thundering voices, and again the beautiful bows hung out on the retiring clouds.
