A resolution to change the rules so as to read "Those who did not voluntarily bear arms against the United States are entitled to membership in the G. A. R." was tabled. The jurisdiction, which yesterday was extended 12 more, today was reduced to 2 more.

General Veazy, who had been heralded as Commander-in-Chief Veazy, turning over the command to Palmer, made a speech and presented him a new flag to take to the place where the flag now in use arrived for the past 102-five years. The new commander-in-chief made an appropriate response.

The Race for the Bucket Cup.

NEWPORT, R. I., August 7.—The race for the bucket cup, presented by Captain Gallien Gerlet, was marked by the features of special interest today. In the schooner class the newly interfaced "Volunteer" was to sail in her first race. In the sloop and cutter class the new Herreshoff boat "Gloriana" was to meet two of the four boats in her class, which she had not raced with. There was a moderate southwest wind. The start was off Brenton's reef light-ship, thirteen and one-half miles to the mark boat off Block Island, beat dead to windward eighteen miles before the wind, to the mark boat off West Island, and six miles to finish. The "Katrina" did not start.

The starting gun was fired at 11:30. When the fleet left Point Judith, the "Gloriana" was ahead and gaining. At 1:40 the "Oneida," in third place, broke her topsail and gave up. The other boats turned at Block Island started in this order: "Gloriana," "Volunteer," "Grace," "Angela," "Gorgiana," "Katrina," "Mayflower," "Dayanara," "Merlina" and "Teuna." The "Gloriana" held her lead over the greater part of the course, but was passed by the "Volunteer." The winners were the "Gloriana" in the sloop and the "Volunteer" in the schooner, taking the prizes of the "Volunteer" and "Grace," growing out of a collision. Otherwise the "Dispite" was fine.

Barker's Strange Conduct.

NEW YORK, August 7.—The cases in which the injunctions were granted today show a strange conduct on the part of Barker, who failed for $4,000,000, and gives currency to the rumor that criminal proceedings may be taken against him.

It appears that Meyers & Ross, of Savannah, were in the habit of sending broker notes to be discounted. They took from notes aggregating less than $12,000, and sent bonds, notes and stocks worth $72,000 collateral. Instead of using the collateral he had the notes discounted on the strength of Meyer & Ross' credit. He informed them, it is alleged, that the collateral was pledged for discount. He, however, pledged the collateral in his own account and pocketed the proceeds. Meyer & Ross have therefore pay their notes, and in order to get back their collateral must pay also the sum secured by Barker on them.

FROM OLD ENGLAND.

The Irish Question—Some Naughty—Other Items.

LONDON, August 7.—Notwithstanding the pitiful appeal addressed to the parliamentary assembled the coming session would deal with questions already elaborated, the message of an impoverished country should have sound. Slowly know the legislative programme mentioned in the Queen's speech in November last is incomplete and unsatisfactory. Land purchase, the relief of the Irish and Scotch, the minimum have perfected an English criminal code, the existing system is best and be erroneously applied, married women, and another bill. The opposition are prepared to vote for the government measures, by carrying them without fearing that the cabinet will be thrown so strengthened as to assert defeat is appeal to the country. The tactics of the new Irish party are Balfour. In fact Irish local government bill, if it is carried, one fortune will be the existence of the Salisbury ministry. Ireland is poorly taxed, the Irish being compelled to pension actually paying taxes. The measure will test the Unionist strength in Ulster, Lord Randolph's country. The leading principles will prevent bonds created under its provisions from being controlled by the nation.

If the Irish people are to be given the same the success of the World's Fair in Chicago, its success seems sure to be assured. The Irish exhibit, composed of the English royal family are showing much interest in the progress of the preparations, indicated in the numerous letters and telegrams. The and commendations have reached London from Irish which have drifted abroad, if Bishop Ireland, at Rome at the request of the Pope, the German Emperor will indulge himself in the greatest voyage of his life in seeing America.

The Irish Land Purchase Commission just concluded in the North. Sea has been keenly watched by every government in Europe. Reports come from the ministry of agriculture showing the plans in operation for the national purchase, thus evading the initiative of the Almighty Commission. Of a total of the ministry's tenders, the evidence yielded results of immense importance. They show that the Irish tenant, in spite of the English first to realize, that new complicated instruments of war serve as the battle only. Statements of the Irish tenant, moment and price to sell to land, state only to sell. They have also proved that the Irish good sense and "Irish spirit" can be worked rapidly and successfully, protecting minimum terms of Irish tenants and fifteen inches of any comparison of a Irish tenant of a range of 200 years. Another discovery made the modified accepted lines of the value of original rents, in the Irish tenant, which, if the Irish tenant succeed in an attack on an ironclad. Instead of waiting for the legislature, the Antrim tenant West Glens. Out of twenty tenants bonds four were accepted, while the remaining five proceeding some were destroyed the seventeen tenants. Ireland's opportunity of activity over particle defense against forces made is therefore idle to be demonstrated.

Lord Salisbury, while here, conferred unceasingly with the Conservatives with a view of calling the cabinet in the Irish party. He found them seriously opposed to Parnell's retirement as a condition of reunion. Several informal meetings of the Conservatives have taken place in the Commons they will meet here in their old hours. The meeting of Dillon, O'Brien, McCarthy and Sexton to celebrate on the fifty-first anniversary of the party resulted in an agreement that Dillon should be formally invited to take the place left by the late Parliament reassembles. Meanwhile McCarthy will be the nominal chief, though Dillon will be the virtual leader.

Lord Salisbury has intimated his solicitor to pass the bankruptcy case against William O'Brien, in the light of possible reunion. Besides, Lord Salisbury, another claimant, George Bolton, to whom the jury awarded $100,000 damages in a libel suit against O'Brien years ago, has arrived in demand. It is plain the object of both suits is to disqualify O'Brien for Parliamentary duties.

Lord Salisbury started for Chateau Cyril at Dieppe today. His official visit was to send a congratulatory telegram to the Emperor of Russia. The Washington French ambassador on the preparations made for the reception of the French fleet at Portsmouth on August 21. Lord Salisbury and his colleagues will dine with the Queen on the 22nd. The Queen will inspect the French fleet and give French officers a banquet on board the Victoria and Albert, later in the evening the Queen's town hall. On the 26th the officers will go to London to visit the usual exhibition, and the same day will be feasted in the town hall. Besides this there will be a series of balls and junketings, all promising a glowing welcome to the French fleet.

The Wesleyan conference concluded its labors with the significant separation, by a large majority, of Prof. Davison, the chief of Cowley. His recent address on the inspiration of the Bible and his broad views have excited a storm among the orthodox. His election proves the strength of the broad church in English Wesleyanism. Another victory for the forward party was the appointment of a committee to try to obtain an act of parliament sustaining Wesley's deed, under which the three years ministerial term is abolished. Hitherto it has been a cardinal tenet of Wesleyan ministers, a dominant feature of the church, will cease to exist.

The tender may subside for a time, only to appear in aggravated form when opportunity offers. The great purifying powers of Hood's Sarsaparilla thoroughly eradicate every trace of poison from the blood, so the cure is as a rule permanent conclusively show. It also cures scrofula, salt rheum and all other affections arising from impure or vitiated blood.

FROM BEHRING SEA.

A British Schooner Seized by the U.S. Cruiser "Rush."

WASHINGTON, August 7.—Captain Cousins, commanding the revenue cutter "Rush," reports to the treasury department under date of Ounalaska, July 5, that on the 4th instant, while cruising north of Unimak pass with the command, for the purpose of warning vessels in pursuit of seals not to enter Behring sea, he fell in with the British schooner "C. D. Marvin," having on board contraband arms and all the implements, nets, etc., necessary for sealing. Upon examination, Captain McDougal said he was selling. Captain Cousins therefore ordered a boat and sent Lieutenant Tarbouch and Cadet Gilmore and boarding officer to examine the vessel. It was their report stated that the "Marvin" had been warned on July 1 by the U.S. cruiser "Corwin" near the island and her hatch with a copy of the President's proclamation and the necessary warning to her crew. Captain Cousins, upon receiving sea for the purpose of sealing, he that outside the marine league he that no sealing in Behring sea. Upon the report of the officer of the "Corwin" to the treasury, on his return to the "Marvin" for examination by the officers of the "Rush," the fresh indicies were found on board. The circumstances reported to the Corwin were, therefore, considered sufficient by Captain to justify the seizure of the "Marvin" and her crew, seizing papers, etc., were delivered into the custody of Lieutenant Commander Tarbouch, U. S. N., commanding the steamer "Alert," and subsequently turned over to Captain Turner, of the British ship "Grapple," which arrived at Ounalaska on the 5th inst.

AN AMERICAN VESSEL SEIZED.

Captain Hooper, commanding the revenue cutter Corwin, reports to the treasury department under date of Ounalaska, July 13, the seizure of the American schooner "La Mode," off St. Paul island, on the 4th instant, by Ensign Hamilton, for violation of the President's proclamation. This vessel was hailed by the "Corwin" on the 1st, and a certificate to her effect entered on her manifest. She had on board Behring's sea sealing implements of trading the week in a trade. "La Mode" remained there until seven days later by the "Corwin." No sealing skins were found on board. Third Lieutenant Johnson was placed in charge of the prize with a detail of four seamen, with orders to proceed to Ounalaska. The "Corwin" arrived there on the 10th inst. and will await the arrival of the "La Mode."

On July 4 the United States cruiser "Rush," "Corwin" and "Alert" and the British ships "Grapple" and "Pheasant" were cruising in Behring sea. The "Corwin" and "Alert" were at St. Paul's island on the 4th inst. Eight sealing vessels are known to be fitted out at Santa Fe harbor, Captain Hooper says there has been a great deal of fog, which makes it difficult to find the sealers, but of the boats found only one has been seized on account of the foggy windy weather.

The treasury department is informed that the revenue steamer "Bear," Captain Healy commanding, sailed from Ounalaska June 21 for Point Barrow, Alaska, and touched at the seal islands for the purpose of leaving instructions to the treasury agents to limit the catch of the Alaska Commercial company this season to 7,500 sealskins. It is believed the other companies that the company has already secured the number of skins and upon reaching has been entirely suspended for the season.

THE JEWS.

The Claims of Persecuted Brethren Will Have Second Thought.

LONDON, August 7.—A Berlin dispatch says that a second thought, nothing has been arranged between the powers of the triple alliance to cause as far as possible the flow of Jewish emigrants from Russia, and to force the Jews back into Russia. The motive is proposed to be that the Jews are an element of weakness in Russia, and that it is not desirable to have them found on other nations, especially the members of the alliance. Italy, France and Austria, in the interest of their trading, are taking steps to divert the immigrant Jews back from their borders. In Italy, both the government and the Vatican are working together for the exile, and a hundred have been compelled between the Vatican frontiers and the Austrian frontiers. The authorities have been ordered to make a rigid examination into the condition of all Jewish emigrants, and if a Jew is found in possession of a large sum, or way ticket and enough money to guarantee his passage to and acceptance in America, he is not to be allowed to land by the Genoa officials. Many have been turned back in this way, and one unfortunate added himself rather than again submit to the Russian yoke. The Italian government has expelled a number of Russian Jews from Genoa, and forced them to return to Marseilles. The Italian government has also offered hand, in relaxing the difficulties that surround the Jews who desire to leave the country. Jews who are desirous of stopping, and the Jews are no longer required to go back to where they were originally enrolled before the passage of the Russian Inter provision was a chief weapon of blackmail on the part of Russian officials, and rendered it necessary for the Jugi Jew to be the every officer whom he encountered.

False Economy

is practiced by many people, who buy inferior articles of food because cheaper than standard goods. Surely infants are entitled to the best food obtainable. It is a fact that the Gail Borden Eagle Brand Condensed Milk is the best infant food. Your grocer and druggist keep it. 82

From San Antonio.

ANS. HORSCHKA, a well known merchantaire of Indio and states at 620 Nolan street, San Antonio, Texas, will not soon forget his experience with an attack of the cramps, which he relates as follows: "I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in 20 minutes with the second dose, and before the Doctor could get to where I was, I did not need him. This remedy shall always be one of the mainstays of my family." For sale by E. C. D. L. Drug Dept. dds
