MARKET REPORTS.

NEW YORK MARKETS.

New York, July 19.—Operations in stocks did no prove all around at the opening. Sentiment was more cheerful owing to the easier money conditions abroad, the reported settlement of the Transvaal question and the withdrawal of apprehension about labor difficulties. Metropolitan, on call, also showed a gain of 1½ before any sale was made on regular to subscribe to new stock at par. The first sale at regular was 11 points under its last preceding sale. The opening advance was somewhat extended but the market then became erratically. Atchison preferred and Union Pacific were in good demand, speculative Tobacco, Louisville, Federal Steel preferred and Pressed Steel car preferred came about a point and Metropolitan sold at 130½ ex-rights and reacted 1½.

New York Air Brake dropped 17 consolidated Gas ex-rights 5 and Consolidated Gas 1½.

The market became lethargic at the reaction. The market continued in some indecisive condition until noon when advices came to the tone in the railroad bond and traction stocks. New York Air Brake rallied 8 points.

Trade news was not particularly encouraging.

There was some increase of activity and still better prices in the late trading. New York Air Brake rallied 30 points above the lowest and the local traction stocks were conspicuous. The closing was dull and firm at the top and quite exciting a point in many stocks.

MONEY AND BONDS.

New York, July 19.—Money on call easy at 2½ per cent.

REVIEW OF WOOL MARKETS.

Boston, July 19.—The American Wool and Cotton Reporter will say tomorrow: "The wool market is very active, and prices are steadily advancing. A very large business is being done, including the sales aggregating over 10,000,000 pounds, and comprising large lots of territory and fine Texas wools, which have been largely taken at advanced figures. Among the buyers have been many who have not been in the market before, and in the case of the small lots which have been offered the buyers have taken no pains to conceal their anxiety to be sure of the wool they want, and in the face of a steadily advancing market, instances are in many cases unprecedented.

"The sales of the week in Boston amounted to 3,481,000 pounds domestic and 471,000 pounds foreign, making a total of 10,952,000, against a total of 1,324,600 for the previous week and a total of 2,600,000 for the corresponding week last year. Sales since January 1, 1899, amount to 123,776,000 pounds against 61,348,000 pounds last year at this time."

A BRAIN FOOD AND REPAIRER.
Every thinker, lawyer, journalist, physician, author or student who has found under pressure of modern conditions in the writer and practitioner otherwise so difficult to sustain. Analysis of the secrets imparts not to the price shows their brain to be made up of the phosphates of potash, especially it from its active compounds, albumen, and starch, compares more lighter than the commonest implements must be introduced into the body where each day it is found exhausted the loss and repair the brain cells.
We know that the phosphate of potash, as presented in certain food grains, has an affinity for albumen and has to the only may grey matter in the brain can be built up. It will be wise to take the crude phosphates of potash of the drug shop, for nature expects it. The best and most efficient food for brain is found food Grape-Nuts from Nature's laboratory.
Food facts have been made use of in the manufacture of Grape-Nuts and any brain worker can prove the value of the proper selection of food by using for one day Grape-Nuts for one days or two weeks. Sold by grocers everywhere. Send 2c stamp for Book, "Manufactured by the Postum Cereal Co., Ltd., Battle Creek, Michigan."

ANOTHER BIG DEXTER STRIKE

News Reaches the Local Offices Today—Affects the Stock.

TWO VERY GOOD ASSAYS.

Another Vein Encountered on the 250-Foot Level; Work on the Gaines Shaft.

Yesterday afternoon no gap news of a rich strike in the Dexter came to the offices in this city. Reports received from Tuscarora, Nev., show abundant signs of free gold. An average assay yields returns of $69.70 in gold. It is said the vein is six inches wide at the point where the ore was assayed, and it is quite likely that it will be found wider at other points. The office of the report was seen in the pump, the rock took to the surface today, and it is quite likely that as the result of another strike reported today, there is the Dexter will be found to be a very rich property. The vein, it is reported, lies north and south and is about 200 feet away from the Gaines shaft, which is now down on the same level. The ores are valued as extremely jubilant owing to the strike at the local offices. With the discovery of such rich ore the modern machinery and equipment of the Dexter should be easily able to put its mine indefinitely and work up a dividends in the near future.

Daily Gifts.

Reports were out a few days ago that the Daily Bill property was likely to be sold to Capt. De La Mar for $75,000. When seen today in reference to this matter Mr. H. A. Cohen, who occupies the position of consulting engineer on Capt. De La Mar's properties that the Daily Bill was sold, but the purchase price was $25,000. This mine is located in Copper City, Calif., and, and people, who claim to know, say it is one of De La Mar's best purchases.

The Gaines King.

Work is progressing very nicely on the Gaines King, and Mr. H. C. Dunnell today: "The shaft is now down 40 feet below the 400-foot level and work is to be being pushed as rapidly as possible to the 500-foot level. Two shifts are being worked, one by day and the other shift is working the night. There is a quantity of good milling ore in sight now, and the management is to be hurry about getting out the ores. Just now water is needed, and it is thought that before the 750-foot level is reached a good supply of water will be found, and at the same time, from that level a good amount of hoisting ground will be given. It is not likely, it is said, that much stoping will be undertaken the 400-foot level for some time to come.

Water and Ore.

The extent of the strike in the Silver Shield of Bingham cannot be determined at the present time, but the men have been running a crosscut down from the tunnel. It was here that the ore was encountered. At the same time a strong flow of water was struck, which entered so rapidly that little could be learned regarding the value of the strike. A pump and sufficient piping have yesterday purchased and will be in the property. The water will delay operations at the mine about a week.

The Blue Rock Mine.

Special Correspondence.

Logan, July 15.—Mr. N. M. Hansen and Son of this city, who own the Blue Rock Mine, which is located in Logan canon, have decided to do fifty feet of development work on the claim and this morning contracted for the work to Messrs. Wm. Andersen and John Broderick.

MINES AND MINING NEWS.

The Four Aces sold ten cars of ore on the market today.

Mr. H. A. Cohen of De La Mar's engineer force, is in town.

The Keats and Blue Bell has a car of ore on the market today.

The Comstock sampler reported ten cars of ore from Tooele today.

A strike of high grade galena is reported at the Blue Bird, Bingham.

The fancy group of four claims northeast of Park City has been surveyed for patent.

The Taylor-Bennett Sampler reported of three cars from Tooele today and one from Nevada.

A lady of an interesting good vision to other gold bed has been encountered in the Kremlin.

The Mercur reported at the Rubicon today with 2 boxes of Camelot, weighing between 200 and 400 pounds.

The 100 on the De La Mar property at Bingham is being put down at the rate of 25 feet a day. It is now down 85 feet.

Some very good mining ore is reported to have been thrown in the Ontario of late, also in the Dexter Bingham country.

Very good indications are reported from the Copperopolis or Willard Dist. north of Ophir, which is being worked by T. C. Chamberlain.

Dugal Valley Times: Capt. Eddy, a mining engineer of Chicago, who has been spending some days mining interests in the Dugal Valley, visited the mines of this district.

E. J. Deane is now 2 months of the Salt Lake Stock Exchange, having succeeded Mr. Frank Dickson. Mr. Deane is a L. Adams Jr. is in San Diego, Mr. Gosse.

The incorporation of a company to develop the Pandora and Nevada mines in the Northern Utah, will be consummated in the course of the next few days, and the work will be pushed. Work will at the head of the company.

Suit has been instituted in the District court by the Barnum Mining company against the Ontario Mining company to the Pandora and Nevada-Ontario mine in West Mountain mining district.

Denver News: Contracts were closed at a Denver office last week for a 100-ton concentrating mill for the Colorado Milling and Concentrating company, Ouray, and for a stamp mill for the Nevada Gold Mining Reduction Mining company, North Moab.

Washington County News: Five more teams left last week, bringing the week's total to about 20, for the Silver Mountain mine. The extreme depth to operating work at the mine, or the cottage, is now 300 feet, and the water are over up and water has to be hauled some distance.

LOCAL MARKETS.

CUCUMBERS ..... per doz. .40

FROM O. R. & N. TO R. & G.

Report that A. D. Rolder will Transfer in the Freebooters.

New York, July 20.—A report is current that A. D. Rolder, vice president of the Oregon Railway & Navigation company, has secured the presidency of the Chesapeake & Ohio and Big Four railroad companies, succeeding H. E. Huntington. There was a rumor a few days ago that Mr. Rolder would resign the presidency of the Oregon Railway & Navigation company, and it was thought that he was about to take the presidency of the Chesapeake & Ohio and the Big Four to be vacated by Huntington. The Southern Pacific Railroad company and the Texas, Arkansas and Oregon systems of railroads, which are controlled by Mr. Rolder, are reported to be in good condition. The story, it is said, has not appeared in the Oregon Railway & Navigation company, and it is thought that the rumor is a mere report. As to Mr. Rolder's reported change of business connections Mr. L. Rolder, trading director eighty Oregon Railway & Navigation company, said:

"I have received telegrams today from Mr. Rolder at Portland, Ore., and in none of them has he said anything about an intended change from the presidency of our company. In addition to our business relations Mr. Rolder is a close personal friend of mine, and I think he would not take such a step without letting me know about it. I do not believe the report to be true."

Three Brokers Expected.

Los Angeles, July 19.—The decision which was handed down in Judge Shaw in the Superior court have led considerable attention, in which to wager, at the Southern Pacific and Southern California railroad companies' auction sale, a respectful interest exists among the ticket sellers of the city, will be continued by the auctions, based by the Associate Ticket Brokers association.

"The ticket brokers' attorneys have advised today that the case will be taken to the Supreme court of the United States. The ticket brokers are the members of the Associated Ticket Brokers association, and are interested in the competition. A long battle is in sight over the matter."

SPECIALISTS FAILED.

Mrs. C. A. Merrill, of Chetopa, Kans., suffered from a peculiar nervous trouble which baffled the skill of leading specialists. She says: "I cannot say enough in praise of Dr. Miles' Nervine. I suffered agonizing pain in left side of my head and I thought it would drive me insane. Specialists in Cincinnati and Kansas City treated me without benefit. Then I began taking Dr. Miles' Nervine and obtained prompt relief, and finally a permanent cure."

Dr. Miles' Nervine
