DESERET EVENING NEWS.
Wednesday, June 24, 1896.

CARNIVAL OFFICERS.

Ten Men Authorized by the City Council.

PROVISION INSPECTOR WANTS PAY

Frank Harrigan's Check Will Not Be Returned—No Fireworks Inside the Fire Limits.

The Council last night empowered the fire and police board to employ ten extra policemen for the Carnival. A resolution was also passed prohibiting the use of fireworks in the fire limits until after the decorations are taken down. Frank Harrigan was refused the return of his $50 check on the sewer farm contract. The session was short and not over interesting except for a tilt between Romney and Mulvey on the liquor question, while the matter of extra Carnival police was under consideration. Mr. Romney complained the cause of temperance, saying that some drunken men caused more trouble than one hundred sober ones. Mulvey averred that if all saloons were closed up there would be no need of police.

M'ALLISTER WANTS PAY.

John G. McAllister, in a communication to the Council, stated that the city auditor had issued the payment to him of $492.75 which would be due him as salary on July 1st. He also said he was appointed inspector of provisions on October 6, 1894, for two years, and that he was willing to continue to such service. The city auditor refuses to pay the amount above referred to on the ground that the office of inspector of provisions had been abolished by the election February 3, 1896. Mr. McAllister called attention to the decision of the Supreme court, in the case of Kendall vs the city and co., held that the office of inspector of provisions was created by the State law and that the appointee would hold his office for a period of two years from the date of his appointment and could not be removed by the Council except for cause. He therefore asked that the amount due him be appropriated. The matter was referred to the committee on municipal laws.

TEN EXTRA POLICE.

The fire and police boards asked the privilege of putting on extra policemen during the Carnival and during the fall election.

On motion of LeProhon the board was authorized to employ not to exceed ten extra officers during the carnival, at $3 per day each.

WILL KEEP HARRIGAN'S CHECK.

The board of public works recommended that the request of Frank Harrigan for the return of his $50 check, forfeited on account of his referral to sign the sewer farm contract, be not granted. The board stated that the amount was barely sufficient to pay the cost of advertising, etc., preliminary to the reception of bids. The report was adopted by a vote of 8 to 3.

NO FIREWORKS.

A resolution of O'Meara instructed the chief of police to prohibit the discharge of fireworks within the fire limits until after the Carnival decorations are taken down. It was accepted.

TO DECORATE.

Gov. Wells and others requested the Council to appropriate $200 to assist in the decoration of the city during the Carnival. Referred to the finance committee.

MISCELLANEOUS.

The streets and irrigation committees recommended the cleaning out of the ditches on Third south between East Temple and First West streets, and on Seventh south, between East Temple and West Temple streets. Adopted.

Several petitions for hall stand privileges during the Carnival were granted.

The Salt Lake and Ogden Gas and Electric Light company stated that it was prepared to furnish material, etc for the carnival. The communication was referred to the sanitary committee.

Le Prohon, of the committee on decoration of the joint meeting, reported that the expense would be $5.00 and recommended the appropriation of that too amount by the city. The Council, however, a joined before action on the report was taken.

SILVER MEN WILL CONTROL.

Judge Powers's Prediction Concerning the Democratic Convention at Chicago.

Judge Powers, chairman of the Democratic State committee, will leave for Chicago on Sunday morning next for the purpose of meeting with the silver leaders of his party and assisting them in the organization that is proposed for convention work.

The silver men expect one of the greatest contests in the history of American politics. They realize the influence and strength of their single standard adversaries. Backed by the administration and money power of the country their foes will be formidable. A tremendous rush is as certain as the cause of the silver men is lost. Realizing this the latter have been summoned by their leaders to their council chambers to the Sherman house of Chicago on the 30 is just where they will outline the plan of battle and prepare for the onslaught.

Speaking of the outlook last evening Judge Powers in answer to questions propounded by a NEWS man said, "Yes, the silver men will win the fight. It will be a hard and perhaps very bitter contest but victory is already assured. Silver will have to lay down 100 new silver out of the 901, giving a majority of 169 or thereabouts. There is no doubt of this. It is the people's fight and when the people are thoroughly aroused they win."

The regular Utah delegation will leave Salt Lake to all probability on the morning of July 3; the combined with the California, Nevada, Idaho and Montana delegations at Ogden which will be further augmented en route by the delegations from Wyoming and Nebraska.

POLITICAL CROW CHOW.

St. Louis Post Dispatch: Two first gun for silver—Cannon.

The yellow coin delegates at the St. Louis convention outnumbered their white metal colleagues about 16 to 1. The post-election ratio will not be so large in the case of November.

Thurston or Thorsson, the eloquent chairman of the Republican national convention, is a descendant of the old Scandinavian Vikings.

The war cry of the silver men—"Union there is strength."

At Chicago—Boies, Bland, Blackburn, or Which?

The Montana delegates who will be met by their Democratic brethren from Utah at Ogden are said to be well supplied with silver. They will travel in splendid style.

COLONEL ADDO.
