Wired From Washington.

WASHINGTON, 21.—Secretary Folger returned to Washington this morning. He has returned very much improved in health.

The fence question in the Indian Territory will not be decided until after the Cherokees have an opportunity to consult. A promise to this effect was made to Bushyhead, Chief of the Cherokee nation, by the Commissioner of the General Land Office, this afternoon.

The question was submitted to the Director as to whether an officer of the Mint could legally accept the office of Mayor of the city. The Director replied that under executive orders issued in 1873, the acceptance of such office would vacate his Federal office.

The Treasury Department has under consideration a proposition to have a series of gold certificates issued from the sub treasury at Chicago, distinctive from the New York and Washington issues.

Mr. Armstrong, Commissioner of Pacific Railroad accounts, will make an inspection of the Southern Pacific Railroad this summer. He will especially investigate the charge that the traffic of the Central Pacific railroad is being diverted to the Southern Pacific. He does not believe, however, that the charge is true. He will probably leave here in June.

The *National Republican*, in commenting on the cases which came before the Supreme Court on Monday involving the validity of certain anti-Chinese ordinances of the city of San Francisco, says: For years the struggle has been going on in California, and more especially in San Francisco between the treaty rights of the Chinese and the local law of the State and its chartered municipality. The city of San Francisco has imposed conditions which are equally applicable to all, but which are pretty sure to operate as to exclude the Chinese laundries from the city. The requirement is that a license shall be had and that no license shall issue until the health commissioners certify that the premises have thorough sewerage and drainage; until the fire commissioner swears that the danger from fire is properly guarded against, and until the board of supervisors shall vote its consent.

The people there will contrive many ways to rid themselves of the unwholesome element in whose welfare so many of their Eastern fellow-citizens feel so deep an interest. The new anti-Chinese ordinance in San Francisco is fair on its face. To say that it is anti-Chinese is to assume a knowledge of the mental operations of the framers. Can the Supreme Court become a mind reader, and undertake to decide that discrimination is intended, where none is expressed?

The Supreme Court of the United States dismissed with costs on motion of counsel for appellants, the following well known California cases: J. C. Flood, et al., appellants, vs. John H. Burke; J. W. Mackey and J. G. Fair, appellants, vs. John H. Burke; J. C. Flood, et al., appellants, vs. John H. Burke, and J. W. Mackey and J. G. Fair, appellants, vs. John H. Burke.

Death and Disaster.

CHICAGO, 21.—Reports from the central portion of the State indicate that the cold snap has caused damage to early sown wheat, and seriously afflicted the peach crop prospects.

Pottsville, 21.—The caving of the old breast in the Stanton Mahoney plant caused a rush of black damp, which overcame nine miners and two driver boys. The victims were taken out unconscious; all may recover.

Quebec, 21.—The North Shore railroad train which left Montreal Monday afternoon, arrived this morning. Snow is packed on the track five feet deep.

Halifax, N. S., 21.—The thaw of the past few days was followed by a severe rain storm. The river overflowed, bridges are swept away; low lands flooded; much property was destroyed, and railway connection interrupted.

The Medway is overflowed. The ice carried away the main bridge; also the booms and piers. Other rivers are overflowed. Great damage is apprehended.

Peoria, Ill., 21.—This afternoon a rope sustaining a swinging scaffold on which were three men, broke. Jacob Wattenschwiler was killed and Joseph Vall fatally hurt.

Clinton, Iowa, 21.—Eugene Gear, nephew of ex-Governor Gear, and a sister, were crossing a creek on the ice at Gordon's ferry. The ice broke, the girl was saved, the young man drowned.

Halifax, 21.—The greatest freshet on the Cornwallis river known for years. The Windsor and Annapolis Railway is submerged and badly washed for two miles. Half a mile of track at Wisell's is three feet and a half under water; Munro Marsh, a mile and a half long, nearly as much. The railroad track in some places is floating. All trains between Windsor and Annapolis are cancelled. Oxford, Cumberland County, reports the greatest freshet ever known. Three bridges across the river Philip, one at the head of tide water, one at Oxford, and another on the road to the station, are all carried away. The ice jam caused the back-water to flood the houses six inches to three feet deep. Some families removed in canoes and rafts. A number of small bridges are gone. Communication is completely cut off in every direction. The damage done to mills and bridges up the river must be very great, as a large amount of debris is floating down the river. A Truro telegram says the ice in Salmon river and Napper Brook broke last night, and made a tremendous freshet. Salmon river bridge is in danger of being swept away. The railway yard is flooded. The upper end of Ward Three, town of Truro, is submerged; still raining heavily; river rising.

Scranton, Pa., 21.—To save the Bear Mountain and Moosic Mountain veins from the Oulas Bank fire, it is estimated that 300,000 cubic yards of material will have to be removed.

The session of the Bessemer Steel Works, Cleveland, was not as bad as reported. Pat R. Toby and Thos. Ruddy, men badly injured by the molten metal, are still alive and may recover; three of the others are certainly injured.

Newark, N. J., 21.—The goods packed in the Mutual Union Express Company's office, in this city, yesterday, were stolen last night.

Middleton, N. Y., 21.—Casper Liebman shot himself last evening at a hotel here. Been turned on the gas. The suicide was discovered before he suffocated. He was to be married to-day. The bride expectant first learned of the affair from a messenger sent for a bouquet of flowers. Liebman made an unsuccessful attempt yesterday to negotiate a note. The pistol shot is thought fatal.

Jackson, Mich., 21.—The liabilities of the failed firm of Camp, Morrall & Co., are $65,000; assets nominally the same. An inventory is being taken.

The Catalogue of Crime.

OZARK, Ark, 21.—The Johnson brothers, two of the Little Rock & Fort Smith train robbers are jailed. They confessed the crime. George Johnson said the party was organized at Mrs. Harme's, but the plan was not entirely completed then, but it was the understanding that the train on the Little Rock & Fort Smith railroad was to be captured and robbed, and adjourned to meet at Mulberry, where the plan of operations was formed in the woods near the city. Their intention was not to kill anyone, except in self-defence, and avoid bloodshed unless absolutely necessary. The shooting was done under excitement, and was entirely unnecessary. Jim Herndon, who was captured this morning near Huntsville, Madison county, fired the shot that killed conductor Caine. Herndon went to McDonald, one of the gang, to stop the shooting, but McDonald shot at him, supposing he was a passenger, when Jim shot McDonald in the face. The original plan was to capture Caine and rob the passengers. Johnson is an ex-Federal soldier, and now drawing a government pension.

St. Paul, 21.—Two brothers named Field, cashier and paying teller respectively of the Second National Bank of this city, were discharged from the bank to-day. It appears they have been carrying on a system of stealing from the bank's funds. Thus far $15,000 is missing. It is not yet determined what action will be taken. The bank officers are fierce against the men.

Cincinnati, 21.—Wm. Stewart, clerk in the postoffice, is arrested on a charge of purloining some letters. It is said proof of guilt was found on him.

Uniontown, Pa., 21.—To-night Superintendent Keithley of Youngstown, Coke county, shot and killed John Kane, a Molly Maguire. The miners are on a strike and are very ugly. Great fears of an outbreak are entertained; excitement high.

Springfield, Mass., 21.—Edriet Blake of Bloomington, Ill., agent of the Bloomington Railroad Company, is arrested on a charge of embezzlement.

Calais, Me., 21.—Herbert Eaton, sitting in a livery stable, engaged in ordinary conversation, suddenly drew a pistol and shot his brother Joseph and Samuel Kelly, Jr. Joseph is not dangerously injured; Kelly's recovery is doubtful, Eaton fled to the woods seven miles from here, and threatens to resist arrest.

San Francisco, 21.—Thomas C. Vanness, ex-Commissioner of Immigration under Governor Irwin, was arrested to-day on the charge of embezzling $14,000 during his term of office. Vanness says there is nothing in the charge, which is based on a technicality. It is understood other arrests of officials will follow.

W. H. Crane, register of the Susanville Land Office and formerly State senator from Lassen County, is brought here under arrest by the United States marshal, charged with uttering forged receipts from settlers and appropriating the public moneys to his own uses. Crane says he can satisfactorily explain the charges.

Montreal, 21.—T. H. Hodgson is arrested at the suit of the Bank of Montreal for $118,000.

Galt, Ont., 21.—John Getty of this town was tarred, feathers and ridden on a rail for alleged cruelty to his wife during confinement, shortly after which she died. Getty was subsequently arrested on a warrant which charged him with the murder of his wife, and he is now in jail at Berlin.

Newport, R. I., 21.—The Supreme Court this morning sentenced Katie A. Judd, house burner, to 22 years.

New Orleans, 21.—In the Wainwright, Glaxiar and Short election fraud cases, the prosecution obtained a list of dead men whose names appeared on the poll list as voters.

Boston, 21.—The will of Albert Goodyear, who left a number of outside bequests, was suppressed six years by the widow who has just died. The will was discovered among Mrs. Goodyear's effects by her son Alfed, who is named as executor, and who with his mother was left half the residue of his father's property. The statutes provide a fine and imprisonment for an executor for the offense. It is stated Mrs. Goodyear said to Alfred the will was a matter between themselves. Other heirs will make a determined fight.

Washington, 21.—In the Star route trials to-day, Judge Wylie decided that the question might be asked whether or not Brady had given the Price drafts to Walsh.

Exception was noted, and Gen. Brady then took the stand.

The Oceanic Canal.

NEW YORK, 21.—Whether the Panama or Nicaragua canal reaches completion, the grain trade of the Pacific States will evidently be a great gainer, and will show an instant and enormous increase. The Pacific States sent between one and two million tons of cereals to Europe, the annual export somewhat varying with the crop and the demand. It is carried around Cape Horn in sailing ships, a distance of between 13,000 and 14,000 miles. This route will be halved by the Isthmus transit. In other words the time will be shortened by half, wages and maintenance of crew by half, and risks by half. Even with the added canal tolls, the transportation of the grain must cost from a half to a third less than now. This must mean a saving of many millions a year the Pacific States. By the time either canal is finished at the present rate in the increase of grain exports it will probably mean the saving of scores of millions. Yet this is only one item in the prospective gain of an Isthmian oceanic canal.

FOREIGN.

Parliament Prorogued.

LONDON, 21.—$110,000 were withdrawn from the Bank of England on day for shipment to New York.

The Queen is still confined to Winsor Castle by her swollen knee caused by her fall on Saturday. Her journey to Osborne is postponed. Her general health is good.

The Queen continues to transact official business as usual; she gave an audience to Gladstone yesterday.

The police are in possession of a clue to the explosion in the office of the local Government Board. A woman observed and fully described the appearance of a man apparently placing an infernal machine against the building. It is expected he will be arrested.

Liverpool, 21.—The Exchange here will be closed from Friday to Monday, inclusive.

Belfast, 21.—In the case of Nugent and 12 of the men of the Armagh Assassination Society, crown counsel is unable to prove that the society was established by a man named Burns, coming from America for the purpose, and that after Burn's departure Nugent became a director of the society.

Failing!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is BROWN'S IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why BROWN'S IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

Mr. Simon Blanchard, a well-known citizen of Hayesville, Meade county, Kentucky, says: "My wife had been sick for a long time, and her constitution was all broken down and she was unable to work. She was advised to use Brown's Iron Bitters, and found it to work like a charm. We would not now be without it for any consideration, as we consider it the best tonic in the world."

BROWN'S IRON BITTERS is *not* a drink and does not contain whiskey. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.
