THE EVENING NEWS.

Wednesday, - - - July 19, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, July 19, 1871.

Buying at $1.00; Selling at $1.12.

WEATHER ITEM.—The highest point reached by the thermometer to-day was 96.

THEATRE.—"The Idiot Witness" will be the first piece presented this evening, which will be followed by "the Fairy Fountain," in which is introduced Professor Sylvester's beautiful mechanical effect, consisting of a lovely fountain of real water of changing and varied hues.

AT LOGAN.—The following was received yesterday afternoon by Deseret Telegraph:

LOGAN, July 18.

G. Q. Cannon:—Presidents B. Young and Smith held meeting on Sunday at Paris.

It is three weeks yesterday since we were deprived of communication, except by mail, which is very uncertain, and we are extremely gratified to have a speedy and safe method of exchanging thoughts and ideas, once more, with our friends. Long live the telegraph, and may it speedily form a complete network, connecting with all of our settlements.

B. YOUNG, JR.

SALT LAKE CITY, July 19th 1871.

Editor Deseret News:—Dear Sir.—Not being present at the death of my wife, on the 12th inst., at Soda Springs, I desire, through your valuable paper, to express my heartfelt thanks to those who stepped forward to assist my children in my absence, and especially to President Young for his devoted attention; no language can express my feelings for their kindness; also to those who kindly sympathized and assisted on the arrival and at the final interment of my beloved companion. May God ever bless them, and raise up friends to them in the hour of need.

Your Brother, S. B. ROSS.

PERIODICALS.—We have received, from Mr. James Dwyer, Harper's Bazar and Harper's Weekly for Saturday the 22nd. Dwyer always keeps up with the times, being able to supply the public, with every variety of newspapers, periodicals, &c., at the earliest possible moment after they leave the press.

EXCURSION TO OGDEN.—Monday, the Twenty-fourth, the anniversary of the entering this valley by the Pioneers will be celebrated in Ogden in fine style, and as we believe there will be no particular demonstration here, other than the observance of the day as a holiday, it is not unlikely that a large number will avail themselves of the opportunity offered by the Utah Central of having a cheap ride to Ogden and back. The company on that day will run an excursion train to that point and return, charging the moderate sum of $1.50 for the trip. The preparations for the celebration of the memorable day, we understand, are ample, and the indications are that the demonstration will be worthy the important occasion.

All who intend to go must purchase their tickets by Saturday evening. They may be obtained at Calder's Music Store, and the Utah Central Depot. For the convenience and comfort of visitors the authorities of Ogden are having a bowery erected on the Square, which will be sufficiently ample for the accommodation of all.

PETER VAN SCHAACK Esq., Senior member of the firm of Van Schaack, Stevenson & Ried, wholesale dealers in drugs, oils, perfumes &c., is in our city, where he will stay a few days. We trust business relations will be most satisfactory, especially since we know he was not afraid to stand manfully in our defense during the Cullom bill excitement.

RED CLOUD.—The Cheyenne *Leader* of the 14th says that the commanding officer at Fort Laramie had telegraphed to General King, commanding Fort D. A. Russel, at Cheyenne, that Red Cloud was up in arms again, and requesting the latter commander to have all his troops ready at a moment's notice to march at once to the aid of the whites in the vicinity of Laramie.

AUSTRALIAN MISSION.—We have been permitted to peruse a letter, to President Young, from Elder Robert Beauchamp, written at Sydney, New South Wales, on the 30th of May; from which we learn that the gospel was spreading in that far-off region, over one hundred new members having been added to the Church since Brother Beauchamp landed there on his mission. Besides these additions being made much prejudice had been removed from the minds of many people relative to the Latter-day Saints; the gospel had been introduced in five different colonies through the labors of Elder R., and he had organized a number of branches and Conferences. Some of the latter were very distant from each other, being from one hundred to one thousand three hundred miles apart. Brother B. is of opinion that a few good preachers could do an excellent work there.

The number of those emigrating to Utah this season was much smaller than at first anticipated, many having been disappointed in not being able to dispose of their property and effects.

Accompanying the letter was the report of a Conference held at Sydney on the 21st of May, the reports at which showed that matters in the various conferences represented were generally in a progressive condition.

NEWS FROM ST. GEORGE.—"Athole" writes from St. George, under date of the 6th inst., as follows: "This afternoon President Snow and Bro. John M. McFarlane started on a preaching and business tour throughout the settlements on the Rio Virgen and Sevier, and expect to visit the different settlements of Beaver and Iron Counties on their return. President Joseph W. Young is now at Long Valley and will accompany President Snow from that place on the tour.

Our City Fathers are waking up to the great necessity of bringing more water into the valley in which our beautiful city stands, and, with this object in view, have appointed a committee of four to examine and report as to the feasibility of bringing, by a large canal, a goodly portion of the Rio Virgen into this valley. If this is practicable every foot of this valley will be converted into a garden spot, and facilities will be opened up which will warrant the increase of population in this city to ten or twelve times its present number, thus adding to the strength of "our Dixie" and rendering the acquirement of comfort and competence easier than it has heretofore been in this county. Our numbers are at present comparatively insufficient to accomplish all the enterprises that would benefit and bless this portion of the Territory, but with the prospects we now have and the coming influx of population, we will, in time, show the world such an example of perseverance, energy and good works as can be seen only among live Mormons.

The wheat harvest is about over, and the threshing machines are busily engaged every day discoursing practical music.

Our prospect for an abundance of fruit is still good.

The health of the people, both old and young, is excellent, considering the great heat they have now to endure while attending their labors in the fields and gardens."

CALLED.—We were gratified at receiving a visit yesterday from J. E. Halsey, Esq., of the firm of Day & Halsey, New York, wholesale dealers in hardware, cutlery, guns, railway, steamboat and machinists' supplies. The house represented by Mr. Halsey is a first class one. He will be in town for a few days, and we can confidently recommend him to the business men of the city.

CROPS.—Crops never looked more promising than they do at the present time throughout Davis and Weber counties.—It was thought on account of the scarcity of snow in the mountains the crops would be very poor the present season. This, we are happy to say, is not the case, as in those counties some of the land is expected to yield sixty bushels of wheat to the acre, while a great many pieces of meadow will yield three tons to the acre. It is thought by persons of good judgment, that, with proper economy, there will be enough produced in these two counties alone to sustain the inhabitants of the Territory one year. One farmer at Bountiful, within ten miles of the city, is raising twenty thousand cabbages, which look very promising; we scarcely need add to those who are acquainted with our successful fellow-citizen, Wm. S. Muir, that he is that farmer.

NEW REFORM.—The introduction of Soda Water and Sarsaparilla, by Day & Co., has done more in the way of a Temperance Reform than all the lectures that have been delivered in the country. The natural condition of man is a thirsty one, and it has long been an established fact that water will not quench thirst. The question then arises, can we find a substitute as harmless in its effects and more delicious in taste than anything yet discovered? We find it in Day & Co.'s Soda and Sarsparilla. If every one would sign the Pledge and drink nothing but this Celebrated Beverage, much degradation, misery, shame and crime would be prevented in the world. If any one doubts the truth of our remarks let them step into the first place they come to and try it. It will vouch for itself. em 170 1f
