LOCAL AND OTHER MATTERS.

THEATRE.—That beautiful drama, "A Child in the Hand is Worth Two in the Bush," so well received by the theatre-goers when last played here, is billed for Saturday evening, and it, with the roaring farce of the "Two Bonnycastles" and a dance by Mr. M. Williams, should draw together a full house.

CANTATA.—In "Isabella of Spain," published on Tuesday evening, in the sixth line, instead of "highest attitude" read "highest altitude."

THE SECOND CONCERT, given at the theatre last night, was not numerously attended; but everything went off with a vim and a dash that seemed to please all present. The encores were frequent, and the applause long and loud.

THOSE BEES.—The parties who ordered bees by Bro. W. D. Roberts, and who desire to get them soon, are notified that he will be ready to deliver them on Friday the 10th instant, on the premises of Bro. E. R. Tripp, 18th Ward. Those not wishing to get them then he will accommodate on the 19th of April.

A PUBLIC LIBRARY, LECTURE AND READING ROOMS.—A movement has been started by several gentlemen in this city for the formation of a public library and reading room, to which a lecture room, could be attached, in which free lectures could be given. The following minutes of a meeting for the furtherance of the project, held yesterday at Morgan's Commercial College, have been handed in for publication:

The meeting had for its object the establishment of a Library and Lecture Association and Reading Room, for the benefit of the public of Salt Lake City. Mr. A. F. Farr was called to the chair, and Mr. Culmer was appointed Secretary *pro tem.*

Messrs. G. Wallace, D. C. Babbitt, R. Barton and Rose were selected as a committee to draft resolutions, and submitted the following:

Whereas, the want of a library suitable for the use of both sexes is widely felt; and private means is not generally sufficient to supply it; and,

Whereas, the fact is apparent that many of the youth of our city are to-day being led away by the evil influences by which they are surrounded; and,

Whereas, in the opinion of your committee one of the best means to gain an influence over the minds of the young and rising generation is through the medium of literature.

Therefore, it is resolved that an earnest appeal be made to every one who has the welfare of our youth at heart, to aid in this praiseworthy enterprise.

Resolved, that the Church publications, the History of the Latter-day Saints and any information of the latter day work is especially desirable; and that in connection with the Library, there shall be a Reading Room, where all the latest daily papers and general literature can be found on file, and also that a lecture Association, holding its meetings weekly, will be organized.

The payment of $5 will secure the privilege of the use of the Library, and a free ticket to the Reading Rooms for twelve months. A central location being necessary for such an institution, suitable rooms for Library and Reading Rooms, with the normal departments for Lecture rooms, have been secured at Morgan's Commercial College.

The following managing committee was appointed by the meeting: J. S. Lewis, W. H. Homer, I. K. Wright, G. R. Wallace, A. F. Farr.

Hon. Wilford Woodruff has kindly consented to deliver the opening lecture of the series of Free Lectures, under the auspices of the Association, at 7 p.m., on Monday, March 6th, 1871, at Morgan's College. Subject: Libraries and Reading Rooms, their uses and benefits.

We think the project is praiseworthy, and deserving of support and success. A good, easily accessible library in a community does much to cultivate a taste for reading and literary pursuits; and where these latter exists, especially among young people, there is far less probability of vicious and sinful pleasures being indulged than where such tastes do not exist. But a free library, even, good as it may be, in and of itself, might be productive of more evil than good, if it contained a large supply of the class of books, which young people as a general thing are eager to obtain, written merely to amuse and while away the passing hour. Such books never have a good effect on the undeveloped faculties of young minds; but just the contrary, for if the appetite for such reading be fed without stint it renders the mind incapable of thought or study. Hence if the project for the establishment of a free library in this city, or one to which access may be had on the payment of a trifling sum yearly, be successful, we trust that the selection of books for the same will be entrusted to careful, competent men, who comprehend the good arising from judicious reading, as well as the evil which results from the course pursued by the indiscriminate book devourer.

GOLD.—The following telegram was received last evening, about 7:30 o'clock, per Deseret Telegraph Line:

"OGDEN, March, 1.

Gold has been discovered here, to-day, in the rear of Marshal Fife's lot, on the bench. Several pieces, from dust to the size of a pin's head, and larger—or to three or four pin's heads—have been washed out. Full particulars to-morrow."

The following additional particulars were received this morning:

"Ogden 2nd.

The inhabitants of this town have been thrown into a state of great excitement by the discovery of rich surface gold diggings, one mile from the Ogden depot. Claims are being rapidly taken up. Large numbers of inhabitants are on the spot, and the excitement is on the increase."

ALDERMAN'S COURT.—H. Taylor was arrested, yesterday, on a charge of establishing a gambling house, and brought before Alderman Clinton who fined him $100.

DIVIDE IRON.—The following dispatch was received this morning, per the agent Telegraph line, by President Geo. A. Smith:

ST. GEORGE, March 1st, 1871.

Pres. Geo. A. Smith:—I received, last night, a specimen of soft gray iron, from the Pinto Iron Works, suitable for foundry use. Success to the enterprise! The last of the Muddy settlers are here on their way to Long Valley. I am bedfast with rheumatism.

ERASTUS SNOW.

GOING EAST.—Bro. Wm. C. Rydalch, who is going East under the auspices of the Deseret Parent Society for the Improvement and Cultivation of Stock, Bees, &c., to purchase stock, takes his departure from the city to-morrow afternoon or Saturday morning. He expects to return here with his purchases, if he should be successful, by next Conference. Persons or Branch Societies who wish to obtain good stock will find this an excellent opportunity to send for what they want. Orders and money can be sent to Bro. Wilford Woodruff, President of the Society, who will take the necessary steps to forward them to Bro. Rydalch.

FIRST-CLASS FLANNEL.—Brother Alfred Randall, of the Excelsior mills, Ogden, called a day or two since with two bolts of flannel,—red and magenta, manufactured at those mills, which, for fineness of texture and quality, were superior to the average imported article. We think the excelsior mills have reason to be proud of their work, and the Territory, of the mill and the workmen. It is a good day dawning for Utah when her markets can be supported with fabrics of such excellent quality of home manufacture. If progress in this branch of industry be as great in Utah for the next few years as it has been for the past few, and there is every reason to believe that it will be greater, goods of Utah manufacture will command a premium in the markets of the country.
