FEELING IN PARK CITY.

It is One of Hope and Encouragement for the Future.

PROSPECTIVE DEAL IN A GOLD MINE.

Today's Business in Mining Stocks—New Ruling Stings—North Mountain Clean-Up.

That there is a much better feeling in Park City than there was several months ago, is testified to by Mr. A. L. Morris, who, in company with John J. McAuliffe of Duluth, Minn., yesterday visited the camp on a matter of business, which, before long, may develop into a mining deal of no mean significance.

Mr. Morris states that things are picking up there on account of the running of the Marsac mill and the contemplated improvements at the Silver King and other properties. That the Silver King mill is a certainty is the word received from Foreman Daly of the property, who stated to the visitors that he had been positively assured of its being pushed through without any unnecessary delay or interruption. Encouraging developments in the Valeo and other mines was also having its effect, and there was a feeling lurking in the breasts of many that before long the white metal would be recognized, to an extent at least, that would cause the mine owners to order a resumption of operations, if not thoroughly, on a scale that would give many of the old hands employment and put them in a position to better provide for those depended upon them.

The prime object of the visit of Messrs. Morris and McAuliffe, was to look into a property with a view to its purchase by the Foley Investment company which the latter gentleman represents. The ground inspected was the Fooling group, a distance of three-fourths of a mile from the camp proper. This group is a good proposition, and has been worked to some extent, there being about 700 feet of development done in tunnels, drifts, etc. Mr. Morris expected the mine and had a sample of the ore assayed. To his surprise and that of his companion, it went $22.80 to the ton, this being a gold value of ore taken from a winze sunk from a tunnel. The mine is of a quartzite and porphyritic formation and looks so well that a deal is highly probable.

Mr. McAuliffe, who is out here looking up mining investments, has gone north, and will return in a week or so. He and Mr. Morris enjoyed the trip to the Park very much, and the latter says that over the divide the creek was literally lined with fishermen, who were taking advantage of the open season, in a hunt for fine mountain trout.

TODAY'S BUSINESS IN STOCKS.

Transfers Were Quite Numerous in the Better Class of Securities.

In manipulating stocks of both classes today, the brokers did a fair amount of business, the call being productive of sales aggregating 3,000 shares, which sold at an average of over $1.75 a share.

Grand Central slid in on the opening and made the first transfers, the stock readily bringing $7 a share. Following, came Geyser-Marion, with a slight upward tendency noticeable, 700 shares changing hands at from 76 to 77½ cents, with the stock bid for at 76½ at the close of the day's call. Galena sold freely around 14 cents, while Mammoth was dealt in close to $2 and Mercur exhibited its usual strength in transfers at $7.40 and $7.42½. For Northern Light 4 cents was willingly posted and 1,500 shares changed hands at this figure, after which a slight decline was seen in the bidding, the closing figure being 1¾. Sacramento was inactive and about stationary, while Utah made a sale at 50 cents, this closing the business in the listed securities.

Swansea appeared first for the unlisted stocks and sold at $2.27½. South Swansea was also recognized in the trading, a transfer being made at $1.22½, while Sunbeam handed out a small block at 17½ cents and Dexter was much improved and did business at $1.10. Chloride Point failed in the bidding, but the stock was firm at the figure of the day before.

The closing figures were as follows:

LISTED STOCKS.

Stocks.	Bid.	Asked.
Anchor	25	
Ajax	24	40
Bullion Beck	5 75	6 50
Brick Consolidated		25
Centennial Eureka	37 00	37 00

Selling value of stocks, $5,341.50.

NEW RULING STINGS.

The Governing Board, Say Some, is Assuming Too Much Authority.

The governing board of the stock exchange seems to have stirred up a hornet's nest, in the revision of stocks to receive attention at the hands of that institution.

Late yesterday afternoon the board held a meeting and put itself on record in eliminating several stocks heretofore called, from the regular proceedings. This was done, it is said, in order to shut out "wild-cats" and to eradicate all suspicion that "wash" sales were being recorded in the pit.

Already several members of the exchange have taken exceptions to the board's dictum, they arguing that that branch of the institution assumed altogether too much authority in attempting to dictate just exactly what stocks shall be entertained at each regular call. They further argue—and their point seems well taken, too—that the unlisted call is open to any and all legitimate stocks on the market outside of those regularly listed, and contend that any change from the old-established rule should be submitted to the members at large and not handled exclusively by the governing board.

The board ordered stricken from the roll of listed stocks, Eastwild(?) Gate, and agreed that in calling stocks unlisted, the following only should be given attention on the exchange: Buckeye, Chloride Point, Dalton, Dexter, Eagle, Emerald, Homestake, Little Pittsburg, Omaha, Richmond-Anaconda, Swansea, South Swansea, Sunbeam, Sister, Mayday, Rabbit's Foot, Mollie Gavin, Century, Gold Dust, Martha Washington, Tetro, Cessle, Lucky Hill, Morgan of Park City, Golden Gate Extension, Golden Eagle, Alice of Montana, Oneboldt, Valeo.

As the above list seems to have shut out a number of stocks of as much worth as some mentioned, there promises to be "a hot time" before long in a final adjudication of the question.

North Mountain Clean-Up.

A letter this morning from Cherry Creek, Nev., bore the pleasing intelligence to those interested in the North Mountain project that the company was now in the course of making a clean-up more tangible evidence of which will appear in this city in a few days. The mill, says the letter, is running along successfully and by the time the two new 20-ton tanks are set up, will be treating 75 tons of ore a day. The mine, it is asserted, is also doing good work and showing plenty of ore carrying excellent milling values.

The Le Roi and Its Sale.

Senator Turner one of the chief stockholders of the Le Roi mine in the Trail Creek district, explains the status of the attempt to sell the property as follows:

"A bare majority of the stockholders are in favor of ratifying the attempted sale. Almost one-half of the stockholders are opposed to it. Those in favor of the sale are now taking the position that under the act of British Columbia passed in 1897, a bare majority is sufficient to ratify the sale. But in this they are mistaken. I have myself examined the law carefully and have taken the advice of the best legal talent in British Columbia. I do not think I hazard anything in saying that the present attempted sale of the mine will never be carried out."

Dalton and Lark Work.

Manager Schenck of the Dalton and Lark, informs the "News" that the company expects to get down to vigorous activity before a great while. The gentleman was out at Bingham Wednesday, and states that pumping is still going on with good effect. Another boiler is now being put in, and preliminary work will be attended to as expeditiously as possible.

Nevada Mining Company.

The future of the Nevada Mining company is more assured with each day's progress. They are now about fully equipped to push work as far as the reduction works are concerned, having completed the work of new machinery which has been a heavy expense and the only drawback now is the retarded work in the mine, which it is thought, everything being favorable, will soon be accomplished. The management is satisfied that a regular prodar will hereafter be established. On a whole the prospects were never brighter or more encouraging.—Pioche Messenger.

The Half Moon Country.

Considerable interest is being manifested at the Half Moon section at present, says the Pioche Messenger. The company is arranging to bring in 150 tons of ore to be worked through the mill here, while John Brose and partners are pushing development work on the Abe Lincoln. Messrs. Whistler, Skillmore, Williams and Morton have taken a lease on five claims in the vicinity of and including the Dominion which at the present time shows a large body of low grade ore. They are also putting the Highland mill in shape to handle their product. All of this ore is of a low grade lead-silver character carrying some gold, and will yield profitably when worked on concentrating tables or in leaching tanks.

Testing Stateline Ores.

Messrs. Fisher, Pogale and T. Lynch came in from State Line this week with several tons of ore, taken as a general sample and brought here to be tested. The above parties are operating the mill in that district, and the test was made to determine the proper method of handling the large quantities of low grade ores already extracted at that place. We understand the results were satisfactory and we may look for some new developments out there in the near future.—Pioche Messenger.

Nevada Mining Notes.

A copy of the Pioche, Nev., Messenger to hand, says that at the De Lamar mine they are breasting out and milling ore 200 feet between arts.

Increased activity is being manifested in prospecting in Ely district and all with good promise. It is reported an important body of ore has been developed on the lower level of the April Fool mine.

Work is soon to be resumed at El Dorado canyon in the southern part of the county. Some new gold developments have very recently been made there.

Martindale and Burns have taken a lease on the old Alps mine. They have a couple of men developing the lower levels, where a small vein of good ore has been encountered. This claim was among the bonanzas in early days and a small amount of work may resume some of its past record as a wealth producer.

Some good looking samples of gold bearing quartz was brought to town during the week from the vicinity of the Old Timer. This is a section of bright promise and there is no doubt some good property exists in that vicinity only awaiting the application of muscle and a few "reads."

Dips and Spurs.

Silver, 58¾; lead, $3.75.

Local stock brokers are already discussing a summer vacation.

Thomas Weir of the Highland Boy company will arrive home this evening.

The proposition of moving the Mercur mill over to the mine is now being discussed.

Holders of Northern Light stock were made recipients of notices of assessment today.

Will Ort, the cyanide company's expert, has just returned from a trip into northern mining camps.

The Mercur company will pay its July dividend Monday next. The new check and voucher recorded, George Dern's creation, will then be brought into requisition.

Logan Journal: Mr. Emil Anderson, one of the proprietors of the Golden Gate mine, received a letter of inquiry yesterday from Salt Lake parties who are desirous of purchasing the mine if the arrangements can be satisfactorily made.

Caller Hudson of the stock exchange has had his jaw hermetically sealed, so to speak, by the governing board. Thereupon has ordered that hereafter Mr. Hudson neither laud or belittle any stock called during the regular session of the exchange.

The Beaver Lake is now assured of sufficient funds for the erection of its miniature smelting plant, and work on its erection will be pushed right ahead to the end that the benefits to be derived will begin to materialize just as soon as possible.

TRIBUTE TO COLONEL YOUNG.

Said to be a Great Organizer, Who Knows What He Wants and How to Tell It.

Cincinnati Enquirer: Before the end of the week the two companies of engineers from this city will be on their way to Camp Sheridan, Chicago, where the regiment of volunteer engineers is to be commanded by Colonel Young of Salt Lake, Utah, will be mobilized. Colonel Young arrived in this city last (Monday) evening, and it took him just two hours to demonstrate that he is a great organizer, knows just what he wants and just how to tell just what he wants.

Captains Hutton and Venable had been notified by telegraph of his coming, and meet him at the Grand hotel. They were ordered to have their companies ready for inspection at the armory at 7:30 o'clock, and at that hour Colonel Young was there to look over the men. He went down the line of each company, questioned each man as to what his qualifications for service in a company of engineers were, why he was enlisting and whether he was willing to go to war.

After looking over both companies, Colonel Young expressed himself as well satisfied and as soon as possible the physical examination of the men will commence. This will likely be today. Colonel Young said last night that he would try to secure the services of a government surgeon today, in order that the work might be pushed as rapidly as possible.

The men who are likely to receive commissions in the regiment have been ordered to report in Chicago Thursday for mental and physical examination.

Council Committees Meet.

The Council committee on municipal laws met last evening and passed on matters referred to them. Diehl's curfew ordinance making it unlawful for boys and girls under the age of 15 years to be on the streets after 9 p.m., was discussed and on motion of Wallace the date hour was made 8 o'clock. The bill will come up at the next regular meeting of the Council.

The ordinance prohibiting the riding of bicycles on certain sidewalks in the city was amended and recommended for passage next Tuesday evening.

The committee on public grounds considered the claim of Alma C. Sadler to a vacant city lot on North Temple street near the corner of Sixth West. The matter was referred to the city attorney.

Nevada's Mormon Settlement.

Pioche Messenger: The Mormon settlement being made on White river, 45 miles north of Pioche, is receiving considerable attention by the Church. The land obtained is being blocked out and leased on the most favorable terms. Thos. Judd, who is in charge of the undertaking, is arranging to furnish the settlers with stock and the necessary implements to improve the land.

Salt Lake Temple.

The Salt Lake Temple will close on Friday, July 1st, and reopen on Monday, August 15, 1898.

LORENZO SNOW, President.

St. John Bishopric.

In the re-organization of the Bishopric of the St. John ward in the Tooele Stake, June 5, 1898, the following is the result: John G. Abelman, Bishop; Elijah Larkin, first counselor; Heber C. Russell, second counselor.

THE RED CROSS SOCIETY.

An Executive Board Chosen and Steps Taken for a Permanent Organization.

The mass meeting of ladies held in the supreme court chamber late yesterday afternoon resulted in the election of the following executive board for the Salt Lake Red Cross society:

Mrs. W. W. Riter, Mrs. Byron Groo, Mrs. John Q. Cannon, Mrs. Rachel T. Beck, Mrs. J. L. Rawlins, Mrs. Emily S. Richards, Mrs. S. H. Lawlor, Mrs. Hubert Roberts, Mrs. J. W. Farrell, Mrs. Jacob Moritz, Mrs. Sol Siegel, Mrs. J. E. Bamberger, Mrs. J. Ward Young, Mrs. E. D. Wells, Mrs. Anna Adams. The executive board will meet tomorrow afternoon at two o'clock at the residence of Mrs. Adams, 42 South Third East, to elect officers and an advisory committee to hold office until the annual meeting in October next.

Yesterday's meeting was presided over by Mrs. W. W. Riter and reports were received showing what had been accomplished in the way of feeding and caring for volunteers and soldiers who have passed through the city. A letter was also read from Governor Wells commending what had been done while other letters told of the organization of Red Cross societies at Payson and Fillmore.

Jewish Sunday School Excursion.

A committee of the Sabbath school of the congregation B'Nai Israel announces that the annual picnic of their Sabbath school takes place on Monday, June 20th. All pupils of the Sabbath school, as well as all other Jewish children of Salt Lake City, are invited as guests of the committee, who will pay all expenses. Parents or friends accompanying the children will be made cordially welcome. The day will be spent at the Lagoon. Train leaves Salt Lake & Ogden Depot at 11 a.m. sharp.

All the Way From Salt Lake.

San Francisco Chronicle: One party of women, the relatives of one of Utah's young officers, came all the way from Salt Lake to tell him good-bye, and the children, as the red stripes of his uniform faded before their eyes. But the men were merry, faced and wreathed in smiles. The last parting was over a month ago, and they are beginning to like the life of the rovers. They swarmed the two decks, officers and men all mixed together, and there, crowding the rigging like Marblehead fishermen, [illegible]... sailors. They stood on the yardarms as far out as they could go, and in positions unsafe positions. Young privates and drum majors like members everything to make the call more dramatic.

Midsummer Excursion.

The Scandinavians of this city have planned an excursion to Calder's Park on midsummerday, June 24. The program comprises speeches, a concert and a theatrical performance. One of the features of the excursion is the crowning of the "midsummer queen," an honor for which six prominent ladies are competing. The voting is now going on at the various polling places and each lady is "in the hands of her friends." The Scandinavians anticipate an enjoyable time at the park this year, as some prominent talent among others Mrs. Agnes Olsen Thomas and Prof. Willard Weihe, are on the concert program.

Festival and Dance.

The Sugar House ward people will give a grand festival and dance at Bowers's Park tonight. Voting for the Goddess of Liberty, who will reign during the festivities, which the ward intends to have on the Fourth of July, will also commence tonight and considerable interest is being manifested in the affair, which promises to work up quite an exciting rivalry as to who will be the one receiving the largest number of ballots. The festival dance is for the benefit of the ward fund. The members of the ward and all their friends are cordially invited to attend.

No Geography Selection.

The board of education held a meeting last night at which bids were to be opened and selections made for a geography to be used in the public schools for the next four years. There was no quorum, however, and action went over for another week.

COMMENCEMENT EXERCISES.

All Hallows College, Rowland Hall and St. Mary's Academy.

The All Hallow's college commencement exercises at the Salt Lake Theatre last night were most interesting and were very largely attended. Musical selections were given, a short play presented, speeches delivered and degrees and medals awarded. Those latter were awarded as follows:

Degree of Bachelor of Arts—Thomas Bernard O'Neill of Evanston, Wyo.; John A. Gallagher, of Granite, Mont.; John Connor Lynch, of Stateline, Utah.

Commercial Diplomas—Francis Aloysius Flanigan, of Fort Benton, Mont.; Edward Joseph Kelly, of Fort Benton, Mont., and William Harrington, of Leadville, Colo.

The gold medal for excellence in the philosophy class, donated by Rev. J. M. Browne of Leadville, Colo., was awarded to Thomas B. O'Neill of Evanston, Wyo. Honorably distinguished, John A. Gallagher of Granite, Mont.

The gold medal for excellence in the humanities class donated by Rev. P. Cushnahan of Ogden, Utah, was awarded to James E. Smith of Salt Lake City. Honorably distinguished, Maurice Burke of American Falls, Idaho.

The McGurrin medal, for excellence in the business course, founded by Francis E. McGurrin, esq., was awarded to Francis A. Flanigan of Fort Benton, Mont. Honorably distinguished, Thomas Walters of Leadville, Colo.

The gold medal for excellence in the first grammar class, donated by Rev. A. Alleyrs of Anaconda, Mont., was awarded to John L. Sullivan of Cripple Creek, Colo. Honorably distinguished, Paul McCormick of Billings, Mont.

The gold medal for excellence in the second grammar class, donated by Rev. Thomas Galligan of Park City, was awarded to Con Dewey of Deloge, Ida. Honorably distinguished, James Clouse of Pocatello, Ida.

The gold medal for excellence in the third grammar class donated by Rev. John Delaherty of Rock Springs, Wyo., was awarded to Ernest T. McGrath of Sweetwater, Wyo. Honorably distinguished, William Collins of Vernal, Utah.

The gold medal for elocution in the senior division, donated by Rev. P. Donohue of Eureka, was awarded to John C. Lynch of Stateline, Utah. Honorably distinguished, Frank A. Flanagan of Fort Benton, Mont.

The gold medal for elocution in the junior division, donated by Rev. D. Casey of Evanston, Wyo., was awarded to James C. Clouse of Pocatello, Idaho. Honorably distinguished, Fred Lestoyer of Salt Lake City.

The gold medal for greatest improvement in gymnasium work, donated by Mr. Tim Kinney of Rock Springs, Wyo., was awarded to William F. Harrington of Leadville, Colo.

Rowland Hall held its exercises earlier in the day at St. Mark's church. A fine program was rendered and the diplomas presented by Bishop Leonard. The graduates were: Elizabeth Bliss, Ora Mabel Ogle, Harriet Eleanor Christie Putnam, Ida Henrietta Wagener, Carol Helen Young.

The bishop's gold medal for excellence in general scholarship was awarded to Miss Eleanor Putnam. The gold Latin medal was won by Miss Carol Young. Latin prizes in preparatory department were awarded to Richard Cabel and Florence Robinson. Miss Fay Ellis received the reading prize. For excellence in scholarship, deportment and attendance in preparatory department, prizes were given to Clara Cabel, Noble and Carrie Carlin, and Daisy Pidgeon. Theodore Brabeck of the third grade, received a gold medal for having not missed a word in spelling during the year and took an examination of 100 difficult words.

St. Mary's Academy furnished its patrons and the public with a program of rare finish and worth the musical and art work being particularly fine. Bishop Scanlan awarded medals and diplomas as follows:

Prize Gold Medals—Misses Pauline Evans, Butte, Mont.; Florence Jarboe, Montpelier, Ida.; Bertha Ebert, Anaconda, Mont.; Annie O'Brien, Sheridan, Mont.; Edith McIntosh, Mission, Mont.; Ethel Simmons and Nellie Mahe, Salt Lake City.

Graduating Medals and Diplomas—Misses Dora Kinney, Rock Springs, Wyo.; Julia Hays, Salt Lake City; Grace Butler, Kasembi(?), Colo.

Book Prizes—Misses Mary Sullivan, Green River, Wyo.; Louise Ebert, Anaconda, Mont.; Maud Peters, Salt Lake City; Rose McDonough, Salt Lake City; Mary Dunmond, Bozeman, Mont.; Grace Brambaugh, Murray, Utah; Mary Forbesger, Salt Lake City; Maude Tostee, Silver Bow, Mont.; Alice Fisher, Salt Lake City; Lola Herden, Salt Lake City; Mae Kinney, Rock Springs, Wyo.; Julia Hays, Salt Lake City, prize for drawing.

SORE HANDS FOR EIGHT YEARS

Pain So Intense Would Nearly Twist Fingers from Sockets. Puffed Up Like a Toad.

Water Ran Through Bandages to Floor. Had to Walk the Floor Until Would Fall Asleep.

Fingers Peeled Like an Onion. Doctors Could Not Cure. Cured By Cuticura.

About eight years ago I got sore hands. It commenced with a kind of a burning sensation on my fingers and up top of the hand. When I commenced to rub them, you would see little white pimples on the skin. I rubbed more and more, until I felt like twisting my fingers out of their sockets. I had high fever, and cold chills ran over me, and so I kept it going until I was like a toad. Nights, I had to walk the floor until I fell asleep.

My hands peeled like an onion, the finger nails got loose in the works and the water ran out, and whenever there was a little pimple, there the burning fire was, and I will now and can prove to you, this happened at least ten times. During the day, I had to attend to my business, for I am running a blacksmith shop, horseshoeing, and I would not shut up the shop for anybody, but it was hard. My hands puffed up worse than a toad. When I drove home nails, the water from my hands ran through the bandages, on to the floor. My customers refused to look at my hands. I had a friend to take me to the doctor; he gave a solution of something to bathe my hands with. I was working every day, and did not know what to do as I went to another doctor. I think for a year. I found your advertisement in a [illegible] newspaper, and I got the CUTICURA REMEDIES. The nails loosened up and peeled off and I don't believe there is one of the first nails left on my hands. What I have told you is true. I do this for your benefit and humanity's sake. I would not suffer any more as I did, for the whole country. CASPER DIETSCHLER, Feb. 22, '98. Pearsville(?), [illegible] Co., N. Y.
