EVENING NEWS.

Saturday, May 6, 1882.

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE

FORTY-SEVENTH CONGRESS.

HOUSE.

WASHINGTON, 5.—The House went into committee on the tariff commission bill.

Kelly, (Penn.) favored the pending measures, and in a two hours and a half speech, in which he said he stopped not for want of material to discuss, but from fatigue, brought it to a close. The first section of the bill was then read, it being understood that debate would only be permitted on a bona fide amendment.

Randall offered an amendment providing that the commission shall consist of two senators, three representatives and four civilians.

McLane (Maryland) gave notice of a resolution for the committal of the bill, with instructions to the ways and means committee to report back the bill repealing the internal revenue taxes, except the tax on spirits, fermented liquors, and tobacco, reducing the tax on whisky to 50 cents per gallon, and to report a bill reducing all existing duties on imports to a maximum standard. The committee then rose and the House took a recess.

At the evening session forty-five pension bills were passed. Adjourned.

AMERICAN.

Trade.

NEW YORK, 5.—The following is the report of the condition of trade here for the week ending to-day: There is a lull in many departments of business, owing principally to the backwardness of the season. The situation is not regarded as particularly unfavorable, but trade has not come up to expectation, and the volume of the transactions is much less than at this time last year. This is particularly the case in dry goods and kindred interests.

The grain market has been very irregular and unsatisfactory and the prices of different descriptions of grain have not acted in unison, one advancing while the other declines, and *vice versa*.

The lard and pork products have been fairly firm and advancing slightly, with quotations not sufficient to pay the profits even to small operators.

Cotton has been very dull and unsatisfactory and the volume of business small.

Nothing of interest in the wool market. Manufacturers are cautious about buying, and holders are not inclined to yield in prices, both feeling the importance of keeping the market in its present state in reference to the opening of the coming clip.

Petroleum has been weak, declining to prices considerably less than they were a week ago. The volume of business is quite large.

The boot and shoe trade is fairly active. The retailers are buying and selling more than they did. The policy of the trade generally seems to be small. Purchases are at frequent intervals. The manufacturers are busy on old orders, and are receiving plenty of duplicates.

The leather trade is active and stocks are getting low. Prices are firm, and there seems to be no reason why there should be any reduction, as, for nearly all kinds of stock the demand is good and well maintained.

The American pig iron market is active, although there will be some weakening in prices in consequence of the pressure to sell in some quarters. The demand for foreign iron is light, but there is some improvement, and a few transactions in Scotch to arrive are reported.

Steel rails are in better demand, and some large sales have been made. In old rails there is nothing doing.

The dry goods trade is dull. The weather is unfavorable for the distribution of spring and summer goods, and many of the jobbing houses report a very serious diminution of sales as compared with this time last year. New business in staple fabrics is light and what there is of activity is on account of old orders.

Palatial Residence.

Henry Villard filed a plan in the building bureau this morning for the erection of a dwelling on the northeast corner of Madison Avenue and Fifteenth Street, four stories high, 60 feet front by 100 feet deep, the front to be of Belford stone. The total cost is $200,000.

Gold Shipments.

No gold was engaged for shipment yesterday, but a foreign house expects from $1,000,000 to $3,000,000 to go Saturday. The house says it is cheaper to buy sixty days' bills than to ship gold, and thinks this fact will materially lessen the shipments this week.

The "Mail and Express."

The *Mail and Express* is reported to be about to change hands. John H. Starin and Howard Carroll are the reputed purchasers.

Indian Rumors.

SAN FRANCISCO, 5.—A Tucson dispatch says: It is generally believed here that the main body of the Locas band has not yet been defeated, although the military here had two successful skirmishes with them. The fight and defeat of the band by General Garcia across the line was with an advance body of hostiles who had women, children and stock. The Locas band of warriors, numbering 100, is behind the troops and passed within sight of Galuyville, on the 25th of April. The soldiers in pursuit of the band which left the vicinity of Gualyville with the station and children, on the 24th, and had an engagement with them before they crossed the line. Well confirmed reports say the Locas with 125 warriors are now across the Line in the Tres Hirmanos mountains.

Hanged.

The evening *News'* Little Rock, Arkansas, special says: Willis Pettil was hanged at Telequah, Indian Territory, to-day, for the murder of Margaret Ford. The execution was private.

Frozen.

A Grand Rapids (Mich.) dispatch says: Reports from various points in the fruit belt declare that the recent heavy frosts have destroyed two-thirds of the peach crop and other fruits.

Replied.

The *Inter-Ocean* says its recent announcement of a revolutionising force for railroads was an invention fathered by a general passenger agent of this city, which, upon the scrutiny of scientific men, proves to be impracticable.

More Gas.

Mayor Harrison has signed the ordinance permitting another gas company to do business in Chicago. This is the first competition to the present occupants of the field.

Death of an Old Soldier.

A special from Oshkosh, Wis., announces the death of Ephraim Sherman Durfee, aged 97, who was Worshipful Master of the Rochester Lodge of Masons in 1828, and conferred the degree on Morgan, who subsequently exposed the Masonic secrets. Owing to the anti-Masonic excitement at the time Durfee was compelled to leave the country. He was a soldier in the war of 1812.

The Chinese Bill.

Considerable disappointment is expressed in Pacific Coast circles this evening that President Arthur did not take action on the new Chinese bill to-day, and there is much comment of an unfavorable nature upon the announcement that it will be further considered by the Cabinet council next Tuesday.

Guiteau.

Guiteau to-day was full of spirits, but reproved a visitor who said he looked like Oscar Wilde, saying that Wilde was beneath his notice; he had brains, Wilde had not. He importuned everybody to buy his photographs and autographs, to the disgust of all who visited the jail.

Drowned.

OGDENSBURG, N. Y., 5.—By the capsizing of a row boat, Charles Irwin, of this city, H. Boyce, of Canton, and A. W. Smith, of Goonlar, were drowned.

Election Frauds.

CHARLESTON, S. C., 5.—In the case of the election managers of this city, charged with ballot-box stuffing, the jury disagreed. It is understood there were eight for conviction and four for acquittal.

Kentucky's Crops.

LOUISVILLE, 5.—At the State Millers' Convention to-day reports were made on the crops from various parts of the State, and the general verdict is that the wheat would be better than former years. Corn good, oats fair.

All Quiet at Washakie.

CHEYENNE, Wyo., 5.—A telegram received from Fort Washakie states that the Indians have quieted down. They committed no wrongs, and will remain on the reservation.

Exasperated Crows.

A courier from the Yellowstone country reports the Crows exasperated and ordering settlers to leave. However, they do this regularly every spring.

Beer in Trouble.

NEW ORLEANS, 5.—Ferdinand Beer, cotton broker, who, it is stated, has been buying cotton and selling at a loss with a view of depressing the market is in trouble. Several hundred bales on shipboard, which he figured for, have been seized, and it is reported he has sold and delivered $80,000 worth of cotton for which he has not paid the cotton factory, and therefore is subject to factory lien.

FOREIGN.

Surprise and Dismay.

LONDON, 5.—The Pall Mall *Gazette* says the Irish and Scotch provincial press is for once almost in harmony with London papers in surprise and dismay at the selection of Lord Frederick Cavendish as Chief Secretary for Ireland. Disappointment among the Liberals is widespread. The choice, it says, was undoubtedly made to quiet the apprehension of Whigs, but the only thing that can save the Ministry is that the country shall be convinced that they mean to carry out their policy firmly and without reference to the murmurs of a handful of malcontents.

Fire at Cardiff.

A fire in the flour mills at Cardiff caused a loss of $500,000.

Farewell Address.

DUBLIN, 5.—The corporation presented Earl Cowper, late Lord Lieutenant, a farewell address expressing regret. In reference to repressive measures the address carefully distinguished Earl Cowper's individual conduct from his official duties.

Mexico.

CITY OF MEXICO, 5.—The twentieth anniversary of the defeat of the French at Pueblo, was enthusiastically celebrated by a parade and review of troops.

The Taluca section of the National railroad will be opened in fifteen days.

BRIEF TELEGRAMS.

The Treasury purchased 385,000 ounces of silver.

J. D. De Frees, the ex-Public Printer, is in an extremely critical condition.

The President has nominated O. V. Tousley, of Minnesota, Consul at Trieste.

Parnell says he does not intend to come to America, and that the idea of reviving the Land League is not thought of.

Gladstone announced that the charge of treasonable practices against Parnell would be withdrawn.

The Chamber of Commerce at Cincinnati is taking steps to stop the spread of small-pox, which is injuring the trade.

The fall of the staging for a bridge over the Connecticut River precipitated eight men to the ground, a distance of 46 feet. One was fatally and two seriously hurt.

Forster stated the reason of his withdrawal from the office of Secretary of Ireland, he could not agree to release the suspects, unless he got from them a public undertaking to cease opposing the execution of the law. As he could not obtain that, he could not remain in office.

Sometimes the simplest means will accomplish the most desirable results. As an evidence, read the experience of Chas. S. Strickland, 9 Boylston Place and 150 Harrison avenue, Boston: The pleasure which I thereby attempt to express cannot be half conveyed by words. Physicians of very high character and notoriety have heretofore declared my rheumatism to be incurable. Specifics, almost innumberless, have failed to cure or even alleviate the intensity of the pain, which has frequently confined me to my room for three months at a time. One week ago I was seized with an attack of acute rheumatism of the knee. In a few hours the entire knee joint became swollen to enormous proportions, and walking rendered impossible. Nothing remained for me, and I intended to resign myself as best I might to another month's confinement to my room and bed, whilst suffering untold agonies. By chance I learned of the wonderful curative properties of St. Jacobs Oil. I clutched it as a straw, and in a few hours was entirely free from pain in knee, arm and shoulder. As before stated, I cannot find words to convey my praise and gratitude to the discoverer of this king of rheumatism.

Ayer's Sarsaparilla,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Docks, Stillingia, and Mandrake, with the Iodides of Potassa and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions on the skin are the appearance at the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substances they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions, and Eruptive Diseases of the skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

COMMUNION

WINE!

Having purchased the Altar Wines made under the immediate supervision of the Rev. P. J. Kaiser in the vineyards of His Grace, Archbishop Alemany, at the Old Mission San Jose; also the Wines made for

ALTAR PURPOSES

Out of Col. Hooper's cellars at Sonoma, we herewith respectfully offer them to the clergy and others desiring an absolutely pure wine, made with the utmost care, and guaranteed of the vintages represented.

ARPAD HARASZTHY & CO.,

530 Washington St., San Francisco, Cal.

[*S. F. Monitor Aug. 25 1881.*]

The vital importance of having pure Altar wine for the celebration of the Holy Sacrifice of the Mass is a matter which always gives the greatest concern to the Rev. Clergy, who are also aware of the difficulty experienced in procuring really pure wine by those living in remote regions from grape-producing localities. This difficulty, however, has now been entirely overcome, and every priest throughout the Union can rely upon procuring really pure wine for altar use through the long-established and thoroughly reliable house of Arpad Haraszthy & Co., 530 Washington street, in this city, who have made arrangements with Rev. P. J. Kaiser to be the sole agent in this city for the sale of all the wines made at the extensive vineyards at the Old Mission, San Jose, as well as the altar wine made by Col. Hooper at Sonoma. The firm of Arpad Haraszthy & Co. guarantee the perfect purity of these altar wines and are prepared to ship them in portable packages, in any quantity desired, and so put up that they will retain all their freshness during consumption. We think the enterprise of the house of Arpad Haraszthy & Co. is worthy of being encouraged, and we hope the Rev Clergy throughout the Union will avail themselves of this excellent medium in order to secure for Divine service one of the most essential auxiliaries to its proper celebration.

REV. DEAR SIRS: Referring to our circular, we herewith annex copy of letter addressed to Rev. P. J. Kaiser by the Most Rev Archbishop Alemany of San Francisco, Cal

ARPAD HARASZTHY & CO.

ST. MARY'S CATHEDRAL, 630 California Street, SAN FRANCISCO, July 19, 1881.

The bearer, REV. P. J. KAISER, having to spend some time in the East, for motives of health, may have occasion to speak to those desirous of procuring a genuine article of pure wine.

To all such I would say, that the wine made directly by himself or under his direction, are pure and genuine.

For some years he has had under his charge for me the Diocesan Vineyards of the Old Mission, San Jose, Cal. And these Vineyards he may quite conscientiously and truthfully say are in a state of considerable perfection; therefore I know the wines to be pure and genuine. I have given other letters to wine growers more or less commendatory, but none so strong as I would desire to make this, as in no other case did I have so good means of knowing.—And what I say for Father Kaiser's wines, I would say for his Olive Oil produced at the same place.

Very respectfully,

JOSEPH S. ALEMANY,

Archb. of San Francisco, Cal.

This wine is sold in original packages under seal, just as it leaves the vineyard. With such endorsement it may be relied upon for family and medical purposes. Family trade supplied by the bottle or case, by
