MINERS WANT WORK.

They Are Afraid of the Strikers, Who Threaten Violence.

A BURLINGTON TRAIN SEIZED.

Debs Makes a Speech and Denounces the Mayor of Fairmont.

PITTSBURG, Pa., July 21.—Trouble, and much of it, seems to be in store at the Allison mine, three miles west of Cannonsburg. The men want to go to work but are afraid. They fear an invasion of the strikers and do not want to be made targets for a mob that is liable at any moment to lose control of itself.

It was the intention of the strikers to begin their march to Cannonsburg tonight, but a telegram from Bridgeport announced that owing to the heavy rains of last evening, it was decided to postpone the trip until tomorrow. The men are fully determined to carry out their threats of making their march. They expect to start with 600 men and be reinforced with about the same number from Bridgeville and Finley Run. They will start with several day's rations and expect to be in shape to watch the offending miners for some days.

This morning a number of men going to the Allison mine were stopped by a committee of the strikers. Many of them did not go to work. G. W. Clark said that the names of the strikers would be procured and they would be attacked for intimidating his employes.

Sheriff Vernon Clark of Washington county is fully prepared for any body of marching strikers that may invade his domain. It is not generally known that at 6 o'clock last night he had nearly 200 deputies sworn in, who are available at any time. From the most reliable information it was learned that they are in readiness, with the requisite number of firearms, and are prepared to do business. The sheriff is on the ground in person and if there is a false move made by any of the strikers, drastic measures will be resorted to.

The miners who want to work today are stricken with fear and anticipate trouble.

SEIZED A TRAIN.

PEORIA, Ill., July 21.—Fifty striking miners at Farmington seized a Burlington freight train at 11 o'clock this morning, demanding that it carry them to Dunfermline, where they intended to call out the 250 miners at work, their wages having been increased 5 per cent. They refused to pay or get off and held the train until 2 o'clock, when the conductor cut off the engine and ran to Canton, returning with the sheriff and state attorney. They argued with the men and the latter finally abandoned the train, after holding it five hours. The Pike county miners are threatening to march across country to Dunfermline tomorrow to force the men out. The managers of the mines say the men want to keep to work, and are preparing for trouble.

DEBS'S SOCIALISTIC SPEECH.

FAIRMONT, W. Va., July 21.—E. V. Debs addressed several miners' meeting at Watson this evening, many miners marched here from Monongah, a distance of four miles. He denounced the report sent to various papers to the effect that he is discouraged. The 150 men from the New England diggings at the abandoned expects to give their jobs in the morning. Most of them were [illegible] the superintendent not to [illegible], but they would rather lose their jobs, they say, than to be compensated of the company.

Debs's speech was a socialistic one, and his trip was described to the men. Debs denounced the refusal of the mayor of Fairmont to let Sovereign speak.

The Trouble in India.

LONDON, July 21.—A dispatch from Simla says a telegram has been received there from Shabkadr, in the Swat valley, reporting that the punitive expedition, sent out to punish the tribesmen for their treacherous attack on the British officials who went there last month to fix the site of a new outpost and to recover a fine imposed on local tribesmen for [illegible], has occupied Sheranni [illegible] without opposition. Both towns had been abandoned by the Waziris.

The telegram also says that the entire garrison at Datakhel turned out at 3:30 a. m. yesterday expecting an attack by the notorious Mullah of Powindah, who is at the bottom of the trouble. The British scouts reported that he had collected 6,000 tribesmen about twelve miles away, and was preparing to attack the British garrison. The attack was not made, but the attitude of the Mullah shows that he intended to fight.

Should Annex a Few States.

LONDON, July 21.—The Daily Mail has received an anonymous letter with reference to the probability of war between England and the United States, in which the writer says: "England ought to take the opportunity of rectifying the frontier by annexing Maine, Vermont, New Hampshire and a part of New York state, thus giving Canada a seaport, Portland, to which navigation is open all the year. She ought also to annex Alaska and the Sandwich Islands." The writer also declares that the talk of the United States helping England in the event of a war with a combination of European powers is all twaddle, and says it is far more likely that the Americans would fight against England.

MRS. LEASE'S PROPERTY.

Her Husband the Only Thing the Sheriff Can Find.

WICHITA, Kan., July 21.—The Jarvis-Conklin Mortgage company renewed its fight on Mrs. Mary E. Lease, the Populist orator, today by filing new proceedings in aid of execution in the probate court. This time the execution was against both Charles and Mary E. Lease, but Sheriff Cone found that Mrs. Lease was out of the court's jurisdiction, being in Iowa on a lecture tour. Mrs. Lease has disposed of her piano and sold or given away every stick of furniture, except a couple of old bedsteads good only for kindling wood. The family uses soap boxes instead of chairs. In making his return on the execution, Sheriff Cone said: "The only property Mrs. Lease has in Wichita that we might sell is Mr. Lease, and nobody will want to buy him."

Before leaving on her trip Mrs. Lease told her friends that the family would soon occupy furnished apartments down town. She denied that she was going to move to New York.

MAY BE FROM ANDREE.

Carrier Pigeon Reported Caught in Western Norway.

CHRISTIANIA, July 21.—A telegram from Stavanger states that a carrier pigeon has been caught with a silver ring upon one of its feet and the following stamped upon its wing: "North pole, 142 W. 47 62."

The place where the carrier pigeon is reported found, is on the west coast of middle Norway. Some carrier pigeons labeled "North Polar expedition," and presumed to have been taken north with Andree, were reported to have alighted on a steamship crossing to England in that region a short time ago, but it was proved that Andree had not started when they were reported found.

Assuming that the carrier pigeon now said to have been picked up in west Norway was let loose from Andree's balloon, the stamping on the wings, "North pole, 142 W.," would indicate that the explorer was being carried toward Alaska.

NEW YORK, July 21.—A dispatch to the World from London says: There seems to be reason to believe that news will be received from Andree and his polar balloon within a day or two. J. Scott Keltie, the secretary of the Royal geographical board, says the balloon ought to make 400 miles a day, and unless Andree stopped he should be heard of within twenty-four hours. News of success or failure may be known first by the Royal Geographical society, which will hear immediately by telegraph if Andree lands where it is possible to use a wire."

China's Army and Navy.

LONDON, July 20.—The Daily Mail's Berlin correspondent says that China is about to reorganize her army on the lines of the German military, and that orders for rifles have been placed in Germany. A new Chinese fleet is to be constructed, half of the contracts for the new vessels going to England and half to Germany. The Armstrongs will supply the guns for the new fleet.

Fatal Hair Wash.

LONDON, July 21.—Mrs. Frances Samuelson of Bleasebrough Hall, Yorkshire, died at the home of her father-in-law, the Right Hon. Sir Bernhard Samuelson, baronet, Princes Gate, London, from injuries received while her hair was being dressed with a petroleum hair wash. The hair wash, which gives off strong fumes, ignited and Mrs. Samuelson was frightfully burned, lingering three weeks in terrible agony before she died. The hair wash is the newest French importation and has a great vogue in London. The hair can be washed and dried in a quarter of an hour.

Woman Outlaw Captured.

LITTLE ROCK, Ark., July 21.—Deputy United States Marshal McClure arrived here today having in charge Rhoda Fuller, one of the most noted and desperate female outlaws of Arkansas. She was captured at Batesville yesterday while disposing of counterfeit coin. The Fuller woman has long been connected with a dangerous gang which operated in the mountains of Independence and adjoining counties. It is believed that her arrest will lead to the breaking up of a very dangerous gang of counterfeiters, as she promises to divulge the names and rendezvous of her partners.

FROM TURKEY.

The Sultan Obdurate—Infernal Machine for Edhem Pasha.

LONDON, July 21.—The Constantinople correspondent of the Post says the Turkish ministers have accepted the frontier proposals made by the European powers, but the sultan has not yet ratified their acceptance.

ATHENS, July 21.—It is said here that Italy has proposed coercive measures against Turkey.

BUDAPEST, July 21.—The Pester Lloyd says that Edhem Pasha, commander-in-chief of the Turkish forces in Thessaly, was the recipient today of an infernal machine, which exploded while it was being opened, severely wounding Edhem Pasha's arm.

Wilhelm's Injured Eye.

BERLIN, July 21.—The Reichsanzeiger publishes a bulletin from Emperor William's physician, the duke of Battern, saying that an examination of his majesty's eye, which was recently injured by a blow from a piece of rope, shows that the sight is in no sense impaired, though there are still symptoms of irritation, compelling great care in the use of the organ.

A Historical Banquet.

LONDON, July 20.—The Prince of Wales, in honor of his appointment as grand master and principal knight of the Grand Cross of the Bath, gave a splendid banquet at the St. James palace this evening. Over seventy members of the order of Bath were present. A beautiful silver dinner service from Marlborough house was used at the banquet.

No such banquet ever occurred at the St. James palace within the memory of the queen's retainers, and therefore it was a historical ceremony. The guests included the grand duke of Mecklenburg-Strelitz, the duke of Saxe Coburg and Gotha, the duke of Cambridge, Prince Charles of Denmark, the grand duke of Saxe-Weimar, the duke of Teck, Prince Christian of Denmark and a number of generals and admirals, Sir Julian Pauncefote, British ambassador to the United States, and others.

A Case of Destitution.

FORT SMITH, Ark., July 21.—A shocking case of destitution came to light in this city yesterday afternoon. In an old shanty within the shadow of the United States jail, lying upon a pile of straw and covered with rags, was found Mrs. John Hauer, the widow of a once well known German resident of this city, almost dead with malarial fever. In another corner lay two scantily clothed corpses. They were the bodies of Mrs. Hauer's children, one six months old, the other four years. The children had died from disease, exposure and starvation. In the hut were also found Mr. Jaiden, Mrs. Hauer's mother, and three living children, all of whom were just yielding to the pangs of hunger. Mrs. Hauer was removed to a hospital, where she will die.

THE SENATE.

WASHINGTON, July 21.—The Senate concluded the formal reading of tariff conference report today. The debate was spiritless in the main. Early in the day Jones of Arkansas made a contest against the conference committee, upon the ground that it had exceeded its authority in so amending the paragraph relating to printing paper as to place a retaliatory duty against the countries paying a bounty on wood pulp. This was debated at much length, and finally overruled by Vice President Hobart. This removed the only obstacle thus far encountered by the report. The reciprocity amendment and the abandonment of the stamp tax on bonds and stocks developed much criticism.

When the Senate adjourned the understanding was general that a vote would be taken on the conference report on the tariff bill not later than Friday, but there was no formal agreement to this effect. Both Senators Jones and White, who have been leading the opposition to the bill on behalf of the Democrats, expressed the opinion that the vote would not be postponed beyond this time. Senator Allison also stated that while he still considered a vote possible tomorrow he felt very confident that it would not be postponed beyond Friday. In the event of a vote on the tariff on Friday, final adjournment is generally predicted for Saturday.

The New Expedition of the Fram.

BERLIN, July 21.—The Lokal Anzeiger says: The Fram, the vessel on which Dr. Nansen's polar expedition was made, will next year explore the western coast of Greenland. The Fram will be under command of Capt. Sverdrup, who sailed with Dr. Nansen as navigator. Dr. Nansen will chiefly make a tour of research with a party of English and American geologists. He will endeavor to get around the northern end of Greenland and expects to be absent two years. The party will take dogs with them as a precaution against being frozen up.

NEW ARBITRATION TREATY.

The Matter Discussed Between the United States and England.

LONDON, July 21.—The correspondent of the Associated Press learns that while the statements in the English press to the effect that Sir Julian Pauncefote brought from the United States a draft of a new arbitration treaty are untrue, it is a fact that Sir Julian Pauncefote discussed the question with Secretary Sherman and since his arrival here has discussed it with Lord Salisbury.

There is the best reason for believing that the matter will be reopened at Washington in October and that a short treaty of less scope than the last will be arranged for submission to the respective governments. It is thought the matter would not have been revived unless the feeling of leading United States senators had been previously ascertained and Lord Salisbury being assured that President McKinley is in favor of such an arrangement.

It is now semi-officially reported that an international conference will be held at Washington early in October on the basis of John W. Foster's suggestion on behalf of the United States government that the experts representing Great Britain and the United States should meet and compare the results of their investigations with a view to arriving at an agreed state of facts.

Pending such an agreement there is no question of extending the scope of the conference to include a revision of the present regulations. The primary object will be not legal but scientific.

Riots in Spain.

MADRID, July 21.—There have been serious outbreaks and riots at Barcelona and the gendarmes have been stoned by the mob. The government has sent large reinforcements to restore order.

Objections to Powderly.

NEW YORK, July 21.—A special to the Herald from Washington says: Terence V. Powderly will have a rocky road to travel before he is confirmed by the Senate as commissioner general of immigration, to which office he was recently appointed by President McKinley. The Knights of Labor and Federation of labor have given notice that they will file a protest against the confirmation and will do all in their power to defeat him.

SPAIN AND JAPAN.

The Existence of an Alliance Denied by the Premier.

MADRID, July 21.—Senor Morety Pendergast's speech at Saragossa on the Cuban question and in denunciation of the policy of the government has made a great sensation.

The Epoca says: "The frightful picture of Cuba painted by the liberal leader at Saragossa can only be compared to the inflammatory utterances of the worst enemies of Spain. We believe that his insinuations against the throne must permanently keep the liberals out of power, owing to the increased strength which such utterances give the monarchists in the eyes of the public."

Senor Canovas del Castillo, the premier, states that the report of an alliance between Spain and Japan is incorrect. The most cordial relations exist between the two powers but the understanding does not extend further. He adds: "It was never more necessary than now for the government to consider what reforms ought to be introduced in Cuba."

A Mine Rediscovered.

PHOENIX, Ariz., July 21.—The reported discovery of the famous lost California mine near the Mexican border is creating a good deal of interest here. John F. James and Harry Blake who claim to be the discoverers, tell quite a wonderful story of their hardships on the southern desert and of the remarkable richness of the mine. They say the great mine lies about 50 miles south of Sentinel station on the Southern Pacific. They admit, however, that it lies in an absolutely waterless region but claim that the ore is of such richness that it will pay handsomely to haul water. Specimens of ore exhibited by them far more than bear out this statement.

Work Will Be Resumed.

PITTSBURG, Pa., July 21.—The finishing scale of the Amalgamated association has been signed by Jones & Laughlins, and work will be resumed at once. The scale as signed was a compromise, but it is said to be favorable to the workmen. The firm of Jones & Laughlins is the first to sign the scale in the country and it is thought other firms will soon fall in line.

The tea is well worth the money: but you might as well try for one of those prizes.

Rules of contest in large advertisement about first and middle of the month. A

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
