GOOD SALE OF DALY-WEST STOCK

Two Thousand Shares Change Hands at $10.50 a Share.

18 A $21,000 TRANSACTION.

Brisk Trading in the Pit Today—Mammoth Stock Stronger—Will Meet at Three.

The near approach to a resumption of operations at the Daly-West is having a gratifying effect on the company's stock which is now in good demand at quite a respectable figure. As an evidence of the ready market for the stock, it is but necessary to call attention to a transaction in the pit today, wherein 2,000 shares changed hands at $10.50 a share, a deal representing $21,000 in cold cash. The parties to the transaction are not stated, but it is understood that the buyer is interested in mining circles, and is now seeking to corral as much of the stock as possible, on the exchange today it was quoted at $10.40 bid with offerings at $11.

One week from today the Daly-West Mining company will hold its annual meeting in this city, when officers and directors will be elected, and other important business transacted. A few days later a good force will be put to work in the mine and it is expected that shortly a course of regular dividends will be announced. Title to the entire property now vests in the "Daly-West Mining company, a deed having been filed Saturday conveying the property to the company for a consideration of $1,500,000, among those signing the deed were Messrs. Haggin, Chambers and Lewis.

STOCK BUSINESS BRISK.

Good Trading at Better Figures—Mammoth Broken Through.

This morning's dealings in the pit amounted to 3,700 shares, which sold for the sum of $1,412.40. In the main, stocks were in better demand than on Saturday, and in several places advances were made, the whole tending to make a fair amount of cheer and interest.

Starting out, Ajax gave evidence of new life in a sale of 100 shares at $1.60 per share. This followed business in Chloride Point, which sold at $1.12 and $1.14 and had a closing bid of $1.12½. Centennial-Eureka was strongly bid for, but did no trading, while Daly-West was wanted at $10.40 and Dalton and Lark made transfers at 10 and 11 cents. For Daly 22 cents was paid for 1,000 shares, buyer 30 days, but Dexter failed in the trading although a bid of $2.75 greeted the stock at the close. Four Aces continued strong and in the amendment, the stock selling freely at figures ranging from 61 to 65 cents, and being in demand above 60 when attention was directed elsewhere. Geyser-Marion sold at 87 cents and Mammoth made a good advance and was a seller at $2.81 and $2.85, with the latter figure the closing bid for the stock. Lower Mammoth and Northern Light were quite active, the former selling up to 52 cents and the latter making transfers at 34 and 35.

Paroding stocks not listed, the brokers found business in Boston-De La Mar at 2½ cents, and a good volume of trading in Dalton, which sold first at 2½ cents, then at a lower margin until it reached 2 cents, selling 30 days. Jim Bowers was stronger and served its customers at from 19½ to 20, while Bowers Extension had a purchaser at 11½ and was shaky at the close, with a bid of 11½. Monarch sold at 1½ cents, and Bullion remained firm, the stock doing business between 37 and 38 cents. South Business stood stationary and found a taker at $1.31½, while Colonial sold at 12½ cents, Showers Consolidated at 17, Triumph at 15, Omaha at 32 and Valley at $1.45.

The closing figures were as follows:

LISTED MINES.

Selling value of stocks, $14,113.40.

Will Meet at Three.

Hereafter the Salt Lake Stock and Mining Exchange will hold its afternoon call at 3 o'clock, immediately after banking hours. This was the order of the brokers this morning, when they gave voice to make all settlements for afternoon sales the next morning after their negotiations. This will refer the new exchange officers at the same time, and may have its effect of swelling business one way or another. The "call" now lies clear that is to a "treasury" proposition, but that it looks very much like it, is the opinion of many of the more conservative members.

MARKET REPORTS.

CHICAGO MARKETS.

LIVE STOCK.

Chicago, Feb. 13.—Cattle—Receipts, 27,000; left over, 1,952. Market active 5 @10c higher. Light, 2.90@5.85; mixed, 2.70@4.90; heavy, 2.70@4.95; rough, 2.70 @2.85.

Cattle—Receipts, 1,200. Strong to 10c higher. Texas, 1.10@3.00; cows and heifers, 2.25@4.00; Texas, 2.15@4.15; stockers and feeders, 1.60@4.45.

Sheep—Receipts, 14,000. Market strong to higher.

KANSAS CITY LIVE STOCK.

Kansas City, Feb. 13.—Cattle—Receipts, 2,500. Market active, strong to 5c higher. Steers, 3.75@5.30; Texas steers, 3.15@4.15; Texas cows, 2.40@3.35; native cows and heifers, 2.00 @4.60; stockers and feeders, 2.70@4.35; bulls, 2.15@4.00.

Hogs—Receipts, 2,700. Market 10@15c higher; active. Bulk, 3.62½@3.66; heavy, 3.67½@3.85; packers, 3.60@3.67½; mixed, 3.55@3.77½; lights, 3.45@3.65; yorkers, 3.60@3.65; pigs, 3.50@3.65.

Sheep—Receipts, 6,000. Market strong; active; lambs, 5.00@5.90; muttons, 3.50@5.25.

OMAHA LIVE STOCK.

Omaha, Feb. 13.—Cattle receipts, 1,200. Market steady active. Native beef steers, 4.20@5.40; western steers, 3.90 (.35; Texas steers, 3.00@4.00; cows and heifers, 2.50@4.25; canners, 2.50@2.85; stockers and feeders, 3.10@4.90; calves, 4.00@6.50; bulls, stags, etc., 2.50@4.10.

Hogs—Receipts, 1,400. Market shade to 5 cents higher. Heavy, 3.67½@3.72½; mixed, 3.72½@3.75; light, 3.62½@3.70; pigs, 3.60@3.65; bulk of sales, 3.67½@3.70.

Sheep—Receipts, 3,400. Market strong to 5c higher. Fat wethers, 4.75@5.25; western, 3.60@4.25; stockers, 3.00@3.70; lambs, 4.00@6.30.

SAN FRANCISCO MARKETS.

San Francisco, Feb. 13.—Wheat firm, May, 117½; Dec, 120½; cash, 117½. Barley, cash, 127½.

LOCAL MARKETS.

Salt Lake City, Utah, Feb. 13, 1899.

POULTRY.

Below are wholesale buying figures on poultry, butter, eggs and cheese. The selling figure is 10 per cent higher.

There is a big demand for poultry and the market is very bare. Dressed poultry drawn, with heads and feet off, bring figures as follows:

Turkeys, per lb 12
Hens ..... 10@11
Roosters 08

BUTTER AND CHEESE.

Dealers report the butter supply weakening, with prices for creamery gradually getting higher.

Creamery butter 18
Choice Utah Dairy 15

EGGS.

The egg market is again well supplied with prices ranging from 16@18c.

GRAIN.

Wheat—59@65 cents per bushel.
Oats—$1.30@1.35 per hundred.
Corn—$1.60 per hundred.
Cracked Corn—$1.10 per hundred.
Barley—90@$1.00 per hundred.
Rye—90 cents per hundred.
Shorts—$1.00 per hundred.

HAY.

Timothy—$10.00 per ton
Mixed—$9.00 per ton.
Alfalfa—$8.00 per ton.

FRUITS.

APPLES—Good stock—Utah, in good demand, per bushel, 35@40.
PEARS—In good demand, per box, $1.25@1.50.
LEMONS—California, per box, $4.00 @4.50.
NAVEL ORANGES—$2.00 @ 2.50.
BANANAS—$1.50@2.00.

THE COPPER GLOBE.

Assays from the New Find Show Good Values in Copper, Gold and Silver.

Special Correspondence.

Provo, Feb. 13.—Assays of two samples made Saturday show copper $2.88 per ton and gold $1.60 to one, and in the other, copper, 25.45 per cent, silver 28 ounces, gold, $1.60. At 16 cents per pound for copper the above results show a value of copper in the first sample of $12 per ton, and in the second of $175.

Messrs. Le Fleur and Allman will start for the new diggings in a few days and Mr. Kronga, the assayer, will accompany them. Whether any offers will be led into the secret of the exact location of the Copper Globe at present, is a little doubtful. The owners say that they can mine and place the ore on the cars at Price for $15 per ton, and that there is timber, water, feed, and iron near the mines, so that every facility is at hand for the successful operation of a mining camp. Messrs. Le Fleur and Allman are correct in their estimate of the quality of ore in their claim, as another will, without doubt, soon be erected.

The Silver Bullion Mining company has filed articles of incorporation with the county clerk. The object of the incorporation is to conduct a general mining business. Provo is to be the principal place of business. The limit of the capital stock of the company is placed at $15,000, which is divided into 10 cents each. The company owns the Silver Bullion lodes Nos. 1 to 4, both in stones, situated in about four miles south of Diamond, Juab county. The directors named in the articles of incorporation are: Jesse Knight, president; St. V. Le Fleur, vice president; R. E. King, secretary and treasurer; Nelson Westergren, manager; C. L. Van Leuven.

Work at the Blue Rock.

The "News" correspondent at Eureka writes that Superintendent Danyon said to a visitor yesterday when at the Blue Rock, as it looks like old times to see five ore teams winding their way around the hillside and coming four trips a day, Mr. Duncan knows the property like a book, and it has always done well under his management.

BEET SUGAR.

[Cleveland Plain-Dealer.]

The total importation of sugar into the United States in the year 1898 was 2,676,676 tons, and of this about two fifths was beet sugar. In the years the importation of beet sugar has more than trebled while that of cane sugar has increased but slightly in proportion.

The movement to stimulate beet growing in Ohio by offering a bounty has led to an examination into the condition of the industry in several states and the efforts that have been made to encourage it by state aid.

There are today a number of beet sugar factories in operation from New York to California, and more business bounties are paid in Nebraska, Minnesota and Michigan. In Nebraska the bounty legislation in Indiana has been defeated, and bounty bills have just been introduced in both houses of the Illinois legislature.

In Michigan the new bounty has caused a large expansion of the industry. In Nebraska the industry is reported thriving, but the bounty experiment not a success. In Minnesota the bounty will probably be continued for two years longer.

In Iowa the state is making experiments to determine whether sugar beet growing can be carried on with profit. Kansas has been found to be outside the beet belt. New York is endeavoring by legislation to establish the industry permanently and factories have been built at Binghamton.

"THAT HEATHEN CHINEE."

A variation of the confidence trick was played on a Maley emigrant by Mr. Frakes yesterday morning. He was sold to the tune of $10 in silver to change. On his way back with the money in a bag he noticed a Chinaman walking in the same direction. He then offered the former dropped something which his confederates said was a note for $100, which, of course, they were willing to divide with the Maley, who accompanied them into a house in Chinatown to talk over the matter. They decided to go on to the bank and change the note, but on the way met the Chinaman who had originally dropped the "note." He claimed his property with some severity, but the others forced it into the Maley's pocket and told him to cut off to the bank and change it, they taking charge of his $10 and detaining the other man. But the "note" they pressed into his pocket, the result, on arriving at the bank, to be a piece of brown paper. No news yet of the $10.—Singapore Free Press.

Have You Seen the

Free Exhibition

OF THE

SEVEN SUTHERLAND SISTERS

Hair Grower and Scalp Cleaner?

If not, do not delay longer, as the days of the exhibition are limited. It will pay anyone to see the luxuriant growth of hair worn by the ladies in attendance, which by the way, was produced by the use of the highly meritorious preparations they represent, and was not inherited, as some people think.

The ladies will cheerfully give to all visitors, free of cost, any information desired regarding the necessary treatment to make the hair and scalp to produce the best results.

It costs nothing to see this great exhibition, so why not come today? Everybody is invited.

ROYAL BAKING POWDER CO., NEW YORK.

DALY-WEST IS REINCORPORATED

Amendments to Its Articles Filed With the County Clerk.

IMPROVEMENTS AT THE MINE

Washington Friess's Board Organized—Blue Mountain Mines—Big Deal on Tap.

The Daly West Mining company, by its president and secretary, Messrs. John J. Daly and Allen Foster, filed with the county clerk today amendments to articles 3 and 5 of original articles of incorporation, which provide for an increase of the corporation's stock to $2,000,000, to be divided into 150,000 shares of the nominal value of $20 each. This is an increase of 15,000 shares, which are to be issued to the owners of the other one-half of the property, upon the regular transfer being made.

The capital stock of $1,000,000 is represented by the aggregate valuation of the following property, situated in the Ontario mining district, Summit county: The Revised, Yes Not Your Ards, No. 12, Bachelder, Highbinder, Hyde Park, Austin, Franklin, Appointed, Adonis, Pinafore, Conroy, Grundy, Lonesome, Side Winner, Great Bear, Ontario, Ontario Fraction, Ontario, Ontario Fraction, Bonanza, Bonanza Fraction, Little Willie, Minnehaha, Sandy Hook, Hooks, Pollock, Mitchell, Little Mitchell, Stewart, Hot Kikkers, White Wing, Marquette, Ontario, American Bird and undivided one-fourth part of the Abbey, and one-fifth part of the Quincy.

The meeting of the stockholders, at which the amendments were made, occurred on the 23d of last month, and was fully detailed in the "News." The following named stockholders were represented by proxy: Allen Foster, 1,700; Joseph Lipping, 500; John J. Daly, 62,335; E. B. Thompson, 250; Paul C. Barber, 1,500; E. Thomsen, 1,500; W. S. McCornick, 2,000; John McBride, 1,000; E. L. Calkins, 50; Hanna Bros., 2,000; Louise Marie Hooks, 50; D. H. Gray, 100; W. A. Needham, 100; Cyrilla Woolley, 100; J. C. Lynch, 100; Mrs. Louie Black Jr., 80; Burchill J. Jonert, 25; Mrs. J. Jonert, 100; Mrs. Gussie Hooks, 50; George Rudstrand, 100; Burchill Jenert, 20; A. E. Bryan, 100; William Elderbeck, 10; M. S. Pendergast, 100; J. Harrington trustee, 1,000; J. W. Donnellan, trustee, 100; Mrs. Tillie Black, 50; Mrs. Susie Zimmer, 10; N. C. Jones, 100; Jonas Bros., 60; O. J. Salisbury, 1,818; E. W. Salisbury, 100; O. J. Salisbury, Jr., 100; Stella J. Salisbury, 102; total number of shares, 61,254. The vote to amend was unanimous.

SAMPLER AND TRAMWAY.

The Park Record has it that when spring opens the Daly-West will undoubtedly build a sampling mill of its own and transport its crude ores and mill product from the mine to the railroad without the use of wagons. That a tramway will be constructed from the mouth of the tunnel which runs from the Ontario mill to the mine connection at the 600 level, is a point on the hillside below town and that all hauling will be done over this tramway. As the 600 level of the Ontario runs the Daly at 400 feet and the Daly-West at the 1,100, this appears to be a reasonable proposition, as all three companies would be benefited by it. This method of handling the output of the properties named would not only be an economical one, but it would be a safe safeguard against blocked roads and danger from snowslides in the winter time, and the latter feature is no small consideration with mines located as are the Daly and Daly-West.

ITS BOARD ORGANIZED.

Washington Friess Now in a Position for Active Business.

An organization of the Washington-Friess Mining company was effected in this city this morning, when Messrs. C. Washington of New York was elected president, Joseph Shaw of this city, vice-president, and P. T. Farnsworth, Phil Ruth, Robe Farnsworth and James E. Jennings, the other members of the directory. Melvyn C. Morris will serve the company as secretary and treasurer.

With its board organized the Washington-Friess is now in a position to push development, and will do so under the careful supervision of P. T. Farnsworth, the gentleman who so ably handles the affairs of the Alice Silver. A recent examination of the company's mine at Frisco, demonstrates the fact that it is in splendid condition and is a position to make regular shipments of good pay ore. The shaft is nearly 200 feet down and drifting is being pushed through a good grade of mineral.

BIG DEAL ON TAP.

Pennsylvania Syndicate After the Kennedy Group at Park City.

[Park Record.]

Another big deal in mining property is on the tapis. Some few months ago, The Record is informed by good authority, a representative of a Pennsylvania syndicate was in camp examining the property known as the Kennedy group and before leaving it is said an offer of $25,000 was made for it. The offer was promptly refused and the agent informed that a price below $50,000 would be listened to. Now word is received that parties representing the would-be purchasers are coming back to Park City the week to again open negotiations.

The Kennedy group is all patented ground and adjoins the Anchor on the northwest, its lines running within 100 feet of the Anchor shaft. It is owned almost exclusively by Messrs. Henry Newell, Frank James and John W. Kennedy, the latter of whom is now in Klondike, though he left a power of attorney that carries the right to a party here to handle his interest. Mr. James, we understand, will go to Salt Lake Monday to confer with Mr. Newell and enter into negotiations for the disposal of the ground. The Kennedy group is considered by all mining experts familiar with its extent as being one of the most valuable and promising undeveloped properties in the camp. It contains some twenty claims, lying to the west and north of the Anchor and south of the recently leased and bonded Wee Ontario ground.

BLUE MOUNTAIN MINES.

Developments Proving the Value of Record Discoveries.

[Price Advocate.]

The mines continue to be the topic of interest in this section says a visitor from Vernal. Sheriff Preston received an assay of 2.85 to the ton. This is considered encouraging from the fact that the sample came from a point several feet from the original discovery in Blue Mountain, and would seem to demonstrate that the values extend for miles along the vein. The samples were taken from the surface and showed about equal values in gold and silver.

W. F. Colthorp and Hon. Leverage Johnson came in yesterday from Vernal and left in the evening for Salt Lake, where both go on business matters. Speaking of the recent gold finds, Mr. Colthorp said he had at first place much faith in the reports from the Blue Mountains, but since later developments have been made and additional assays were taken by the men who have been on the ground, he is convinced that the representations are genuine, and that a big boom will come in the spring. Assays are good, the veins are well defined, and the work will show that the half has not been told.

L. Y. Shearer, a capitalist of Buffalo, N. Y., and a friend of Irving P. Green of the Bunker Hill mining company, has been at work on his way to the reservation and the properties of the company, where he will remain a month. He will probably become interested in eastern Utah.

Arthur J. Lee and Measser Barron of the Gilson Asphaltum company, are expected to tonight from the property of the company in the Uinta country. Bert Seabolt, who has been investigating the gold fields fully miles from Vernal, will be in the city tomorrow.

Colonel J. L. Poole came in Tuesday from the Vernal country, where he has been for a month of more. He thinks the gold strikes in the Blue Mountains are all that have been claimed for them, and that the Eastern people acting there will be a big rush to that direction.

Irving P. Green, of the Raven Mining company, was here last Saturday and says that the company will ship ore on the reservation to begin shipments of ore soon. The product will come from the Pete.

Hy Frankes came in last week from the Cedar Mountains and left the first of the week for Salt Lake. He looks down there, which he says we do down here. He boasted in with him a load of rock that looks as if it would run well in gold, and samples of which he has sent out for assay. He says nothing, but from the way he talks and acts it would not surprise us if he had run on to a good thing.

NEW BUNKER STRIKE.

Old Susan to Make a Shipment—The Way Eagle.

[Eureka Republican.]

An employe of the Bunker hill reported that a rich find had been made second in the 100-foot or tunnel level in the Bunker Tuesday night and that he had rolled out eight sacks car loads of fine carbonate ore on his shift. It is reported that the ore is so rich that it will be put into proper shape it will afford an opportunity for several more miners in the part of the Bunker.

The Old Susan property recently released from litigation through the efforts of D. J. Daly, has been put in shape on the dump, and it is reported that this once famous producer will soon be a shipping mine. In this connection it is understood that a small fraction lying between the Old Susan and the Lucky Boy, has just been purchased presumably for the Old Susan people.

Joe Lee, of Salt Lake, was in Eureka Tuesday and corroborated the reports of the rich strike in the Way Eagle. He stated that the only fairly recently encountered measures there feet, averaging, according to report, about $40 per ton. He did not know the character of the ore as no assay returns had yet been received from Salt Lake City where samples have been sent, but it is evidently a fine grade ore.

Condition of the Hercules.

Sam Pollock, superintendent of the Hercules on Lion Hill, was in the city today, the gentleman pushing his wife and family to Eureka for the summer. He got in a more congenial time. Shaft of the mine he says is in good condition, with a fair supply of ore, grade ore showing in both the upper and lower stopes, at a depth of 100 and 200 feet. From the latter they are now drifting and hope soon to intercept the same ore body now enjoyed by the Northern Light. Mr. Pollock is confident that within a short time the Hercules will be reckoned among the shippers.

The Rises of Bingham.

[Bingham Bulletin.]

The Red Wing company is now in full possession of the properties recently taken away from it by a warranty deed to certain parties, the property to be deeded Wednesday on payment of $20,750 to former owners of the group, represented by Messrs. Mackey, Bell, George Doyle.

The Lucky Dick, in the foothills just north of West Mountain placer, seems to have been well named. It was located by Dick Shough in November, a tunnel driven 24 feet has encountered a fault vein between quartzite and porphyry, carrying a fine streak that assays 12 per cent copper and 96 cents in gold.

John Brown, leasing the Northern Chief, was on the market last week with 70 tons of ore which sampled 4½ per cent lead, 12 ounces silver and $1 gold, netting a nice sum. It was the first Northern Chief shipment since October, and it is hoped that more good grade ore ready for hauling to the mill. A new level will probably soon be run on this property, by shaft or tunnel.

MINES AND MINING MEN.

The Daly tramers are shipping ore from the Ontario.

H. E. Zerbe was today made a full-fledged member of the Salt Lake Exchange.

The listing committee of the old exchange will meet at Ralph Guldrie's office this evening.

As paymaster for the Mayor and Geyser-Marion companies, George Dent left for Beaver this morning.

Manager James Brown and Superintendent Jacobson went out to the Lion Consolidated at Rockton today.

The Mercur reduction at Park City employed a large number of men last week, working in the neighborhood of 300 Mexicans.

Checks are preparing for the payment of the Dalton-Park dividend on Wednesday next. The company's office is not advised concerning the reported Saturday night strike.

The Hub of Park Rostoss will have a car of ore at the sampler tomorrow. In a few days the company's dividend will meet when another dividend may possibly be declared.

Major J. E. Jackson, president of the Salt Lake Mining Exchange, returned from Denver this morning on a belated passenger train. He says there is a big supply of stock about the city.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; 4 months for $1; sample by mail, 10 cents. ELY BROTHERS, 56 Warren St., New York City.

OUTLOOK ON LOMBARD STREET

Bill Brokers in London are Proceeding Very Cautiously.

ARE SHY OF "AMERICANS."

Bills on American Halls, However, are in Evidence—Better Tone Predicted at an Early Date.

New York, Feb. 13.—The Times London financial correspondent cables:

Deplorably our money market seems to an anomalous position. All the week until Thursday, loans were offering at from 1½ of one percent to one, and at the same time discount houses could not keep the call at bankers bills as low as possible to 2 per cent. In the effort the banks helped them by refusing to buy bills for them at less than 1½ per cent; rather than work for less than one ready to lend at 1 per cent for the week. Why was that? Because outside the money market had too rosy for its eyes, it feared another squeeze at Petty's stock exchange settlement similar to the one of a fortnight back, for fear justified by the event, for the pressure was renewed because the stock clearing houses broke down.

It also always results the effect of the previous collections a little later in the quarter. But the result of any suppression of distress is to some always makes the holders of banking credits reluctant to part with them for more than a few days and therefore the present condition of our market seems to encourage expectation that the present low rates will soon give place to higher ones. I am by no means sure of this, and lean rather to the opinion that cheapness must last for some time unless the calm is destroyed by unforeseen causes.

The government deposits in the bank of England are still £4,000,000 below the total of a year ago, and are little likely to reach last year's figures at any time between now and April. And next week we should receive several millions from Ireland in payment for the stocks you imported a week back. So far the market your market will be amply supplied with credits. Even the gold movements cease to interest us from such an abundance prevails, but unless you want it we also could retain a part at least of those imports of metal for the next few weeks. We only get the African supply; it is true, as India and Australia are taking the American output, but a little goes a long ways in nothing as in our present need. This mood is one of increasing hopefulness, leading to more vigorous speculation.

Our trade returns in January indicate that business is waking up in the far East and to some extent with our possessions. Even continental nations are displaying larger buying power and just as will happen with you the millions disbursing in the iron manufacturing by the autumn fill the land with a sense of prosperity to the banks with their domestic resting employment.

I have been asking the stockbrokers where their clients are putting this money. The answer will be into home securities and Kaffir and other speculation, yet very modest, is steadily growing by the dint of small orders. It will take a month or two of dearer money before the daring idea that prospects of free speculation on a forest only because dearer, should this most sane in, then I know we will begin again to buy back many of the shares and bonds we sold you, some across to "bear" to stock at but half-price only to your cells, in a small way, very gingerly. We have done little during the last fortnight to alarm you lest, place down and because we feared dearer money at settlement, but just now we the full rolling again and we if we do not realize your call. The gamblers alone will lay first and therefore a moderate slump may intervate with such advances in the speculative theatre as will amazed the outsiders and we are not sure that they have to put aside for his children till some rounding in fact or at.

The market is now moving without a cloud. Our present cloud is the threatening battle of the nation seeing that it has been very long and as that trade has been very profitable to Lombard and be a great of the money river. The cloud is not so dense on head to fall back or and will hardly burst. Yet it is the duty of the financial writers to see at the dangers of the time also are superior up at such other as if they meant to fight it out.

The News Job and Bindery Departments

Are Newly and Completely Equipped

With everything modern and up-to-date.

Blank Books and Records a Specialty

Estimates Furnished on Work of Any Class.

NEW GRAND THEATRE.

M. E. MULVEY, Manager.
