MINING, BUSINESS AND STOCKS.

STOCK MARKET MORE ACTIVE.

Heavy Trading in Dividend Payers Made Session Interesting.

BOTTOM NOT YET REACHED

In Prices—Con. Mercur and May Day Lower—Others Very Weak—Daly-West Recorded Gains.

There is no change in the general condition of the mining stock market. The tendency of prices is still downward, and will continue to be so until there is more active interest taken by outside investors and speculators. It is the opinion of some well known mining men that the public will not trade in mining stocks until the exchange members do something to restore confidence in themselves and also to legitimize to some extent trading on the exchange. One mining operator said this morning: "I think there are few mine owners and operators in this state who would not go half way towards helping the exchange out of the bad condition it is in if the brokers would go the other half. Not many mining companies would hesitate to give full and accurate reports to the listing committee if that was insisted upon and if they could be in any way assured of fair treatment by the brokers themselves. Something ought to be done speedily to correct the present evil condition of affairs and to get business on a right basis. Why if that exchange were what it ought to be it would soon become a power in the mining affairs of this region."

On the exchange this morning transactions involving 42,650 shares and $25,162.60 were recorded.

Business was big in Ajax, Consolidated Mercur, May Day and Uncle Sam and each recorded a loss from yesterday's figures. Consolidated Mercur, May Day and Uncle Sam were off several cents each, while Ajax and Carisa fluctuated but little and Daly-West, Yankee and Sunshine were stronger.

The call closed with the following quotations recorded on the board:

LISTED STOCKS.

Stocks.	Bid.	Asked.

ONTARIO DIVIDEND.

Is Probable that Directors Have Declared it for March.

Word was received in the city this morning that the directors of the Ontario Mining company had met in San Francisco and posted a quarterly dividend in the sum of $45,000.

When Manager Rood was interviewed this morning he had not received any notification of the reported action but, however, stated that he sees no reason why the regular amount should not be distributed this month and no reason for discrediting the report.

SHEBA DEVELOPMENT.

Assaying Outfit Will be Shipped This Week.

W. H. Childs, of the Sheba, stated this morning that a complete assaying outfit will be shipped for the Nevada property of the company this week and that E. H. Lundquist will act as assayer.

At the mine work has been going on steadily. The old tunnel has been cleaned out a distance of 525 feet and a small streak of good ore in the face of the rock is being followed. Some $125 ore is being taken from the Jones stope and other work is progressing nicely.

The new boarding house, which will accomodate 25 men has been completed.

ENCOURAGING REPORTS.

Silver-Copper King Will Begin Shipments Next Month.

Manager A. J. Whitaker of the Silver-Copper King company, operating in the Stockton district is in receipt of a most encouraging report from the mine superintendent. A shaft has been sunk 80 feet and the vein of rich ore encountered at the surface further up on the hill has been cut, thus proving up a large area of stoping ground. Mr. Whitaker states that assays on ore taken from the foot of the shaft show 61 ounces of silver to the ton, $1.40 in gold and 13 per cent copper. He expects the company to make a shipment next month.

MINING NOTES.

Four cars of ore from the Horn Silver will be marketed tomorrow.

James W. Neill, the mining engineer, has returned from Gold Mountain.

The Bullion-Beck management has three cars of ore at the sampler today.

Six cars of Yankee ore came in this morning and will be marketed this week.

The Conklin campler reports the receipt this morning of nine cars of ore from Tintic.

The International Mining company has levied an assessment of ½c a share on its capital stock.

M. M. Johnson of the Boston Consolidated engineering force, left this morning for that Bingham property.

Manager Packard of the Star Consolidated is in the city with another two-car shipment of ore, which will be marketed today.

Col. Henry Altman of the Majestic Mining company has gone to Chicago to attend a meeting of the shareholders of that company.

The Taylor and Brunton sampler reported the sampling today of 11 cars of concentrates from Ophir canyon and four cars of ore from Frisco.

Ore and bullion settlements in this city yesterday amounted to $52,800: T. R. Jones & Co., $23,000; McCornick & Co., $20,300; National Bank of the Republic, $4,500.

The last block of the treasury stock of the Johnny of Stateline was sold yesterday to E. M. West and N. A. Page, who paid for it 50 cents a share. The management will continue development work and as soon as the weather permits will, it is stated, erect a big plant for the treatment of the ores already blocked out.

The Grand Central Mining company of Colorado has filed a copy of its articles of incorporation in the secretary of state's office. The capital stock is $250,000 and is divided into the same number of shares of the par value of one dollar each. James A. Twelves of Provo, is designated as special agent of the company upon whom any process may be served.

The New York Gold Mining company, with a capital of $27,500, in 25 cent shares, has filed its articles of incorporation with the county clerk. The new organization will operate three mining claims in the Tonopah district. Its officers are Geo. A. Land, president; Fred L. Davis, vice president; Edward L. Hall, treasurer and secretary, and these with James Campbell and Sheldon C. Land are the directors.

Judge Sherman and C. F. Warren have gone to Debeque, Colo., where the second well sunk there is now down 650 feet, and is spouting gas and salt water. This is considered a sure indication of oil being near at hand. The first well is down 740 feet, where the flow of gas and water is quite strong. There are 10 to 15 oil rigs either up or in process of erection, so that the scenery around that part of the country begins to look like an oil region. W. C. H. Allen, who is in close touch with the oil interests in western Colorado, believes that the entire Grand valley overlies extended starts of oil.

OIL! OIL! OIL!

Clear the track, you old time killers!
Hustle, now, out of the way,
You who lack git-up-an'-gitness that's
the order of the day!
With your moss-back fogy notions make
a sneak and pull your freight,
For you lack the sort of switchness
that's considered up to date.
You must quit the wild procession if
you haven't got the sand
That will keep your trotters stepping
to the music of the band.
For the masses now are struggling in
most desperate turmoil
And the battle cry of everyone is
Oil!
Oil!
Oil!
Over all the western country see the
skeletons arise
In the form of airy derricks pointing
at the startled skies!
See excited mortals rushing with their
money bags in hand
Making dickers with the ranchers for
their bits of farming land!
See the puffing engines working in the
valleys and the hills,
Hear the dull, incessant pounding of
the subterranean drills.
As they bite the old earth's bowels far
beneath the upper soil,
Every thump imploring hungrily for
Oil!
Oil!
Oil!
From the preacher in the pulpit to the
sinner in the slums,
From the nabob in the mansion to the
miser with his crumbs,
From the mistress in the carriage to
the driver on the box,
All are taking tempting flyers in the
fascinating stocks.
In the churches pews are vacant; at
the weekly prayer bees
Many truly worthy Christians now are
missing from their knees;
All their prayers are directed to the
gods beneath the soil,
And their invocations all are: "Give us
Oil!
Oil!
Oil!
Soon the gumbo will be gushing from
a thousand flowing wells,
And the land will be all flooded with
prosperity—and smells!
And the ranchers will be building lordly
mansions on the hill,
And the dollars will be flowing through
the speculative mill.
Soon the leaders of our state and our
congressional affairs
Will be pampered sons of fortune, will
be new-born oilionaires;
All our statesmen, men who once were
humble tillers of the soil
Raised from poverty to opulence by
Oil!
Oil!
Oil!

—James Barton Adams in Denver Post.

MARKET NEARLY BOOMING.

At Opening Stocks of All Kinds Were Higher All Around.

BUYING ORDERS LARGE.

Many Railroads and Specialties Very Active—Inactive Stocks Made Prominent by Big Gains.

New York, March 6.—Stocks opened higher all around. The large buying of Colorado & Southern stocks continued and they were advanced from ⅝ to ¾. There were large buying orders also for American Car, which lifted it nearly a point. Trading was active in many of the railroads and specialties selling between the twenties and the fifties, and there was buying also of the high priced inactive stocks. Advances reached from 1 to 3½ in quite a number of stocks and 5½ points in several, including Northwestern. Toward 11 o'clock the prominent stocks were taken up and St. Paul, Sugar and New York Central advanced 1 to 1½. The market became quieter and eased off in spots before noon but strengthened again when St. Paul rose to 165½. Many other inactive stocks were brought into prominence by large gains. The market was easier again at noon. Bonds were steady.

The market became spotty, the general list remaining quiescent while special stocks advanced. Amalgamated Copper rose 1⅝ on large dealings, while light buying served to lift the others. Pullman rose 8½, jumping five on a single transaction, and Illinois Central rose 2.

Boom traders took profits in the grangers, causing a relapse of points in St. Paul and 2 in Northwestern. The market generally was dull and sluggish but maintained a good undertone. There was profit taking in the final hour under cover of the new upward movement. Colorado Fuel rose 10 in all, St. Paul and Omaha 7, Pullman 16, Colorado & Southern preferred 3 and Missouri Pacific, Denver & Rio Grande preferred, Great Northern preferred, Mexican National preferred (when issued), Evansville & Terre Haute and International Pump a point or over. The market became feverish in the final dealings and the closing was irregular.

MONEY AND BONDS.

Money on call firm at 2½@2¾ per cent. Prime mercantile paper, 4@4¼ per cent.

Sterling exchange steady with actual business in bankers' bills at 4.87¼ for demand and at 4.85¼ for 60 days; posted rates, 4.86 and 4.88½; commercial bills, 4.84¾@4.85¾.

LADIES CURE TOBACCO HABIT.
Secretly at Home—Trial Package Free to All Who Send Name And Address.
Men who have tried time and again to quit tobacco have been instantly cured of the habit by a harmless compound discovered by a famous Ohio chemist. It stops at once and forever

No More Smoke or Dirty Spittons in the Home.
the craving for the weed and makes it impossible for any man to chew or smoke. The marvelous part of the remedy is that it is odorless and tasteless. It is taken in milk, water, tea coffee or food without any bad effects and many women have already cured their husbands and sons of the tobacco habit without the slightest danger of detection. It is easy to quit tobacco and if you will write Rogers Drug and Chemical Co., 3932 Fifth & Race Sts., Cincinnati, Ohio, they will send a large trial package free, in a plain, sealed wrapper, and it will prove how easy it is to cure yourself or anyone else of using tobacco in any form.
