THE PRODUCE MARKET.

Wheat Continues in Good Demand with Prices Firm.

CORN DECLINES IN THE EAST.

The Exportation of Old Potatoes has Stopped.

The stormy weather during the past week has steadied somewhat the rush of business to a slight extent, but all lines still keep busy. Wholesale dry-goods merchants report an excellent spring trade. Wholesale grocers and hardware merchants have all they can do to fill their orders of shipments to the country. It is still a daily occurrence for teams to be filling out for the Deep Creek mines, while the old reliable camps of Eureka, Park and Bingham are being worked to almost their full capacity. The Overland stage company running from Stockton and Deep Creek reports so much travel that they have all they can do to take care of their passenger business. Some 700 to 800 cars of wheat have left our territory within the last sixty days, besides large shipments of hay, the payments of which are now being received by our country stores, which enables them to pay up the jobbers here to the city, and they are doing so promptly with renewed orders for spring and summer trade. The storms and sunshine that we have had during the past week have been excellent for growing. All parts of the territory, report the grain crops in excellent condition with prospects for fruit and vegetables better than any time for many years past. This should create for us a large export instead of import trade this summer and fall. The banks report the money market in good condition with money somewhat easier than heretofore. The railroads report a large increase of tonnage, both in and out of the territory, while the demand for grain is such that shippers cannot fill their orders. All lines are brisk, and no one wanting work need to be idle on our streets.

OFFERINGS.

Wheat—The demand for this article still holds good, both for import and home trade with prices firm. Holders are not inclined to sell. Offerings have been made from 80 to 85c. per bushel, bulk, car lots, track city.

Corn—Corn is somewhat easier then it has been for the last thirty days with a slight decline reported from the eastern markets, but very little importing is being done in the Territory at the present time. Some few cars, however, have arrived during the past week. Offerings are made for whole corn, sacked tracked Utah points, carlots, at $1.18; cracked corn $1.32 to $1.35, and mixed feed at $1.30 to $2.10 per cwt.

Oats—We think the top notch on this article has been reached unless there should be an advance on oats in the eastern markets. Utahs are offered at $2.15 to $2.50 per cwt., but very little transactions are being done at present.

Hay—The demand for hay has eased up in the eastern markets. The advance in prices threw the trade into Kansas which should be tributary to Utah. There is no demand at present except for home trade. Offerings were made during the week at $8 per ton for alfalfa, wild hay from $8 to $10, mixed from $10 to $11, and straight timothy from $11.50 to 12 per ton, track, city.

Eggs—The supply still continues very light and not yet equal to the demand, and prices still remain firm. Utah selling from $5.10 to $5.25 per case, and eastern from $4.75 to $5. All goods must be candled and guaranteed at the above price.

Butter—Butter still continues plentiful, with heavy shipments arriving both from east and west which has to a certain extent cut down orders for California stock. Local shippers from the Territory are also beginning to ship heavily with stock on hand increasing, which is bound to make a decline in prices as every indication points at present to our local markets being overstocked. Offerings for California best at 25c. per pound, eastern creamery from 22 to 23, dairy from 17 to 22. Utah good stock is selling from 22 to 25, and off color 12½ to 15c. per pound.

Potatoes—The demand for old stock for exportation has entirely stopped, with no market at present, except for local demand. Offerings are made at 55 to 60c. per bushel, sacked, while new California stock is offered at 90c. and $1.

Fruit—The stormy weather has made prices firm on small fruit with an advance during the past week of from 25 to 50c. per case; offerings are made today for strawberries at $5.25, cherries at $1.60 to $1.75, oranges are firm at $2.50 to $4.50 per case.—*Salt Lake Price Current.*

THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW, SOON IT WILL BE TOO LATE.

I have been troubled many years with the disease of my kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from the worst attack which almost prostrated me to such a degree that I was bed ridden. When I lay down it was almost impossible for me to get up from my bed. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all its patons at the hotel, in a few days I was able to be about. I feel that I was a new man. I will recommend the tea to all afflicted as I have been.

A Warning To Horse-Owners.

The Putnam Nail Co. has recently introduced its horse-shoe nails which it warrants to be taken by Worcester, Mass., from point of the nail measured out to the proper place for connecting and unscrewed the blacksmith who shod the horse. The other points sent to the selection shown in the illustration, showing the tender part of the foot behind the quick, from which the horse was made lame for one nearly two weeks.

DANGEROUS

The Putnam Nail

CANNOT SPLIT, SLIVER OR BREAK.

It is the only Hot-Pressed and Hot-Pointed Horseshoe Nail in the World made by machinery to precisely the same manner as the old-fashioned hand-made nail.

The United States Government protects the owners of their specifications through patents, and other firms who make or advertise a Horseshoe Nail as here described, are guilty of infringement and forging the Patent.

AS YOU VALUE YOUR HORSE

Insist on your Blacksmith using the PUTNAM. It is absolutely safe.

WHAT IS A GUARANTEE?

Many merchants and salesmen are in the habit of indiscriminately "guaranteeing" their wares with no thought of being called upon to make the "guarantee" good. It is a pernicious and foolish custom more respected in the breach than in the observance.

A guarantee, to have any value, should be made with knowledge of the meaning of the word and a set purpose to carry out the terms of the guarantee. On fine tools the makers instruct us to warrant, and we replace any tool found imperfect in use.

We have, in our best judgment, acquired by a considerable experience, in selecting the following items for our stock and sell them to our customers with an absolute guarantee that if they do not prove to be all that we represent them, we will refund the purchase money in full.

"Jewel" Steel Range. A finished article, perfectly proportioned, made of the best material. Don't fail to see it. It will pay you.

"Quick Meal" No Generator, Evaporating. Light it as you do your gas burner. No smell. No danger. No complication. Every objection to the use of a Gasoline Stove done away with. Think of the discomfort caused in Summer by avoiding the heat of a big Kitchen Range.

"Superior" Cooks and Ranges. Superior as bakers. Superior in economy of fuel. Superior in design. Superior in construction. Superior in everything that goes to make a perfect cooking apparatus.

The "Eclipse Refrigerator." An Ice saver. A Health promoter. Cellular stone lined. What is that? Investigate it. It will more than repay you.

Our stock of Builders' Hardware, House Furnishings, Garden Hose, Lawn Sprinklers, Lawn Mowers, etc., is complete in every detail.
